1. Performance

(1) Operating results

*Overview

Consolidated net sales of Ricoh Group for the fiscal year 2012 (April 1, 2012 to March 31, 2013) increased by 1.1% as compared to the previous corresponding period, to \(\frac{\pmathbf{Y}}{1,924.4}\) billion. During this period, the average yen exchange rates were \(\frac{\pmathbf{Y}}{83.06}\) against the U.S. dollar (down \(\frac{\pmathbf{Y}}{3.98}\)) and \(\frac{\pmathbf{Y}}{107.08}\) against the Euro (up \(\frac{\pmathbf{Y}}{1.97}\)). Net sales would be at the same level compared to the previous corresponding period when excluding the impact of such foreign currency exchange fluctuation.

The Japanese economy has shown signs of gradual recovery with the increase in demand relating to the recovery and restoration of the areas affected by the Great East Japan Earthquake. However, with the strong Yen against the U.S. dollar and the Euro during most of the year, along with the continued worry of a global slowdown, the economic environment remained fairly stagnant throughout the fiscal year. The higher expectations arising from the economic recovery plans introduced by the new cabinet has helped to weaken the Yen and increase the stock prices during the end of 2012, but the overall economic outlook still remains unpredictable.

Under such conditions, domestic sales in the Other segment increased compared to the previous corresponding period due to the additional sales contribution from Pentax Ricoh Imaging Co., Ltd but sales in the Imaging & Solutions segment and the Industrial Products segment decreased from the previous corresponding period. Overall, domestic sales decreased by 1.8% compared to the previous corresponding period.

Outside of the domestic market, the U.S. economy is showing signs of a modest recovery, but the European economy remains stagnant under the prolonged European debt crisis, along with the slowdown in growth occurring in China and the rest of the emerging markets. These economic conditions have affected the overseas sales of Ricoh.

As for overseas sales by region, sales in the Americas increased by 5.9% compared to the previous corresponding period (an increase of 0.9% excluding foreign currency exchange fluctuation) due to the weakening trend of the yen against the dollar that began during the end of the year. Sales in Europe, Middle East and Africa increased by a mere 0.1% due to the continued economic uncertainties in the region along with the strong Yen against the Euro (an increase of 1.9% excluding foreign currency exchange fluctuation). Sales in Other region (which includes China, South East Asia and Oceania) increased by 6.9% (an increase of 3.2% excluding foreign currency exchange fluctuation). As a result, total overseas sales increased by 3.6% compared to the previous corresponding period (an increase of 1.6% excluding foreign currency exchange fluctuation).

Gross profit increased by 2.1% as compared to the previous corresponding period, to \(\xi\)768.6 billion due to increase in sales and the continued cost reduction activities implemented by the company.

The group-wide activities to streamline costs have contributed significantly in reducing selling, general and administrative expenses. The decrease in impairment costs of long-lived assets and corporate restructuring costs, as well as decrease in goodwill impairment costs which were not incurred this fiscal year contributed to a decrease of 8.5% in selling, general and administrative expenses as compared to the previous corresponding period; to ¥705.1 billion.

As a result, operating income increased significantly to ¥63.4 billion (operating loss was ¥18.0 billion for the previous corresponding period).

Other income and expenses have improved compared to the previous corresponding period due to significant reduction in losses from securities revaluation and the decrease in foreign exchange loss. As a result, income before income taxes increased as compared to the previous corresponding period; to ¥58.1 billion (loss before income taxes was ¥31.9 billion for the previous corresponding period).

Consequently, net income attributable to Ricoh Company, Ltd. increased by ¥77.0 billion as compared to the previous corresponding period; to ¥32.4 billion (net loss was ¥44.5 billion for the previous corresponding period).

Comprehensive income increased significantly primarily by the increase in consolidated net income and the increase in cumulative translation adjustments.

*Consolidated Sales by Product Line

Imaging & Solutions (Sales up 0.9% to ¥1,685.3 billion)

Sales in the Imaging & Solutions segment which is comprised of the Office Imaging, Production Printing and Network System Solutions increased by 0.9% from the previous corresponding period, to ¥1,685.3 billion.

Office Imaging (Sales up 0.5% to ¥1,329.6 billion)

Sales in this category increased by 0.5% compared to the previous corresponding period, to \$1,329.6 billion. The sales would have decreased by 0.7% excluding the effects of foreign currency fluctuations.

The sales of color PPCs increased compared to the previous corresponding period along with the increase in sales of monochrome printers.

Production Printing (Sales down 1.0% to ¥147.0 billion)

Despite the increase in the sales of cut sheet products, sales in this category decreased by 1.0% compared to the previous corresponding period, to ¥147.0 billion due to the decrease in the sales of our third party products.

