

# Management's Discussion and Analysis of Fiscal 2008 Results

## Sales

Consolidated net sales of Ricoh Group for fiscal year 2008 (April 1, 2007 to March 31, 2008) increased by 7.3% to ¥2,219.9 billion (\$22,200 million) from the previous corresponding period. This marks the fourteenth consecutive year-on-year revenue increase. During this period, the average yen exchange rates were ¥114.40 against the U.S. dollar (up ¥2.62) and ¥161.69 against the euro (down ¥11.61). Sales would have increased by 5.4% excluding the effects of foreign currency exchange fluctuations.

Sales in all the segments such as the Office Solutions, Industrial Products and Other increased. As for the Office Solutions, sales of its digital plain paper copiers ("PPCs"), multifunctional printers ("MFPs") and laser printers, mainly for color products, continuously increased and Information Technology services also increased its sales resulting from the expansion of solutions business. As for Industrial Products, sales of its thermal media, semiconductor and electronic component products increased. As for Other, digital camera increased its sales.

As a result, domestic sales increased by 1.4% from the previous corresponding period, to ¥1,016.0 billion (\$10,160 million).

Overseas sales also increased by 12.9% from the previous corresponding period, to ¥1,203.9 billion (\$12,040 million).

## Operating Income

Gross profit increased by 7.6% from the previous corresponding period, to ¥927.7 billion (\$9,277 million). This increase was primarily due to the increased sales of value-added high-margin products such as color MFPs in addition to ongoing cost management controls. Foreign currency fluctuations also served as a factor behind the profit increase.

Selling, general and administrative expenses increased by 8.5% from the previous corresponding period, to ¥746.2 billion (\$7,462 million). R&D expenses remain high level due to its focus on developing new products. Additionally due to our accelerated efforts in implementing measures for enhancing our capabilities to provide solutions and expanding business spheres, expenses increased. R&D expenses increased by ¥11.0 billion from the previous corresponding period, to ¥126.0 billion (\$1,260 million, 5.7% of total sales).

As a result, operating income increased by 4.1% from the previous corresponding period, to ¥181.5 billion (\$1,815 million).

## Income before Income Taxes

In the other (income) expense, the decrease in other income was due to the appreciation of the Yen in the second half of this year. As a result, income from continuing operations before income

taxes increased by 0.1% from the previous corresponding period, to ¥174.6 billion (\$1,747 million).

## Net Income

The effective tax rate was 36.3%.

As a result, net income from continuing operations increased by 0.2% from the previous corresponding period, to ¥106.4 billion (\$1,065 million). Net income decreased by 4.7% from net income including gain from the sale of the discontinued operations of ¥5.5 billion for the previous corresponding period.

A year-end cash dividend of ¥17.00 per share is proposed.

Combined with the interim dividend of ¥16.00 per share, the total dividend for the fiscal year ended March 31, 2008 will be ¥33.00 (\$0.33) per share.

## Segment Information

### CONSOLIDATED SALES BY PRODUCT LINE

#### 1. Office Solutions

Net sales in the Office Solutions segment which consists of Imaging Solutions and Network System Solutions increased by 7.6% from the previous corresponding period, to ¥1,909.5 billion (\$19,096 million) despite the stiff competition against other manufacturers regarding the color equipment and solution business. The breakdown of sales for Imaging Solutions and Network System Solutions is as shown below. The sales would have increased by 5.5% excluding the effects of foreign currency fluctuations.

#### *Imaging Solutions*

Sales of PPCs, MFPs and printers, mainly color equipment, increased both in Japan and overseas due to its expanding product lines and enhanced solution sales structures. The new color MFP products launched as a standard new-generation color model played a large role in this sales increase. Overall sales increased by 8.2% from the previous corresponding period, to ¥1,709.4 billion (\$17,095 million). The sales would have increased by 5.9% excluding the effects of foreign currency fluctuations.

#### *Network System Solutions*

The increase in sales of IT services was due to the expansion of solution business. The sales of personal computers and PC servers increased slightly in Japan. As a result, sales in this category increased by 3.0% from the previous corresponding period, to ¥200.0 billion (\$2,001 million).

## 2. Industrial Products

Net sales in the Industrial Products segment increased by 8.2% from the previous corresponding period, to ¥144.3 billion (\$1,443 million). Sales in semiconductors, thermal media as well as electric components increased.

## 3. Other

Net sales in this category increased by 3.1% from the previous corresponding period, to ¥166.0 billion (\$1,661 million). Sales of digital cameras increased both in Japan and overseas in addition to good performance of the financing services in Japan.

## CONSOLIDATED SALES BY GEOGRAPHIC AREA

### 1. Japan

The Japanese economy was slowing in the second half of this year due to the increase in price of crude oil, the decline in stock market prices, the appreciation of the Yen, the flagging building investment and so on. Ricoh launched its new products and offered a wide range of solutions in an effort to cultivate a growing customers' needs for solutions and color products in the office solutions market. This effort resulted in a significant sales increase in color MFPs and printers and sales of IT services also increased as compared to the previous corresponding period. In the Industrial Products, sales in thermal media and electronic components increased. Sales in the Other increased due to the favorable performance in financing business as well as digital cameras. Overall sales in Japan increased by 1.4% from the previous corresponding period.

### 2. The Americas

In the U.S., a competition in our market become more intensified while the subprime loan arises has precipitated a decline in the economy. The Office Solutions segment focused on strengthening sales structures and expanding product lines in order to provide the best solutions to meet the diverse range of customer needs for color, networking and high-speed products. As a result sales of color MFPs and printers exceeded the last fiscal year's level. These factors combined resulted in a 2.0% increase in the sales in the

Americas. The increase in sales in this area would have increased by 4.3% excluding the effects of foreign currency fluctuations.

### 3. Europe

As the European economy remaining on a steady footing, the Office Solutions segment proceeded with further strengthening sales structures and expanding product lines in order to provide the best solutions to meet a diverse range of customer needs through the acquisition of Infotec Europe B.V. As a result, sales of PPCs, MFPs and printers exceeded last year's level mainly in color product categories, bringing overall sales in the Office Solutions segment up 19.1% over the previous corresponding period. Sales in the Industrial Products also increased due to the favorable performance of the thermal media and semiconductor business. These factors all resulted in an 18.9% increase in sales in Europe. The increase in sales in this area would have increased by 10.8% excluding the effects of foreign currency fluctuations.

### 4. Other

The Other segment including China, other Asian countries and Oceania generally experienced economic evolution, with the Chinese economic continuous rapid growth despite a slight slowdown in some areas. Against this backdrop, the Office Solutions segment achieved higher sales of PPCs, MFPs and printers, largely for color products, in comparison with the previous corresponding period due to the increasing demand for both color and monochrome products. These factors all resulted in a 24.7% increase in overall sales in this area. The sales increase in this area would have increased by 19.3% excluding the effects of foreign currency fluctuations.

### Financial Position

For Assets, cash and cash equivalents decreased and other investments including goodwill increased due primarily to the formation of a joint venture company, InfoPrint Solutions Company, LLC, with IBM Corporation. As a result, total assets decreased by ¥29.0 billion to ¥2,214.3 billion (\$22,144 million).

For Liabilities, interest-bearing debt decreased from the end of the previous period through the enhancement of cash management system in Japan, the Americas and Europe. As a result, total liabilities decreased by ¥39.7 billion to ¥1,075.8 billion (\$10,759 million).

In Shareholders' investment, there was no major change in common stock or additional paid-in capital, but Accumulated other comprehensive income decreased due to the decrease in cumulative translation adjustments. Common stock for treasury increased by ¥15.5 billion. As a result, total Shareholders' investment increased by ¥9.2 billion to ¥1,080.1 billion (\$10,802 million) due to the increase in retained earnings resulting from earning profit.

### Cash Flows

Net cash provided by operating activities increased by ¥27.0 billion from the previous corresponding period, to ¥194.3 billion (\$1,944 million). While net income and depreciation increased, trade receivables and financial receivables increased due to the business expansion.

Net cash used in investing activities increased by ¥82.9 billion from

the previous corresponding period, to ¥198.3 billion (\$1,984 million), due primarily to a payment for the formation of a joint venture company with IBM Corporation.

As a result, free cash flow generated by operating activities and investment activities decreased by ¥55.8 billion from the previous corresponding period, to ¥3.9 billion (\$40 million).

Net cash used in financing activities amounted to ¥72.1 billion (\$722 million) due primarily to a decrease in interest-bearing debt and purchase of Common stock for treasury, while net cash used in financing activities was ¥9.2 billion in the previous corresponding period due mainly to the proceeds from the issuance of convertible bonds.

As a result of the above, cash and cash equivalents as of the end of this fiscal year decreased by ¥85.1 billion from the end of the previous corresponding period, to ¥170.6 billion (\$1,706 million).

