1. Performance

(1) Operating results

*Overview

Consolidated net sales of Ricoh Group for the fiscal year 2013 (April 1, 2013 to March 31, 2014) increased by 16.2% as compared to the previous corresponding period, to \(\frac{\pma}{2}\),236.9 billion. During this period, the average yen exchange rates were \(\frac{\pma}{2}\) 100.29 against the U.S. dollar (down \(\frac{\pma}{1}\)7.23) and \(\frac{\pma}{1}\)34.47 against the Euro (down \(\frac{\pma}{2}\)7.39). Net sales would have increased by 4.3% compared to the previous corresponding period when excluding the impact of such foreign currency exchange fluctuation.

The Japanese economy continued to maintain steady growth, with the weakening Yen and the increase in stock prices achieved through the economic policies introduced by the government along with the surge in demand ahead of April's consumption tax increase. Domestic sales in all segments (Imaging & Solutions, Industrial Products and Other) increased by 9.6% compared to the previous corresponding period.

As for the overseas market, the U.S. economy continues to maintain a modest recovery, even though the outlook of the economy remains unpredictable as the U.S. scales back its quantitative easing program. The European economy, although showing signs of recovery, is still facing a prolonged period of economic stagnation, and slowdown in growth is also seen in China and the rest of the emerging markets within Asia. Even under such economic conditions, the weakening trend of the Yen during the year has contributed to the increase in sales overseas.

As for overseas sales by region, sales in the Americas increased by 19.1% compared to the previous corresponding period (a decrease of 1.4% excluding foreign currency exchange fluctuation), sales in Europe, Middle East and Africa increased by 23.2% (a decrease of 1.8% excluding foreign currency exchange fluctuation). Sales in Other region, which includes China, South East Asia and Oceania, increased by 27.2% (an increase of 10.7%, excluding foreign currency exchange fluctuation).

As a result, sales in the overseas market increased by 21.7% compared to the previous corresponding period. Excluding effects of foreign currency fluctuations, net sales in overseas would have remained flat as compared to the previous corresponding period.

Gross profit increased by 16.4% as compared to the previous corresponding period to \$894.3 billion, due to increase in sales, cost reductions and the weakening of the Yen.

Although group-wide activities to streamline costs have contributed in controlling selling, general and administrative expenses, these expenses have increased by 9.7% as compared to the previous corresponding period to \(\frac{\pma}{1773.9}\) billion, due to the weakening of the Yen.

As a result, operating income increased by 89.8% compared to the previous corresponding period, to ¥120.3 billion.

Other income increased compared to the previous corresponding period due to gain on sale of investment securities.

Income before income taxes increased by 101.5% as compared to the previous corresponding period, to ¥117.2 billion.

As a result, net income attributable to Ricoh Company, Ltd. increased by 124.3% as compared to the previous corresponding period, to ¥72.8 billion.

Comprehensive income increased by ¥53.8 billion compared to the previous corresponding period, to ¥149.4 billion. This was primarily due to the increase in consolidated net income and cumulative translation adjustments achieved through the weakening trend of the yen.

*Consolidated Sales by Product Line

Imaging & Solutions (Sales up 16.9% to ¥1,970.4 billion)

Sales in the Imaging & Solutions segment which is comprised of the Office Imaging, Production Printing and Network System Solutions increased by 16.9% from the previous corresponding period, to ¥1,970.4 billion.

Office Imaging (Sales up 11.1% to ¥1,477.4 billion)

Sales in this category increased by 11.1% compared to the previous corresponding period, to \$1,477.4 billion. Sales would have decreased by 2.5% excluding the effects of foreign currency fluctuations.

The overall increase in sales were achieved through increase in sales of color multifunctional products (MFPs), managed document services (MDS) and the weakening of the Yen.

Production Printing (Sales up 25.9% to ¥185.0 billion)

Sales in this category increased by 25.9% as compared to the previous corresponding period, to ¥185.0 billion. Sales would have increased by 7.4% excluding the effects of foreign currency fluctuations. The weakening of the Yen along with the increase in sales of new products and after-sales service revenue in the overseas market have contributed to the increase in the overall sales in this category.