Network System Solutions (Sales up 4.8% to ¥208.7 billion)

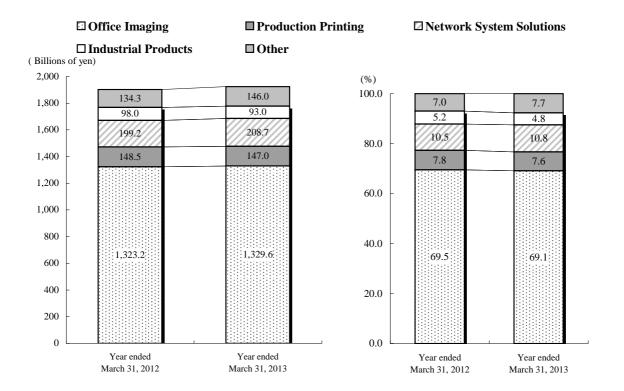

Sales in this category increased by 4.8% compared to the previous corresponding period, to \(\frac{4}{2}08.7\) billion due primarily to the increase in overseas sales of IT services.

Industrial Products (Sales down 5.1% to ¥93.0 billion)

Sales in the Industrial Products segment decreased by 5.1% compared to the previous corresponding period, to ¥93.0 billion. Sales of thermal media products increased from the previous corresponding period, but the sales of semiconductor devices and ele

Other (Sales up 8.7% to ¥146.0 billion)

Net sales in the Other segment increased by 8.7% compared to the previous corresponding period, to ¥146.0 billion due to contribution in sales from Pentax Ricoh Imaging Co., Ltd, which was acquired in the second half of FY11.

* Consolidated Sales by Geographic Area

Japan (Sales down 1.8% to ¥870.3 billion)

The Japanese economy has shown signs of gradual recovery with the increase in demand relating to the recovery and restoration of the areas affected by the Great East Japan Earthquake. The expectations arising from the economic recovery plans introduced by the new cabinet along with the monetary easing measures introduced by the Bank of Japan has helped to weaken the Yen and increase the stock prices, but the overall economic outlook still remains unpredictable.

Under such conditions, sales in the Imaging & Solutions segment for the domestic market decreased by 2.2% compared to the previous corresponding period to ¥695.7 billion, due to the slow down in after-sales revenue.

Sales of semiconductor devices and electronic components decreased as compared to the previous corresponding period. As a result, sales in the Industrial Products segment decreased by 16.5% as compared to the previous corresponding period, to ¥44.5 billion

Other segment sales have increased compared to the previous corresponding period due to the additional sales contribution from Pentax Ricoh Imaging Co., Ltd., which was acquired in the second half of FY11.

The Americas (Sales up 5.9% to ¥496.6 billion)

In the Americas, the economic situation remains unpredictable despite the gradual recovery in individual consumption and capital investment. Despite such economic conditions, the weakening of the Yen against the Dollar during the latter part of the fiscal year has contributed to increase overall sales by 5.9% compared to the previous corresponding period, to ¥496.6 billion.

The sales in this area would have increased by 0.9% excluding the effects of foreign currency fluctuations.

Europe, Middle East and Africa (Sales up 0.1% to ¥421.7 billion)

In Europe, Middle East and Africa the economic situation remains uncertain due to the prolonged European debt crisis. The Yen showed signs of weakness against the Euro around the end of the year, but for the most part of the fiscal year the Yen remained strong against the Euro. Under such conditions, the sales in Europe, Middle East and Africa increased by 0.1% compared to the previous corresponding period, to \(\frac{4}{2}1.7 \) billion.

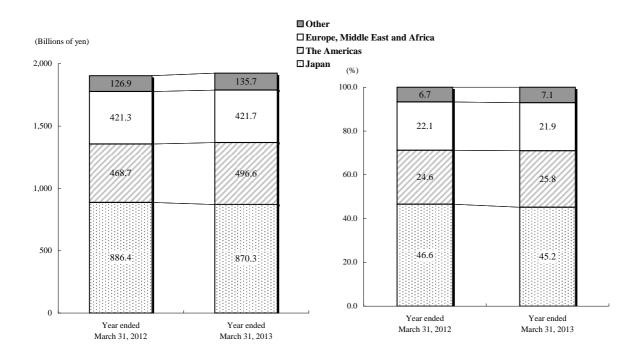

The sales in this area would have increased by 1.9% excluding the effects of foreign currency fluctuations.

Other (Sales up 6.9% to ¥135.7 billion)

The Other segment includes China, South East Asia and Oceania. The emerging markets including China and India achieved strong growth, but there are signs of a slowdown in growth in these countries and the rest of the emerging markets.

Due to the strengthening of the sales force in the emerging markets, Ricoh was able to increase sales in all segments from the previous corresponding period.

As a result, overall sales in Other increased by 6.9% from the previous corresponding period, to \\$135.7 billion. The sales in this area would have increased by 3.2% excluding the effects of foreign currency fluctuations.

*Segment Information

Operating Segment

Imaging & Solutions

The increase in the sales of color PPCs, MFPs, monochrome printers and Network System Solutions have contributed to the overall increase in sales in the Imaging & Solutions segment by 0.9% from the previous corresponding period, to ¥ 1,685.3 billion.