### Capital Expenditures

Ricoh's capital investments for fiscal years 2006, 2007 and 2008 were ¥102.0 billion, ¥85.8 billion and ¥85.2 billion (\$852 million), respectively. Ricoh directs a significant portion of its capital investments towards digital and networking equipment, such as digital PPCs / MFPs, laser and GELJET printers, and manufacturing facilities to maintain or enhance its competitiveness in the industry. Ricoh projects that for fiscal year 2009, its capital investments will amount to approximately ¥90.0 billion (\$900 million), which will principally be used for investments in manufacturing facilities of digital and networking equipment with new engines, toners, semiconductors and thermal media.

Interest coverage	28.9	24.5	<b>38.9</b>

During fiscal year 2007, a subsidiary of the Company sold its content distribution business. As a result of such sale, the operating results of such business were reclassified as a discontinued operation. Accordingly, sales derived from such business were excluded from the above consolidated financial data for all periods in accordance with SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets."

## Market Risk

### MARKET RISK EXPOSURE

Ricoh is exposed to market risks primarily from changes in foreign currency exchange rates and interest rates, which affect outstanding debt and certain assets and liabilities denominated in foreign currencies. To a lesser extent, Ricoh is also exposed to equity price risk. In order to manage these risks that arise in the normal course of business, Ricoh enters into various hedging transactions pursuant to its policies and procedures covering such areas as counterparty exposure and hedging practices. Ricoh does not hold or issue derivative financial instruments for trading purposes or to generate income.

Ricoh regularly assesses these market risks based on the policies and procedures established to protect against adverse effects of these risks and other potential exposures, primarily by reference to the market value of the financial instruments. As a result of the latest assessment, Ricoh does not anticipate any material losses in these areas for fiscal year 2008, and there are no material quantitative changes in market risk exposure at March 31, 2008

when compared to March 31, 2007. In the normal course of business, Ricoh also faces risks that are either non-financial or nonquantifiable. Such risks principally include credit risk and legal risk, and are not represented in the following tables.

### FOREIGN CURRENCY RISK

In the ordinary course of business, Ricoh uses foreign exchange forward contracts to manage the effects of foreign currency exchange risk on monetary assets and liabilities denominated in foreign currencies. The contracts with respect to the operating activities generally have maturities of less than six months, while the contracts with respect to the financing activities have the same maturities as the underlying assets and liabilities.

The table below provides information about Ricoh's material derivative financial instruments that are sensitive to foreign currency exchange rates. The table below relating to foreign exchange forward contracts presents the notional amounts, weighted average exchange rates and estimated fair value. These notional amounts generally are used to calculate the contractual payments to be exchanged under the contracts.

### INTEREST RATE RISK

In the ordinary course of business, Ricoh enters into interest rate swap agreements to reduce interest rate risk and to modify the interest rate characteristics of its outstanding debt. These agreements primarily involve the exchange of fixed and floating rate interest payments over the life of the agreement without the exchange of the underlying principal amounts.

The table below provides information about Ricoh's major derivative and other financial instruments that are sensitive to changes in interest rates, including interest rate swaps and debt obligations. For debt obligations, the table presents principal cash flows by expected maturity date, related weighted average interest rates and estimated fair value. For interest rate swaps, the table presents notional amounts by expected maturity date, weighted average interest rates and estimated fair value. Notional amounts are generally used to calculate the contractual payments to be exchanged under the contract.

US\$/EUR	0.75	7,806	(71)	0.67	1,581	(93)	15,810	(930)

### CREDIT RISK

Ricoh is also exposed to credit-related losses in the event of nonperformance by counterparties to the financial instrument; however, credit risk arising from the nonperformance of counterparties to meet the terms of financial instrument contracts is generally limited to the amounts by which the counterparties' obligations exceed the obligations of Ricoh. It is Ricoh's policy to only enter into financial instrument contracts with a diversified group of financial institutions having credit ratings satisfactory to Ricoh to minimize the concentration of credit risk. Therefore, Ricoh does not expect to incur material credit losses on its financial instruments.

### EQUITY PRICE RISK

Ricoh has a relatively small portion of marketable securities which are subject to equity price risk arising from changes in their market prices. Marketable securities consist of a diversified pool of Japanese equity securities. Ricoh's overall investment policy is to invest in highly-liquid, low risk investments.

The table below provides information about contractual maturities for available-for-sale securities and the fair values for market risk sensitive.

# Notes to Consolidated Financial Statements

Ricoh Company, Ltd. and Consolidated Subsidiaries

## 1. NATURE OF OPERATIONS

Ricoh Company, Ltd. (the "Company") was established in 1936 and is headquartered in Tokyo, Japan. The Company and its consolidated subsidiaries ("Ricoh" as a consolidated group) is a world-wide supplier of office automation equipment, including copiers, facsimile machines, data processing systems, printers and related supplies. Ricoh is also well known for its state-of-the-art electronic devices, digital photographic equipment and other

products. Ricoh distributes its products primarily through domestic (Japanese) and foreign sales subsidiaries. Overseas, Ricoh owns and distributes not only Ricoh brand products but also other brands, such as Gestetner, Lanier and Savin.

Ricoh manufactures its products primarily in 15 plants in Japan and 6 plants overseas, which are located in the United States, United Kingdom, France and China.

## 2. SIGNIFICANT ACCOUNTING AND REPORTING POLICIES

The accompanying consolidated financial statements of Ricoh have been prepared in conformity with U.S. generally accepted accounting principles. Significant accounting and reporting policies are summarized below:

### (a) Basis of Presentation

The accompanying consolidated financial statements for each of the years in the three year period ended March 31, 2008 are presented in Japanese yen, the functional currency of the Company and its domestic subsidiaries. The translation of Japanese yen into U.S. Dollar equivalents for the year ended March 31, 2008 is included solely for the convenience of readers outside Japan and has been made using the exchange rate of ¥100 to US\$1, the approximate rate of exchange prevailing at the Federal Reserve Bank of New York on March 31, 2008.

The books of the Company and its domestic subsidiaries are maintained in conformity with Japanese accounting principles and practices, while foreign subsidiaries maintain their books in conformity with the standards of their country of domicile. The accompanying consolidated financial statements reflect necessary adjustments, not recorded in the books, to present them in conformity with U.S. generally accepted accounting principles.

### (b) Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the Company and all majority-owned subsidiaries. The accounts of variable interest entity as defined by the FASB Interpretation ("FIN") No. 46 (revised December 2003), "Consolidated of Variable Interest Entities" are included in the consolidated financial statements, if applicable. Investments in entities in which Ricoh has the ability to exercise significant influence over the entities' operating and financial policies (generally 20 to 50 % ownership) are accounted for on an equity basis. All significant intercompany balances and transactions have been eliminated in consolidation.

The accounts of certain consolidated subsidiaries have been included on the basis of fiscal periods ended within three months prior to March 31.

### (c) Revenue Recognition

Ricoh generates revenue principally through the sale of equipment, supplies and related services under separate contractual arrangements for each. Ricoh recognizes revenue when (1) it has a firm contract, (2) the product has been shipped to and accepted by the customer or the service has been provided, (3) the sales price is fixed or determinable and (4) amounts are reasonably assured of collection.

Products sales is recognized at the time of delivery and installation

at the customer location. Equipment revenues are based on established prices by product type and model and are net of discounts. A sales return is accepted only when the equipment is defective and does not meet Ricoh's product performance specifications. Other than installation, there are no customer acceptance clauses in the sales contract.

Post sales and rentals result primarily from maintenance contracts that are normally entered into at the time the equipment is sold. Standard service fee prices are established depending on equipment classification and include a cost value for the estimated services to be performed based on historical experience plus a profit margin thereon. As a matter of policy, Ricoh does not discount such prices. On a monthly basis, maintenance service revenues are earned and recognized by Ricoh and billed to the customer in accordance with the contract and include a fixed monthly fee plus a variable amount based on usage. The length of the contract ranges up to five-years, however, most contracts are cancelable at any time by the customer upon a short notice period. Leases not qualifying as sales-type leases or direct financing leases are accounted for as operating leases and related revenue is recognized over the lease term.

Ricoh enters into arrangements with multiple elements, which may include any combination of products, equipment, installation and maintenance. Ricoh allocates revenue to each element based on its relative fair value if such element meets the criteria for treatment as a separate unit of accounting as prescribed in Emerging Issues Task Force ("EITF") Issue No. 00-21, "Revenue Arrangements with Multiple Deliverables." Pursuant to EITF 00-21, the delivered item in a multiple element arrangement should be considered a separate unit of accounting if all of the following criteria are met: (1) a delivered item has value to customers on a stand-alone basis, (2) there is objective and reliable evidence of fair value of an undelivered item, and (3) the delivery of the undelivered item must be probable and controlled by Ricoh if the arrangement includes the right of return. The price charged when the element is sold separately generally determines fair value. Otherwise, revenue is deferred until the undelivered elements are fulfilled as a single unit of accounting. Revenue from the sale of equipment under sales-type leases is recognized as product sales at the inception of the lease. Other revenue consists primarily of interest income on sales-type leases and direct-financing leases, which are recognized as Other revenue over the life of each respective lease using the interest method.