Network System Solutions (Sales up 47.5% to ¥308.0 billion)

Sales in this category increased by 47.5% as compared to the previous corresponding period, to ¥308.0 billion. Sales would have increased by 42.7% excluding the effects of foreign currency fluctuations. The sales increase was achieved primarily through the increase in sales of personal computers and IT services in the domestic market along with the increase in sales overseas achieved through the acquisitions of IT services companies.

Industrial Products (Sales up 12.8% to ¥105.0 billion)

Sales in the Industrial Products segment increased by 12.8% from the previous corresponding period, to ¥105.0 billion. The sales increase was achieved through increase in sales in the Optical Unit business and the sales of semiconductor devices overseas.

Other (Sales up 10.5% to ¥161.4 billion)

Sales in the Other segment increased by 10.5% as compared to the previous corresponding period, to \$161.4 billion. The increase in sales in the lease & finance business along with the increase in sales of digital cameras, especially in the domestic market with the release of new products, have mainly contributed to the increase in sales in this category.

* Consolidated Sales by Geographic Area

Japan (Sales up 9.6% to ¥953.5 billion)

The Japanese economy continued its trend towards a moderate recovery with the rise in stock prices and the weakening of the yen achieved through the economic and monetary policies introduced by the government and the Bank of Japan, along with the surge in demand ahead of April's consumption tax increase.

Under such conditions, the increase in sales of newly released color MFPs and the increase in sales through replacement of personal computers and related products have all contributed to increase sales in the Imaging & Solutions segment. Furthermore, the high demand for machinery and equipment has contributed to the increase in sales in the lease & finance business along with the increase in sales in the digital camera business achieved through the sales of newly released products.

As a result, overall sales in the domestic market increased by 9.6% as compared to the previous corresponding period, to ¥953.5 billion.

The Americas (Sales up 19.1% to ¥591.2 billion)

In the Americas, the economy continued its trend towards a sustained recovery seen through the decline in unemployment and the increase spending on capital investment. However, the outlook remains unpredictable as the U.S. scales back its quantitative easing program. Under such economic conditions, the weakening of the Yen, the increase in sales achieved through new product releases in the Production Printing business and the increase in after-sales service revenue have contributed to the increase in overall sales in the Americas by 19.1% compared to the previous corresponding period, to ¥591.2 billion.

Sales in the Americas would have decreased by 1.4% excluding the effects of foreign currency fluctuations.

Europe, Middle East and Africa (Sales up 23.2% to ¥519.4 billion)

As for sales in Europe, Middle East and Africa, the European economy, which contributes most of the sales in this geographic area continues to face a prolonged period of economic stagnation. Even under such severe economic conditions, the weakening of the Yen and the significant increase in sales in the Network System Solutions category achieved through acquisitions have contributed to the overall sales in this geographic area. As a result, the overall sales in Europe, Middle East and Africa increased by 23.2% compared to the previous corresponding period, to ¥519.4 billion.

Sales in Europe, Middle East and Africa would have decreased by 1.8% excluding the effects of foreign currency fluctuations.

Other (Sales up 27.2% to ¥172.6 billion)

The Other geographic area includes China, South East Asia and Oceania. The emerging markets including China and India achieved strong growth, but there are concerns of a slowdown in growth in these countries. Even under such conditions, the strengthening of sales force in the emerging markets and the expansion of IT services business in India have contributed to the increase in sales.

As a result, overall sales in Other increased by 27.2% from the previous corresponding period, to \$172.6 billion. The sales in this area would have increased by 10.7% excluding the effects of foreign currency fluctuations.

*Segment Information

Operating Segment

Imaging & Solutions

The increase in the sales of color MFPs, MDS and Network System Solutions, along with the weakening of the Yen have contributed to the overall sales increase in the Imaging & Solutions segment by 16.9% compared to the previous corresponding period, to \(\frac{1}{2}\),970.4 billion.

The group-wide activities to streamline costs have contributed to improve our operating income. As a result, operating income increased by 33.9%, to ¥184.6 billion.

Industrial Products

Sales in the Industrial Products segment increased by 11.8%, as compared to the previous corresponding period, to ¥ 108.9 billion. The sales increase was achieved through increase in domestic sales in the Optical Unit business and the sales of semiconductor devices overseas.

Operating income increased significantly compared to the previous corresponding period, to ¥5.3 billion due to improved profitability in the semiconductor business (operating loss of ¥0.8 billion was incurred for the previous corresponding period).