The group-wide activities to streamline costs have contributed to improve our operating income. The decrease in the impairment of long-lived assets and corporate restructuring costs incurred this fiscal year along with goodwill impairment incurred during the previous fiscal year that were not incurred this fiscal year have all contributed to significantly improve our operating income for this fiscal year to ¥137.9 billion.

Industrial Products

Sales in the Industrial Products segment decreased by 5.2%, as compared to the previous corresponding period, to ¥97.4 billion. Sales of semiconductor devices and electronic components decreased as compared to the previous corresponding period.

As a result, operating loss in the Industrial Products segment amounted to \(\xi\)0.8 billion (operating loss was \(\xi\)1.6 billion for the previous corresponding period).

Other

Sales in the Other segment increased by 8.7%, as compared to the previous corresponding period, to ¥146.0 billion. The acquisition of Pentax Ricoh Imaging Co., Ltd., which was acquired in the second half of FY11, has contributed to the increase in sales of our digital camera products. However, the additional expenses incurred relating to new business affected our overall performance in this segment, resulting in an operating loss of ¥5.2 billion (operating loss ¥4.7 billion for the previous corresponding period).

| | | | (Billions of yen) |

Geographic Segment

Japan

Although there are increased demand relating to the recovery and restoration of the areas affected by the Great East Japan Earthquake, along with the weakening Yen and increase of stock prices during the latter part of the fiscal year, the overall economic outlook still remains unpredictable. Under such condition, overall sales in Japan decreased by 1.0% from the previous corresponding period, to \$1,262.3 billion. The group-wide activities to streamline costs and the reduction in restructuring costs have contributed to improve our operating income for this fiscal year to \$26.9 billion.

The Americas

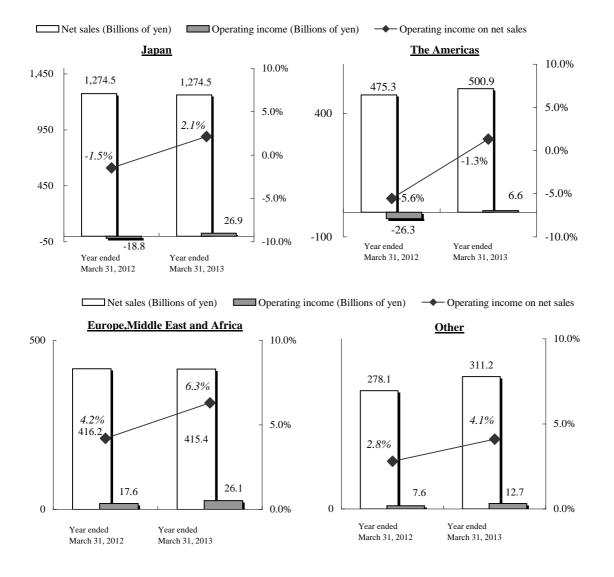

The weakening of the Yen against foreign currencies during the latter part of the fiscal year have contributed to increase overall sales in the Americas segment by 5.4% as compared to the previous corresponding period, to ¥500.9 billion. The decrease in impairment of long-lived assets along with goodwill impairment incurred during the previous fiscal year that were not incurred this fiscal year have contributed to significantly improve our operating income to ¥6.6 billion.

Europe, Middle East and Africa

The continued business recession throughout Europe, and the strong Yen against the Euro for most part of the fiscal year have affected our sales in this segment. The overall sales in this segment decreased by 0.2%, from the previous corresponding period to \\ \text{\text{\text{\text{415.4}}}} billion. Operating income increased by 48.1% from the previous corresponding period, to \\ \text{\tex{

<u>Other</u>

By strengthening the sales structure in the emerging market, overall sales in Other segment increased by 11.9% from the previous corresponding period, to ¥311.2 billion. Operating income increased by 66.1% from the previous corresponding period, to ¥12.7 billion.

*Forecast for the coming fiscal year

Economic projections and Ricoh Group's strategies for fiscal year 2013

From a global perspective, the U.S. economy is showing signs of a modest recovery and expectations for growth in the domestic economy are arising from the economic recovery plans by the new cabinet and the Bank of Japan. However, the overall economic outlook continues to remain unpredictable with the prolonged European debt crisis and the slowdown in growth occurring in the emerging markets.

We believe the various restructuring activities implemented throughout the Ricoh Group will contribute to our continued growth in the future. These activities will be continually implemented to strengthen our management efficiency.

Our performance forecast for fiscal year ending March 31, 2014 is as follows:

Exchange Rate Assumptions for the full year ending March 31, 2014

US\$ 1 = \$95.00 (\$83.06 in previous fiscal year) EURO 1 = \$125.00 (\$107.08 in previous fiscal year)

(Billions of yen)

| Net income attributable to Ricoh Company, Ltd. | 32.4 | 80.0 | 146.8% |

Notes:

^{*} Ricoh bases the forecast estimates for the year ending March 31, 2014 above upon information currently available to management, which involves risks and uncertainties that could cause actual results to differ materially from those projected.

