| June 1971     | The Company establishes Ricoh Nederland B.V. (a subsidiary, now known as Ricoh Europe Holdings B.V.) in the Netherlands.  |
| January 1973  | The Company establishes Ricoh Electronics, Inc. (a subsidiary) in the United States.  |
| December 1976 | The Company forms Ricoh Credit Co., Ltd. (an affiliate, now known as Ricoh Leasing Co., Ltd.).  |
| December 1978 | The Company establishes Ricoh Business Machines, Ltd. (a subsidiary, now known as Ricoh Hong Kong Ltd.).  |
| March 1981    | The Company builds the Ricoh Electronics Development Center at the Ikeda plant to develop and manufacture electronic devices.   |
| May 1982      | The Company establishes sensitized paper production facilities in Sakai, Fukui (now known as the Fukui plant).  |
| December 1983 | The Company establishes Ricoh UK Products Ltd. (a subsidiary).  |
| October 1985  | The Company builds a copier manufacturing plant in Gotemba, Shizuoka which takes over some of production from Atsugi plant.   |
| April 1986    | The Company opens a research and development ("R&D") facility in Yokohama, Kanagawa (now known as the Yokohama Nakamachidai office) in commemoration of the Company's 50 <sup>th</sup> anniversary, to which it transfers some of its R&D operations from the Ohmori plant. |

| April 1987     | The Company establishes Ricoh Industrie France S.A. (a subsidiary, now known as Ricoh Industrie France S.A.S.).  |
|----------------|--|
| January 1991   | The Company establishes Ricoh Asia Industry (Shenzhen) Ltd. (a subsidiary) in China.   |
| March 1995     | Ricoh Corporation acquires Savin Corporation, an American office equipment sales company.  |
| September 1995 | The Company acquires Gestetner Holdings PLC (now known as Ricoh Europe PLC), a British office equipment sales company.   |
| January 1996   | Ricoh Leasing Co., Ltd. lists its securities on the Tokyo Stock Exchange.  |
| December 1996  | The Company establishes Ricoh Asia Pacific Pte. Ltd. (a subsidiary) in Singapore.  |
| March 1997     | The Company establishes Ricoh Silicon Valley, Inc. (a subsidiary, now known as Ricoh Innovations Corporation) in the United States.  |
| August 1999    | Ricoh Hong Kong Ltd. acquires Inchcape NRG Ltd., a Hong Kong-based office equipment sales company.   |
| January 2001   | Ricoh Corporation acquires Lanier Worldwide, Inc., an American office equipment sales company.   |
| October 2002   | The Company establishes Ricoh China Co., Ltd. (a subsidiary).  |
| April 2003     | Tohoku Ricoh Co., Ltd. becomes a wholly-owned subsidiary of the Company.   |
| October 2004   | The Company acquires Hitachi Printing Solutions, Ltd. in Japan.  |
| August 2005    | The Company opens Ricoh Technology Center in Ebina, Kanagawa to integrate its domestic development facilities and offices.   |
| November 2005  | The Company relocates its headquarters to Chuo-ku, Tokyo.  |
| January 2007   | Ricoh Europe B.V. acquires the European operations of Danka Business Systems PLC.  |
| June 2007      | Info Print Solutions Company, LLC, a joint venture company of Ricoh and International Business Machines Corporation ("IBM"), commences its operations.   |
| May 2008       | The Company establishes Ricoh Manufacturing (Thailand) Ltd. (a subsidiary) in Thailand.  |
| August 2008    | Ricoh Elemex Corporation becomes a wholly-owned subsidiary of the Company.   |
| October 2008   | Ricoh Americas Corporation acquires all of the outstanding shares of IKON Office Solutions, Inc. ("IKON", now known as Ricoh USA, Inc.), an American office equipment sales and service company. |
| July 2010      | Seven domestic sales subsidiaries and the marketing group of the Company are merged into one domestic sales subsidiary named Ricoh Japan Corporation.  |
| August 2010    | The Company completes the construction of a new building that expands the Ricoh Technology Center located in Ebina, Kanagawa.  |
| October 2011   | The Company acquires the PENTAX imaging systems business from HOYA Corporation (now known as Ricoh Imaging Co., Ltd.).   |
| April 2013     | The Company transfers part of its engineering functions and operations previously performed by the Company and its manufacturing subsidiaries in Japan to Ricoh Technologies Company, Ltd.       |

| April 2013     | The Company transfers part of its production functions and operations previously performed by the Company and its manufacturing subsidiaries in Japan to Ricoh Industry Company, Ltd.   |
|----------------|---|
| July 2014      | Domestic sales and service subsidiaries are merged into Ricoh Japan Corporation.  |
| October 2014   | The Company transfers its direct sales of optical equipment and electronic components divisions previously performed by the Company and its manufacturing subsidiaries in Japan to Ricoh Industrial Solutions Inc.  |
| April 2016     | The Company opens Ricoh Eco Business Development Center in Gotemba, Shizuoka.   |
| November 2017  | The Company establishes Ricoh Manufacturing (China) Ltd.  |
| January 2018   | The Company relocates its headquarters to Ohta-ku, Tokyo.   |
| March 2018     | The Company transfers 80% of the outstanding shares of Ricoh Electronic Devices Co., Ltd. ("Ricoh Electronic Devices Co., Ltd.", now known as Nisshinbo Micro Devices Inc.), to Nisshinbo Holdings Inc. (The Company transferred all shares to Nisshinbo Holdings Inc. in December 2021.) |
| August 2018    | The Company transfers 66.6% (figures below the second decimal place are omitted) of the outstanding shares of Ricoh Logistics System Co., Ltd. ("Ricoh Logistics System", now known as SBS Ricoh Logistics System Co., Ltd.), to SBS Holdings Co., Ltd.                                   |
| April 2020     | The Company transfers approximately 20% of the outstanding shares of Ricoh Leasing Co., Ltd., to Mizuho Leasing Co., Ltd.   |
| April 2022     | The Company moves from the First Section of the Tokyo Stock Exchange to the Prime Market as a result of a review of the Tokyo Stock Exchange market segmentation.   |
| September 2022 | The Company acquires PFU Limited (acquires 80% of outstanding shares of PFU and makes it a consolidated subsidiary).  |

#### 3. DESCRIPTION OF BUSINESS

Ricoh consists of the parent company, Ricoh Company, Ltd., 219 subsidiaries and 21 affiliates as of March 31, 2023.

Ricoh's development, manufacturing, sales and service activities center on the business segments of Digital Services, Digital Products, Graphic Communications, Industrial Solutions and Other.

Ricoh Company, Ltd., the parent company of Ricoh, heads development. The Company and its respective subsidiaries and affiliates maintain an integrated domestic and overseas manufacturing structure.

Ricoh is represented in roughly 200 countries and runs its sales and service activities out of four regional headquarters located in the geographic areas of 1) Japan, 2) the Americas, 3) Europe, the Middle East and Africa and 4) Other, which includes China, South East Asia and Oceania.

Our main product areas and the locations of key subsidiaries and affiliates are listed below.

Ricoh changed Operating Segments from this fiscal year. For details of the changes, please refer to "V. Financial Information – Notes to Consolidated Financial Statements – 5. Operating Segments".

Digital services as a business segment is mainly limited to the office services business and the office printing sales business. This segment does not include all digital services, which Ricoh aims to transform into "a digital services company" that connects workplaces and support worker's creativity. "Digital Services" provided as "a digital services company" is included in all the business segments as well as Digital Services business segment.

#### <Digital Services>

In Digital Services, we sell office imaging equipment such as MFPs and printers, in which we have leading global market shares, and consumables, to our global customer base. We also provide IT-related solutions that support customers' overall workflow reforms and work practice innovations, as well as other services to digitally resolve their management issues and enhance productivity.

## <Digital Products>

In Digital Products, we develop and produce (including on an original equipment manufacturing basis) office MFPs, in which we are the global market leader, as well as printers and other imaging equipment and edge devices that support digital communication.

## <Graphic Communications>

This segment comprises the commercial printing and industrial printing businesses.

Commercial printing business: We provide digital printing-related products and services for high-mix, low-volume printing, mainly to our customers in the printing industry.

Industrial printing business: We manufacture and sell industrial inkjet printers, inkjet ink, and industrial printers for diverse applications. These include building materials, furniture, wallpaper, signage displays, and apparel fabrics.

[Main Subsidiaries and Affiliates in the above three business segments]

Manufacturing

The Americas: Ricoh Electronics, Inc.

Europe: Ricoh UK Products Ltd. and Ricoh Industrie France S.A.S.

Other regions: Shanghai Ricoh Digital Equipment Co., Ltd., Ricoh Manufacturing (China) Ltd. and Ricoh Manufacturing (Thailand) Ltd.

Sales, Service, Support and Other

Japan: Ricoh Japan Corporation and Ricoh IT Solutions Co., Ltd.

The Americas: Ricoh Americas Holdings, Inc., Ricoh Canada Inc., Ricoh USA, Inc., Ricoh Printing Systems America, Inc. and Ricoh South America DC S.A.

Europe: Ricoh Europe Holdings PLC, Ricoh Sverige AB., Ricoh UK Ltd., Ricoh Deutschland GmbH, DocuWare GmbH, Ricoh International B.V., Ricoh Nederland B.V., Ricoh Europe SCM B.V., Ricoh Belgium N.V., Rex-Rotary S.A.S., Ricoh France S.A.S., Ricoh Schweiz AG, Ricoh Italia S.R.L., Mauden S.R.L., NPO Sistemi S.R.L. and Ricoh Espana S.L.U.

Other regions: Ricoh China Co., Ltd., Ricoh Asia Industry Ltd., Ricoh Asia Pacific Operations Ltd., Ricoh Hong Kong Ltd., Ricoh Thailand Ltd., Ricoh Asia Pacific Pte. Ltd., Ricoh Australia Pty, Ltd. and Ricoh New Zealand Ltd.

#### <Industrial Solutions>

This segment encompasses the thermal and industrial products businesses.

Thermal business: We manufacture and sell thermal paper used for food POS labels, barcode labels, shipping labels, and other labels, and thermal transfer ribbons for printing clothing price tags, brand tags, and tickets.

Industrial products business: We provide precision device components and other products that employ optical and image processing technologies.

[Main Subsidiaries and Affiliates]

Manufacturing

Japan: Ricoh Industrial Solutions Co., Ltd. and Ricoh Elemex Corporation

Other regions: Ricoh Electronics, Inc., Ricoh Industrie France S.A.S. and Ricoh Thermal Media (Wuxi)

Co., Ltd.

<Other>

This segment includes PFU and new businesses such as the smart vision.

PFU: PFU provides products and services related to ICT, such as hardware including image scanners and embedded computers, building IT infrastructure, and multi-vendor services in partnership with other companies.

New businesses: We have been expanding new business opportunities in various fields. One is our smart vision business that provides platform business, which brings together our 360° cameras with software and cloud services to digitalize real estate, construction, and civil engineering site work. Other examples include our business with PLAiR, a new plant-derived material that is an alternative to plastic, our biomedical business, which supports drug discovery with iPS differentiated cells and cell chips, and our medical imaging-based healthcare business, which focuses on magnetoencephalography. We are helping to resolve social issues, notably by streamlining inspection work for road surfaces, tunnels, slopes, and other infrastructure, and are creating environmental technologies and businesses. This segment also includes our digital camera-related-business, for which we have solid consumer market demand, and businesses that affiliates are expanding.

## 5. EMPLOYEES

## (1) Consolidated basis

(As of March 31, 2023)

| Segment                | Number of |
|------------------------|-----------|
|                        | employees |
| Digital Services       | 50,841    |
| Digital Products       | 13,003    |
| Graphic Communications | 6,512     |
| Industrial Solutions   | 2,588     |
| Other                  | 5,970     |
| All companies (Shared) | 2,103     |
| Total                  | 81,017    |
|                        | ·         |

(Note) Number of employees represents the number of employed workers, but excludes temporary employees.