Other

Sales in the Other segment increased by 10.5%, as compared to the previous corresponding period, to ¥161.4 billion. Increase in sales in the lease & finance business along with the increase in sales of digital cameras, especially in the domestic market with the release of new products, have contributed to the increase in sales in this category. As a result, the operating income in the Other segment was ¥0.2 billion (operating loss of ¥5.2 billion was incurred for the previous corresponding period).

Geographic Segment

Japan

With the weakening of the yen achieved through the government's economic policies and the last-minute increase in demand ahead of April's consumption tax increase, the domestic segment was able to achieve a 10.7% increase in sales compared to the previous corresponding period, to ¥1,397.9 billion. The increase in sales and group-wide activities to streamline costs have contributed to the increase in operating income by 87.8% compared to the previous corresponding period, to ¥50.5 billion.

The Americas

The weakening of the Yen has contributed to the increase in overall sales in the Americas segment by 19.7% compared to the previous corresponding period, to ¥599.8 billion. The group-wide activities to streamline costs have contributed to the increase in operating income by 171.6% compared to the previous corresponding period, to ¥18.0 billion.

Europe, Middle East and Africa

The weakening of the Yen has contributed to the increase in overall sales in the Europe, Middle East and Africa segment by 24.6% compared to the previous corresponding period, to ¥517.6 billion. The group-wide activities to streamline costs have contributed to the increase in operating income by 10.9% compared to the previous corresponding period, to ¥29.0 billion.

Other

The weakening of the Yen along with the strengthening of the sales structure in the emerging market have contributed to the increase in overall sales in the Other segment by 25.3% from the previous corresponding period, to ¥390.0 billion. Operating income increased by 49.7% from the previous corresponding period, to ¥19.0 billion.

*Forecast for the coming fiscal year

Economic projections and Ricoh Group's strategies for fiscal year 2014

The Japanese economy continued its trend towards a moderate recovery achieved through the economic policies introduced by the government. The U.S. economy also continued its trend towards a sustained recovery. However, the global outlook remains unpredictable with the prolonged economic stagnation in Europe and the slowdown in economic growth in China and the rest of the emerging markets.

Under such economic conditions, the Ricoh Group expects to maintain sustainable growth from the increased sales competitiveness and profitability achieved by the company's renewed lineup of digital color MFPs and through the group-wide activities implemented to streamline costs.

Furthermore, in order to maintain long-term sustainable growth, the Ricoh Group will focus on the following initiatives:

- 1. Reinforce earnings capability in Office and Imaging businesses
- 2. Achieve growth by creating new profit generators
- 3. Achieve robust management structures
- 4. Develop into corporate restructuring

Our performance forecast for fiscal year ending March 31, 2015 is as follows:

Ricoh Company, Ltd. will voluntarily adopt the International Financial Reporting Standards ("IFRS") for the consolidated financial statements of annual report under Financial Instruments and Exchange Law from the fiscal year ended March 31, 2014. However, the below forecast for the year ending March 31, 2015 has been prepared in accordance with U.S. GAAP. Moreover, the impact of IFRS-related change is expected to be negligible.

Exchange Rate Assumptions for the full year ending March 31, 2015

US\$ 1 = \$100.00 (\$100.29 in previous fiscal year)

EURO 1 = \$140.00 (\\$134.47 in previous fiscal year)

			(Billions of yen)
	Year ended	Year ending	
	March 31, 2014	March 31, 2015	Change
	(Results)	(Forecast)	
Domestic sales	953.5	955.0	0.1%
Overseas sales	1,283.3	1,345.0	4.8%
Net sales	2,236.9	2,300.0	2.8%
Gross profit	894.3	936.0	4.7%
Operating income	120.3	140.0	16.3%
Income before income taxes	117.2	135.0	15.2%
Net income attributable to Ricoh Company, Ltd.	72.8	80.0	9.8%

Notes:

^{*} Ricoh bases the forecast estimates for the year ending March 31, 2015 above upon information currently available to management, which involves risks and uncertainties that could cause actual results to differ materially from those projected.

