## Qualitative Information on Consolidated Financial Results for the Quarter under Review

## 1. Qualitative Information on Consolidated Business Results

## * Overview of the First Half of Fiscal 2015 (April 1 - September 30, 2015)

Ricoh’s sales for the first half increased by $6.1 \%$ as compared to the previous corresponding period, to $¥ 1,095.1$ billion, mainly due to the increase in sales in both the Imaging \& Solutions and the Industrial Products segment.
During this period, the average exchange rates of Japanese yen against U.S. dollar and Euro were $¥ 121.80$ (down $¥ 18.75$ from previous year) and $¥ 135.13$ (up $¥ 3.81$ from previous year) respectively. Sales would have increased by $0.8 \%$ as compared to the previous corresponding period when excluding the impact of such foreign currency exchange fluctuation.

The Japanese economy continued to maintain its gradual recovery largely fueled by the improvement in corporate profits along with the recovery in the labor market achieved through improvement in corporate profits and recovery on investment in capital expenditures. Under such market conditions, sales in the Industrial Products segment and color MFPs increased, but was offset by the sales decrease in the Imaging \& Solutions segment derived from monochrome MFPs and so on. As a result, the sales in the domestic market decreased by $2.1 \%$ as compared to the previous corresponding period.

As for the overseas market, the U.S. economy continued to show a solid recovery, and the European economy are showing the current recovery. In the emerging markets, China and other developing countries in Asia are showing signs of an economic slowdown. Even under such market conditions, the significant increase in sales of Production Printing and Network System Solutions along with the weakening trend of the yen against U.S. dollar during the quarter contributed to the overall increase in sales overseas. As for overseas sales by region, sales in the Americas increased by $16.0 \%$ (a decrease of $1.8 \%$ excluding foreign currency exchange fluctuation), sales in Europe, Middle East and Africa increased by $2.2 \%$ (an increase of $5.0 \%$ excluding foreign currency exchange fluctuation) and sales in Other region, which includes China, South East Asia and Oceania, increased by $16.2 \%$ (an increase of $8.8 \%$, excluding foreign currency exchange fluctuation). As a result, sales in the overseas market increased by $10.7 \%$ as compared to the previous corresponding period. Excluding effects of foreign currency fluctuations, sales in overseas would have increased by $2.4 \%$ as compared to the previous corresponding period.

Gross profit increased by $0.1 \%$ as compared to the previous corresponding period, to $¥ 446.7$ billion, due to increase in sales and the weakening of the yen.

Selling, general and administrative expenses have increased by $4.0 \%$ as compared to the previous corresponding period, to $¥ 408.1$ billion, due primarily to the weakening of the yen against U.S. dollar and business acquisitions.

Other income includes gains on sales of idle places and offices as a result of group-wide activities to streamline costs such as reorganization and integration of domestic sales bases in addition to other revenue.

As a result, operating profit increased by $0.4 \%$ as compared to the previous corresponding period, to $¥ 56.1$ billion.
As for finance income and costs, foreign exchange loss increased as compared to the previous corresponding period.
Profit before income tax expenses decreased by $3.6 \%$ as compared to the previous corresponding period, to $¥ 53.5$ billion.
As a result, profit attributable to owners of the parent increased by $1.7 \%$ as compared to the previous corresponding period, to $¥ 34.5$ billion.
Although profit increased, comprehensive income decreased significantly as compared to the previous corresponding period, to $¥ 37.5$ billion due to decrease in cumulative translation adjustments.

## * Review by Business Segment

## Imaging \& Solutions

Office Imaging
Sales in this category increased by $3.4 \%$ as compared to the previous corresponding period, to $¥ 711.3$ billion. On top of the impact of the weakening of the yen, the sales of color MFP models were favorable in the domestic market as well as overseas.

## Production Printing

Sales in this category increased by $21.6 \%$ as compared to the previous corresponding period, to $¥ 108.1$ billion. The increase was achieved through increase in sales of color cut sheet printers, along with the increase in sales of related parts \& supplies and services in both the domestic and overseas market especially in Europe.

Network System Solutions
Sales in this category increased by $14.6 \%$ as compared to the previous corresponding period, to $¥ 158.5$ billion. For domestic market, even though the sales decreased due to the rebound from the special demand for personal computers, sales in security products increased. For overseas market, the synergy effect from business acquisition and IT services in India had contributed to overall sales increase.

As a result of the above, overall sales in the Imaging \& Solutions segment increased by $6.9 \%$ as compared to the previous corresponding period, to $¥ 978.0$ billion. Operating profit decreased by $3.6 \%$ as compared to the previous corresponding period, to $¥ 78.6$ billion mainly due to increase in selling, general and administrative expenses as a result of weakening of yen, which offset increase in sales.

## Industrial Products

Sales in the Industrial Products segment increased by $11.1 \%$ as compared to the previous corresponding period, to $¥ 63.4$ billion due to increase in sales in the Thermal and Inkjet business. As a result, operating profit in the Industrial Product segment increased significantly as compared to the previous corresponding period, to $¥ 6.1$ billion.

## Other

Sales in the Other segment decreased by $11.4 \%$ as compared to the previous corresponding period, to $¥ 53.7$ billion due to sale of clothing business and so on.