## (2) The Company

(As of March 31, 2023)

|                     |             | Average length of service | Average annual salary |
|---------------------|-------------|---------------------------|-----------------------|
| Number of employees | Average age | (Year)                    | (Yen)                 |
| 7,470 (866)         | 45.6        | 20.7                      | 8,387,185             |

| Segment                | Number of |
|------------------------|-----------|
|                        | employees |
| Digital Services       | 784       |
| Digital Products       | 2,646     |
| Graphic Communications | 1,079     |
| Industrial Solutions   | 377       |
| Other                  | 525       |
| All companies (Shared) | 2,059     |
| Total                  | 7,470     |

- (Note) 1. "Number of employees" represents the number of employed workers, and the numbers within brackets indicate the average number of temporary employees over the current fiscal year (converted at 7.5h/day).
  - 2. Temporary employees include contracted staff after retirement and part time employees, but exclude temporary staff who are contracted through staffing agencies, business consignments and contractors.
  - 3. Average annual salary includes bonuses and extra wages.

## (3) Relationship with labor union

A union is organized in the Company and certain subsidiaries. There were no significant labor disputes noted in fiscal year 2022, and the Company believes that it has a good relationship with its employees.

### (4) Diversity indicators

Indicators of diversity for the fiscal year ended March 31, 2023 are as follows.

(i) Disclosure based on the Act on the Promotion of Women's Active Engagement in Professional Life and Act on Childcare Leave, Caregiver Leave, and Other Measures for the Welfare of Workers Caring for Children or Other Family Members

|   | Ratio of female | Female-held | Ratio of male                              | Wage gap between men and women (%) |                                     |   |  |

#### (Notes)

- 1. The ratio of female employees among full-time employees is as of March 31, 2023. The female-held managerial position rate is as of April 1, 2023.
- 2. The female-held managerial position rate and the wage gap between men and women are calculated based on the provisions of the Act on the Promotion of Women's Active Engagement in Professional Life (Act No. 64, 2015), and seconded employees are counted as employees of the company from which they are seconded.
- 3. The rate of male workers taking childcare leave is calculated based on Article 71-4-1 of the Ordinance for Enforcement of the Act on Childcare Leave, Caregiver Leave, and Other Measures for the Welfare of Workers Caring for Children or Other Family Members (Ordinance of the Ministry of Labor No. 25, 1991) in accordance with the provisions of the Act on Childcare Leave, Caregiver Leave, and Other Measures for the Welfare of Workers Caring for Children or Other Family Members (Act No. 76, 1991), and seconded employees are counted as employees of the company from which they are seconded.
- 4. "—" indicates that there are no employees eligible.
- 5. Regarding the wage gap between men and women, treatment is the same for men and women in general, and the differences that currently exist are due to differences in duties, grade, and age structure.

#### (ii) Consolidated basis

|  | Ratio of female                                      |   | Ratio of  | Wage gap between men and women (%) |                                     |   |          |  |
|--|--|---|---|------------------------------------|-------------------------------------|---|----------|--|
|  | employees<br>among full-<br>time<br>employees<br>(%) | Female-held<br>managerial<br>position rate<br>(%) | male<br>employees<br>taking<br>childcare<br>leave (%) | All                                | Of which,<br>full-time<br>employees | Of which,<br>part-time and<br>fixed-term<br>employees | Managers |  |
| The Company and consolidated subsidiaries          | 29.3   | 15.9  |   | 80.9                               | 81.5                                | 93.6  | 88.9     |  |
| The Company and domestic consolidated subsidiaries | 18.7   | 6.7   | 98.2  | 78.1                               | 78.8                                | 83.9  | 94.4     |  |

#### (Notes)

- 1. The ratio of female employees among full-time is as of March 31, 2023. The female-held managerial position rate is as of April 1, 2023.
- 2. Regarding the female-held managerial position rate, seconded employees are counted as employees of the company from which they were seconded.
- 3. The rate of male workers taking childcare leave in the Company and its domestic consolidated subsidiaries is calculated based on Article 71-4-1 of the Ordinance for Enforcement of the Act on Childcare Leave, Caregiver Leave, and Other Measures for the Welfare of Workers Caring for Children or Other Family Members (Ordinance of the Ministry of Labor No. 25, 1991) in accordance with the provisions of the Act on Childcare Leave, Caregiver Leave, and Other Measures for the Welfare of Workers Caring for Children or Other Family Members (Act No. 76, 1991), and seconded employees are counted as employees of the company from which they are seconded.
- 4. The ratio of male employees taking childcare leave is indicated as "—", since no data has been collected from overseas consolidated subsidiaries.
- 5. The wage gap between men and women indicates the ratio of women's wages to men's wages. The wages include base salary and incentives such as bonuses. Treatment is the same for men and women in general, and the differences that currently exist are due to differences in duties, grade, and age structure.
- 6. The wage gap between men and women in the Company is 95.1% for management positions.

#### II. BUSINESS OVERVIEW

#### 1. MANAGEMENT POLICIES, MANAGEMENT ENVIORMENTS AND ISSUES TO BE SOLVED

## (1) Unchanging Commitments amid Change

The pandemic transformed the world. It drastically altered the environment for working people, accelerating the global shift to working anytime, anywhere. At the same time, a trend has also emerged towards mandatory physical attendance at work. Faced with changing working styles, companies and the people who work there have been forced to reexamine the meaning of gathering at offices and reconsider how to exert creativity. Two of our fundamental commitments will remain unchanged in this new environment.

First, we will stay close to our customers. Since championing office automation in 1977, we have done much to help improve the efficiency and productivity of offices. As the value of work shifts away from enhancing efficiency toward harnessing the creativity that only people can deliver, we will keep collaborating with customers to help them attain fulfillment through work. Our second commitment is to our founding principles, the Spirit of Three Loves: "Love your neighbor, Love your country, Love your work." On April 1, 2023, we revised our corporate philosophy, The Ricoh Way, to further clarify our vision, based on the Spirit of Three Loves, to be a company that stays close to our customers' work and helps them attain fulfillment through work. We have redefined "Fulfillment through Work" as our Mission & Vision. By staying close to our customers' work and continuing to bring about transformation, we aim to support them to make the most of human creativity and help build a sustainable future society.

In addition, this section contains forward-looking statements, which are based on our judgments at the end of the period.

## (2) Medium-Term Direction

In March 2023, we announced the 21st Mid-Term Management Strategy beginning from April 2023. As our medium- to long-term goal, we aim to become a digital services company that supports workers creativity and transforms workplaces in order to achieve our Mission & Vision of "Fulfillment through

Work." We expand the range of workplaces where we provide digital services from offices, centered on the sale of MFPs, to services on frontlines and throughout society. At the same time, we will expand the customer value we provide to each workplace (office/frontline/social setting) and progressively evolve into a digital services company.

Expanding workplace and customer value by providing value as a digital services company

Becoming a digital services company

A services provider that supports worker creativity and transforms workplaces

(Ricoh Smart Integration)

### **Future Financial (ESG) Perspectives**

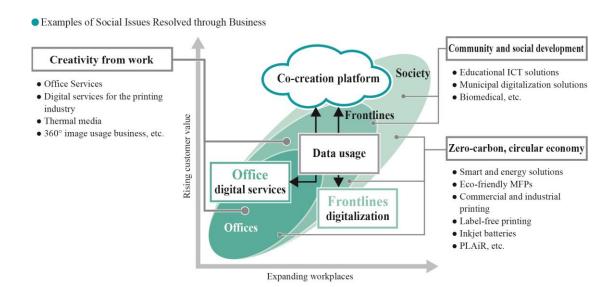

Expanding workplaces

As positioning ESG initiatives are essential for generating future finances, we will undertake initiatives across the value chain to serve the growing ESG requirements of customers, shareholders and investors in keeping with a commitment to maintaining a top global reputation for sustainability and ESG.

With the launch of the 21st Mid-Term Management Strategy, we have partially redefined these material issues, and we will engage in resolving four social issues through business and take on three challenges to robust management infrastructure to support these efforts. In addition, we have set 16 future financial targets (ESG targets) linked to our seven material issues. Materiality and ESG targets are set with a view to responding to the global ESG trend and improving the execution capabilities of the management strategy, and 16 ESG targets are broken down into each business unit and functional organization.

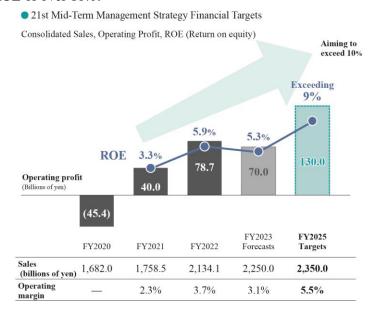

To help resolve social issues through business, we will provide digital technologies and services to help customers achieve "Creativity from Work" and support productivity improvement and value creation. We will also continue to focus on achieving a zero-carbon society and circular economy, and combine our technological and customer contact capabilities, a Ricoh Group strength, to contribute to maintaining, developing, and streamlining community and social systems.

To establish a stronger management foundation, we will strengthen measures to address human rights issues, secure sufficient number and quality of digital professionals to become a digital services company and improve the quality of digital service-related patents. Finally, under the 21st Mid-Term Management Strategy, we will take on the challenge of clarifying the businesses that contribute to solving social issues and their impact on our performance, and show our efforts to fuse ESG and business growth to stakeholders in an easy-to-understand manner.

## **Financial Perspectives**

Under the 21st Mid-Term Management Strategy, we aim to enhance corporate value by achieving growth as a digital services company through innovation from the customer's perspective. Our financial targets for fiscal 2025, the final fiscal year of the 21st Mid-Term Management Strategy, are net sales of \(\frac{\frac{\text{2}}}{2}\), obillion, operating profit of \(\frac{\frac{\text{1}}}{130.0}\) billion, and ROE of over 9%. When we announced the 20th Mid-Term Management Plan (in March 2021), we set financial targets for fiscal 2025 of operating profit of \(\frac{\text{1}}{150.0}\) billion, and ROE of over 10%. However, upon consideration of factors such as the recent unpredictable changes in the management environment and a recovery in non-hardware sales in the office printing business that is expected to be more subdued than originally anticipated, we believe that the achievement of these targets will take more time than the original plan, and we have revised our targets for fiscal 2025. We will continue to aim for ROE of over 10%.

At the same time, we have also revised some of the targets we have set for net sales and operating profit in each segment (business unit). With the digital office services provided by Ricoh Digital Services driving growth companywide, we will expand the growth domain of frontline digitalization to manufacturing and logistics sites and social settings. We aim to support our customers as a company that provides services wherever our customers work, and firmly establish this as a new pillar of our revenue.

Sales & Operating Profit Targets by Segment

|  |  | FY2025                                       | target                                    |  |
|--|--|--|---|--|
| Segment (Business Unit)  |  | Sales<br>(CAGR: Compound Annual Growth Rate) | Operating profit<br>(Changes from FY2022) | Main businesses                            |

<sup>\*1</sup> PLAiR: A new material that is plant-derived and biodegradable and is an alternative to plastics

We have also established four key performance indicators (KPIs) and targets for fiscal 2025 to manage the progress of our transformation into a digital services company. The first is to generate more than 60% of sales from digital services as we attempt to transform our business portfolio, shifting our focus to the growth area of digital services. The second is to increase recurring revenue business earnings by 18% (compared to fiscal 2022) as we transform the business model and boost profitability, enhancing our business model to continually generate returns. The third is to raise the proportion of recurring revenue business earnings generated from areas outside the office printing business to 54%. Finally, our fourth KPI is to increase profitability per employee by 70% (compared to fiscal 2022) as we aim to maximize human capital potential, reallocating human capital to growth areas by reskilling\*2 and enhancing organizational productivity.

#### \*2 Reskilling: Initiatives by existing employees to acquire new qualifications and skills

Main Key Performance Indicators for Boosting Earnings

| Companywide initiatives                          | Direction  |   | FY2025 targets for four main key performance indicators (Target compared with FY2022 figures)  |
|--|--|---|--|
| Reform business portfolio                        | Shift to digital services growth areas   | • | 1. Generate more than 60% of sales from digital services   |
| Transform business model and boost profitability | Increase overall earning from recurring revenue levels and expand in non-Office Printing areas | • | Increase recurring revenue business earnings by 18%     Increase recurring revenue business earnings ratio from non-Office Printing to 54% |
| Maximize human capital potential                 | Reallocate human capital to growth areas by reskilling and lifting organizational productivity | • | 4. Increase profitability per employee by 70%  |

To achieve these financial targets, we will engage in the three basic policies of the 21st Mid-Term Management Strategy: "1. Reinforce regional strategies and evolve Group management," "2. Build revenue sources in frontlines and social domains," and "3. Leverage global talent."