(2) Financial Position

A) Assets, Liabilities, and Equity at Year-End

| A) Assets, Liabilities, and Equity at Tear-End | | | (Billions of yen) |
|--|----------------|----------------|-------------------|
| | March 31, 2012 | March 31, 2013 | Change |
| Total Assets | 2,289.3 | 2,360.6 | 71.3 |
| Total Equity | 879.0 | 958.6 | 79.6 |
| Ricoh Company, Ltd. shareholders' equity | 822.7 | 897.9 | 75.2 |
| Ricoh Company, Ltd. shareholders' equity ratio (%) | 35.9% | 38.0% | 2.1point |

For Assets, cash and time deposits have decreased from the end of the previous fiscal year. In addition, the weakening of the Yen against foreign currencies during the end of the fiscal year has contributed to the increase in our assets held in foreign currencies. As a result, total assets increased by ¥71.3 billion; to ¥2,360.6 billion.

For Liabilities, repayments of debt have contributed to the decrease in the total amount of interest-bearing debt. As a result, total liabilities decreased by ¥8.3 billion; to ¥1,402.0 billion.

For Total Equity, the accumulated other comprehensive income increased due primarily to the fluctuation of cumulative translation adjustments reflecting exchange fluctuation from the end of the previous period. As a result, Total Equity increased by \$79.6 billion from the end of the previous fiscal year; to \$958.6 billion.

| B) Cash Flows | | | (Billions of yen) |
|--|----------------|----------------|-------------------|
| | Year ended | Year ended | Change |
| | March 31, 2012 | March 31, 2013 | |
| Cash flows from operating activities | 11.2 | 124.5 | 113.3 |
| Cash flows from investing activities | -112.4 | -106.4 | 5.9 |
| Cash flows from financing activities | 87.8 | -64.3 | -152.1 |
| Cash and Cash Equivalents at end of period | 156.2 | 117.0 | -39.1 |

Net cash provided by operating activities increased by ¥113.3 billion from the previous corresponding period, to ¥124.5 billion due primarily to the increase in net income and decrease in inventory.

Even though purchases of fixed assets increased, the acquisition cost incurred in the previous fiscal year affected our overall net cash used in investing activities. The net cash used in investing activities decreased by ¥5.9 billion from the previous corresponding period; to ¥106.4 billion.

As a result, free cash inflows generated by operating and investing activities amounted to ¥18.0 billion while free cash flow was a negative ¥ 101.2 billion in the previous corresponding period.

Net cash used in financing activities in this period amounted to \$64.3 billion due primarily to decrease in interest-bearing debt.

As a result of the above, cash and cash equivalents as of the end of this fiscal year decreased by ¥39.1 billion from the end of the previous corresponding period, to ¥117.0 billion.

C) Cash Flow Indices

| | Year ended |
|---|----------------|----------------|----------------|----------------|----------------|
| | March 31, 2009 | March 31, 2010 | March 31, 2011 | March 31, 2012 | March 31, 2013 |
| Total Equity / Total assets | 38.8% | 40.8% | 41.0% | 35.9% | 38.0% |
| Market capitalization / Total assets | 33.6% | 44.4% | 47.0% | 25.5% | 30.8% |
| Interest bearing debt / Operating cash flow | 8.9 | 3.6 | 5.3 | 66.2 | 5.6 |
| Operating cash flow / Interest expense | 14.9 | 23.4 | 15.1 | 1.6 | 16.9 |

Notes:

- i. All indices are calculated based on consolidated data.
- ii. Market capitalization equals the stock price at the end of fiscal year multiplied by the number of shares outstanding at the end of fiscal year.
- iii. Operating cash flows is shown in consolidated statement of cash flow. Interest bearing debt includes all debt in which a fee is charged for the liability.
- iv.Indices of Year ended March31, 2009 and 2010 are not based on the figures retrospectively adjusted.

(3) Dividend Policy

Ricoh endeavors to ensure that policies are regularly updated to take the dividend payout ratio into consideration in the payment of dividends, while at the same time increasing retained earnings for the enhancement of corporate structure and for new business generation. Furthermore, these retained earnings will be used both in the reinforcement of core businesses and for investment in new fields with both medium-term and long-term perspectives.

Since we have achieved profit for this fiscal year, the total dividend per share for the fiscal year ended March 31, 2013 will be \\ \times 4.00 higher than the previous fiscal year, to \\ \times 29.00 and for the fiscal year ending March 31, 2014 will be \\ \times 33.00 respectively.

(4) Risk Factors

Risks that may affect Ricoh's financial results and financial position are listed below, but are not limited to them. Ricoh's business may in the future also be affected by other risks that are currently unknown or that are not currently considered significant or material.