### (d) Foreign Currency Translation

For foreign operations with functional currencies other than the Japanese yen, assets and liabilities are translated at the exchange rates in effect at each fiscal year-end, and income and expenses are translated at the average rates of exchange prevailing during each fiscal year. The resulting translation adjustments are included as a

part of accumulated other comprehensive income (loss) in shareholders' investment.

All foreign currency transaction gains and losses are included in other income and expenses in the period incurred.

### (e) Cash Equivalents

Cash and cash equivalents include highly liquid investments with maturities of three months or less at the date of purchase such as time deposits and short-term investment securities which are available-for sale at any time, present insignificant risk of changes in value due to being readily convertible into cash and have an original maturity of three months or less, such as money management funds and free financial funds.

### (f) Derivative Financial Instruments and Hedging Activities

As discussed further in Note 16, Ricoh manages its exposure to certain market risks, primarily foreign currency and interest rate risks, through the use of derivative instruments. As a matter of policy, Ricoh does not enter into derivative contracts for trading or speculative purposes.

In accordance with Statement of Financial Accounting Standards ("SFAS") No.133, "Accounting for Derivative Instruments and Hedging Activities", SFAS No.138, "Accounting for Certain Derivative Instruments and Certain Hedging Activities" an amendment of FASB Statement No.133" and SFAS No.149, "Amendment of Statement No.133 on Derivative Instruments and Hedging Activities" as amended, Ricoh recognizes all derivative instruments as either assets or liabilities in the consolidated balance sheets and measures those instruments at fair value. When Ricoh enters into a derivative contract, it makes a determination as to whether or not for accounting purposes the derivative is part of a hedging relationship. In general, a derivative may be designated as either (1) a hedge of the fair value of a recognized asset or liability or an unrecognized firm commitment ("fair value hedge"), (2) a hedge of the variability of the expected cash flows associated with an existing asset or liability or a forecasted transaction ("cash flow hedge"), or (3) a foreign currency fair value or cash flow hedge ("foreign currency hedge"). Ricoh formally documents all relationships between hedging instruments and hedged items, as well as its risk-management objective and strategy for undertaking various hedge transactions. This process includes linking all derivatives that are designated as fair value, cash flow, or foreign currency hedges to specific assets and liabilities on the consolidated balance sheets or to specific firm commitments or forecasted transactions.

For derivative contracts that are designated and qualify as fair value hedges including foreign currency fair value hedges, the derivative instrument is marked-to-market with gains and losses recognized in current period earnings to offset the respective losses and gains recognized on the underlying exposure. For derivative contracts that are designated and qualify as cash flow hedges including foreign currency cash flow hedges, the effective portion of gains and losses on these contracts is reported as a component of accumulated other comprehensive income (loss) and reclassified into earnings in the same period the hedged item or transaction affects earnings. Any hedge ineffectiveness on cash flow hedges is immediately recognized in earnings. For all derivative instruments that are not designated as part of a hedging relationship and for designated derivative instruments that do not qualify for hedge accounting, the contracts are recorded at fair value with the gain or loss recognized in current period earnings.

### (g) Allowance for Doubtful Trade Receivables and Finance Receivables

Ricoh records allowances for doubtful receivables that are based upon historical experience and specific customer collection issues. The estimated amount of probable credit losses in its existing receivables is determined from write-off history adjusted to reflect current economic conditions and specific allowances for receivables including nonperforming leases, impaired loans or other accounts for which Ricoh has concluded it will be unable to collect all amounts due according to original terms of the lease or loan agreement. Account balances net of expected recovery from available collateral are charged-off against the allowances when collection is considered remote.

### (h) Securities

Ricoh applies SFAS No.115, "Accounting for Certain Investments in Debt and Equity Securities" which requires all investments in debt and marketable equity securities to be classified as either held-to-maturity, trading, or available-for-sale securities. As of March 31, 2007 and 2008, all of Ricoh's investments in debt and marketable equity securities are classified as available-for-sale securities.

Those available-for-sale securities are reported at fair value with unrealized gains and losses, net of related taxes, excluded from earnings and reported in accumulated other comprehensive income (loss). Available-for-sale securities, which mature or are expected to be sold in one year, are classified as current assets.

Individual securities classified as available-for-sale securities are reduced to fair market value by a charge to income for other than temporary declines in value. Factors considered in assessing whether an indication of other than temporary impairment exists with respect to available-for-sale securities include: length of time and extent of decline, financial condition and near term prospects of issuer and intent and ability of Ricoh to retain its investments for a period of time sufficient to allow for any anticipated recovery in market value.

The cost of the securities sold is computed based on the average cost of each security held at the time of sale.

Non-marketable equity securities owned by Ricoh primarily relate to less than 20% owned companies and are stated at cost.

### (i) Inventories

Inventories are mainly stated at the lower of average cost or net realizable values. Inventory costs include raw materials, labor and manufacturing overheads.

### (j) Property, Plant and Equipment

For the Company and its domestic subsidiaries, depreciation of property, plant and equipment is computed principally by using the declining-balance method over the estimated useful lives. Most of the foreign subsidiaries have adopted the straight-line method for computing depreciation, which currently accounts for approximately 33% of the consolidated depreciation expense. The depreciation period generally ranges from 5 years to 50 years for buildings and 2 years to 12 years for machinery and equipment. Effective rates of depreciation for the years ended March 31, 2006, 2007 and 2008 are summarized below:

	2006	2007	2008
Buildings	8.9%	9.8%	10.1%
Machinery and equipment	40.5	40.8	43.1

Certain leased buildings, machinery and equipment are accounted for as capital leases in conformity with SFAS No.13, "Accounting for Leases." The aggregate cost included in property, plant and equipment and related accumulated depreciation as of March 31, 2007 and 2008 are as follows:

	Millions of Yen		Thousands of U.S. Dollars
	2007	2008	2008
Aggregate cost	¥ 7,341	¥ 7,269	\$ 72,690
Accumulated depreciation	5,761	6,072	\$ 60,720

The related future minimum lease payments and the present value of the net minimum lease payments as of March 31, 2008 were ¥1,259 million (\$12,590 thousand) and ¥1,177 million (\$11,770 thousand), respectively.

Ordinary maintenance and repairs are charged to expense as incurred. Major replacements and improvements are capitalized. When properties are retired or otherwise disposed of, the property and related accumulated depreciation accounts are relieved of the applicable amounts, and any differences are included in earnings.

#### (k) Capitalized Software Costs

In accordance with Statement of Position ("SOP") 98-1, "Accounting for the Costs of Computer Software Developed or Obtained for Internal Use," Ricoh capitalizes qualifying cost of computer software. Costs incurred during the application development stage as well as upgrades and enhancements that results in additional functionality are capitalized. The capitalized software is amortized on a straight line basis over their estimated useful lives.

#### (l) Goodwill and Other Intangible Assets

SFAS No.141, "Business Combinations" requires the use of only the purchase method of accounting for business combinations and refines the definition of intangible assets acquired in a purchase business combination. SFAS No.142, "Goodwill and Other Intangible Assets" eliminates the amortization of goodwill and instead requires annual impairment testing thereof. SFAS 142 also requires acquired intangible assets with a definite useful life to be amortized over their respective estimated useful lives and reviewed for impairment when an indication of impairment is identified in accordance with SFAS No.144, "Accounting for the Impairment or Disposal of Long-Lived Assets." Other intangible assets with definite useful lives, consisting primarily of software, patents, customer relationships and tradenames are amortized on a straight line basis over 1 year to 20 years. Any acquired intangible asset determined to have an indefinite useful life is not amortized, but instead is tested annually for impairment based on its fair value until its life would be determined to no longer be indefinite. Ricoh completed its annual assessment of the carrying value of indefinite-lived intangible assets, including goodwill for the years ended March 31, 2006, 2007 and 2008 and determined that no impairment charge was necessary.

#### (m) Pension and Retirement Allowances Plans

The measurement of pension costs and liabilities is determined in accordance with SFAS No.87, "Employers' Accounting for Pensions" as amended by SFAS No.158, "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans" and SFAS 158. Under SFAS 158 which was adopted effective March 31, 2007, Ricoh recognizes the funded status (i.e., the difference

between the fair value of plan assets and the projected benefit obligations) of its pension fund plans as of the end of fiscal year, with a corresponding adjustment to accumulated other comprehensive income (loss), net of tax, and a charge to other comprehensive income for periods subsequent to adoption. The expected long-term rate of return on plan assets used for pension accounting is determined based on the historical long-term rate of return on plan assets. The discount rate is determined based on the rates of return of high-quality fixed-income investments currently available and expected to be available during the period to maturity of the pension benefits.

#### (n) Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences and carryforwards are expected to be realized or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

On April 1, 2007, Ricoh adopted FIN 48, "Accounting for Uncertainty in Income Taxes – an Interpretation of FASB Statement No. 109", which requires a more-likely-than-not threshold for financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return.

Ricoh recognizes interest and penalties accrued related to unrecognized tax benefits in income taxes in the consolidated statements of income

#### (o) Research and Development Expenses and Advertising Costs

Research and development expenses and advertising costs are expensed as incurred.