- Basic policies of the 21st Mid-Term Management Strategy
- (1) Reinforce regional strategies and evolve Group management
- (2) Build revenue sources in frontlines and social domains
- (3) Leverage global talent

#### Basic Policy (1) Reinforce regional strategies and evolve Group management

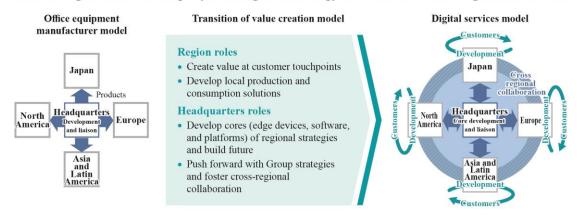

Three points are key to amassing revenue from outside the office printing business and establishing a highly profitable earnings base: improving customer touchpoint value creation capabilities, leveraging synergies within the Ricoh Group, and being able to tackle business climate changes in order to achieve continuous improvement of revenue.

We have businesses spanning regions around the globe, including Japan, Europe, the U.S., Asia, Latin America, and elsewhere. Each region has different customer bases, with different customer challenges and demands. In order to help customers in each region transform how they work, we must therefore strengthen our customer touchpoint functions with a development framework based on local production and local consumption to stay close to our customers and swiftly provide them with solutions. Under the 21st Mid-Term Management Strategy, we will work to strengthen our customer touchpoint function while taking into account the attributes of customers in each region and our existing organizational capabilities, to strengthen our frameworks for value creation.

Beyond this, to fully leverage our synergies as a global corporate group, we will pursue headquarters-led efforts in building ecosystems around our Co-creation platform (RICOH Smart Integration), enhancing our proprietary software and expanding it globally, and developing and providing competitive edge devices.

Enhance Customer Touchpoint Value

#### Become digital services company with regional strategy to create value with regional customers

#### Basic Policy (2) Build revenue sources in frontlines and social domains

Our revenue is currently centered on the office domain, but we will build on our digital services and progressively expand our frontline businesses to provide value to a wider range of customers. Operations at many frontline locations, such as manufacturing and logistics sites, are still largely analog, and we hope to use our technologies to develop new businesses. We will also engage in creating businesses directly linked to resolving social issues.

Businesses that we will focus on under the 21st Mid-Term Management Strategy include commercial printing centered on customers in the printing industry, the thermal business providing solutions for printing on external packaging in the food, logistics, and other industries, and businesses that contribute to resolving social issues, such as PLAiR, a new material that contributes to reducing environmental pollution caused by waste. We will identify business domains to focus on and build a revenue pillar in the frontlines and social domains.

#### Basic Policy (3) Leverage global talent

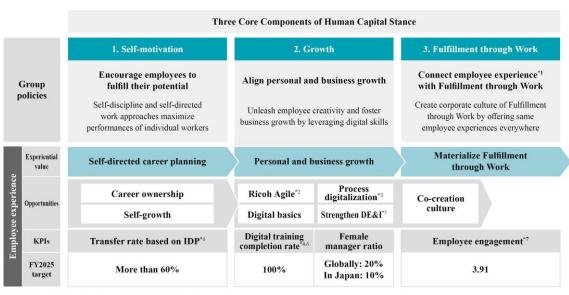

To change our business structure and expand our value proposition globally, it is vital that we leverage talent. We perceive the abilities and skills of our employees as a form of capital, and we have established a human capital strategy to actively invest in people.

<sup>\*1</sup> Transfer rate based on the Individual Development Plan: Percentage of transfers and the job changes based plan to the actual transfers

Our human capital strategy is founded on the three components of autonomy, growth, and Fulfillment through Work. The basic approach of this strategy is to aim for both employees' Fulfillment through Work and business growth by enabling them to accumulate the experiences they gain through working at Ricoh.

#### Leverage employee experience components to drive personal and business growth

<sup>\*1</sup> Employee experience: Experience gained from Ricoh's work

\*3 Process digitalization: Redesigning work and processes with digital technology

<sup>\*2</sup> Employee engagement: Degree of contribution, understanding and other factors toward company that an employee belongs to

<sup>\*2</sup> Ricoh Agile: In-house design thinking + agility model for organizational management

<sup>\*4</sup> Digital training completion rate: Generic term for training programs encompassing Ricoh Agile, process digitalization, and digital basics

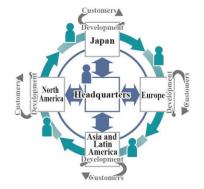

<sup>\*5</sup> DE&I (Diversity, Equity & Inclusion): Equity was added to the Diversity & Inclusion from the 21st Mid-Term Management Strategy and is being developed as DE&I.
\*6 Transfer rate based on IDP (Individual Development Plan) and Digital training completion rate: Managed as new indicators from the 21st Mid-Term Management Strategy

<sup>\*7</sup> Employee engagement: In the 20th Mid-Term Management Plan, percentile that is relative in comparison with other companies and benchmarks was used for target management. However, from the 21st Mid-Term Management Strategy, absolute values of the score is used as an indicator for measuring results of efforts in the Group more precisely. For results of the 20th Mid-Term Management Plan, please refer to "II. Business Overview, 2. Our Approach and Efforts on Sustainability, (4) Indicators and Goals"

In addition to boosting the level of skills of the employees of the Ricoh Group, we will enhance the expertise of the digital professionals who will contribute to creating and accelerating our digital services. Under the 21st Mid-Term Management Strategy, we will strengthen our human resources capable of creating advanced services from customer contacts in each region and expanding these service models globally. We will also engage in training management personnel for the future, including measures such as the implementation of fast track digital leadership development program in digital services and the provision of experience in multiple projects globally.

• Reinforce Digital Talent to Accelerate Business Growth

## Bolster leaders co-creating, collaborating, and creating digital services globally

#### **■** Expand pool of professionals

Strengthen personnel pipeline for global digital business co-creation and collaboration

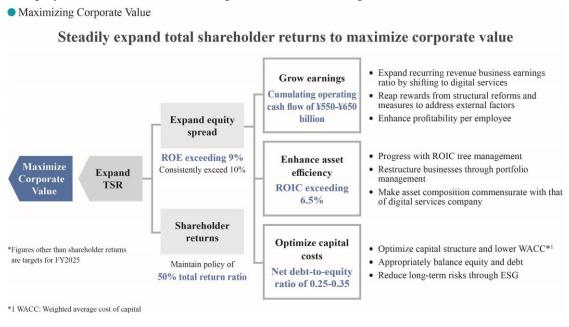

#### **■** Expand management pool

Reinforce pipeline of managers with digital business experience

#### **Capital Policies Supporting Growth**

We aim to maximize shareholder value and corporate value while satisfying stakeholder expectations. We accordingly seek to realize returns on the capital contributed by our shareholders that exceed the cost of capital. We will promote return on invested capital (ROIC\*) management and the enhancement of asset efficiency in our business portfolio management, among other measures, and strive to improve return on equity (ROE). ROIC in the fiscal year 2022 was 4.9%.

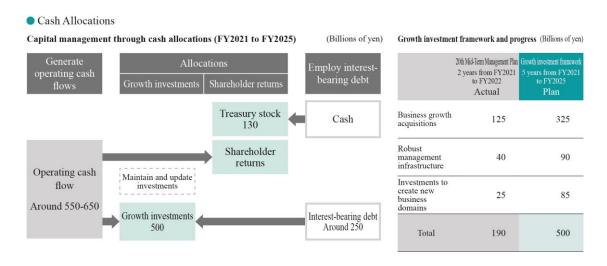

\* ROIC = (Operating profit - Income tax expenses + Share of profit of investments accounted for using the equity method) / (Equity attributable to owners of the parent + Interest-bearing debt)

To evolve into a digital services company, we will aim for an appropriate capital structure based on risk assessments and borrow to fund investments, carefully balancing debt and equity in our operations. We will use debt in such stable businesses as office printing while primarily allocating capital to growth businesses that pose relatively high risks.

Towards fiscal 2025, we will secure capital for growth based on the assumption that the business environment will remain uncertain with a capital structure that takes into account ratings and fundraising risks. From fiscal 2025 onwards, we plan to flexibly adjust the optimal capital structure, taking into account changes in the business structure associated with the new growth investment strategy in conjunction with the stabilization of businesses in the growth and investment area.

We will thus systematically use operating cash flows generated from business investments to fund further growth and shareholder returns. We have not altered our plan to invest around \(\frac{4}500.0\) billion in growth areas over five years (fiscal 2021 to fiscal 2025), announced in the 20th Mid-Term Management Plan, as growth investment in the drive to become a digital services company. In fiscal 2022, we acquired PFU to help transform our customers' document workflows and strengthen our IT management service functions. We also made other M&A investments in Europe and the U.S. to grow our office services business, steadily proceeding with investments for business growth. To fund investments, we will also draw on interest-bearing debt centered on operating cash flows, strategically executing investments in a well-balanced manner.

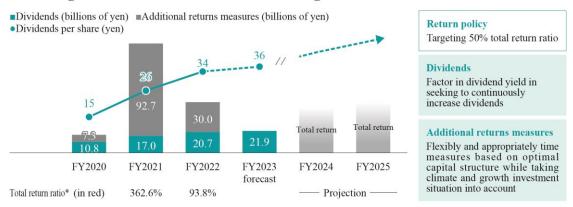

At the financial results briefing for fiscal 2022 held on May 8, 2023, we announced that we have launched a special project to realize price book-value ratio (PBR) of over 1.0 and started its activities. By analyzing the gap between the theoretical stock value and the current evaluation, and identifying the factors that lead to PBR of under 1.0, we intend to formulate and implement action plans that lead to the improvement of corporate value, including the acceleration of the measures in the 21st Mid-Term Management Plan. We plan to cover a wide range of topics, from identifying business portfolios to capital policies.

Our shareholder return policy is to maintain a total return ratio of 50%. With the target of a total return ratio of 50%, we look to steadily lift dividends per share in line with annual profit growth, while being conscious of offering attractive dividend yields. We will also implement share repurchases and other additional return measures in a flexible and timely manner based on our views on the optimal capital structure and factoring in the business environment and progress with growth investments to achieve an improvement in total shareholder return (TSR).

Based on this policy, we look to lift cash dividends per share by \(\frac{\text{\tin\text{\texi}\text{\text{\texi}\text{\text{\text{\text{\texi}\text{\texi{\texi{\texi}\text{\texi{\texi{\texi{\texi{\texi{\texi{\texi{\texi{\texi{\texi}\texi{\texi{\texi{

#### Shareholder Return Policy

Maintain 50% total return ratio policy and improve total shareholder return by continuing to increase dividends while undertaking additional shareholder return measures

<sup>\*</sup>The Company acquired ¥100.0 billion of treasury stock during the period from March 4, 2021 to December 8, 2021. This includes ¥7.3 billion in FY2020 and ¥92.7 billion in FY2021. Together with the treasury stock acquired before March 2021, the Company canceled its treasury stock on February 28, 2022. The Company acquired ¥30.0 billion of treasury stock between May 11, 2022 and September 22, 2022 and canceled the acquired treasury stock on October 31, 2022.

#### **Future Outlook**

A moderate recovery trend emerged in business conditions during fiscal 2022, thanks to the relaxation of restrictions on movement due to COVID-19. However, the economic outlook for global business remained uncertain due to factors such as continuing international tensions, rising resource prices, inflation, and the depreciation of the yen. This adverse external environment will persist in fiscal 2023. However, under the 21st Mid-Term Management Strategy, we will accelerate our transformation from an earnings structure focused on the office printing business and work to enhance profitability as a digital services company. We will also build flexible production and supply systems, raise our capacity to tackle business climate changes and establish a new pillar of earnings in frontline digital services domains. For fiscal 2023, we forecast ¥2.25 trillion in consolidated sales and ¥50.0 billion in profit attributable to owners of the parent. While the forecast indicates a decrease in profit from the results of the current fiscal year, the decrease is mainly due to transient earnings such as sale of assets and government support generated during the current fiscal year, and the impact of one-time costs for structural reform included in the next fiscal year. With these exceptions, profits will be substantially increased. In order reliably to achieve this forecast, we will continue to promote business growth centered on digital services and transform the earnings structure by strengthening the structure.