(2) Financial Position

A) Assets, Liabilities, and Equity at Year-End			(Billions of yen)
	March 31, 2013	March 31, 2014	Change
Total Assets	2,360.6	2,556.9	196.2
Total Equity	958.6	1,083.3	124.6
Ricoh Company, Ltd. shareholders' equity	897.9	1,017.9	119.9
Ricoh Company, Ltd. shareholders' equity ratio (%)	38.0%	39.8%	1 Spoint

For Assets, finance receivables increased due to increase in lease contracts. The yen equivalent of foreign-currency-denominated assets increased due to the weakening of the Yen. As a result, total assets increased by ¥196.2 billion, to ¥2,556.9 billion as compared to the previous corresponding period

For Liabilities, the surge in demand ahead of the consumption tax increase during the end of the fiscal year led to increase in trade payables. As a result, total liabilities increased by \$71.5 billion, to \$1,473.6 billion.

For Total Equity, the accumulated other comprehensive loss decreased due primarily to the increase of cumulative translation adjustments reflecting exchange fluctuation from the end of the previous period. As a result, Total Equity increased by \(\frac{\pmathbf{1}}{1246}\) billion from the end of the previous fiscal year, to \(\frac{\pmathbf{1}}{1},083.3\) billion.

B) Cash Flows			(Billions of yen)
	Year ended	Year ended	Change
	March 31, 2013	March 31, 2014	
Cash flows from operating activities	124.5	131.5	7.0
Cash flows from investing activities	-106.4	-106.8	-0.3
Cash flows from financing activities	-64.3	-10.0	54.2
Cash and Cash Equivalents at end of period	117.0	140.0	22.9

Net cash provided by operating activities increased by \(\xi\)7.0 billion from the previous corresponding period, to \(\xi\)131.5 billion due primarily to the increase in net income and trade payables

Even though purchase of fixed assets decreased and sales of available-for-sale securities increased, the acquisition cost incurred during the fiscal year affected the overall net cash used in investing activities. The net cash used in investing activities increased by ¥0.3 billion from the previous corresponding period, to ¥106.8 billion.

As a result, free cash inflows generated by operating and investing activities increased by ¥6.6 billion compared to the previous corresponding period, to ¥24.7 billion.

Net cash used in financing activities in this period amounted to ¥10.0 billion due primarily to proceeds from interest-bearing debt and payment of dividends.

As a result of the above, cash and cash equivalents as of the end of this fiscal yearincreased by \(\frac{\cute{4}}{22.9}\) billion from the end of the previous corresponding period, to \(\frac{\cute{4}}{140.0}\) billion.

C) Cash Flow Indices

	Year ended				
	March 31, 2010	March 31, 2011	March 31, 2012	March 31, 2013	March 31, 2014
Total Equity / Total assets	40.8%	41.0%	35.9%	38.0%	39.8%
Market capitalization / Total assets	44.4%	47.0%	25.5%	30.8%	33.7%
Interest bearing debt / Operating cash flow	3.6	5.3	66.2	5.6	5.5
Operating cash flow / Interest expense	23.4	15.1	1.6	16.9	17.5

Notes:

- i. All indices are calculated based on consolidated data.
- ii. Market capitalization equals the stock price at the end of fiscal year multiplied by the number of shares outstanding at the enc of fiscal year.
- iii. Operating cash flows is shown in consolidated statement of cash flow. Interest bearing debt includes all debt in which a fee is charged for the liability.
- iv.Indices of Year ended March 31, 2010 are not based on the figures retrospectively adjusted.

(3) Dividend Policy

Ricoh endeavors to ensure that policies are regularly updated to take the dividend payout ratio into consideration in the payment of dividends, while at the same time increasing retained earnings for the enhancement of corporate structure and for new business generation. Furthermore, these retained earnings will be used both in the reinforcement of core businesses and for investment in new fields with both medium-term and long-term perspectives.

Since we have achieved profit for this fiscal year, the total dividend per share for the fiscal year ended March 31, 2014 will be \\ \dag{4}4.00 higher than the previous fiscal year, to \\ \dag{3}3.00 and for the fiscal year ending March 31, 2015 will be \\ \dag{3}4.00 respectively.

(4) Risk Factors

Risks that may affect Ricoh's financial results and financial position are listed below, but are not limited to them. Ricoh's business may in the future also be affected by other risks that are currently unknown or that are not currently considered significant or material.

