Consolidated Performance

1. Operating results

*Overview

Consolidated net sales of Ricoh Group for the third quarter of fiscal year 2011 (the nine months period from April 1, 2011 to December 31, 2011) decreased by 3.0% as compared to the previous corresponding period, to \$ 1,396.5 billion. During this period, the average yen exchange rates were \$79.00 against the U.S. dollar (up \$ 7.90) and \$110.71 against the Euro (up \$2.82). Net sales would have increased by 0.3% excluding impact of such foreign currency exchange fluctuation.

Japanese economy had shown recovery from the impact of the Great East Japan Earthquake. However, unpredictable situation remained because of the sharp appreciation of the Yen against Eurosince last year end as well as decline of the stock market. Under the severe situation, while domestic sales in the Imaging & Solutions and the Other increased, domestic sales in the Industrial Products decreased from the previous corresponding period. Consequently, overall sales in Japan decreased by 0.7% as compared to the previous corresponding period.

As for the overseas economy, in the Americas, signs of improvement had been shown and in China, high growth is ongoing. However, it remained uncertain due to the European debt crisis. Ricoh continued to face the severe business environment in the Americas and Europe due to the appreciation of the Yen.

As for overseas sales by region, as compared to the previous corresponding period, sales in the Americas decreased by 11.0% due to foreign currency exchange fluctuation (1.9%, excluding foreign currency exchange fluctuation), sales in Europe, due to the Yen against Euro appreciated, decreased by 0.3% (increased by 2.5%, excluding foreign currency exchange fluctuation), and sales in Other region, which includes China, South East Asia and Oceania, increased by 6.0% (9.4%, excluding foreign currency exchange fluctuation).

As a result, sales in the overseas market decreased by 4.8% as compared to the previous corresponding period. Excluding effects of foreign currency fluctuations, net sales in overseas would have increased by 1.2% as compared to the previous corresponding period.

Gross profit decreased by 5.1% as compared to the previous corresponding period, to ¥569.0 billion due primarily to decrease in sales and the appreciation of the Yen, despite ongoing cost reduction.

Selling, general and administrative expenses increased by 11.0% as compared to the previous corresponding period, to ¥605.6 billion due primarily to impairment loss of 36.9 billion on goodwill and long-lived assets for the period of three months ended December 31, 2011 as well as restructuring cost of ¥24.2 billion.

As a result, operating income sharply decreased as compared to the previous corresponding period, to \(\frac{4}{36.6}\) billion loss (operating income \(\frac{4}{53.9}\) billion for the previous corresponding period).

Other (income) expenses includes impairment loss of 4.9 billion on securities for the three months ended December 31, 2011 due to the decline of the stock market, however, improved overall due primarily to decrease of foreign exchange loss as compared to the previous corresponding period.

Consequently, income before income taxes decreased as compared to the previous corresponding period, to ¥ 47.9 billion loss (income before income taxes ¥41.3 billion for the previous corresponding period).

In addition, taking recalculation of deferred tax assets and liabilities in line with reduction of income tax rate by Japanese tax system revision, net income (loss) attributable to Ricoh Company, Ltd. amounted to ¥52.1 billion loss (net income ¥20.3 billion for the previous corresponding period). As for comprehensive income, comprehensive loss increased due primarily to decrease of cumulative translation adjustments.

For Assets, from the end of the previous fiscal year, cash and time deposits and trade receivables decreased and inventories increased due partly to initial stock for market demand at the fiscal year end. In addition, the yen equivalent of foreign-currency-denominated assets decreased due to the appreciation of the Yen developed from the previous fiscal year as well as goodwill and long-lived assets decreased due to impairment. For Total Equity, the change in retained earnings resulted from payment for dividends and net loss attributable to Ricoh Company, Ltd. Accumulated other comprehensive loss increased due primarily to the fluctuation of cumulative translation adjustments reflecting exchange fluctuation from the end of the previous period. As a result, Total Equity decreased by ¥122.4 billion from the end of the previous fiscal year, to ¥860.2 billion.