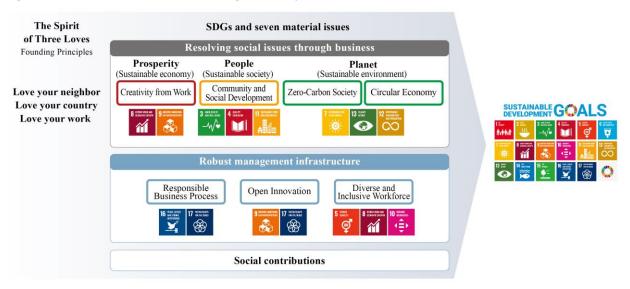

#### 2. OUR APPROACH AND EFFORTS ON SUSTAINABILITY

The Group's approach to sustainability and its initiatives are as follows.

Note that matters related to future developments that are mentioned in this section are judgments of the Group that were made as of the end of the fiscal year under review.

## Basic approach – Leveraging the power of business to materialize sustainable society

The Ricoh Group pursues sustainability through a Three Ps Balance – Prosperity (economic activities), People (society), and Planet (environment) based on the Spirit of Three Loves. To realize this, we will help to reach Sustainable Development Goals (SDGs) through resolving social issues through business, reinforcing management infrastructure and contributing to society.

## (1) Governance

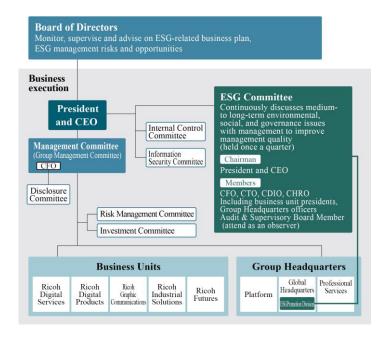

We have established the ESG Committee for the purpose of continuously discussing environmental, social, and governance issues faced by the Ricoh Group at a management-level and leading the discussions to the quality enhancement of the entire Group. The committee is a decision-making organization that meets quarterly chaired by the CEO and consists of GMC \*1 members including Internal Executive Director and business unit presidents \*2.

The ESG Committee deliberates on future risks and opportunities for the business in the area of sustainability, identification of material social issues (materiality), and setting of ESG targets. Progress on ESG targets is overseen at the management level through the ESG Committee and the Board of Directors. The new material issues and ESG targets, which were set in conjunction with the 21st Mid-Term Management Strategy starting in fiscal 2023, were also approved by the Board of Directors as indicators to be aimed for in tandem with the financial indicators.

In addition, ESG indicators are incorporated into the remuneration of Directors and Executive Officers to clarify management responsibility for ESG initiatives and goal achievement. Beginning from fiscal 2023, the percentage of achievement of companywide ESG targets is set at 20% of executive stock compensation under the Executive Stock Compensation Program for Internal Directors and Executive Officers. For details of the executive stock compensation program, please refer to "IV. Information on the Company, 4. Corporate Governance, etc., (4) Compensation to Directors and Audit & Supervisory Board Members."

<sup>\*1</sup> Group Management Committee: The President and CEO chairs this body, to which the Board of Directors delegates authority to review and make decisions to optimize companywide management.

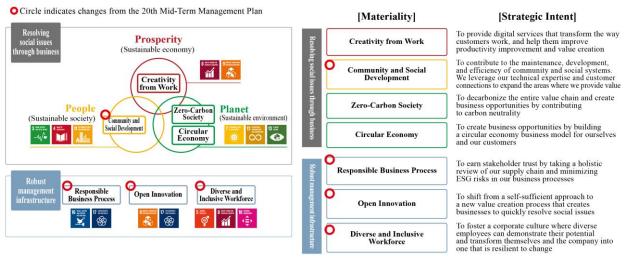

<sup>\*2</sup> Internal Audit & Supervisory Board Members participate as observers.

## (2) ESG Strategy

The Ricoh Group views ESG initiatives as essential elements for generating future finances. Based on the vision of a sustainable society (Three Ps Balance), the Ricoh Group identifies the material issues that it will emphasize particularly in its Mid-Term Management Strategy, and sets company-wide ESG targets as KPIs for these material issues. The seven material issues and 16 companywide ESG targets set in the 21st Mid-Term Management Strategy are set from two perspectives: to respond to global ESG trends and to support the company-wide strategy of transforming into a digital services company. Specifically, we have set goals related to climate change and human rights issues, which are common global issues, as well as goals related to digital service-related patents, information security, and digital human resource development, which will be necessary for our transformation into a digital services company. Furthermore, under the 21st Mid-Term Management Strategy, we will further strengthen our efforts to solve social issues through our business, take on the challenge of clarifying the impact on our performance, and show our efforts to fuse ESG and business growth, to stakeholders in an easy-to-understand manner.

\*5: Based on Gallup Q12 Mean<sup>TM</sup>

## <Focus Business Areas of the Ricoh Group that Contribute to Solving Material Social Issues through Business>

#### (3) Risk Management

The Ricoh Group positions risks that may significantly impact the performance of the company as managerial risks, and risk management is divided into strategic risks and operational risks, depending on the characteristics of the risk. Since sustainability-related risks have a significant impact on a company's medium-to long-term growth, we have positioned "responding to ESG and SDGs" as one of our strategic risks and are managing risks related to climate change and human rights issues at the management level. The impact and urgency of each climate change risk listed in the "Actions on Climate Change" section is evaluated in accordance with the company-wide risk management framework. For details on risk management, please refer to "II. Business Overview, 3. Business Risks."

## (4) Indicators and Goals

The results of ESG targets in the 20th Mid-Term Management Plan are as follows. 13 of 17 targets were achieved in the Mid-Term Management Plan.

| Resolving social issues through business   |   |  |   |   |   |
|--|---|--|---|---|---|
| Materiality  |   |  | ESG   | targets                                     |   |

#### (5) Actions on Climate Change

The Ricoh Group has defined "Zero-carbon Society" as one of its material issues, and within its management strategies, we are responding to climate change as one of our management issues. From 2020, we have positioned "GHG\* emission reduction targets" as one of the "ESG Targets" and we are promoting effective initiatives by linking them to the remuneration of officers and senior management. In particular, we will strive to reduce risks by formulating and implementing a risk management plan and a business continuity plan (BCP) in response to natural disasters, which are becoming more and more severe. In addition, we are contributing to the creation of a decarbonized society throughout the entire value chain by improving the energy efficiency of our products and collaborating with our business partners and customers.

#### ◆ Indicators and goals

The Ricoh Group has set long-term environmental goals to achieve zero GHG emissions across the entire value chain by 2050. We have also set a high level GHG emission reduction target of 63% reduction for scope 1 and 2 and 40% reduction for scope 3 (procurement, logistics and usage category) in 2030 (each compared to 2015 levels), which has been validated by SBTi, an international climate change initiative, as a 1.5°C level. To achieve this target, the Ricoh Group is promoting thorough energy-saving activities and active use of renewable energy sources. In addition, we became the first Japanese company to participate in RE100 to promote the active use of renewable energy, and in March 2021, we raised our 2030 target for renewable energy use rate to 50%. For results of fiscal 2022, we have reduced 45.5% in emissions for scope 1 and 2 compared to fiscal 2015 and 31.4% for scope 3 compared to fiscal 2015 and has been steadily reducing toward the 2030 target.

To achieve our 2030 target, we have formulated a decarbonization roadmap for scope 1, 2 and 3 to manage the progress of each measure.

The Ricoh Group's environmental goals (decarbonization)

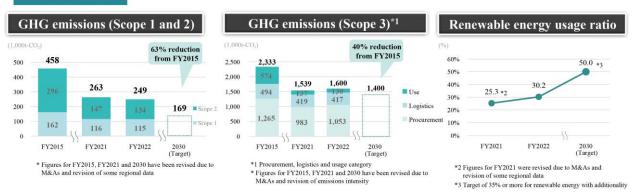

## 2030 goals

- GHG scope 1 and 2\*: 63% reduction vs 2015
- GHG scope 3\*: 40% reduction vs 2015 (procurement, logistics and usage category)
- Switch 50% of electricity used in business operations to renewable energy

## 2050 goals

- Achieve zero GHG emissions across the entire value chain
- Switch 100% of electricity used in business operations to renewable energy
- \* GHG scope 1, 2, 3
- GHG scope 1: GHG directly emitted by the Ricoh Group factories, offices, vehicles, etc.
- GHG scope 2: GHG produced by heat/power purchased by the Ricoh Group
- GHG scope 3: Supply chain emissions from corporate activities (excluding GHG scope 1 and 2)

# **FY2022 Results**

# (ii) Climate change risk recognition

We evaluate the financial impact and urgency of individual risks through scenario analysis. In this evaluation, the impact and urgency are indicated in specific amounts and years for the impact to take place in full-scale with greater than 50% probability of occurrence by comparing the results of scenario analysis with the company-wide risk management framework. Natural disasters, which are increasing year by year, are an urgent issue for the Ricoh Group. In particular, we consider the disruption of supply chains, including our own business locations, as a risk that could have a major impact on our business, and we monitor the situation every year and take appropriate countermeasures.

Climate change risk

| Impact of climate change on the Ricoh Group |   |   | Impact                 | Urgency           |
|---|---|---|------------------------|-------------------|
| Transition                                  | Transition risk 1<br>(2°C /1.5°C<br>scenario*1)<br>Carbon taxes and<br>emissions trading<br>systems applied to<br>suppliers   | <ul> <li>Carbon pricing (carbon tax/emissions trading) will be applied to all suppliers and the price will be passed on to raw materials, resulting in higher procurement costs.</li> <li>Impact of carbon pricing (carbon tax/emissions trading) on the Ricoh Group is minimal (Implement systematic reduction of GHG under the SBT of 1.5°C)</li> </ul> | Below ¥1.0<br>billion  | Within 5<br>years |
| risks                                       | Transition risk 2 (2°C /1.5°C scenario) Response to accelerated transition to decarbonized society by consumers and investors | - Due to demand for achieving the target of 1.5°C and RE100 ahead of schedule, additional costs for implementing measures such as energy saving/renewable energy facility investment and switching to renewable energy are incurred   | Below ¥1.0<br>billion  | Within 5<br>years |
| Physical risks                              | Physical risk 1<br>(4°C scenario*2)<br>Rapid increase of<br>natural disasters   | - Due to climate change, the severity of weather has become more extreme, causing production stops and sales opportunity losses due to disruption of the supply chain, etc. as a result of greater than expected storms and rain damages to Group production sites and suppliers  | Up to ¥20.0<br>billion | Within 5 years    |

| Physical risk 2 (4°C scenario) Regional epidemics of infectious diseases | <ul> <li>Impact on production plans due to parts supply disruption</li> <li>Insufficient inventory due to lower operating rates at production sites</li> <li>Decrease in sales opportunities due to difficulty of face-to-face business</li> </ul> | Up to ¥20.0 billion   | Within 10<br>years |
|--|--|-----------------------|--------------------|
| Physical risk 3<br>(4°C scenario)<br>Declining forest<br>resources       | - Forest damage such as forest fires and increase of pests due to global warming results in deterioration of stable supply of paper raw materials and leads to a rise in paper procurement costs   | Below ¥1.0<br>billion | Within 10<br>years |

<sup>\*1 2°</sup>C /1.5°C scenario: a scenario where the global average temperature increase is below 2°C by 2100

# (iii) Climate change opportunities recognition

We recognize that climate change not only leads to business risks, but also to opportunities to increase the value of providing our products and services as well as corporate value. Our efforts on climate change have brought opportunities including the provision of products and solutions that support customers' decarbonization by utilizing energy-saving technologies and services, the expansion of sales of solutions that lead to countermeasures against infectious diseases, business expansion in the environmental and energy fields, and the creation of new businesses.