- -Ability to respond to rapid technological changes
- -Highly competitive markets
- -Global business operations
- -Economic outlooks in major markets
- -Foreign exchange rate fluctuations
- -Procurement of parts and materials
- -Government regulations
- -Protection of intellectual property rights
- -Securing and retaining skilled personnel
- -Employee benefit obligations
- -Environmental laws and regulations
- -Financing business
- -Product Liability
- -Alliances with other entities, joint ventures and strategic investment
- -Information security
- -Influence of disasters or other unpredictable events

2. Group Position

The Ricoh Group comprises 213 subsidiaries and 10 affiliates as of March 31, 2014.

Their development, manufacturing, sales, and service activities center on Imaging & Solutions, Industrial Products, and Other.

Ricoh Company, Ltd., a parent company, heads development. The parent company and subsidiaries or affiliates maintain an integrated domestic and international manufacturing structure. Below, we have listed our main product areas and the positions of key subsidiaries and affiliates.

<Imaging & Solutions>

In this business category, Ricoh provides products and systems that support the enhancement of the office productivity of customers. Major products include:

MFPs (multifunctional printers), copiers, laser printers, and cut sheet printer. Ricoh also provides solution systems including personal computers and servers, utilizing its information technology. Another business Ricoh also provides are support, service, and related supplies, as well as support and service including IT environment setup and network administration.

3. Management policy

(1) Basic Management Policy

Ricoh Group aims "To be the most trusted brand with irresistible appeal in the global market.", and makes its missions "to be committed to providing excellence to improve the quality of living" and "to save the precious earth and fulfill its responsibilities for creating sustainable society".

To these ends, we are providing innovative products and services to all customers who handle information at work in offices and in their lives out of the office, based on the Ricoh brand benefits of "Harmonize with the environment", "Simplify your life and work", and "Support knowledge management".

(2) Medium and Long Term Management Strategy

The business environment surrounding Ricoh Group has drastically changed in the past several years and we are currently at a turning point for our core Imaging & Solutions business.

In developed countries, the demands for copiers and multi-functional products have become stagnant. More information is processed in the office environment than ever before, but the increase in the information communicated is handled more through the internet by devices such as smart phones and tablet PCs. This has increased the variations in the way we print. Moreover, after the global financial crisis, customers are becoming more cost conscious and a major shift in attitudes is setting forth a new era in which people get more value by owning less property. One example is the increasing trend to move towards cloud computing. In other words, customers' value are shifting from "owing products" to "using services." Accelerated mobile device and cloud computing usage and paper use trends, indications for changes in working style. The measure of customer satisfaction also is changing. Customers only want to be charged for a successful result. Therefore, we understand that a simple proposal on product features and prices will not be sufficient for meeting the demands of our customers.

Ricoh Group has launched the 17th Mid-Term Management Plan (implemented from fiscal 2011 to 2013) that defines "business creation and integration" and "establishment of highly efficient management" as its two basic strategies to adapt to these changes.

For "business creation and integration", aiming for "regeneration", we are implementing measures to reinforce the earning power through core businesses, to create new profit models in current core businesses and to accelerate development for new growth businesses.

With regard to the "establishment of highly efficient management", we are reconstructing our corporate systems in order to build an organization that can maintain accelerated business growth while properly responding to any changes in the business environment. Also in order to improve resource efficiency, we are reviewing our business processes and our allocation of human resources. We are also conducting a full analysis of all business activities, and advancing structural reform.

The status of achievement for this fiscal year on our core strategies are as follows:

Business Creation and Integration

In the Imaging & Solutions segment, we have released a full line-up of products that will contribute to the increase in productivity and reduction of total cost of ownership (TCO) for our customers.

We have innovated our digital full-color MFP lineups and released RICOH MP C6003/C5503/C4503/C3503/C3003 series. The environmental performance of these products has been improved, and cloud-based functions via mobile devices have been enhanced. Some of these products are installed with MultiLink-Panel, our next-generation user interface, so that users can operate them intuitively.

With regards to our monochrome MFPs, we have released eight models of two RICOH MP 3353/2553 series. Customizing the newly adopted Home screen for each user has resulted in improved usability.

In addition, through a connection with each cloud services and our Office products, we contribute to changing working styles by using features to view and send received documents outside of the office via smartphone.

