

New Ricoh Visual Online Storage Service 'quanp' Speeds Private Beta Upgrades, Pushes Cloud Organization Features

Private Beta Now Open to Additional US Testers

CUPERTINO, Calif., September 30, 2009 – Ricoh Company, Ltd., a global leader in digital office solutions, today announced the general availability of the “quanp.on 2.2” upgrade for its visual online service “quanp.” The upgraded Windows client combines a centralized taglist with its signature visual search features to help users quickly and easily organize their digital life memories (photos, videos, documents) in the cloud. quanp has also added features and updates to its browser interface, known as “quanp.net.” The new features have prioritized user feedback collected during beta testing. The quanp beta is now being, at the same time, expanding to more testers residing in the US.

“Nowadays, people produce tons of their own fun photos and videos, practically daily. But how do you keep track of it all? A little here, a little there. That means you’re not as organized as you need to be. quanp answers that problem,” said Sho Harada, senior manager of quanp. “With quanp.on 2.2, visual online search is combined with the power of tags as well as a whole host of new and improved features for organizing all your digital life memories. Why not try out the beta? It’s free, and we’d love your feedback.”

quanp.on 2.2 New Features and Improvements

New

1. Right Click to upload to quanp for SIMPLE uploading

Without starting up your quanp PC client even, you can use core Windows functionality to upload to quanp by simply right clicking on the file and selecting quanp from the Send to menu. Easy, intuitive, powerful.

2. New Tag List feature for quick, easy ORGANIZATION

Tags are an incredible way to group and search through files. Now, your main tag list is available front and center immediately so you can access it at any time.

3. Slideshow to DRESS UP and SHOW OFF your digital life memories

quanp now has slideshow functionality built in to the file view options. View your favorite files at full screen with a handy, cool controller window to set speed and other options.

Improved

4. Interface improvements for more INTUITIVE use

Easy-to-access icons for Sharing, Advanced Search, Uploading and Tags -- the most used functionality for easy organizing -- have been added.

5. Uploading of subfolders for SIMPLE uploading

Uploading folders of files with subfolders as well now possible. Subfolder names are turned into tags and added to files automatically.

6. Work while uploading for MORE EFFICIENT organizing

Uploads of large files or multiple files can now be done in the background while continuing to use quanp for organizing your digital life memories.