# Opportunities in climate change

| Areas of contribution      | Overview of fiscal 2022 results  | Financial effect       |  |
|----------------------------|--|------------------------|--|
|                            | Approx. ¥1,165 billion   |                        |  |
|                            | Contributions to climate change mitigation   |                        |  |
| We will pursue thorough    | energy savings in our products and services that   |                        |  |
| contribute to the mitigati | on of climate change.  |                        |  |
|                            | - Sales of products that contribute to decarbonization (environmental label                | Approx. ¥1,060 billion |  |
|                            | certification) - Sales from negotiations involving ESG                                     | Approx. ¥40 billion    |  |
|                            | response - Sales in products and parts reuse and recycling businesses                      |                        |  |
|                            | Approx. ¥30 billion  |                        |  |
|                            | - Contributions of new businesses (sales of eco-<br>friendly Silicone-Top Linerless Label) | Approx. ¥5 billion     |  |
| Contributions to climat    | e change adaptation  | Approx. ¥130 billion   |  |
| We will strive to develop  | products and services that avoid or mitigate the   |                        |  |
| impact of climate change   | <u>,                                      </u>   |                        |  |
|                            | Approx. ¥130 billion   |                        |  |
|                            | - Contributions of new businesses (sales of energy harvesting*3 products, etc.)            | -                      |  |

<sup>\*1</sup> Scrum assets: A packaged solution for mid-sized companies sold in Japan

<sup>\*2 4°</sup>C scenario: a scenario where the global average temperature increase is 4°C by 2100

<sup>\*2</sup> LCAW (Leading Change at Work): A packaged solution sold in Europe

\*3 Energy harvesting: Environmental power generation that generates electricity from light, heat, and vibration present in the surrounding environment

#### Products that contribute to decarbonization

The Ricoh Group has obtained international ENERGY STAR certification for 94.2% of its imaging equipment launched in the fiscal year ended March 31, 2023. Moreover, we are actively pursuing environmental label certifications such as the Blue Angel and EPEAT to contribute to decarbonization. In addition, we promote manufacturing that contributes to the environment by operating the Ricoh Sustainable Products Program, which evaluates products based on our own strict standards for energy conservation, resource conservation, pollution prevention, comfort, and ease of use.

### **Negotiations involving ESG response**

ESG requirements in business negotiations and bidding from public institutions and global companies, particularly in Europe, are on the rise, and such requirements are becoming more stringent. Some ESG requirements in bidding and business negotiations in Japan and overseas can be handled by the sales department, which is the customer contact point, but more difficult projects are being handled by the ESG department at the headquarters. As the quality of ESG responses influences bidding and business negotiations, we make a list of ESG requirements, delivery deadlines, and the scale of business negotiations, analyze them, and respond proactively.

# Products and parts reuse and recycling businesses

The Ricoh Group promotes the 3Rs (Reduce, Reuse, Recycle) based on its original concept of Comet Circle to realize a recycling-oriented society, and we are engaged in our product and parts reuse and recycling businesses on a global level, including refurbishing used MFPs collected from the market and providing them to our customers again.

[Reference] Circular Economy Report 2022 (issued in August 2022) https://www.ricoh.com/sustainability/report/ce

# Energy saving and energy creation businesses

We are expanding energy saving and energy creation businesses in Japan. We are engaged in energy saving and energy creation businesses such as O&M (operation and maintenance) of solar power generation facilities, maintenance of EV charging facilities, and lighting and air conditioning control systems by utilizing monitoring services cultivated in the field of IT and network equipment.

### Sales of eco-friendly linerless labels

The Ricoh Group sells silicone-top linerless labels (SLL) as thermal labels that do not use peel-off paper, based on thermal paper technology developed over many years. There is no peel-off paper for SLL, which reduces the amount of paper used, reduces waste, and contributes to CO<sub>2</sub> emissions reduction.

# Solutions to support new ways of working

The Ricoh Group's problem-adaptive solution packages combine edge devices, software, and cloud services provided by Ricoh and its collaborative partners to support customers' new ways of working and digitizing their operations. By providing services that are in line with the era of a "new normal," we contribute to the reduction of CO<sub>2</sub> emissions as our customers' productivity improves.

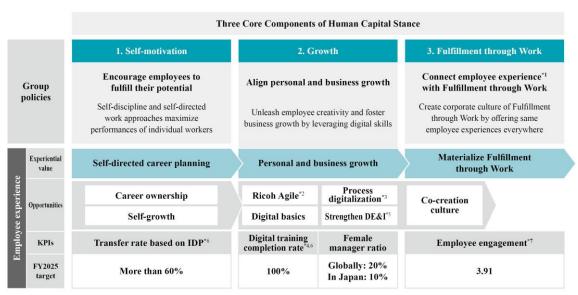

# (6) Response to Human Capital and Diversity Leverage global talent

To change our business structure and expand our value proposition globally, it is vital that we leverage talent. We perceive the abilities and skills of our employees as a form of capital, and we have established a human capital strategy to actively invest in people.

 Human Capital Strategies Driving Business Growth Key initiatives under 20th Mid-Term Management Plan KPIs Human capital strategies Transfer rate based on the Individual Development Plan\*1 Encouraged employee self-motivation Human capital stance Digital training completion rate Introduced Ricoh-style job-based • Female manager ratio • Employee engagement\*2 employment system Digital talent reinforcement Developed and reinforced digital talent Upskill and increase number of such employees Reviewed evaluation system Fostered diversity and inclusion Human resources portfolio management aligned with Profitability per employee • Pursued Fulfillment through Work

Our human capital strategy is founded on the three components of autonomy, growth, and Fulfillment through Work. This strategy aims for both employees' Fulfillment through Work and business growth by enabling them to accumulate the experiences they gain through working at Ricoh.

Leverage employee experience components to drive personal and business growth

<sup>\*1</sup> Employee experience: Experience gained from Ricoh's work

In addition to boosting the level of skills of the employees of the Ricoh Group, we will enhance the expertise of the digital professionals who will contribute to creating and accelerating our digital services. Under the 21st Mid-Term Management Strategy, we will strengthen our human resources capable of creating advanced services from customer contacts in each region and expanding these service models globally. We will also engage in training management personnel for the future, including measures such as the implementation of fast track digital leadership development program in digital services and the provision of experience in multiple projects in and outside Japan.

<sup>\*1</sup> Transfer rate based on the Individual Development Plan: Percentage of transfers and the job changes based plan to the actual transfers

<sup>\*2</sup> Employee engagement: Degree of contribution, understanding and other factors toward company that an employee belongs to

<sup>\*2</sup> Ricoh Agile: In-house design thinking + agility model for organizational management

<sup>\*3</sup> Process digitalization: Redesigning work and processes with digital technology

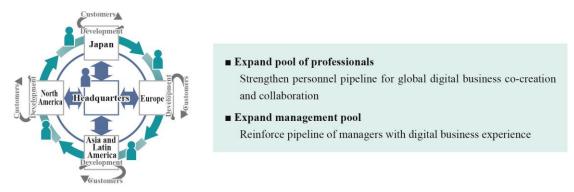

<sup>\*4</sup> Digital training completion rate: Generic term for training programs encompassing Ricoh Agile, process digitalization, and digital basics

<sup>\*5</sup> DE&I (Diversity, Equity & Inclusion): Equity was added to the Diversity & Inclusion from the 21st Mid-Term Management Strategy and is being developed as DE&I.

\*6 Transfer rate based on IDP (Individual Development Plan) and Digital training completion rate: Managed as new indicators from the 21st Mid-Term Management Strategy

<sup>\*7</sup> Employee engagement: In the 20th Mid-Term Management Plan, percentile that is relative in comparison with other companies and benchmarks was used for target management. However, from the 21st Mid-Term Management Strategy, absolute values of the score is used as an indicator for measuring results of efforts in the Group more precisely. For results of the 20th Mid-Term Management Plan, please refer to "II. Business Overview, 2. Our Approach and Efforts on Sustainability, (4) Indicators and Goals"

## Bolster leaders co-creating, collaborating, and creating digital services globally

## Active participation of diverse human resources

# Diversity, equity & inclusion and work-life management

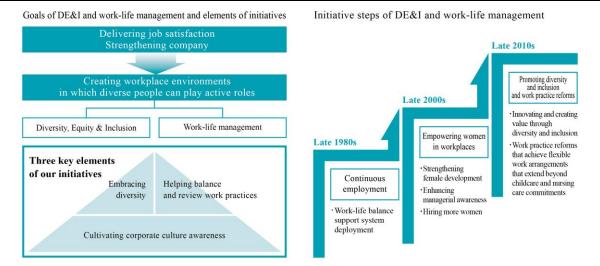

The innovation that is essential for our transformation into a digital services company will be created by a diverse group of people working together and leveraging their individual talents. This requires an environment where a diverse range of people can actively participate and where each employee can maximize his or her own performance. To achieve this, we have positioned the advancement of diverse human resources (diversity & inclusion ("D&I") and work-life management) as one of our management strategies and have been promoting these initiatives to this end.

In order to ensure that diverse human resources can be truly active, we have stepped up D&I from the fiscal year ended March 31, 2023 and enhanced our initiatives as diversity, equity & inclusion ("DE&I"), adding the concept of equity, which is indispensable for fostering an inclusive organizational culture, as one of its purpose.

#### Global DE&I Statement

At Ricoh, we embrace and respect the collective and unique talents, experiences, and perspectives of all people.

Together, we inspire remarkable innovation. That's how we live the Ricoh Way.

(New initiatives and external evaluation in fiscal 2022)

- · Introduction of Ricoh-style job-based personnel system
- · Launch of Japan and global DE&I Councils
- · Received the Top Hundred Telework Pioneers and Awards of Minister for Internal Affairs and Communications from the Ministry of Internal Affairs and Communications

| Global*2            | 29.3%                     | 15.9%                  | 8.7%                      |
| Global -            | (29.8%)                   | (16.3%)                | (9.2%)                    |
| 1*3                 | 18.7%                     | 6.7%                   | 3.9%                      |
| Japan*3             | (18.8%)                   | (6.9%)                 | (4.0%)                    |
| Ricoh Company, Ltd. | 16.8%                     | 6.6%                   | 4.2%                      |

(Note) Female ratio in full-time employees: as of March 31, 2023. Female ratio in management level and female ratio in executive management level: as of April 1, 2023.

- \*1 Executive management levels are those equivalent to line managers and above. Excludes officers.
- \*2 Global is consolidated subsidiaries including the Company.
- \*3 Japan is consolidated subsidiaries in Japan including the Company.
- \*4 Figures in parentheses exclude PFU.

It is essential for global human resources to plan an active role in order for us to further develop as a digital services company in the future. The Japanese and global DE&I Councils, which were established in fiscal 2022, discuss various DE&I issues we face and our future approach in cooperation with the global and local DE&I Councils. Among these issues, women's advancement is one of the priority issues worldwide, and we have set and strengthened ESG targets for this issue.

The female-held managerial position rate (excluding PFU) in fiscal 2022 was 16.3% as opposed to the target of 16.5%. In Japan, the rate (excluding PFU) was 6.9%, only 0.1% short of the target of 7.0%. The job-based personnel system, which is based on the concept of the right person in the right place at the right time, has led to the active promotion of employees to management positions regardless of their gender or age, and the ratio of managers in their 30s has also increased significantly especially in Japan (reference: the number of managers in their 30s at Ricoh: 2.8x from the end of March 2022 to April 1, 2023). We will continue to make further efforts to promote the activities of our diverse human resources, and in particular, we have set a long-term goal for the advancement of women, which is to achieve the same ratio of female employees and female managers by 2036, the 100th anniversary of our founding. As an interim milestone, the 21st Mid-Term Management Strategy aims to increase the female-held managerial position rate to 10% or more in Japan and to 20% or more globally, and we will continue to focus our efforts on these goals.

In hiring people with disabilities, we seek to expand job opportunities and seek people who can accelerate change to create new value, regardless of whether they have a disability or not.

In addition, the introduction of the Ricoh-style job-based personnel system encourages each employee to be autonomous in his or her work, and the use of internal job openings enhances the mobility of human resources, thereby expanding opportunities for diverse experience to be utilized in the organization.

We will further strengthen our efforts to make DE&I a part of our corporate culture to take advantage of the diversity of our employees, not only in terms of gender, disability, and other attributes, but also in terms of knowledge and experience.

#### 3. BUSINESS RISKS

Matters concerning the status of business and performance that may have a material effect on the decisions of shareholders and investors are as follows.