In printers, we released A4 color laser printers RICOH SP C251/C250L, which are equipped with a new wireless LAN function and support smart device output, and a monochrome laser printer RICOH SP 2100L, which implements great cost and environmental performance.

In the GELJET MFP category, we have released RICOH SG 3120B SF, which comes equipped with a lithium ion battery and supports printing operations even when power supply is suspended.

In projectors, we have released ultra short throw projectors RICOH PJ WX4141NI / WX4141N / WX4141. Thanks to enhanced brightness, it has become possible to project clear images even in bright environments. Also, by enabling installation on walls, these projectors can be used in a wider range of scenes such as classrooms or for signage.

In addition, we have released a new long distance communication portable device "Ricoh United Communication System P1000". With a mounted display and built-in batteries, it has become easier to carry out image communication in remote locations or using mobile devices.

We have reinforced Management Document Service (MDS)* and IT services, which include building IT infrastructure, providing security services and solutions for business inheritance. Accordingly we contributed to the improvement of customer's productivity. In addition, we acquired mindSHIFT Technologies, Inc., an American IT service company, reinforcing Ricoh's service business capability.

*Management Document Service (MDS)

A service for cost reduction and productivity improvement by managing and administering customers' documents. By visualizing and analyzing operations such as documentation, utilization or storage or by proposing improvements, we enable customers to resolve their problems.

In emerging markets we have acquired Saral Buro Pazarlama Limited Sirketi, Merkez, a distributor of office equipment and production printers, as well as Ofisteknik A.S. and Ofisteknik LTD., a company to deal with office equipment and document related services. We aim to further business expansion in emerging countries through activities such as reinforcing our direct sales system in Turkey, one of the most important emerging countries for Ricoh Group.

In production printing, in addition to strengthening the "RICOH Pro Series" color/monochrome machine lineup, we have continued to reorganize sales functions in Japan to further strengthen the business and streamline operations. Also, as part of strengthening the solution lineups we provide to our customers in the production printing industry, we have invested in and partnered with a leading vendor Avanti Computer Systems.

As an example of our new businesses, we have released the "RICOH THETA", the world's first image input device which takes spherical photographs surrounding the photographer at the single press of a button. Photographers can experience a new type of imaging by shooting every item and person around them and by sharing with people all over the world scenes which exceed the photographers' expectations or aims, or brand-new spherical images.

In the industrial business segment, we have released a depth of field expansion camera to be used for tasks such as inspections on production lines, which makes cost reduction and productivity improvement possible. We have released six models of the "RICOH FL Series", lens diaphragms for image processing to expand product lineups and sales activities in the FA camera industry. Also, in thermal media business, we have reinforced the thermal paper production line for high value-added services, following additional demand in North America and requirements to develop new markets in Latin America.

For consumer businesses, we have released such products as the "Pentax Q7", one of the smallest digital mirrorless interchangeable-lens cameras in the world, the entry-class "K-50" in the K series, the high-end "K-3", the "GR", the highest quality compact digital camera in the GR series, and the "RICOH WG-4/RICOH WG-4 GPS" allowing enjoyable shooting in outdoor scenes. Accordingly, we have expanded our product portfolio of consumer cameras.

Establish Highly Effective Management

Ricoh Group as a whole has implemented various measures, so that we can steadily achieve financial targets in severe economic environments and create robust management structures for further growth. In addition to reducing cost, eliminating overlapping functions, or relocating human resources, we have changed all operations drastically.

(3) Challenges we need to resolve

Besides measures to overcome the global financial crisis, Great East-Japan Earthquake, floods in Thailand, and other current emergencies that impacted our operations, we at Ricoh Group have accumulated diversifying implementations for further advance. For the 18th Mid-term Management Plan that starts in April, 2014, which is positioned as "Three years to ensure Ricoh Group's long-term growth", we will launch the following four initiatives:

1. Reinforce earnings capability in Office and Imaging businesses

We commit to reinforcing earnings capability in Office and Imaging businesses. Improving our competitiveness in product performance or prices, and speeding up customer response, we strive to win intensifying competitions, so that our market shares can be improved. Also, we will provide customers with products or services that meet customers' requirements by capitalizing on our service infrastructures effectively and adding higher value to our products and services.