#### (p) Shipping and Handling Costs

Shipping and handling costs, which mainly include transportation to customers, are included in selling, general and administrative expenses on the consolidated statements of income.

#### (q) Impairment or Disposal of Long-Lived Assets

Long-lived assets and acquired intangible assets with a definite life are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset or group of assets may not be recoverable. Recoverability of assets to be held and used is assessed by comparing the carrying amount of an asset or asset group to the expected future undiscounted net cash flows of the asset or group of assets. If an asset or group of assets is considered to be impaired, the impairment charge to be recognized is measured as the amount by which the carrying amount of the asset or group of assets exceeds fair value. Long-lived assets meeting the criteria to be considered as held for sale are reported at the lower of their carrying amount or fair value less costs to sell.

#### (r) Earnings Per Share

Basic net income per share of common stock is calculated by dividing net income by the weighted-average number of shares of

common stock outstanding during the period. The calculation of diluted net income per share of common stock is similar to the calculation of basic net income per share, except that the weighted-average number of shares outstanding includes the additional dilution from potential common stock equivalents such as convertible bonds.

### **(s) Non-cash Transactions**

The non-cash transactions related to capital lease obligation incurred and issuance of treasury stock in exchange for subsidiary's stock in the amount of ¥261 million and ¥905 million, respectively, for the year ended March 31, 2006 have been excluded from the consolidated statements of cash flows. There were no significant non-cash transactions for the years ended March 31, 2007 and 2008.

### **(t) Use of Estimates**

Management of Ricoh has made a number of estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, including impairment losses of long-lived assets and the disclosures of fair value of financial instruments and contingent assets and liabilities, to prepare these financial statements in conformity with U.S. generally accepted accounting principles. Actual results could differ from those estimates. Ricoh has identified five areas where it believes assumptions and estimates are particularly critical to the consolidated financial statements. These are determination of the allowance for doubtful receivables, impairment of securities, impairment of long-lived assets including goodwill, realizability of deferred tax assets and pension accounting.

### **(u) Discontinued Operations**

On May 31, 2006, the Company's subsidiary San-Ai Co., Ltd. sold its digital content distribution business to Giga Networks Co., Ltd. (former Mobile Alliance Co., Ltd.). Because Ricoh has no significant continuing involvement in the operation sold, the operating result of the business units sold were reclassified to a discontinued operation pursuant to the requirement of SFAS 144. Reclassifications have been made to the prior year's consolidated statements of income and consolidated statements of cash flows to conform the presentation used for the year ended March 31, 2007.

### **(v) Adoption of SAB 108**

The Securities and Exchange Commission of the U.S. issued Staff Accounting Bulletin ("SAB") No.108, "Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements" in September 2006. SAB 108 requires companies to quantify misstatements using both the balance sheet approach and the income statement approach ("dual" method), and to evaluate the importance of misstatements taking into account relevant quantitative and qualitative factors. Historically, Ricoh used the income statement ("rollover") approach to quantify misstatements. Upon adoption, Ricoh recorded adjustment for the cumulative effect of misstatements that were previously considered immaterial under the rollover method that were considered material under the dual method. Ricoh adopted SAB 108 in the fourth quarter of the fiscal year ended March 31, 2007.

The Company and some of its domestic consolidated subsidiaries previously set the residual value of tangible fixed assets at 5% of acquisition cost in principle using the standards provided in the

Corporate Tax Law. However, based on an evaluation of residual values realized from disposition of property, plant and equipment, Ricoh concluded that the residual value of substantially all long lived assets is negligible at the end of useful life. This misstatement had been considered immaterial to Ricoh's historical consolidated financial statements using the income statement approach prior to the adoption of SAB 108.

Accordingly, Ricoh recorded an increase in accumulated depreciation of ¥11,464 million and an increase in deferred tax assets (included in "Lease deposits and other") of ¥4,675 million as of April 1, 2006 with a net reduction of the beginning balance of retained earnings of ¥6,464 million.

### **(w) New Accounting Standards**

In June 2006, the FASB ratified the EITF consensus on EITF 06-2, "Accounting for sabbatical Leave and Other Similar Benefits Pursuant to FASB Statement No.43." Accordingly, Ricoh recorded an increase in the beginning balance of accrued expenses of ¥1,680 million (\$16,800 thousand) and an increase in the beginning balance of deferred tax assets (included in "Lease deposits and other") of ¥672 million (\$6,720 thousand) as of April 1, 2007, with a decrease in the beginning balance of retained earnings of ¥995 million (\$9,950 thousand).

In September 2006, the FASB issued SFAS No.157, "Fair Value Measurements," which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. SFAS 157 applies under other accounting pronouncements that require or permit fair value measurements, where fair value is the relevant measurement attribute. SFAS 157 does not require any new fair value measurements. SFAS 157 is effective for fiscal years beginning after November 15, 2007, and is required to be adopted by Ricoh in fiscal year beginning April 1, 2008. In February 2008, the FASB issued Staff Positions ("FSP") No. FAS 157-1, "Application of FASB Statement No. 157 to FASB Statement No. 13 and Other Accounting Pronouncements That Address Fair Value Measurements for Purposes of Lease Classification or Measurement under Statement 13" and No. FAS 157-2, "Effective Date of FASB Statement No. 157," which delays the effective date of SFAS 157 for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually) and remove certain leasing transactions from its scope. The adoption of SFAS 157 did not have a material effect on Ricoh's consolidated financial position or results of operations. In September 2006, the FASB issued SFAS 158. SFAS 158 requires companies to recognize an asset or liability for the overfunded or underfunded status of their benefit plans in their financial statements and to recognize changes in that funded status in comprehensive income (loss) in the year in which the changes occur. SFAS 158 also requires the measurement date for plan assets and liabilities to coincide with the sponsor's year-end. The standard provides two transition alternatives related to the change in measurement date provisions. The recognition of an asset and liability related to the funded status provision is effective for fiscal years ending after December 15, 2006. The effect of adoption of SFAS 158 on Ricoh's financial condition as of March 31, 2007 has been included in the accompanying consolidated financial statements. The change in measurement date provisions is effective for fiscal years ending after December 15, 2008 and is required to be adopted by Ricoh in fiscal year beginning April 1,

2008. Ricoh is currently evaluating the effect that the adoption of measurement date provisions will have on its consolidated results of operations and financial condition.

In February 2007, the FASB issued SFAS No.159, "The Fair Value Option for Financial Assets and Financial Liabilities - including an amendment of FASB statement No.115." SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. Unrealized gains and losses on items for which the fair value option has been elected will be recognized in earnings. SFAS 159 is effective for fiscal year beginning after November 15, 2007, and is required to be adopted by Ricoh in fiscal year beginning April 1, 2008. The adoption of SFAS 159 did not have a material effect on Ricoh's consolidated financial position or results of operations.

In December 2007, the FASB issued SFAS No.141 (revised 2007), "Business Combinations" ("SFAS 141R"). SFAS 141R establishes principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, any noncontrolling interest in the acquiree and the goodwill acquired. SFAS 141R also establishes disclosure requirements to enable the evaluation of the nature and financial effects of the business combination. SFAS 141R is effective for fiscal years beginning on or after December 15, 2008 and is required to be adopted by Ricoh in the first quarter beginning April 1, 2009. Ricoh will apply prospectively to all business combinations subsequent to the effective date.

In December 2007, the FASB issued SFAS No.160, "Noncontrolling Interests in Consolidated Financial Statements - an amendment of ARB No. 51." This Statement requires that the noncontrolling interest in the equity of a subsidiary be accounted for and reported as equity, provides revised guidance on the treatment of net income and losses attributable to the noncontrolling interest and changes in ownership interests in a subsidiary and the valuation of retained noncontrolling equity investments when a subsidiary is

deconsolidated. SFAS 160 also requires additional disclosures that identify and distinguish between the interests of the controlling and noncontrolling owners. Pursuant to the transition provisions of SFAS 160, Ricoh will adopt SFAS 160 in fiscal year 2009 via retrospective application of the presentation and disclosure requirements. Ricoh is currently evaluating the effect that the adoption of SFAS 160 will have on its consolidated results of operations and financial condition.

In March 2008, the FASB issued SFAS No.161, "Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133". SFAS 161 requires disclosures of how and why an entity uses derivative instruments, how derivative instruments and related hedged items are accounted for and how derivative instruments and related hedged items affect an entity's financial position, financial performance, and cash flows. SFAS 161 is effective for fiscal years beginning after November 15, 2008, with early adoption permitted. Ricoh is currently evaluating the effect that the adoption of SFAS 161 will have on its consolidated results of operations and financial condition.

In April 2008, the FASB finalized FSP 142-3, "Determination of the Useful Life of Intangible Assets". The position amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS 142. The position applies to intangible assets that are acquired individually or with a group of other assets and both intangible assets acquired in business combinations and asset acquisitions. FSP 142-3 is effective for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. Ricoh is currently evaluating the effect that the adoption of FSP 142-3 will have on its consolidated results of operations and financial condition.