- (1) Ricoh Group's material management risks (managerial risks)
- (2) Significant risks specific to business domain (business unit risks)
- (3) Other risks (corporate functional organization risks)

While the risks that management recognizes as having a material impact on Ricoh's financial position, operating results, and cash flows are as below, they are not all-inclusive. Ricoh's business may be affected in the future by other risks that are currently unknown or not considered significant. Business and other risks are based on Ricoh's assessment as of March 31, 2023.

## ■ Process of determining managerial risks

The GMC and Risk Management Committee determine managerial risks based on a comprehensive recognition of risks that have a significant impact on management, including impact on interested parties, in light of the Company's management philosophy and business purpose, and are actively involved in countering these risks. (Figure 1: Process of determining managerial risks)

- Managerial risks are classified and managed as "strategic risks" and "operational risks" based on their characteristics. Strategic risks cover a wide range of risks that affect management, from risks related to the accomplishment of short-term business plans to emerging risks in the medium- to long-term.
- As an advisory body to the GMC, the Risk Management Committee, whose members are experts
  representing each organization with the specialized knowledges and experiences, engaged in
  substantial discussions to recognize and assess risks, in order to identify possible managerial risks.

For more information about the Ricoh's risk management system and the Risk Management Committee, please refer to "IV. Information on the Company, 4. Corporate Governance, etc., (1) Corporate Governance, 2) Reason for adopting current corporate governance structure, (VIII) Risk Management Systems and Risk Management Committee."

#### **List of Business Risks**

# (1) Ricoh Group's material management risks

| [Managerial strategic risks] Item:(1) Transition of profit structure as a digital services company |        |                       |  |  |
|--|--------|-----------------------|--|--|
| Urgency  | Impact | Risk management level |  |  |
| 4 4 C  |        |                       |  |  |

#### Description:

As Ricoh aims to transform it into a digital services company from an OA manufacturer, there is a risk of business performance being impacted by a decline in printing volume due to a lack of progress in the transformation of the business structure. There is also a risk of missing M&A investment opportunities for business growth and losing growth opportunities.

#### Countermeasures:

Along with portfolio management decisions aimed at the transition of profit structure as a digital services company, Ricoh will:

- Invest in growth businesses and implement new businesses to accelerate the transformation into a digital services company;
- · Continue portfolio management, and monitor growth investment executions; and
- Strengthen monitoring mechanisms for financial management indicators and management of business structure for transformation of profitability.

Ricoh will also strengthen the visibility and development of M&A human resources.

| [Managerial strategic risks]         |   |  |  |  |  |
|--------------------------------------|---|--|--|--|--|
| Item:(2) Acceleration of digital s   | Item:(2) Acceleration of digital strategy |  |  |  |  |
| Urgency Impact Risk management level |   |  |  |  |  |
| 4                                    | 4 3 C                                     |  |  |  |  |

#### Description:

To accelerate the implementation of digital strategy, the headquarters functions and business units are working together for various initiatives, such as developing and strengthening digital human resources, strengthening and promoting the utilization of data content and enhancing technological infrastructure, deepening existing businesses and strengthening and implementing mechanisms for creating value through the use of digital technology, and continuing to improve business processes through the use of all types of digital technology. However, there are still such risks that Ricoh's performance and growth may be affected by the following:

- · Lack of human resources to implement digital strategy; and
- The Co-creation platform (RICOH Smart Integration) is not utilized as a foundation to promote business value creation globally.

#### Countermeasures:

Ricoh believes that accelerating the implementation of digital strategy is important to enhance resilience amid intensifying global competition, and is working to further enhancing the following:

- · Securing human resources to implement the digital strategy; and
- Construction of a mechanism to link the Co-creation platform (RICOH Smart Integration) and edge devices for each business, and support for their use by each business.

| [Managerial strategic risks] |                                |          |       |  |  |
|------------------------------|--------------------------------|----------|-------|--|--|
| Item:(3) Reinforcement       | of advanced technologies       | <b>S</b> |       |  |  |
|                              | Urgency Impact Risk management |          |       |  |  |
|                              |                                | _        | level |  |  |
| Technical adaptation         | 3                              | 2        | C     |  |  |
| for medium- to long-         |                                |          |       |  |  |
| term markets                 |                                |          |       |  |  |
| Technical ethics             | 4                              | 3        | D     |  |  |

#### Description:

Ricoh has adopted the business unit structure, which promotes understanding of customers and the market. Such structure, however, also carries risks of the decline in the efficiency of technological investment and decline in the company's technological response capability to respond to the medium- to long-term market

due to the decentralization of technological development.

In addition, there are risks of loss of corporate credibility and business opportunities due to the lack of ELSI\*1 response capability in adopting AI and other advanced technologies.

#### Countermeasures:

Ricoh will continue R&D investment portfolio management to promote forming of a consensus of development action plans based on the technology strategies with action plans.

Ricoh has strengthened technology ethics promotion systems, and trial-launched some of the ethics assurance functions. In addition, it will disclose rules on its approach to technology ethics to advance the practice of raising awareness of such ethics in order to further enhance the ethics.

#### Description:

In its bid to transform into a digital services company, Ricoh is committed to utilizing and providing various digital services, and digitalizing its own operations. It also focuses itself and is working on systems to ensure information security and their operations. However, Ricoh is affected by the following:

# • Risk of non-compliance with NIST SP800-171\*2:

Cyber-attacks on companies and government agencies are increasing in number and sophistication, and organizations are being called on to have a higher level of defense systems and information protection. The U.S. government, a major leader in this field, has begun requiring more robust and advanced cyber security measures for the defense industry and other business partners with federal government agencies, using security requirements established by the National Institute of Standards and Technology (NIST) as a cornerstone.

### • Product security risks:

Incidents such as use of an unintended stepping stone for attacks against others that is unintentional on the part of Ricoh, due to inadequate security measures for publicly disclosed websites or serious security problems inherent in Ricoh Group products delivered to customers.

#### · Corporate security risks:

Increasingly sophisticated and complex cyber-attacks may cause business activities of Ricoh Group companies to be suspended due to stoppages or malfunctions of business systems, and data may be falsified, leaked, or destroyed.

# · Factory security risks:

Production facilities had fewer risks due to restriction on the connection with outside parties. However, the boundary between the business systems of Ricoh Group companies and the production facilities has been weakening due to the progress of DX\*3 in recent years, and a breach from the production facilities could cause the business systems of Ricoh Group companies to stop or malfunction, resulting in the suspension of business activities or the falsification, leakage, or destruction of data.

# • Data privacy risks, including personal data protection:

As laws concerning the protection of personal information (the revised Personal Information Protection Law and GDPR\*4) are enforced in various countries and are applied even to events outside the country of origin (extraterritorial application), in the case of global joint use, if sanctions are imposed due to violation of

regulations in each country, there may be business impact such as damage to the corporate brand value and loss of business opportunities due to the decline in social trust.

#### Countermeasures:

As demand for taking countermeasures at the national level in each country increases, Ricoh considers it one of the priorities to keep abreast of the changing situation of information security and to consider and promote appropriate measures for Ricoh, which has operating bases around the world.

### • Risk of non-compliance with NIST SP800-171:

To provide secure products and services to our customers around the world, Ricoh is committed to meeting the security needs of international standards. Ricoh is working on the development of business environments and manufacturing for the purpose of protecting our customers' information assets, such as digitizing workflow to provide added value to our customers.

Ricoh considers not only meeting the requirements of NIST SP800-171 but also protecting customers' information as essential for the purpose of its compliance with NIST SP800-171.

There are two objectives: to protect our products and services, which may handle information assets that customers wish to protect in their business environment, from cyber-attacks; and to protect information assets handled in the value chain up to the provision of those products and services to customers.

Ricoh is committed to security activities by positioning the protection of our customers' information assets as a top priority, and aims to comply with NIST SP800-171.

### • Product security risks:

In building websites and developing products, Ricoh continues to strengthen information security-related quality management and also check the vulnerability of sites already published and products already sold, and take appropriate action when risks are discovered. To this end, Ricoh continues implementing activities such as setting up a dedicated counter for security issues, providing information on safe use of our products, and developing guidelines for dealing with vulnerabilities in its products.

#### • Corporate security risks:

Ricoh has established/strengthened a system with awareness of information security for the entire Ricoh's supply chain in accordance with international information security standards (ISO/IEC\*5, NIST, etc.). In addition, it continues to review and implement countermeasures to address security risks associated with business systems in the planning, design, purchasing, production, sales and support phases in a timely manner.

### • Factory security risks:

Ricoh assumes the security risks associated with the production plant systems at the Ricoh Group companies' production facilities based on international information security standards (ISO/IEC, NIST, etc.), and continues to review and implement countermeasures.

# • Data privacy risks, including personal data protection:

Ricoh formulates response policies in accordance with the personal information protection laws being developed in each country, by examining the revision of personal information handling standards and investigating and correcting the handling of personal information in Ricoh, and is reviewing and implementing countermeasures.

| business strategy            |                                       |               |                 |  |  |

# Description:

Ricoh's business transformation into a digital services company and continued growth over the medium- to long-term depends largely on its human resources. There is a risk of adverse effects on Ricoh's performance and growth due to the continuous failure to acquire advanced expertise and reallocate human resources in

line with business strategies.

#### Countermeasures:

Ricoh implements the following:

- · Human resource development through internal and external training and career recruitment;
- Strengthening of initiatives to enhance the corporate image as an attractive place to work;
- Clarification of gaps between the current status and the plan to acquire advanced expertise and reallocate human resources in line with business strategies and their issues, and consideration and implementation of countermeasures; and
- Thorough implementation of Ricoh-style job-based personnel system and internal recruiting of new positions.

| [Managerial strategic risks]          |              |        |                       |  |
|---------------------------------------|--------------|--------|-----------------------|--|
| <b>Item:</b> (6) <b>Responding to</b> | ESG and SDGs |        |                       |  |
|                                       | Urgency      | Impact | Risk management level |  |
| Response to human rights              | 5            | 1      | C                     |  |
| Decarbonization efforts               | 4            | 1      | В                     |  |
| Resource recycling                    | 4            | 3      | С                     |  |

#### Description:

Responding to ESG and SDGs is an emerging risk that may affect Ricoh's business activities over the medium- to long-term, and it is working on the following items it considers as particularly important and to be prioritized:

- Establishment of an ESG management system for the entire supply chain based on the international level of response to human rights, which is required for business meetings, government procurement, acquisition of environmental labels, etc.;
- Measures against storms and rain damages at major sites due to severe extreme weather events, and
  measures to address climate change and information disclosure that contribute to the level required by
  investors and customers; and
- Support for customer demands and related laws, regulations, and standards related to circular economy, such as product recycling, the establishment of recycling systems, and usage rate of recycled materials.

Failure to keep up with the competition in addressing these issues may not only cause a negative impact on business, such as loss of business opportunities, but also a risk of tremendous damage to Ricoh, such as loss of social credibility and damage to brand value.

#### Countermeasures:

Ricoh has been enhancing its measures against ESG/SDGs risks such as:

- Promoting to reduce human rights risks by expanding RBA\*6-based ESG risk assessments to all production sites and by strengthening ESG management at key suppliers;
- Deploying decarbonization activities to maintain the SBT-based 1.5°C line by formulating an annual renewable energy introduction strategy and roadmap based on social trends, the internal CO2 reduction status, and energy consumption, etc.; and
- Regularly conducting simulations and progress management to predict the impact of new resource usage in imaging products. Striving to promote measures to reduce the rate of new resource usage, such as increasing the use of post-consumer recycled plastics in imaging products.

| [Managerial strategic risks] Item:(7) Geopolitical risks |        |                       |  |
|--|--------|-----------------------|--|
| Urgency  | Impact | Risk management level |  |
| 4  | 4      | C                     |  |
|  |        |                       |  |

#### Description:

As we conduct business activities on a global scale, heightened political, military, and social tensions in countries and areas may significantly affect Ricoh's business.

There is a risk of losing business opportunities due to geopolitical risks such as stricter laws and regulations in each country and checks and balances between countries.