- -Ability to respond to rapid technological changes in the document imaging and management industry
- -Highly competitive markets
- -The risks of international operations and the risks of overseas expansion
- -Economic outlooks in major markets
- -Foreign exchange fluctuations
- -Crude oil price fluctuations
- -Government regulation that can limit its activities or increase its cost of operations
- -Internal control evaluations and attestation over financial reporting under section 404 of the Sarbanes-Oxley Act of 2002
- -Dependence on protecting its intellectual property rights
- -Dependence on securing and retaining specially skilled personnel
- -Increase of employee benefit obligations
- -Environmental laws and regulations
- -Risks associated with Ricoh's equipment financing business
- -Product liability claims that could significantly affect its financial condition
- -Alliances with other entities
- -Risks associated with divulging of information
- -Catastrophic disaster, information technology problems or infectious diseases
- -Fluctuations in a state of electricity supply

2. Group Position

The Ricoh Group comprises 220 subsidiaries and 7 affiliates as of March 31, 2013.

Their development, manufacturing, sales, and service activities center on Imaging & Solutions, Industrial Products, and Other.

Ricoh Company, Ltd., a parent company, heads development. The parent company and subsidiaries or affiliates maintain an integrated domestic and international manufacturing structure. Below, we have listed our main product areas and the positions of key subsidiaries and affiliates.

<Imaging & Solutions>

In this business category, Ricoh provides products and systems that support the enhancement of the office productivity of customers. Major products include:

Digital/analog copiers, MFPs (multifunctional printers), laser printers, facsimile machines, and digital duplicators. Ricoh also provides solution systems including personal computers and servers, utilizing its information technology. Another business Ricoh also provides are support, service, and related supplies, as well as support and service including IT environment setup and network administration.

3. Management policy

(1) Basic Management Policy

Ricoh Group aims "To be the most trusted brand with irresistible appeal in the global market.", and makes its missions "to be committed to providing excellence to improve the quality of living" and "to save the precious earth and fulfill its responsibilities for creating sustainable society". To these ends, we are providing innovative products and services to all customers who handle information at work in offices and in their lives out of the office, based on the Ricoh brand benefits of "Harmonize with the environment", "Simplify your life and work", and "Support knowledge management".

(2) Medium and Long Term Management Strategy

The business environment surrounding the Ricoh Group has drastically changed in the past several years and we are currently at a turning point for our core Imaging & Solutions business.

In developed countries, the demands for copiers and multi-functional products have become stagnant. More information is processed in the office environment than ever before, but the increase in the information communicated is handled more through the internet by devices such as smart phones and tablet PCs. This has increased the variations in the way we print. Moreover, after the global financial crisis, customers are becoming more cost conscious and a major shift in attitudes is setting forth a new era in which people get more value by owning less property. One example is the increasing trend to move towards cloud computing. In other words, customers value are shifting from "owing products" to "using services."

Accelerated mobile device and cloud computing usage and paper use trends, indications for changes in working style. The measure of customer satisfaction also is changing. Customers only want to be charged for a successful result. Therefore, we understand that a simple proposal on product features and prices will not be sufficient for meeting the demands of our customers.

The Ricoh Group has launched the 17th Mid-Term Management Plan (implemented from fiscal 2012 to 2014) that defines "business creation and integration" and "establishment of highly efficient management" as its two basic strategies to adapt to these changes.

For "business creation and integration", aiming for "regeneration", we are implementing measures to reinforce the earning power through core businesses, to create new profit models in current core businesses and to accelerate development for new growth businesses.

With regard to the "establishment of highly efficient management", we are reconstructing our corporate systems in order to build an organization that can maintain accelerated business growth while properly responding to any changes in the business environment. Also in order to improve resource efficiency, we are reviewing our business processes and our allocation of human resources. We are also conducting a full analysis of all business activities, and advancing structural reform.

The status of achievement for this fiscal year on our core strategies are as follows:

Business Creation and Integration

In the Imaging & Solutions segment, we have introduced a full line-up of products that will contribute to the increase in productivity and reduction of total cost of ownership (TCO) for our customers.

With regards to our monochrome multifunction products, we have introduced MP 9002/7502/6002/6002GP series. These products are created using electric furnace steel sheets that are made of 100% steel scrap. This has contributed to reduce the consumption of new resources in our office equipments.

Additionally, we have introduced a full line-up of reconditioned multifunction products, which are comprised of MF C4000RC SRF/MF C2800RC SRF color line-up and MF 7501RC/6001RC/5000RC/4000RC/3350RC/ 2550RC series monochrome line-up. These products are built using mainly reusable parts and have contributed to a large reduction in the level of CO2 during the manufacturing process.

By introducing these new products that have achieved improved environmental performance and productivity, we were able to obtain high market share for multifunction products.