### 3. ACQUISITION

In June 2007, Ricoh and International Business Machines Corporation ("IBM") completed formation of a joint venture company (now known as InfoPrint Solutions Company, LLC) which was spun-out from on IBM's Printing Systems Division to provide output solutions for production printing area.

InfoPrint Solutions Company, LLC will benefit from access to IBM's powerful worldwide distribution and sales network, as well as extensive printer development capabilities. The consideration was paid in a form of cash for the initial 51% acquisition of InfoPrint Solutions Company, LLC by Ricoh as well as a prepayment for the remaining 49% to be acquired and certain royalties and services to be provided by IBM to InfoPrint Solutions Company, LLC. Ricoh will progressively acquire the remaining 49% over the next three years, approximately 4% per each quarter, as InfoPrint Solutions Company, LLC becomes a fully owned subsidiary. Ricoh applied the purchase method of accounting to account for the acquisition. Final consideration for this transaction will be determined at the end of the three-year period based upon the participation in the profits and losses recorded by the equity partners. Therefore, the amount of goodwill may be adjusted at the determination of final consideration. Assets, liabilities and operations of InfoPrint Solutions Company, LLC have been included in the accompanying consolidated financial statements since the acquisition date.

The following table reflects the condensed balance sheet of InfoPrint Solutions Company, LLC, as adjusted to give effect to the purchase method accounting adjustments:

	Millions of Yen	Thousands of U.S. Dollars
Receivables and other assets	¥ 18,121	\$ 181,210
Property and equipment	2,214	22,140
Identifiable intangible assets	38,091	380,910
Goodwill	50,301	503,010
Liabilities	(15,772)	(157,720)
Total cash consideration	¥ 92,955	\$ 929,550

Identifiable intangible assets of InfoPrint Solutions Company, LLC primarily comprised trademark of ¥16,852 million (\$168,520 thousand) which were estimated to have a remaining useful life of 5 years to 7 years, existing maintenance contracts of ¥8,289 million (\$82,890 thousand) which were estimated to have a remaining useful life of 9 years, outsourcing agreement of ¥5,162 million (\$51,620 thousand) which were estimated to have a remaining useful life of 1 year to 6 years, and other intangible assets of ¥7,788

million (\$77,880 thousand). Goodwill arising from the acquisition of InfoPrint Solutions Company, LLC has all been allocated to the Office Solutions segment.

Pro forma results of operations, assuming this acquisition was made at the beginning of fiscal year 2008, have not been presented, because the results of operations related to InfoPrint Solutions Company, LLC were impracticable.

Furthermore, Ricoh acquired other immaterial entities during the year ended March 31, 2008 for a consideration of ¥3,840 million (\$38,400 thousand), net of cash acquired.

In January 2007, Ricoh Europe B.V., a wholly-owned subsidiary of the Company acquired the European operations of Danka Business Systems PLC ("Danka's European operations") for total cash consideration of ¥27,132 million including direct acquisition costs. Ricoh made the acquisition to strengthen its sales and service network in major countries in Europe.

Ricoh applied the purchase method of accounting to account for the acquisition and, accordingly, the purchase price has been allocated to the tangible and intangible net assets of Danka's European operations. based on the estimated fair value of such net assets. The amount of consideration paid in excess of the estimated fair value of the net assets acquired of ¥18,658 million was recorded as goodwill which is not tax deductible. Assets, liabilities and

operations of Danka's European operations have been included in the accompanying consolidated financial statements since the acquisition date.

The following table reflects the January 31, 2007 condensed balance sheet of Danka's European operations., as adjusted to give effect to the purchase method accounting adjustments:

	Millions of Yen
Cash and cash equivalents	¥ 3,839
Receivables and other assets	22,385
Property and equipment	1,434
Identifiable intangible assets	4,883
Goodwill	18,658
Liabilities	(24,067)
<b>Total cash consideration</b>	<b>¥ 27,132</b>

Identifiable intangible assets of Danka's European operations primarily comprised customer relationships of ¥4,700 million, which were estimated to have a remaining useful life of 10 years to 18 years. Goodwill arising from the acquisition of Danka's European operations has all been allocated to the Office Solutions segment.

#### 5. FINANCE RECEIVABLES

Finance receivables as of March 31, 2007 and 2008 are comprised primarily of lease receivables and installment loans.

Ricoh's products are leased to domestic customers primarily through Ricoh Leasing Company, Ltd., a majority-owned domestic subsidiary, and

to overseas customers primarily through certain overseas subsidiaries. These leases are accounted for as sales-type leases in conformity with SFAS 13. Sales revenue from sales-type leases is recognized at the inception of the leases.

Information pertaining to Ricoh's lease receivables as of March 31, 2007 and 2008 is as follows:

Ricoh Leasing Company, Ltd., has also extended certain other types of loans as part of its business activity, which are primarily residential housing loans to current and former employees in Japan secured by the underlying real estate properties. Loan terms range from 15 years to 30 years with monthly repayments. The total balance of these loans, net of allowance for doubtful receivables, as of March 31, 2007 and 2008 was ¥52,648 million and ¥54,863 million (\$548,630 thousand), respectively. The current portion of loans receivable was ¥1,559 million and ¥1,145 million (\$11,450 thousand), respectively, as of March 31, 2007 and 2008, and was included in short-term finance receivables, net in the accompanying consolidated balance sheets. Loan activity for the years ended March 31, 2006, 2007 and 2008 is as follows:

	Millions of Yen			Thousands of U.S. Dollars

The impacts of 10% and 20% adverse changes to the key economic assumptions on the fair value of retained interests as of March 31, 2008 are presented below.

	Millions of Yen	Thousands of U.S. Dollars

The hypothetical scenario does not reflect expected market conditions and should not be used as a prediction of future performance. As the figures indicate, changes in fair value may not be linear. Also, in the above table, the effect of a variation in a particular assumption on the fair value of the

Ricoh sold finance lease receivables in prior years through securitization transactions. The value assigned to undivided interests retained in these transactions was based on the fair value of retained interests as of a transfer of these receivables and was reflected in its consolidated balance sheets. Ricoh recognized the expected unrecoverable receivables and reflected it in its consolidated balance sheets. Servicing assets or liabilities related to securitization transactions initiated were not recorded, because the servicing fees adequately compensate Ricoh. Ricoh's retained interests are subordinate to the investor's interests. Their value is subject to credit, payment and interest rate risk on the sold financial assets. The investors and special purpose entities that hold the lease receivables have limited recourse to Ricoh's retained interest in such receivables for failure of debtors to pay. Ricoh determines the fair value of the retained interests by discounting the future cash flows. Those cash flows are estimated based on credit losses and other information as available and are discounted at a rate which Ricoh believes is commensurate with the risk free rate plus a risk premium.

Key economic assumptions used in measuring the fair value of retained interests related to securitization transactions completed during the years ended March 31, 2007 and 2008 are as follows:

	2007	2008
Expected credit losses	0.50% -0.65%	<b>0.70% -0.95%</b>
Discount rate	2.00% -3.00%	<b>2.00% -3.00%</b>
Annual prepayment rate	5.07% -5.33%	<b>4.01% -5.37%</b>

retained interest is calculated without changing any other assumption; in reality, changes in one factor may result in changes in another, which might magnify or counteract the sensitivities.

The following table summarizes certain cash flows received from and paid to the special purpose entities for all securitization activity for the years ended March 31, 2006, 2007 and 2008:

Ricoh judged this decline in fair value of investment securities to be temporary, with considering relevant factors.

The contractual maturities of debt securities classified as available-for-sale as of March 31, 2008, regardless of their balance sheet classification, are as follows:

	Millions of Yen		Thousands of U.S. Dollars	
	Cost	Fair value	Cost	Fair value

Proceeds from the sales of available-for-sale securities were ¥141,620 million, ¥96,087 million and ¥100,025 million (\$1,000,250 thousand) for the years ended March 31, 2006, 2007 and 2008, respectively.

The realized gains on the sales of available-for-sale securities for the year ended March 31, 2006 was ¥1,053 million. There were no significant realized gains of available-for-sale securities for the years ended March 31, 2007 and 2008. There were no significant realized losses of available-for-sale securities for the years ended March 31, 2006, 2007 and 2008.

Effective October 1, 2005, UFJ Holdings, Inc. ("UFJ") and Mitsubishi Tokyo Financial Group, Inc. completed a merger, in which the UFJ shares of common stock owned by the Company were exchanged for shares of common stock of the newly merged entity, Mitsubishi UFJ Financial Group, Inc. ("MUFG"). As a result of this merger and common stock exchange, Ricoh recognized a gain on securities of ¥992 million between the cost of UFJ shares surrendered and the current market value of MUFG shares in "Other, net" as other (income) expenses on its consolidated statements of income for the year ended March 31, 2006.