#### Countermeasures:

Ricoh is strengthening prevention and response processes. Its management will deliberate and take prompt and appropriate actions to ensure smooth business activities in the future through such means as enhancing collection of information on laws and regulations in each country, and selecting multiple suppliers for each critical component.

| [Managerial operational risks]                                |         |        |                 |  |  |
|---|---------|--------|-----------------|--|--|
| Item:(1) Long-term delay and suspension in supply of products |         |        |                 |  |  |
|   | Urgency | Impact | Risk management |  |  |
|   |         | _      | level           |  |  |

| eruptions, typhoons   |         |        |                 |  |  |

### Description:

There is a risk of losing business opportunities due to unpredictable circumstances such as major earthquakes, tsunamis, floods, pandemics, suspension of supply, and geopolitical risk resulting in:

- Delay or suspension in the supply of parts;
- · Delay or suspension of manufacturing by factories;
- · Delay or suspension of operations by distributing agents; and
- · Delay or suspension of supply to sales companies.

#### Countermeasures:

Ricoh has strengthened prevention and response processes in light of the rapid global spread of COVID-19 and its prolongation, and is conducting the following:

- · Securing inventories for contingencies;
- Selecting multiple suppliers for critical components or selecting alternative parts;
- · Setting and launching alert levels for each area such as purchasing and production; and
- · Conducting BCP drills that assume new work styles such as remote work.

Ricoh will also continue to improve response measures and confirm their effectiveness through regular practice as well as classroom training.

#### Description:

Ricoh assumes risks of significant impact on business due to large-scale natural disasters, incidents, or accidents in Japan or overseas, such as human or property damage.

#### Countermeasures:

In response to these risks, Ricoh has taken measures as follows:

#### In Japan:

- Ricoh has built a mechanism for appropriate response to disasters (preventive measures, efforts for early
  detection of incidents/enhancement of post-incident-discovery response capabilities) by clarifying in its
  internal rules the system and roles, including the initial response to disasters (including restoration of
  business sites), reporting methods, and the establishment of each task force. In addition, Ricoh continuously
  reviews the mechanism according to changes in the internal and external environments.
- To prevent damage from disasters and minimize damage in the event of a disaster, Ricoh conducts joint disaster response drills in Japan, disaster drills at each business site (including night-time evacuation drills), and periodic facility inspections, etc. As such, Ricoh has prepared to ensure the safety of its employees and to restore its business operations as soon as possible by constantly verifying and improving the functioning of its systems and operations through various training drills.

- In response to flood risks, Ricoh has strengthened its initiatives since fiscal 2020, and prepared a recovery action plan in the event of major flooding and conducted on-site training based on the plan. Based on the results of a detailed survey of flood risks at its sites, Ricoh has continued to carry out necessary construction work at sites with relatively high risks, starting from fiscal 2021. Furthermore, it established a visualization tool for flood risk information for all of Ricoh's sites in Japan (approximately 400 sites) and started its operational roll out in fiscal 2022.
- In response to eruption risks, Ricoh reviewed countermeasures for the Mt. Fuji eruption in fiscal 2022, confirmed the impact of the eruption on its sites, and formulated new countermeasures. It will implement the formulated countermeasures in the future.

#### Outside Japan:

• In response to major disasters/incidents and accidents outside Japan, Ricoh has clarified basic approach, roles, and responsibilities, and is monitoring the status of response at each overseas company.

| [Managerial operational risks]  |                                  |                       |
|---------------------------------|----------------------------------|-----------------------|
| Item:(3) Unexpected impact of c | hanges in the global environment |                       |
| Urgency                         | Impact                           | Risk management level |
| 5                               | 3                                | D                     |

#### Description:

The COVID-19 pandemic, the Russia-Ukraine situation, supply chain disruptions, unstoppable price hikes, and the historic depreciation of the yen are just a few of the events that had been unexpected or beyond-expectation but have actually occurred over the past three years.

Although measures have always been taken in advance by detecting signs of events and taking recovery measures when they occur, it is inevitable that new, and unexpected events will affect Ricoh's performance in the future.

#### Countermeasures:

The Company monitors monthly performance at the management meeting and business operation meeting of each business unit to understand the causes of the forecast/result gaps and consider measures to recover from them.

The Company has also established the contingency plan\*7 process and makes decisions on measures in accordance with the process. In fiscal 2022, the Company determined and executed the sale of the headquarters assets

The Company will continue the current process in fiscal 2023 onwards, and establish a resilient production and supply system.

|                                     | [Managerial operational risks]             |        |                       |  |
|-------------------------------------|--|--------|-----------------------|--|

|                                     | Urgency                                    | Impact | Risk management level |  |
| 5 1 C                               | _  | 1      | C                     |  |

# Description:

Ricoh may face a risk of losing social credibility due to various compliance violations related to human resources.

#### Countermeasures:

Ricoh carries out the following:

- Implementation of training for compliance (including human rights and harassment issues);
- · Raising awareness of consultation and reporting when compliance violations are detected;
- · Providing labor management training for managers;
- · Sharing information on revised labor-related laws across the Ricoh Group and how to handle them; and
- Establishment of a consultation service for personnel-related compliance violations throughout the Ricoh Group, and sharing of case studies.

| [Managerial operational risks]          |            |                       |
|---|------------|-----------------------|
| <b>Item:</b> (5) Risks related to Group | governance |                       |
| Urgency                                 | Impact     | Risk management level |
| 5                                       | 1          | C                     |

#### Description:

In an era of rapid changes in the internal and external environment, the Company believes that it is extremely important to strengthen group governance in order to maintain healthy growth. If governance at the

headquarters is not functioning properly, the following risks may arise:

- Failure to respond to risks associated with new business and changes in the external environment due to not prompt development the Ricoh Group's policy and response the actions may lead to risks of violations of ethics and compliance violations.
- Inadequate management and supervision of headquarters over the governance structure, operational status and business processes of Ricoh Group companies may lead to the deterioration of brand image and credibility due to fraud and scandals and increase the risk to the sustainable growth and enhancement of corporate value of the Ricoh Group as a whole.

#### Countermeasures:

To reduce group governance-related risks, the Company is in the process of redesigning the governance structure of headquarters functions, business units, and group companies. It is working on the redesigning by taking into account the optimal balance between centralization and decentralization, while also by comprehensively taking into account the need for expedited decision-making, integrated management, and effective Ricoh Group company management. Furthermore, the Company examines the governance of Ricoh Group companies by the Supervising Organizations to ensure that more appropriate guidance and management supervision to Ricoh Group companies are provided in accordance with the characteristics of individual businesses and the maturity of risk management. The Company is preparing to propose effective actions based on technology-based compliance violation trend analysis to each organization from fiscal 2023 onwards, by analyzing trends at the risk management department of headquarters, from compliance violations, misconduct, and whistle-blowing that have occurred throughout the Ricoh Group.

### (2) Significant risks specific to business domain

| Item:(1) Changes in the environment of the office printing market |        |                       |
|---|--------|-----------------------|
| Urgency   | Impact | Risk management level |
| 4   | 2      | C                     |
|   |        |                       |

#### Description:

There is a risk of adverse impact on performance of a decline in print output in the market for MFPs and printers for office use due to an increase in remote work and the shift to a paperless office environment.

#### Countermeasures

Ricoh has strengthened its services and products that support remote work and the shift to a paperless office environment in the office services domain to increase recurring revenue business earnings in the domain so as to hedge risks in the office printing domain.

Ricoh strives to secure profits by adjusting related personnel in response to changes in print output volume, etc.

Ricoh hedges risks by improving profit margin through initiatives to reduce development and production costs by forming partnerships with other companies and other measures.

| Item:(2) Growth of office services business through strategic acquisitions |        |                       |
|--|--------|-----------------------|
| Urgency  | Impact | Risk management level |
| 4  | 2      | C                     |

### Description:

Strategic acquisitions in the office services domain, which is the main area in the transformation of our business structure transformation into digital services business, are one of the requirements for achieving the financial targets of the Mid-Term Management Strategy.

Meanwhile, there are risks of not achieving the anticipated return on investment from target companies due to changes in market conditions or poor performance, not being able to identify and acquire suitable companies to acquire in the future, which may affect the execution of the business strategy.

#### Countermeasures:

A system was established to constantly monitor the performance and return on investment of acquired companies at the Investment Committee, an advisory committee to the GMC, and implement appropriate countermeasures against unexpected situations.

The M&A department was established within the Corporate Planning Division of the headquarters to identify deals by utilizing outside consultants, and improve the probability of executing strategic acquisitions in target areas by strengthening search activities at regional headquarters around the world.

| Item:(3) Growth risks in the con | nmercial printing business |                       |
|----------------------------------|----------------------------|-----------------------|
| Urgency                          | Impact                     | Risk management level |
| 4                                | 2                          | В                     |

# Description:

There is a risk of a downturn in the performance of the enterprise printing business in the commercial printing business domain due to the consolidation and integration of print output volume with print service providers who accept orders for low-cost printing services using high-speed printing equipment and the accelerated digitization of documents.

#### Countermeasures:

In order to mitigate risks of a downturn in the performance of the enterprise printing business, Ricoh is promoting the development of untapped distributors in Europe, North America, and emerging countries, while implementing business portfolio management to strengthen resource allocation to commercial printing and industrial printing businesses, where market growth is expected, as well as promoting business restructuring.

| <b>Item:</b> (4) <b>Intensifying price comp</b> | etition in the thermal market |                       |
|---|-------------------------------|-----------------------|
| Urgency   | Impact                        | Risk management level |
| 3   | 2                             | C                     |

# Description:

Although the thermal market is growing steadily, thermal products are increasingly commoditized. The Company differentiates its products by their quality based on superior color sensitivity, print definition and image storage capabilities. However, if demand for low and medium grade products increases, the Company may face price-cutting competition, resulting in lower market share and profitability, which may adversely affect our performance.

#### Countermeasures:

The Company has reduced product costs and reviewed product portfolio to solve social issues in regions where demand for low and medium grade products is increasing.

In addition, the Company is implementing business transformation to provide customers in the fields (logistics, distribution, manufacturing, etc.) with digital services for which the Company can leverage its strengths in thermal formulation technology and production technology.

# (3) Other risks

| Item:(1) Impairment of goodwill and fixed assets |        |                       |
|--|--------|-----------------------|
| Urgency  | Impact | Risk management level |
| 2  | 3      | В                     |
| B 1.1  |        |                       |

#### Description:

Ricoh has on its balance sheet goodwill arising from corporate acquisitions as well as property, plant and equipment and intangible assets for businesses.

For these assets, there is a risk of adverse impact on Ricoh's business results and financial position if expected cashflows are not generated due to divergence from target business results and changes in markets.

#### Countermeasures:

When acquiring assets, Ricoh implements the prescribed procedures according to the amount and content of the investment, and review the return on investment, etc. before deciding on whether to execute the acquisition. In addition, the Investment Committee, an advisory body to the GMC, deliberates external investment projects from financial, strategic, and risk perspectives and submits its views to the GMC. A system is in place for taking countermeasures against risks through periodic monitoring by the Investment Committee of the progress of approved projects.

| Item:(2) Deferred tax assets |        |                       |  |
|------------------------------|--------|-----------------------|--|
| Urgency                      | Impact | Risk management level |  |
| 2                            | 3      | C                     |  |
| Description:                 |        |                       |  |

Ricoh has adopted tax effect accounting and recognizes deferred tax assets for deductible temporary

differences and net operating loss carryforwards. Deferred tax assets are reviewed for recoverability against future taxable income based on business plans. If estimated future taxable income are lower than current estimated taxable income, the recoverable amount of deferred tax assets will decrease, resulting in a reduction of deferred tax assets, which may adversely affect Ricoh's business results and financial position.

#### Countermeasures:

In making the assessment of deferred tax assets, Ricoh considers the scheduled realization of deferred tax liabilities, projected future taxable income and tax planning strategies. Each business units monitor progress of their performance based on business plans in relation to estimated future taxable income, and a system is in place for responding quickly and autonomously when factors that hinder the achievement of the plans occur.

| <b>Item:</b> (3) <b>Protection of intellectual</b> | al property rights |                       |
|--|--------------------|-----------------------|
| Urgency  | Impact             | Risk management level |
| 2  | 1                  | В                     |
|  |                    |                       |

#### Description:

Ricoh regards intellectual property rights as important management resources and obtains patents, design rights, trademarks, and other intellectual property rights to protect, differentiate, and expand its current and future businesses and the technologies that support them. There is a risk, however, of the decline in their uniqueness if competitors develop equivalent technologies, and of failing to obtain expected rights to protect Ricoh's intellectual property rights as a result of examinations of patent offices of each country.