Besides, in emerging markets where growth continues, we aim to strengthen our business structures to provide products and services to satisfy local demands, which include functions, prices, or basic specifications. In addition to China and India, we intend to develop regions or areas where significant market growth can be expected.

2. Achieve growth by creating new profit generators

Utilizing our customer contact capability and technology, which are Ricoh Group's strengths, we create new profit generators by obtaining business chances in growing markets. In network system solutions businesses, we provide enhanced value by expanding IT service menus or reinforcing products and services for communication. In production printing businesses, we provide products and services that guarantee high productivity for printing requirements from sales promotion materials for the printing industry. In industrial businesses, we provide customers on business frontlines with integrated services that include optic modules using quality sensing technology, FA cameras, inspection equipment, and maintenance. In addition to our conventional digital cameras, we aim to expand our camera businesses by providing new image experiences associated with "RICOH THETA" or other next-generation imaging devices equipped with application services.

3. Achieve robust management structures

Making our management structures robust will enable us to accelerate business growth. Starting the 18th Mid-term Management Plan, we have developed structures specific to Office, Industrial, and Consumer business domains, so that customers' requirements can be reflected into product planning and engineering development. Also, we have implemented measures that include improving synergy effects among Ricoh Group companies or rebuilding our technological management system to accelerate technological development, so that requests from our future customers can be smoothly identified and realized. Besides, we continue to perform various measures to reinforce our management infrastructures.

4. Develop into corporate restructuring

While developing into corporate restructuring, we promote cross-divisional or functional implementations to streamline operations. These implementations include transformations for SCM, production, engineering, or product development. Along with this, we prompt each organization to improve its basic functions autonomously, improving productivity and accelerating resource shifts to growth areas.

Finally, to be a perpetually successful company, Ricoh Group must keep providing society with new customer value, adapting to changes in business environments. For this, we strive to create customer value based on "confident, comfortable, and convenient" by referring to the 18th Mid-term Management Plan and looking into the future beyond. We imagine our ideal, looking into the future of our customers or society, and we exert every effort to implement transformation now, so that our ideal can be achieved.

(6) NOTE FOR GOING CONCERN ASSUMPTION

Not applicable.

(7) Significant Accounting Policies (Consolidated)

A) Changes in the scale of consolidation and the application of the equity method from April 1, 2013 to March 31, Consolidated subsidiaries:

- 4 Additions
- 6 Removals

Companies accounted for by the equity method:

- 3 Additions
- Removals

B) Consolidated Accounting Policies (Summary)

a. Principles of Consolidation

The consolidated financial statements include the accounts of Ricoh and its consolidated subsidiaries. Investments in 20% to 50% owned companies when the Company has the ability to exercise significant influence are accounted for on the equity basis. All significant inter-company balances and transactions have been eliminated in consolidation.

b. Securities

In conformity with FASB Accounting Standards Codification (ASC) 320, "Debt and Equity Securities", securities are mainly classified as available-for-sale securities. Available-for-sale securities are reported at fair value with unrealized gains and losses, net of related taxes, excluded from earnings and reported in accumulated other comprehensive income (loss).

The cost of the securities sold is computed based on the average cost of each security held at the time of sale.

c. Inventories

Inventories are mainly stated at the lower of average cost or market. Inventory costs include raw materials, labor and manufacturing overheads.

d. Property, Plant and Equipment

Depreciation of property, plant and equipment is computed principally by using the straight-line depreciation method. Certain leased buildings, machinery and equipment are accounted for as capital leases in conformity with ASC 840 "Accounting for Leases".

e. Goodwill and Other Intangible Assets

In conformity with ASC 350, "Goodwill and Other Intangible Assets", Goodwill and intangible asset determined to have an indefinite useful life are not amortized. ASC 350 requires annual impairment testing thereof.

f. Pension and Retirement Allowances Plans

The measurement of pension costs and liabilities is determined in accordance with ASC 715, "Retirement Benefits".

g. Use of Estimates

Management of the Company has made a number of estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, including impairment losses of long-lived assets and the disclosures of fair value of financial instruments and contingent assets and liabilities, to prepare these financial statements in conformity with accounting principles generally accepted in the United States of America. Actual results could differ from those estimates.