## 7. INVESTMENTS IN AND ADVANCES TO AFFILIATES

The investments in and advances to affiliates primarily relate to 20% to 50% owned companies. Ricoh's equity in the underlying net book values of the companies is approximately equal to their individual carrying values of ¥15,608 million and ¥1,977 million (\$19,770 thousand) at March 31, 2007 and 2008, respectively. On July 1, 2006, "Coca-Cola West Japan Co., Ltd. (former affiliate company)" and "Kinki Coca-Cola Bottling Co., Ltd. (former unrelated company)" established a joint holding company "Coca-Cola West Holdings Co., Ltd."

On November 30, 2007, Ricoh sold the part of shares of common stock of SINDO RICOH CO., LTD. The gain on sale of the shares was not material.

As a result, proportion of ownership interest of Coca-Cola West Holdings Co., Ltd. and SINDO RICOH CO., LTD. by Ricoh decreased under 20%, and according to Accounting Principles Board ("APB") Opinion No. 18, "The Equity Method of Accounting for Investments in Common Stock," Ricoh excluded these companies from affiliate companies on October 1, 2006 and February 29, 2008, respectively. Summarized financial information for all affiliates as of March 31, 2007 and 2008 and for the years ended March 31, 2006, 2007 and 2008 is as follows:

Net deferred tax assets as of March 31, 2007 and 2008 are included in the consolidated balance sheets as follows:

	Millions of Yen		Thousands of U.S. Dollars
	2007	2008	2008
Deferred income taxes and other (Current Assets)	¥ 44,682	¥ 41,581	\$ 415,810

	¥ 35,785	¥ 47,955	\$ 479,550

The net changes in the total valuation allowance for the years ended March 31, 2006, 2007 and 2008 were a decrease of ¥1,118 million, an increase of ¥4,202 million and a decrease of ¥1,738 million (\$17,380 thousand), respectively. The valuation allowance primarily relates to deferred tax assets of the consolidated subsidiaries with net operating loss carryforwards for tax purposes that are not expected to be realized.

In assessing the realizability of deferred tax assets, Ricoh considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible and whether loss carryforwards are utilizable. Ricoh considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based upon the level of historical taxable income and projections for future taxable income over the periods in which the deferred tax assets are deductible, Ricoh believes it is more likely than not that the benefits of these deductible differences, net of the existing valuation allowance will be realized. The amount of the deferred tax asset considered realizable, however, would be reduced if estimates of future taxable income during the carryforward period are reduced.

As of March 31, 2008, certain subsidiaries had net operating losses carried forward for income tax purposes of approximately ¥33,086 million (\$330,860 thousand) which were available to reduce future income taxes, if any. Approximately ¥1,294 million (\$12,940 thousand) of the operating losses will expire within 3 years and ¥13,056 million (\$130,560 thousand) will expire within 4 years to 7 years. The remainder principally have an indefinite carryforward period.

Ricoh has not recognized a deferred tax liability for certain portion of the undistributed earnings of its foreign subsidiaries of ¥249,361 million (\$2,493,610 thousand) as of March 31, 2008 because Ricoh considers these earnings to be permanently reinvested. Calculation of related unrecognized deferred tax liability is not practicable. Ricoh adopted FIN48 effective April 1, 2007. Total unrecognized tax benefits as of the date of adoption were ¥8,508 million (\$85,080 thousand), and no change to the balance was required as a result of the adoption of FIN 48.

A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows:

Years ending March 31	Millions of Yen	Thousands of U.S. Dollars
Balance at April 1, 2007	¥ 8,508	\$85,080
Additions for tax positions of the current year	2,972	29,720
Additions for tax positions of prior years	2,456	24,560
Reductions for tax positions of prior years	(1,768)	(17,680)
Settlements	(5,662)	(56,620)
Other	(883)	(8830)
Balance at March 31, 2008	¥ 5,623	\$56,230

Total amount of unrecognized tax benefits that would reduce the effective tax rate, if recognized, is ¥4,503 million (\$45,030 thousand).

Although Ricoh believes its estimates and assumptions of unrecognized tax benefits are reasonable, uncertainty regarding the final determination of tax audit settlements and any related litigation could affect the effective tax rate in the future periods. Based on each of the items of which Ricoh is aware at March 31, 2008, no significant changes to the unrecognized tax benefits are expected within the next twelve months.

Ricoh recognizes interest and penalties accrued related to unrecognized tax benefits in income taxes in the consolidated statements of income. Both interest and penalties accrued as of March 31, 2008 and interest and penalties included in income taxes for the year ended March 31, 2008 are not material.

Ricoh files income tax returns in Japan and various foreign tax jurisdictions. In Japan, Ricoh is no longer subject to regular income tax examinations by the tax authority for years before 2007. While there has been no specific indication by the tax authority that Ricoh will be subject to a transfer pricing examination in the near future, the tax authority could conduct a transfer pricing examination for years after 2001. In other major foreign tax jurisdictions, including the United States and United Kingdom, Ricoh is no longer subject to income tax examinations by tax authorities for years before 2006 with few exceptions.

## 10. SHORT-TERM BORROWINGS

Short-term borrowings as of March 31, 2007 and 2008 consist of the following:

	Weighted average interest rate		Millions of Yen		Thousands of U.S. Dollars
	2007	2008	2007	2008	2008
Borrowings, principally from banks	2.4%	1.3%	¥21,682	¥ 5,599	\$ 55,990

These short-term borrowings included borrowings, principally from banks, commercial paper and medium-term notes denominated in foreign currencies amounting to ¥57,480 million and ¥41,413 million (\$414,130 thousand) as of March 31, 2007 and 2008, respectively.

The Company and certain of its subsidiaries enter into the contracts with financial institutions regarding lines of credit and overdrawing. Those same financial institutions hold the issuing programs of commercial paper and medium-term notes. Ricoh had aggregate

lines of credit of ¥806,526 million and ¥784,645 million (\$7,846,450 thousand) as of March 31, 2007 and 2008, respectively. Unused lines of credit amounted to ¥693,791 million and ¥675,959 million (\$6,759,590 thousand) as of March 31, 2007 and 2008, respectively, of which ¥237,854 million and ¥232,023 million (\$2,320,230 thousand) related to commercial paper and ¥129,855 million and ¥101,957 million (\$1,019,570 thousand) related to medium-term notes programs at prevailing interest rates and the unused portion is available for immediate borrowings.

## 11. LONG-TERM INDEBTEDNESS

Long-term indebtedness as of March 31, 2007 and 2008 consists of the followings:

<b>Total</b>	<b>¥236,801</b>	<b>¥225,930</b>	<b>\$2,259,300</b>

Secured loans are collateralized by land, buildings and lease receivables with a book value of ¥3,200 million (\$32,000 thousand) as of March 31, 2008.

All bonds outstanding as of March 31, 2008 are redeemable at the option of Ricoh at 100% of the principal amounts under certain conditions as provided in the applicable agreements. Bonds are subject to certain covenants such as restrictions on certain additional secured indebtedness, as defined in the

agreements. Ricoh presently is in compliance with such covenants as of March 31, 2008.

The Company issued Euro Yen Zero Coupon Convertible Bonds of ¥55,275 million in December 2006. Bondholders are able to convert their holdings into common stock under certain circumstances. As of March 31, 2008, the conversion price was ¥2,800 per share and 19,741 thousand shares would have been issued on conversion of all convertible debt. The conversion price

shall be adjusted for certain events such as a stock split, consolidation of stock or issuance of stock at less than the current market price of the shares.

As is customary in Japan, substantially all of the bank borrowings are subject to general agreements with each bank which provide, among other things, that the banks may request additional security for these loans if there is reasonable and probable cause and may treat any security furnished to the banks as well as cash deposited as security for all present and future indebtedness. Ricoh has never been requested to submit such additional security.

The aggregate annual maturities of long-term indebtedness subsequent to March 31, 2008 are as follows:

Years ending March 31	Millions of Yen	Thousands of U.S. Dollars
2009	¥ 82,658	\$ 826,580
2010	76,930	769,300

2014 and thereafter	152	1,520
<b>Total</b>	<b>¥308,196</b>	<b>\$3,081,960</b>

## 12. PENSION AND RETIREMENT ALLOWANCE PLANS

The Company and certain of its subsidiaries have various contributory and noncontributory employees' pension fund plans in trust covering substantially all of their employees. Under the plans, employees are entitled to lump-sum payments at the time of termination or retirement, or to pension payments.

Contributions to above pension plans have been made to provide future pension payments in conformity with an actuarial calculation determined by the current basic rate of pay.

On March 31, 2007, Ricoh adopted the recognition and disclosure provisions of SFAS No.158, "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans," for the measurement of pension liabilities. Under SFAS 158, Ricoh recognized the funded status (i.e., the difference between the fair value of plan assets and the projected benefit obligations) of its pension fund plans in the consolidated balance sheets as of March 31, 2007, with a corresponding adjustment in initially applying SFAS 158 to accumulated other comprehensive income, net of tax. The

adjustment to accumulated other comprehensive income at adoption represents the unrecognized net actuarial loss, unrecognized prior service cost, and unrecognized transition obligations, all of which were previously netted against the plans' funded status in the consolidated balance sheets pursuant to the provisions of SFAS 87. These amounts will be subsequently recognized as net periodic benefit cost pursuant to Ricoh's historical accounting policy for amortizing such amounts. Furthermore, actuarial gains and losses that arise in subsequent periods and are not recognized as net periodic benefit cost in the same periods will be recognized as a component of other comprehensive income. Those amounts will be subsequently recognized as a component of total net periodic benefit cost on the same basis as the amounts recognized in accumulated other comprehensive income at adoption of SFAS 158.