As for printers, we have introduced a complete new lineup of products, which are SP C831/C831M/C830/C830M/ C731/C731M/C730/C730M/C730L color printers and SP 8300/8300M monochrome printers. These products are equipped with a user friendly 4.3 inch full color LCD touch panel, which allows for improved operation ability. Furthermore, features such as printing from mobile devices have been improved by connecting to a cloud computing environment. In addition to this, we have also introduced our GELJET SG 7100 printer and the multi-function GELJET SG 3100SF. These compact models offers improved first print output, enhanced security features that will fit the needs of various industries and operations. Furthermore, these compact models can be used as a desktop machine in the office to achieve improved productivity and reduction of TCO.

With regard to our other offerings, we have introduced six new projection systems (twelve models), including our desk edge / short throw projectors PJ WX3340N and PJ WX4240N and the Interactive Whiteboard D5500. The Interactive Whiteboard D5500 allows the user to write directly onto the display and allow for improved data and information sharing across the network. By offering the best mix of our innovative products, we have been able to help assist our customers in changing their work style to improve efficiency within their organization.

We expanded Managed Document Services (MDS)* and by assisting customers with their overall IT service needs, such as taking over time-consuming tasks, ensuring high network uptime and security, and resolution of various IT issues. Furthermore, by improving overall operations with the use of fewer resources, we have been able to achieve improved revenue growth in this market.

*Managed Document Services (MDS)

MDS is a service intended to design, construct, maintain and optimize a highly efficient information infrastructure. Under MDS, we work to evaluate and understand each customer's unique needs from document creation, utilization to storage and to provide them with a solution for effective management of their entire document environment.

In the emerging markets, we continue to provide a strong lineup of products such as our A4 multi-function products along with streamlining our development and manufacturing functions to further accelerate reduction in our production costs. We have achieved high market share due to the strengthening of our sales channels in Asia.

With regards to new business development, we have expanded technological development and products in our industrial and consumer areas in order to provide added-value to our customers.

In the Industrial products segment, we have continued our development of advanced devices, modules and materials based on our core optical and thermal technology. Under such development, we introduced a re-writable hybrid media that allows for images made chemically to appear or disappear through controlled application of heat. Furthermore, we have introduced a line-up of five Factory Automation (FA) cameras and fourteen lenses that can be used in manufacturing lines for inspection, pattern matching, and alignment. These products have contributed to the increased productivity and reduction of costs in our customers manufacturing facilities.

With regards to our thermal media business, we are continuing to take steps to increase our presence in the global market, especially in the emerging market. In order to gain a foothold into this market, we have established a subsidiary in India.

As for the Consumer segment, we continue to strengthen our product lineup with the introduction of our digital compact interchangeable lens SLR camera the "PENTAX Q10" and our top of the line K series "PENTAX K-5 II" camera.

Establish Highly Effective Management

In order to achieve further growth and stable performance under the severe economic environment, the Ricoh Group has implemented various initiatives to restructuring. This includes initiatives such as drastically reducing expenses, streamlining overlapping operations and shift of personnel to growth areas. Furthermore, to enhance the global competitiveness of our engineering and manufacturing functions, we have consolidated part of our engineering and manufacturing resources relating to imaging products that were previously dispersed among Ricoh and several manufacturing subsidiaries in Japan into two subsidiaries, Ricoh Technologies and Ricoh Industries, which were established on April 1, 2013.

(3) Issues to Face

The Ricoh Group has not only taken various steps to cope with the worldwide financial meltdown, the Thailand flooding, the catastrophic earthquake and tsunami in Japan and huge shift ICT technology, but has implemented various initiatives to build a strong and stable management system for growth. This coming fiscal year 2013 will be an important year for the Ricoh Group in developing a market for further growth. To achieve this growth, we have set forth and will implement the following four core action plans.

I .Thoroughly reinforce the earning power through core businesses

In regards to our core business in the Office Imaging segment, we will continue to win over competition and increase market share by improving the features of our products at competitive prices, along with providing quicker innovative solutions to our customers. Furthermore, by increasing the efficiency of our development, manufacturing and sales operations, we will be able to increase our profitability.

Additionally, in the emerging markets with continued growth, we will increase profit through expansion of sales channels along with increasing sales through the various IT services companies acquired in the past several years. Furthermore, products and services will be developed upon the features and prices demanded in the respective markets. In addition to China, India and others, we will continue to establish our presence in markets or countries in which we can expect strong growth.

As for our Production Printing business, we will continue to enhance our product lineup. we can expect an increase in revenue from the increased print volume achieved from the sale of these products. Furthermore, we will develop business fields for commercial printing.

II . Create new profit models in current core businesses

We will constantly look to provide solutions to a wider range of issues surrounding our customers to establish an additional growth model to our existing multi-function and printer business. We will further enhance our MDS and IT Services along with strengthening our solutions for enhanced communication such as our projection system, video conference system and our interactive whiteboard solution. Additionally, by providing improved connectivity of our multi-function products and printers to smart phones and tablet PCs, we can offer more innovative work style solutions to our customers.

