* Overview of the Third Quarter of Fiscal 2018 (April 1 - December 31, 2018)
}

The fiscal year ending March 31, 2019 is the second year of 19th Mid-Term Management Plan in which we make significant progress in our "RICOH Ignite" growth strategy. We will improve the earning power of our Office Printing segment and expand growth areas which can serve as the pillars of new business. In addition, all employees will work as one to further implement thorough work process reforms and business selection, continuing to carry out and enhance our measures for building a solid company's essential character.
During the third quarter, sales in the Office Service segment placed as growth areas continued to increase gradually. On the other hand, sales in the Office Printing segment decreased due to refining of business meetings based on the profit-oriented marketing strategy and inventory adjustment before launching new products. In addition, sales also decreased in accordance with the change of past consolidated subsidiaries related to semiconductor and logistic to equity affiliates and exclusion of Ricoh India Limited from the scope of consolidation. As a result, sales for the third quarter decreased by $1.8 \%$, as compared to the previous corresponding period, to $¥ 1,489.4$ billion.
During this period, the average exchange rates of Japanese yen against U.S. dollar and Euro were $¥ 111.19$ (down $¥ 0.53$ from previous year) and $¥ 129.54$ (up $¥ 1.04$ from previous year) respectively. Sales increased by $0.7 \%$ as compared to the previous corresponding period when excluding the impact of such foreign currency exchange fluctuations, the change of past consolidated subsidiaries related to semiconductor and logistic to equity affiliates and exclusion of Ricoh India Limited from the scope of consolidation.

The Japanese economy continued to show some signs of a gradual recovery. Under such market conditions, sales mainly in the Office Service segment remained solid due to sales expansion of IT equipment such as PCs and servers and business process solutions \& services with expansion of demand for IT equipment caused by promotion of reforms in the way of working and migration to Windows 10 . As a result, sales in the domestic market increased by $1.5 \%$ as compared to the previous corresponding period

As for the overseas market, while the U.S. economy continued to show a gradual recovery, the European economy's uncertainty increased with respect to the Brexit or concerns about major political bureaus and financial risk in major countries. While there was a concern in China in relation to the trade friction issues with the U.S., there were some signs of an economic recovery in other developing countries. Under such market conditions, in the Americas, Europe, Middle East and Africa, sales in the Office Service segment increased due to sales expansion of service related to document and IT services. In addition, sales in the Industrial Printing segment placed as growth areas and Thermal Media segment increased. On the other hand, sales in the Office Printing segment decreased due to refining of business meetings based on the profit-oriented marketing strategy and inventory adjustment before launching new products. As a result, sales in Americas decreased by $2.7 \%$ (a decrease of $2.2 \%$ excluding foreign currency exchange fluctuations) and sales in Europe, Middle East and Africa decreased by $2.1 \%$ (a decrease of $2.9 \%$ excluding foreign currency exchange fluctuations).
In Other regions, which includes China, South East Asia and Oceania, sales in the Office Printing segment decreased due to inventory adjustment before launching new products and sales in the Office Service segment decreased due to exclusion of Ricoh India Limited from the scope of consolidation. As a result, sales in Other regions, which includes China, South East Asia and Oceania, decreased by $10.4 \%$ (a decrease of $9.7 \%$ excluding foreign currency exchange fluctuations.)
As a result, sales in the overseas market decreased by $3.8 \%$ as compared to the previous corresponding period. Excluding effects of foreign currency fluctuations, sales in overseas would have decreased by $3.7 \%$ as compared to the previous corresponding period.

Gross profit decreased by $3.2 \%$, as compared to the previous corresponding period, to $¥ 575.0$ billion, mainly due to a sales decrease in the Office Printing segment and the change of past consolidated subsidiaries related to semiconductor and logistic to equity affiliates and exclusion of Ricoh India Limited from the scope of consolidation.

Selling, general and administrative expenses decreased by $7.0 \%$, as compared to the previous corresponding period, to $¥ 518.9$ billion mainly due to the result of structural reforms conducted with the concerted efforts of all group employees, despite the investment for growth business.