The changes in the benefit obligations and plan assets of the pension plans for the years ended March 31, 2007 and 2008 are as follows:

Ricoh's benefit plan asset allocation as of March 31, 2007 and 2008 are as follows:

	2007	2008
Equity securities	51.5%	45.7%
Debt securities	17.0%	20.9%
Life insurance company general accounts	24.2%	15.1%
Other	7.3%	18.3%
Total	100.0%	100.0%

Common stock and bonds of the Company and certain of its domestic subsidiaries included in plan assets were immaterial at March 31, 2007 and 2008.

Ricoh's investment policies and strategies for the pension benefits do not use target allocations for the individual asset categories. Ricoh's investment goals are to maximize returns subject to specific risk management policies. Its risk management policies permit investments in mutual funds and debt and equity securities and prohibit direct investment in derivative financial instruments. Ricoh addresses diversification by the use of mutual fund investments whose underlying investments are in domestic and international fixed income securities and domestic and international equity securities. These mutual funds are readily marketable and can be sold to fund benefit payment obligations as they become payable.

Ricoh uses a December 31 measurement date for the pension plans. Ricoh expects to contribute ¥13,100 million (\$131,000 thousand) to its pension plans for the year ending March 31, 2009. The estimated net actuarial loss and prior service cost for Ricoh's pension fund plans that will be amortized from accumulated other comprehensive income (loss) into net periodic pension cost over the next fiscal year ending March, 2009 are ¥5,094 million (\$50,940 thousand) and ¥(4,124) million (\$(41,240) thousand), respectively.

The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid:

Years ending March 31	Millions of Yen	Thousands of U.S. Dollars
2009	¥ 20,801	\$208,010
2010	21,162	211,620

2013	21,487	214,870
2014–2018	111,082	1,110,820

Employees of certain domestic subsidiaries not covered by the employee's pension fund ("EPF") plan are primarily covered by unfunded retirement allowances plans.

### 13. SHAREHOLDERS' INVESTMENT

The Corporation Law of Japan provides that an amount equal to 10% of cash dividends and other distributions from retained earnings paid by the Company and its domestic subsidiaries be appropriated as additional paid-in capital or legal reserve. No further appropriation is required when the total amount of the additional paid-in capital and legal reserve equals to 25% of common stock. Certain foreign subsidiaries are also required to appropriate their earnings to legal reserves under the laws of the respective countries. Legal reserves included in retained earnings as of March 31, 2007 and 2008 were ¥17,318 million and ¥17,462 million (\$174,620 thousand), respectively, and are restricted from being used as dividends.

The Corporation Law of Japan requires a company to obtain the approval of shareholders for transferring an amount between common stock and additional paid-in capital. The Law also permits a company to transfer an amount of common stock or additional paid-in capital to retained earnings in principle upon approval of shareholders.

Cash dividends are approved by the shareholders after the end of each fiscal period or are declared by the Board of Directors after the end of each interim six-month period. Such dividends are payable to shareholders of record at the end of each such fiscal or interim six-month period. At the Ordinary General Meeting of Shareholders held on June 26, 2008, the shareholders approved the declaration of a cash dividend (¥17 per share) on the common stock totaling ¥12,256 million (\$122,560 thousand), which would be paid to shareholders of record as of March 31, 2008. The declaration of this dividend has not been reflected in the consolidated financial statements as of March 31, 2008. The amount of retained earnings legally available for dividend distribution is that recorded in the Company's non-consolidated books and amounted to ¥424,067 million (\$4,240,670 thousand) as of March 31, 2008.

## 16. DERIVATIVE FINANCIAL INSTRUMENTS

### Risk Management Policy

Ricoh enters into various derivative financial instrument contracts in the normal course of business in connection with the management of its assets and liabilities.

Ricoh uses derivative instruments to reduce risk and protect market value of assets and liabilities in conformity with the Ricoh's policy.

Ricoh does not use derivative financial instruments for trading or speculative purposes, nor is it a party to leveraged derivatives.

All derivative instruments are exposed to credit risk arising from the inability of counterparties to meet the terms of the derivative

contracts. However, Ricoh does not expect any counterparties to fail to meet their obligations because these counterparties are financial institutions with satisfactory credit ratings. Ricoh utilizes a number of counterparties to minimize the concentration of credit risk.

### Foreign Exchange Risk Management

Ricoh conducts business on a global basis and holds assets and liabilities denominated in foreign currencies. Ricoh enters into foreign exchange contracts and foreign currency options to hedge against the potentially adverse impacts of foreign currency

fluctuations on those assets and liabilities denominated in foreign currencies.

### Interest Rate Risk Management

Ricoh enters into interest rate swap agreements to hedge against the potential adverse impacts of changes in fair value or cash flow fluctuations on interest of its outstanding debt.

### Fair Value Hedges

Changes in the fair value of derivative instruments and the related hedged items designated and qualifying as fair value hedges are included in other (income) expenses on the consolidated statements of income. There is no hedging ineffectiveness nor are net gains or losses excluded from the assessment of hedge effectiveness for the years ended March 31, 2006, 2007 and 2008 as the critical terms of the interest rate swap match the terms of the hedged debt obligations.

### Cash Flow Hedges

Changes in the fair value of derivative instruments designated and

qualifying as cash flow hedges are included in accumulated other comprehensive income (loss) on the consolidated balance sheets. These amounts are reclassified into earnings as interest on the hedged loans is paid. There is no hedging ineffectiveness nor are net gains or losses excluded from the assessment of hedge effectiveness for the years ended March 31, 2006, 2007 and 2008 as the critical terms of the interest rate swap match the terms of the hedged debt obligations. Ricoh expects that it will reclassify into earnings through other expenses during the next 12 months approximately ¥293 million (\$2,930 thousand) of the balance of accumulated other comprehensive income as of March 31, 2008.

### Undesignated Derivative Instruments

Derivative instruments not designated as hedging instruments are held to reduce the risk relating to the variability in exchange rates on assets and liabilities denominated in foreign currencies. Changes in the fair value of these instruments are included in other (income) expenses on the consolidated statements of income.

## 17. COMMITMENTS AND CONTINGENT LIABILITIES

As of March 31, 2008, Ricoh had outstanding contractual commitments for acquisition or construction of property, plant and equipment and other assets aggregating ¥7,071 million (\$70,710 thousand).

As of March 31, 2008, Ricoh was also contingently liable for certain guarantees including employees housing loans of ¥453 million (\$4,530 thousand).

Ricoh made rental payments totaling ¥42,046 million, ¥40,722 million and ¥45,379 million (\$453,790 thousand) for the years ended March 31, 2006, 2007 and 2008, respectively, under cancelable and non-cancelable operating lease agreements for office space and machinery and equipment.

The minimum rental payments required under operating lease that have lease terms in excess of one year as of March 31, 2008 are as follows:

Years ending March 31	Millions of Yen	Thousands of U.S. Dollars
2009	¥20,770	\$207,700
2010	17,654	176,540
2011	12,452	124,520
2012	8,419	84,190
2013	7,215	72,150
2014 and thereafter	10,989	109,890
Total	¥77,499	\$774,990

As of March 31, 2008, the Company and certain of its subsidiaries were parties to litigation involving routine matters, such as patent rights. In the opinion of management, the ultimate liability, if any, resulting from such litigation will not materially affect the consolidated financial position or the results of operations of Ricoh.

## 18. DISCLOSURES ABOUT THE FAIR VALUE OF FINANCIAL INSTRUMENTS

### (a) Cash and cash equivalents, Time deposits, Trade receivables, Short-term borrowings, Current maturities of long-term indebtedness, Trade payables and Accrued expenses

The carrying amounts approximate fair values because of the short maturities of these instruments.

### (b) Marketable securities and Investment securities

The fair value of the marketable securities and investment securities is principally based on quoted market price.

### (c) Installment loans

The fair value of installment loans is based on the present value of future cash flows using the current interest rate for similar instruments of comparable maturity.

### (d) Long-term indebtedness

The fair value of each of the long-term indebtedness instruments is based on the quoted price in the most active market or the present value of future cash flows associated with each instrument discounted using the current borrowing rate for similar instruments of comparable maturity.

### (e) Interest rate swap agreements

The fair value of interest rate swap agreements is estimated by obtaining quotes from brokers.

### (f) Foreign currency contracts and Foreign currency options

The fair value of foreign currency contracts and foreign currency options is estimated by obtaining quotes from brokers.