III. Accelerate development for new growth businesses

In order for the Ricoh Group to take advantage of new business opportunities, we will continue to provide the market with innovative optical, image processing and environmental technology solutions. Especially in the area of optical systems in our Industrial Products segment, we will enhance our applied technology to develop and market new devices and modules. Furthermore, for our consumer segment, especially surrounding our digital SLR cameras, we will continue to strengthen our products and sales network to solidify our presence in this market. Moreover, to maintain long-term growth, we will continue to improve and strengthen the process of searching and developing for profitable business opportunities in the future.

IV. Improve resource efficiency

We will increase overall business efficiency to maximize the value of our products and services that can be generated through the resources injected. We will continue to place effort into establishing a corporate culture that will value employees in all areas (development, manufacturing, sales and headquarters, etc.) whom have a mindset for working to earn even greater trust and confidence from its customers as a reliable partner.

For corporations to be sustainable for the future, they must always contribute to the welfare of mankind, the development of society and the conservation of earth's environment. For the Ricoh Group to continue to grow and to be admired by society, we will continue to increase corporate value in respect to the society, environment and the economy. As part of these efforts, in April 2012, the Ricoh Group introduced a new global brand tagline "imagine. change." to express the concept that collective imagination can pave the way for change into the future.

With this new corporate message, the Ricoh Group will continue its concerted efforts to drive innovation to a broader extent than customers' expectations, aiming to remain their most valued and trusted business partner.

4. Consolidated Financial Statements

(1) Consolidated Balance Sheets

(March 31, 2012 and 2013)

| (March 31, 2012 and 2013) | | | 0.531 |
|---|----------------|----------------|---------------------------------------|
| Assets | 3.5 1.21.2012 | 15 1 21 2012 | (Millions of yen) |

(6) NOTE FOR GOING CONCERN ASSUMPTION

Not applicable.

(7) Significant Accounting Policies (Consolidated)

A) Changes in the scale of consolidation and the application of the equity method from April 1, 2012 to March 31, Consolidated subsidiaries:

- 8 Additions
- 10 Removals

Companies accounted for by the equity method:

- 1 Additions
- 1 Removals

B) Consolidated Accounting Policies (Summary)

a. Principles of Consolidation

The consolidated financial statements include the accounts of Ricoh and its consolidated subsidiaries. Investments in 20% to 50% owned companies when the Company has the ability to exercise significant influence are accounted for on the equity basis. All significant inter-company balances and transactions have been eliminated in consolidation.

b. Securities

In conformity with FASB Accounting Standards Codification (ASC) 320, "Debt and Equity Securities", securities are mainly classified as available-for-sale securities. Available-for-sale securities are reported at fair value with unrealized gains and losses, net of related taxes, excluded from earnings and reported in accumulated other comprehensive income (loss).

The cost of the securities sold is computed based on the average cost of each security held at the time of sale.

c. Inventories

Inventories are mainly stated at the lower of average cost or market. Inventory costs include raw materials, labor and manufacturing overheads.

d. Property, Plant and Equipment

Depreciation of property, plant and equipment is computed principally by using the straight-line depreciation method. Certain leased buildings, machinery and equipment are accounted for as capital leases in conformity with ASC 840 "Accounting for Leases".

e. Goodwill and Other Intangible Assets

In conformity with ASC 350, "Goodwill and Other Intangible Assets", Goodwill and intangible asset determined to have an indefinite useful life are not amortized. ASC 350 requires annual impairment testing thereof.

f. Pension and Retirement Allowances Plans

The measurement of pension costs and liabilities is determined in accordance with ASC 715, "Retirement Benefits".

g. Use of Estimates

Management of the Company has made a number of estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, including impairment losses of long-lived assets and the disclosures of fair value of financial instruments and contingent assets and liabilities, to prepare these financial statements in conformity with accounting principles generally accepted in the United States of America. Actual results could differ from those

(8) Changes in Significant Accounting Policies (Consolidated)

Changes in Accounting Method

Ricoh adopted Accounting Standards Codification TM 220 as from April 1 2012, which was revised based on Accounting Standards Update (ASU) 2011-05 and 2011-12. ASU 2011-05 requires an entity to present net income and other comprehensive income either in a single continuous statement or in two separate, but consecutive, statements. This ASU also requires separate presentation in both net income and other comprehensive income of reclassification adjustments for items that are reclassified from other comprehensive income to net income. ASU 2011-12 defers the effective date for only the presentation requirements related to reclassifications in ASU 2011-05.

Ricoh has presented this requirement in two separate, but consecutive statements. Management believes this adoption has not made a material effect on Ricoh's consolidated financial statements.

The Company and its most of subsidiaries in Japan changed depreciation method of property, plant and equipment from declining-balance method to straight-line method for the period beginning after April 1, 2012. Management believes that straight-line method is appropriate in line with future use of property, plant and equipment.

Management believes this change has not made a material effect on Ricoh's consolidated financial statements.