Other income increased as compared to the previous corresponding period mainly due to gain on sales of shares of Ricoh Logistics System Co., Ltd.

As for operating profit, profit expansion of growth business and decrease of cost of sales and selling, general and administrative expenses due to the result of structural reforms exceeded decrease of Sales and Gross profit due to refining of business meetings based on the profit-oriented marketing strategy, the change of past consolidated subsidiaries related to semiconductor and logistic to equity affiliates and exclusion of Ricoh India Limited from the scope of consolidation. As a result, operating profit increased by $64.8 \%$ as compared to the previous corresponding period, to $¥ 79.1$ billion.

As for finance income and costs, losses decreased as compared to the previous corresponding period due to decrease of interest expenses and foreign exchange.

Profit before income tax expenses increased by $78.1 \%$ as compared to the previous corresponding period, to $¥ 76.8$ billion.
As a result, profit attributable to owners of the parent increased by $192.1 \%$ as compared to the previous corresponding period, to $¥ 50.6$ billion.
Comprehensive income decreased by $31.9 \%$, as compared to the previous corresponding period, to $¥ 46.0$ billion due to a decrease of exchange differences on translation of foreign operations.

(5) Notes on premise going concern Not applicable
(6) Changes in significant subsidiaries

Not applicable
(7) Changes in accounting policies

Significant accounting policies which apply in Condensed Consolidated Statement of Financial Position are same as previous fiscal year excepting the table below.

| IFRSs | Title | Summaries of new IFRSs/amendments |
| :--- | :--- | :--- |
| IFRS 9 | Financial instruments | Classification of financial instruments, revisions concerning the measurement and <br> recognition and adoption of provisions with regard to impairment loss based on the <br> expected credit loss model. |
| IFRS 15 | Revenue from contracts <br> with customers | Presentation of a unified framework applied to accounting treatment related to <br> revenue recognition |

## 1. Adoption of IFRS 9 'Financial Instruments'

Ricoh implemented IFRS 9 'Financial Instruments' as of April 1, 2018. Ricoh applied this standard in compliance with the transitional provisions, thereby recognizing the cumulative effects of adoption of this standard as an adjustment to the opening balance of retained earnings as at the beginning of the current fiscal year.
Ricoh made an irrevocable election at initial recognition to present subsequent changes in fair value with regards to equity instruments previously classified as available for sale under the prior standard in other comprehensive income in principle, while part of equity instruments previously classified as available for sale under the prior standard were classified as equity instruments measured at fair value through profit and loss. As a result, $¥ 27,856$ million was reclassified from other components of equity to retained earnings as at the beginning of the current fiscal year. Accordingly, the changes caused a decrease by $¥ 27,856$ million in profit for the period as compared to the case where the prior standard would be applied.
In respect of equity instruments measured at fair value through other comprehensive income, changes in fair value are recognized as other comprehensive income. When the fair value significantly declines or the equity instruments are derecognized, accumulated other comprehensive income are reclassified to retained earnings.
Impairment losses are recognized with respect to the financial assets based on the expected credit loss model.
As a result, retained earnings increased by $¥ 661$ million as at the beginning of the current fiscal year. There was no material impact on profit and loss of the third quarter of the current fiscal year from the changes.
2. Adoption of IFRS 15 'Revenue from contracts with customers'

Ricoh implemented IFRS 15 'Revenue from contracts with customers' as of April 1, 2018. Ricoh applied this standard in compliance with the transitional provisions, thereby recognizing the cumulative effects of adoption of this standard as an adjustment to the opening balance of retained earnings as at the beginning of the current fiscal year.
Ricoh recognizes the incremental costs of obtaining a contract with a customer as an asset and amortizes subsequently in accordance with recognition of revenue. As a result, retained earnings increased by $¥ 5,174$ million respectively as at the beginning of the current fiscal year in comparison with the case where the prior standard would be applied. There was no material impact on profit and loss of the third quarter of the current fiscal year from the changes.