(8) Changes in Significant Accounting Policies (Consolidated)

Changes in Accounting Method

Ricoh adopted retroactively Accounting Standards Update (ASU) 2011-11 and ASU 2013-01 from April 1 2013. ASU 2011-11 requires an entity to disclose information about offsetting and related arrangements. ASU 2013-01 replaced ASU 2011-11. The updates create new disclosure requirements requiring entities to disclose both gross and net information for derivatives and other financial instruments that are either offset in the Statement of assets and liabilities or subject to an enforceable master netting arrangement or similar agreement. These ASU's impact disclosures only and will have no impact on Ricoh's consolidated financial position.

Ricoh adopted ASU 2013-02 from April 1 2013. This ASU requires an entity to report the effect of reclassifications out of accumulated other comprehensive income. This ASU will only impact disclosures and will have no impact on Ricoh's consolidated financial position.

Significant Accounting Policies (Non-consolidated)

1. Accounting policy for assets

- (1) Inventories are stated at cost caused by profitability of inventories has declined.
- (2) Securities

Securities of subsidiaries and affiliates are stated at moving average cost.

Other cocurities

Marketable securities are marked to market based on the market price at the end of the term and other factors (accounting for all valuation differences with the full capital injection method; the cost of securities sold is valued at moving average cost.)

Non-marketable securities are stated at cost based on the moving average method.

(3) Derivatives are stated at market value

2. Depreciation of fixed assets

(1) Tangible fixed assets

Tangible fixed assets are depreciated using the straight-line depreciation method.

The depreciation period for our key tangible fixed assets are as follows:

Buildings: Five to fifty years

Machinery and equipment: Four to twelve years

(2) Intangible fixed assets

Ricoh uses straight-line depreciation for intangible fixed assets.

With software for sale in the marketplace, however, the Company records the larger of a depreciation based on projected sales profits or a uniform depreciation based on a projected effective sales period for the balance. The initially projected effective

sale term is three years. With software for internal use, the company uses straight-line depreciation on a usable period of five to tell years.

(3) Leased assets

Finance leases for which ownership does not transfer to lessees;

Ricoh uses straight-line depreciation for Leased assets regarding Lease-term as useful life

In addition, Ricoh uses accounting for in a similar manner with ordinary sale and purchase transactions, regard to Lease contracts on before April 1,2008.

3. Basis for provision of reserves

(1) Allowance for Doubtful Accounts

The allowance for doubtful accounts is provided to cover possible losses from bad debts and represents possible individual doubtful accounts based on historical default rates and the potential for irrecoverableness

(2) Reserve for Accrued Bonuses

The reserve for accrued bonuses is provided by estimating the amount of bonuses payable to employees for the current financial year under our corporate rules for calculating such bonus payment.

(3) Reserve for Accrued Directors' Bonuses

The reserve for accrued bonuses is provided by estimating the amount of bonuses payable to Directors for the current of financial year.

(4) Warranty reserve

To cover product after-sales service expenses, the Company calculates the product warranty reserve based on projected service costs during warranty terms.

(5) Reserve for Retirement Benefit Obligations

To cover projected employee benefits, the Company records the estimated obligations at the end of current fiscal year based on projected year-end benefit obligations and plan assets. The company uses straight-line depreciation for actuarial gains or losses and for prior service costs over averaged remaining employment term. (15years)

4. Hedge accounting

(1) Hedge Accounting Methods

With interest swaps, RICOH adopts exceptional treatments if it meets necessary requirements

(2) Hedging Instruments and Targets

Targets: Interests of long-term borrowings

Hedging Instruments: Interest swaps

(3) Hedging policies

In keeping with its internal Market Risk Management Rules, Ricoh uses derivatives to manage the exposure of its assets and liabilities to market fluctuations.

(4) Hedge Effectiveness

Ricoh assesses the effectiveness of hedges by analyzing the ratios of the total market fluctuations of hedged targets and instruments Ricoh omits assessment of effectiveness regarding interest swaps using exceptional treatments.

5. Consumption taxes

Consumption taxes are excluded from revenues and expenses. The refundable consumption tax at the end of the year is included in "Other current assets", after offsetting suspense payments and receipt of consumption taxes and etc.

6. The consolidated tax system

The consolidated tax system is applied from fiscal year 2009.