The estimated fair value of the financial instruments as of March 31, 2007 and 2008 is summarized as follows:

	Millions of Yen				Thousands of U.S. Dollars	
	2007		2008		2008

Foreign currency options, net	(2)	(2)	100	100	1,000	1,000

### Limitations

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

## 19. SEGMENT INFORMATION

The operating segments presented below are the segments of Ricoh for which separate financial information is available and for which a measure of profit or loss is evaluated regularly by Ricoh's management in deciding how to allocate resources and in assessing performance. The accounting policies of the segments are substantially the same as those described in the summary of significant accounting policies, as discussed in Note 2. Ricoh's operating segments are comprised of Office Solutions, including copiers and related supplies, communications and information systems, Industrial Products, including thermal media and semiconductors, and Other, including optical discs and digital cameras.

The following tables present certain information regarding Ricoh's operating segments and operations by geographic areas for the years ended March 31, 2006, 2007 and 2008. During the year ended March 31, 2007, a subsidiary of the Company sold its content distribution business. As a result of such sale, sales and operating income of such business were reclassified as discontinued operations and was excluded from the segment data for the years ended March 31, 2006 and 2007 in accordance with SFAS 144.

# Management's Report on Internal Control Over Financial Reporting

Ricoh's management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rule 13a-15(f) and Rule 15d-15(f) of the Securities Exchange Act of 1934, as amended. Ricoh's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that (1) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of Ricoh; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of Ricoh are being made only in accordance with authorizations of management and directors of Ricoh; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of Ricoh's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. In addition, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with internal control policies or procedures may deteriorate.

As permitted by the rules and regulations of the SEC, Ricoh's management excluded from its assessment of the effectiveness of Ricoh's internal control over financial reporting as of March 31, 2008 an assessment of internal control over financial reporting of InfoPrint Solutions Company, LLC (a joint venture company with IBM which commenced its operations on June 1, 2007), except for the goodwill and intangibles relating to this joint venture company that were included within the scope of such assessment. InfoPrint Solutions Company, LLC had total assets of Yen 46,281 million (excluding goodwill and intangibles relating to this joint venture company) and total sales of Yen 68,577 million that were reflected in the consolidated financial statements of the Company as of and for the year ended March 31, 2008.

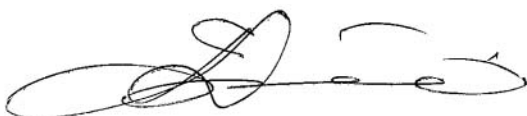

Ricoh's management assessed the effectiveness of Ricoh's internal control over financial reporting as of March 31, 2008. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control - Integrated Framework. Management's assessment included evaluating the design of Ricoh's internal control over financial reporting and testing of the operational effectiveness of Ricoh's internal control over financial reporting.

Based on such assessment, management concluded that, as of March 31, 2008, Ricoh's internal control over financial reporting was effective based on the criteria issued by COSO.

KPMG AZSA & Co., an independent registered public accounting firm, has issued an audit report on the effectiveness of Ricoh's internal control over financial reporting as of March 31, 2008.

# Report of Independent Registered Public Accounting Firm

## To the Board of Directors and Shareholders of Ricoh Company, Ltd.:

We have audited the accompanying consolidated balance sheets of Ricoh Company, Ltd. (a Japanese corporation) and subsidiaries as of March 31, 2007 and 2008, and the related consolidated statements of income, shareholders' investment and cash flows for each of the years in the three-year period ended March 31, 2008, expressed in yen. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Ricoh Company, Ltd. and subsidiaries as of March 31, 2007 and 2008, and the results of their operations and their cash flows for each of the years in the three-year period ended March 31, 2008, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of Ricoh Company, Ltd. and subsidiaries' internal control over financial reporting as of March 31, 2008, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated June 27, 2008 expressed an unqualified opinion on the effective operation of internal control over financial reporting.

The accompanying consolidated financial statements as of and for the year ended March 31, 2008 have been translated into United States dollars solely for the convenience of the reader. We have audited the translation and, in our opinion, the consolidated financial statements, expressed in yen, have been translated into dollars on the basis set forth in Note 2 to the consolidated financial statements.

# Report of Independent Registered Public Accounting Firm

## To the Board of Directors and Shareholders of Ricoh Company, Ltd.:

We have audited Ricoh Company, Ltd. (a Japanese corporation) and subsidiaries' internal control over financial reporting as of March 31, 2008, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on the effectiveness of the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Ricoh Company, Ltd. and subsidiaries maintained, in all material respects, effective internal control over financial reporting as of March 31, 2008, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

Ricoh Company, Ltd. acquired InfoPrint Solutions Company, LLC during the year ended March 31, 2008, and management excluded from its assessment of the effectiveness of Ricoh Company, Ltd. and subsidiaries' internal control over financial reporting as of March 31, 2008, InfoPrint Solutions Company, LLC's internal control over financial reporting associated with total assets of ¥46,281 million, excluding goodwill and intangibles which were included within the scope of the assessment, and total revenues of ¥68,577 million included in the consolidated financial statements of Ricoh Company, Ltd. and subsidiaries as of and for the year ended March 31, 2008. Our audit of internal control over financial reporting of the Company also excluded an evaluation of the effectiveness of the internal control over financial reporting of InfoPrint Solutions Company, LLC.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements of Ricoh Company, Ltd. and subsidiaries as listed in the accompanying index, and our report dated June 27, 2008 expressed an unqualified opinion on those consolidated financial statements.

## Corporate Philosophy/Management Philosophy/Ricoh General Principles on the Environment

The Ricoh Group's corporate philosophy was established by its founder, Kiyoshi Ichimura. He explained the philosophy as follows: Everyone starts by loving himself/herself. As time passes, however, this feeling grows and expands to include all people, plants, and animals in the world. This philosophy drives the Ricoh Group toward better sustainable management.

### Corporate Philosophy

Love your neighbor  
Love your country  
Love your work

—The Spirit of Three Loves—

Ricoh's management philosophy was formally introduced in 1986 based on the Company's corporate philosophy in order to establish and nurture the corporate culture and system so that survival in a time filled with increasing change, information-oriented societies, diverse values, and more intense competition could be ensured.

### Management Philosophy

#### Our Purpose

To constantly create new value  
for the world at the interface of people  
and information

#### Our Goal

To be a good global corporate citizen  
with reliability and appeal

#### Our Principles

To think as an entrepreneur  
To put ourselves in the other  
person's place  
To find personal value in our work

Ricoh introduced the Ricoh General Principles on the Environment, which are based on its management philosophy, in 1992 and revised them in 1998, 2004 and 2008. These principles show Ricoh's commitment to sustainable management and are widely disclosed to the public through various media, including websites. Based on these principles, Ricoh Group companies have independently established and managed their own rules regarding the environment according to their business type.

### Ricoh Group Environmental Principles

#### Basic Policy

As a global citizen, Ricoh group is obligation-conscious of environmental conservation. In addition, we strive to honor our environmental responsibilities and concentrate company-wide efforts in environmental conservation activities, implementation of which we believe to be as significant as our business operations.

#### Action Guidelines

1. Achieve superior targets  
Complying with laws and regulations as a matter of course, we dutifully fulfill our environmental responsibilities, setting targets that go ahead of those that society currently requires, and by achieving these, create economic values.
2. Develop innovative environmental technologies  
We will take steps to develop and promote innovative environmental technologies that will give increased value to our customers and can be utilized by various people.
3. Encourage all employees to participate in environmental activities  
In all our business activities, we strive for awareness of environmental impact, thereby involving all Ricoh employees in implementing continuous improvements to prevent pollution, use energy and natural resources more efficiently.
4. Be attentive to product lifecycle  
To provide our products and services, we spare no effort to reduce environmental effects in all stages of product lifecycle, from procurement, manufacturing, sale, and logistics, to usage, recycling, and disposal.
5. Improve employees' environmental awareness  
We at Ricoh wish each employee to be attentive to a broader range of social issues and mindful of enhancing environmental awareness through proactive learning processes, designed to commit the employee to environmental conservation activities according to his or her responsibility.
6. Contribute to society  
By participating in and supporting environmental conservation activities, we will contribute to creating a sustainable society.
7. Optimize communication with stakeholders  
Ricoh Group will expand its environmental conservation activities with stakeholders. In addition, we will fully communicate and proactively cooperate with our stakeholders to reassure communities of our dependability and commitment to the environment.

Established in February, 1992; revised in February, 2008.

## The Ricoh Group CSR Charter

As the Ricoh Group's role and influence as a global citizen and a member of society increases, so too does its social responsibilities. As a result of the enhanced globalization and group management of its corporate

activities, the Ricoh Group now covers many countries around the world and is made up of people with various values. The Ricoh Group CSR Charter, which enshrines the Group's corporate activity principles,

was established on January 1, 2004 in response to the need for common values and activity principles that can be shared globally across the Group.

To grow as a respected enterprise, the Ricoh Group must fully discharge its corporate social responsibility (CSR) from a consistent global perspective and throughout every aspect of its operations. To ensure this, the following principles are to be observed, with the proper social awareness and understanding, compliant with both the letter and the spirit of national laws and the rules of international conduct.