Significant Accounting Policies (Non-consolidated)

1. Accounting policy for assets

- (1) Inventories are stated at cost caused by profitability of inventories has declined.
- (2) Securities

Securities of subsidiaries and affiliates are stated at moving average cost.

Other securities

Marketable securities are marked to market based on the market price at the end of the term and other factors (accounting for all valuation differences with the full capital injection method; the cost of securities sold is valued at moving average cost.)

Non-marketable securities are stated at cost based on the moving average method.

(3) Derivatives are stated at market value.

2. Depreciation of fixed assets

(1) Tangible fixed assets

Tangible fixed assets are depreciated using the straight-line depreciation method.

The depreciation period for our key tangible fixed assets are as follows:

Buildings: Five to fifty years

Machinery and equipment: Four to twelve years

(Change in accounting policy)

Ricoh has changed the depreciation method for tangible fixed assets from the declining balance method to the straight-line depreciation method beginning this fiscal year and will use this method going forward. Ricoh deemed the change preferable due to changes in our asset portfolio caused by the increase in business investment relating to new manufacturing technologies in which the straight-line method will more accurately reflect the pattern of usage and the expected benefits of such assets. The change to straight-line depreciation has no material affect on our individual financial statements for FY2012.

(2) Intangible fixed assets

Ricoh uses straight-line depreciation for intangible fixed assets.

With software for sale in the marketplace, however, the Company records the larger of a depreciation based on projected sales profits or a uniform depreciation based on a projected effective sales period for the balance. The initially projected effective

sale term is three years. With software for internal use, the company uses straight-line depreciation on a usable period of five to ten years.

(3) Leased assets

Finance leases for which ownership does not transfer to lessees;

Ricoh uses straight-line depreciation for Leased assets regarding Lease-term as useful life.

In addition, Ricoh uses accounting for in a similar manner with ordinary sale and purchase transactions, regard to Lease contracts on before April 1.2008.

3. Basis for provision of reserves

(1) Allowance for Doubtful Accounts

The allowance for doubtful accounts is provided to cover possible losses from bad debts and represents possible individual doubtful accounts based on historical default rates and the potential for irrecoverableness.

(2) Reserve for Accrued Bonuses

The reserve for accrued bonuses is provided by estimating the amount of bonuses payable to employees for the current financial year under our corporate rules for calculating such bonus payment.

(3) Reserve for Accrued Directors' Bonuses

The reserve for accrued bonuses is provided by estimating the amount of bonuses payable to Directors for the current of financial year.

(4) Warranty reserve

To cover product after-sales service expenses, the Company calculates the product warranty reserve based on projected service costs during warranty terms.

(5) Reserve for Retirement Benefit Obligations

To cover projected employee benefits, the Company records the estimated obligations at the end of current fiscal year based on projected year-end benefit obligations and plan assets. The company uses straight-line depreciation for actuarial gains or losses and for prior service costs over averaged remaining employment term. (15years)

4. Hedge accounting

(1) Hedge Accounting Methods

With interest swaps, RICOH adopts exceptional treatments if it meets necessary requirements.

(2) Hedging Instruments and Targets

Targets: Interests of long-term borrowings

Hedging Instruments: Interest swaps

(3) Hedging policies

In keeping with its internal Market Risk Management Rules, Ricoh uses derivatives to manage the exposure of its assets and liabilities to market fluctuations.

(4) Hedge Effectiveness

Ricoh assesses the effectiveness of hedges by analyzing the ratios of the total market fluctuations of hedged targets and instruments.

Ricoh omits assessment of effectiveness regarding interest swaps using exceptional treatments.

5. Consumption taxes

Consumption taxes are excluded from revenues and expenses. The refundable consumption tax at the end of the year is included in "Other current assets", after offsetting suspense payments and receipt of consumption taxes and etc.

6. The consolidated tax system

The consolidated tax system is applied from fiscal year 2009.

* Each category includes the following product line:

Office Imaging MFPs (multifunctional printers), copiers, laser printers, digital duplicators, facsimile, scanners,

related parts & supplies, services, support and software
Cut sheet printer, continuous feed printer, related parts & supplies, services, support and software Production Printing Cut since prime, commons eccu primer, related parts exapples, so vives, support and Personal computers, servers, network equipment, related services, support and software Thermal media, optical equipment, semiconductor devices and electronic components Network System Solutions Industrial Products

Product Category in Imaging & Solutions was reclassified as Office Imaging, Production Printing and Network System Solutions in this fiscal year (Imaging Solutions and Network System Solutions as previous category).

Certain products were reclassified into Network System Solutions and Industrial Products from Other in this fiscal year.

The above reclassification was made to the prior year's figures.

Middle East and Africa were reclassified from Other into Europe in this fiscal year.

The reclassification was made to the prior year's figures.

^{*}Product Category and product lines included in Product Category was changed in this fiscal year.

^{*}Geographic area was changed in this fiscal year.