There is also a risk of receiving a warning of injunction of sale or payment of damages, or of filing of a lawsuit against Ricoh by a third party, due to alleged infringement of intellectual property rights of a third party.

Furthermore, as the number of contracts involving intellectual property rights increases along with launches of Ricoh's new businesses and increasingly active collaboration with other companies, as well as joint researches and developments, there is an increased risk of adverse impact on Ricoh's business if troubles and other issues arise from these contracts.

#### Countermeasures:

Ricoh strives to improve the accuracy of probability of obtaining intellectual property rights thorough priorart search when applying for intellectual property rights, and through understanding of laws, examination processes and criteria related to intellectual property in each country.

In addition, before launching its products and services in the market, Ricoh thoroughly conducts an investigation into the intellectual property rights of third parties and a comparative examination of its products and services with the intellectual property rights of third parties. If there is a risk of infringement of a third party's intellectual property rights, Ricoh reduces risks of litigation with the third party by conducting appraisals by outside lawyers or patent attorneys, making design changes if necessary, and negotiating and obtaining licenses.

Ricoh places importance on the protection of intellectual property rights as a risk that could affect its performance, and prevents problems and reduces risks using explicit knowledge of past contractual issues.

| Item:(4) Product liability |        |                       |
|----------------------------|--------|-----------------------|
| Urgency                    | Impact | Risk management level |
| 2                          | 2      | В                     |

# Description:

For products and goods that Ricoh manufactures and sells:

- Serious safety problems (casualties, fire damage);
- · Legal issues related to safety or the environment; or
- · Prolonged quality problems, etc.

may cause a risk of loss of customers' confidence and social credibility in the company, resulting in damage to the corporate brand and product brand, as well as a risk of the continuity of business becoming difficult.

#### Countermeasures:

Ricoh has strengthened its prevention and response processes as follows to deal with product liability:

- Ricoh has raised accuracy of analyzing mechanisms leading to breakdowns and accidents in order to improve reliability and safety of equipment, applied measures for preventing recurrence of issues or preventing issues from ever occurring to the development process, and reduced risks;
- · A system is in place to respond to the market quickly and accurately in the event of a problem; and

 In order to provide products that are compliant with safety and environmental regulations in each country, Ricoh works closely with its local companies to formulate appropriate standards and guides and regularly reviews these standards and guides.

| <b>Item:</b> (5) Government regulation | ns (import/export management) |                       |  |  |
|--|-------------------------------|-----------------------|--|--|
| Urgency                                | Impact                        | Risk management level |  |  |
| 5                                      | 3                             | В                     |  |  |

#### Description:

In the course of business activities of Ricoh, factors such as:

- Impact on production and sales from administrative sanctions such as export suspensions due to violations of laws related to import and export, loss of business opportunities due to the loss of social credibility, fines and criminal penalties, etc.; and
- Violation of export control laws of countries due to external factors such as international emergencies may cause a risk of significant damage to Ricoh.

#### Countermeasures:

#### Ricoh:

- Has strengthened governance through structure of a group import export committee headed by the Representative Director and President and with a dedicated import export management division as the secretariat;
- Conducts periodic training for group officers and employees and internal audits focused on import / export control of business divisions, and promptly disseminates information on revisions to laws and regulations;
- Strictly complies with laws and regulations through appropriate pre-export inspections and customer screenings by a dedicated team.

| Item:(6) Government regulations (antitrust / competition law) |        |                       |  |  |
|---|--------|-----------------------|--|--|
| Urgency   | Impact | Risk management level |  |  |
| 5   | 2      | В                     |  |  |

#### Description:

If violation of antitrust/competition laws occurs in the course of business activities of Ricoh, there is a risk of being imposed of fines (administrative dispositions) and criminal penalties, suspension of transactions with public offices, and loss of public trust causing significant damage to Ricoh.

# Countermeasures:

Ricoh strives to strengthen education activities and response to incidents led by local legal departments in order to ensure thorough compliance with antitrust laws and competition laws in each country.

| Item:(7) Government regulations (environment) |        |                       |  |
|---|--------|-----------------------|--|
| Urgency                                       | Impact | Risk management level |  |
| 5   | 2      | В                     |  |

### Description:

If violation of environment-related and occupational health & safety laws in the course of business activities of Ricoh, there are risks of being subjected to administrative dispositions impacting production, fines, criminal penalties, loss of social credibility and damage to brand value causing significant adverse impacts on Ricoh.

## Countermeasures:

Ricoh has constructed Environmental Management Systems, and conducts regular assessments to ensure thorough compliance with environmental laws, and grasps and responds promptly to changes in regulation. In addition, Ricoh conducts appropriate environmental due diligence in M&A transactions to prevent risks. In response to public requests for disclosure of environmental information, Ricoh discloses environmental performance data in a transparent manner and actively discloses reliable environmental information, including third-party verification of key data.

| Item:(8) Exchange rate fluctuati | ions   |                       |
|----------------------------------|--------|-----------------------|
| Urgency                          | Impact | Risk management level |
| 4                                | 3      | C                     |

#### Description:

A substantial portion of Ricoh's production and sales activities are conducted outside Japan, such as in the U.S., Europe and China, and these activities are affected by foreign currency fluctuations.

#### There are risks of:

- Impact of exchange rate fluctuations on the consolidated statement of profit of loss and consolidated statement of comprehensive income because of the translation of local currency-denominated business results of overseas subsidiaries into yen using the average rate of foreign currencies during each fiscal year; and
- Impact of exchange rate fluctuations on assets and liabilities recorded on the consolidated statement of financial position because of the translation of local currency-denominated assets and liabilities into yeu using the rate as of the end of each fiscal year.

#### Countermeasures:

Ricoh conducts the following:

- Hedging transactions by entering into forward exchange contracts with financial institutions, among others, to minimize impact of short-term fluctuations of major currencies including U.S. dollar, Euro and yen. Companies and organizations that are entitled to engage in hedging transactions are limited with relevant financial rules strictly in place;
- Minimization of foreign currency-related risks through maximum netting arrangements in settlement across the Ricoh Group; and
- · Currency matching of assets and liabilities of overseas subsidiaries.

| Item:(9) Defined benefit plan ob | ligations |                       |
|----------------------------------|-----------|-----------------------|
| Urgency                          | Impact    | Risk management level |
| 2                                | 2         | В                     |

# Description:

Ricoh bears costs for defined benefit plan obligations and retirement benefit plans according to certain accounting policies and contributes funds in accordance with government regulations.

Currently, there is no immediate and significant funding requirement. However, there are risks of need for additional funding and incurring costs if revenue from plan assets declines due to unexpected and unforeseen movements in the equity and debt markets.

#### Countermeasures:

Ricoh reviews and revises plans as appropriate, in view of government regulations, personnel strategy and personnel systems.

# 4. ANALYSIS OF CONSOLIDATED FINANCIAL POSITION, OPERATING RESULTS AND CASH FLOWS

The future related matters discussed in this section are determined with the information available as of this fiscal year.

# (1) Significant Accounting Policies

The consolidated financial statements of Ricoh are prepared in accordance with International Financial Reporting Standards ("IFRSs") under the provisions of Article 93 of the "Ordinance on Terminology, Forms and Preparation Methods of Consolidated Financial Statements" issued by the Japanese Financial Services Agency (FSA). Ricoh evaluates its accounting estimates based on historical experience and other assumptions that are believed to be reasonable. For a summary of the significant accounting policies, refer to "V. Financial Information – Notes to Consolidated Financial Statements – 3. Significant Accounting Policies".

#### (2) Business results

#### **Economic Climate**

The global economy ebbed and flowed during the term because of factors such as the spread of the COVID-19 Omicron variant, inflation in Europe and the U.S., the implementation and end of lockdowns in China, shortages of semiconductors and parts and materials, and a subsequent moderate recovery in supply, and large fluctuations in exchange rates. Against this backdrop, office attendance rates in our core office market remained low, amid growing acceptance of remote work and other aspects of new ways of working. Recovery in print demand was thus limited. Although there were signs of an improving trend in transport costs, an alleviation of shortages in parts and materials, and an improvement in ICT products procurement, factors such as uneasiness over corporate management in the financial industry and concerns of a recession due to tighter monetary policy in response to inflation in Europe and the U.S. led to continuing uncertainty about global business prospects.

Regarding the average exchange rates of major currencies, the yen in fiscal 2022 was \\$135.49 to the U.S. dollar, up \\$23.13 from the previous year, and \\$140.91 to the euro, up \\$10.36.

#### Results for the Year

Ricoh (the Company and its affiliates) aimed to become a digital services company that is a work productivity innovator under the two years of its 20th Mid-Term Management Plan.

In the fiscal year 2022, which was the final year of the 20th Mid-Term Management Plan, we proceeded with autonomous business operations by each business unit under the business unit structure that we adopted in April 2021. We accelerated efforts to reinforce our structure while swiftly tackling changes in each market. We also cultivated human resources to support our drive to become a digital services company and overhauled enterprise systems, striving for transformation and endeavoring to achieve digital services growth by uniting our entire organization.

Consolidated sales for the term increased by 21.4% from a year earlier, to ¥2,134.1 billion. (an increase of 12.4% excluding foreign currency exchange fluctuations) In the office printing business, shortages of parts and materials and a decline in factory operating rates due to lockdowns in China caused delays in the supply of products, but we improved supply towards the end of the term by deploying various production measures to respond to these external factors, and sales of edge devices\* increased. Nonhardware sales increased year-on-year, but the recovery was more moderate than anticipated. In the office services business as well, sales activities were impacted by shortages of ICT products and other factors. However, sales increased owing to factors such as the deployment of services and solutions independent of ICT products, the effect of acquisitions in Europe and the U.S., the conversion of PFU Limited ("PFU") to a consolidated subsidiary in September 2022, and the depreciation of the yen.

By region, in Japan, sales for the office printing business increased year-on-year due to an increase in sales of A3 MFPs. In the office services business, services for small and medium-sized enterprises independent of ICT products, such as services to comply with the revised Electronic Books

Preservation Act, performed strongly, contributing to a rise in sales, amid the impact of delays in the supply of our products and ICT products due to shortages of parts and materials. In addition, owing to factors such as the effect of the acquisition of PFU, sales increased by 14.0% from a year earlier. Overseas, in the Americas, supply shortages of A4 MFPs and other products were alleviated towards the end of the term, leading to bulk sales including A3 MFPs, and sales of edge devices in the office printing business increased year on year. In the office services business, we strengthened our new services and solutions for existing customers of our managed services. Also sales increased partly thanks to the acquisition of Cenero LLC. ("Cenero") in the communication services domain. Total sales in the region increased by 35.4% (an increase of 13.0% excluding foreign currency exchange fluctuations) from a year earlier with a recovery in sales of both hardware and non-hardware, which was boosted by the depreciation of the yen. In Europe, the Middle East, and Africa, supply shortages for products such as A4 MFPs in the office printing business were alleviated and sales of edge devices increased. Non-hardware also recovered from the previous term, and sales grew. The office services business continued to perform strongly thanks to the effect of acquisitions and packaged sales. This was boosted by the depreciation of the yen, leading to a year-on-year increase in sales of 21.4% (an increase of 12.6% excluding foreign currency exchange fluctuations). In other regions, sales slumped temporarily due to the impact of movement restrictions under lockdowns in China, and the subsequent spread of COVID-19 due to the change of government policies, but sales for the term grew 14.7% (an increase of 2.6% excluding foreign currency exchange fluctuations) from a year earlier, boosted by the depreciation of the yen. As a result, overseas sales increased by 26.3% overall. Excluding effects of foreign currency fluctuations, sales in overseas would have increased by 11.3% as compared to the previous year.

Gross profit increased by 19.7%, to ¥745.4 billion. Profit improved owing to a rise in earnings from higher sales and efforts to secure profits through pricing controls including price pass-throughs implemented at each business unit in response to rising purchasing costs due to increased commodity prices and energy costs, as well as parts and materials shortages. Profit was further boosted by continuing structural reinforcement of development and production and the depreciation of the yen.

Selling, general and administrative expenses increased by 14.6%, to ¥688.1 billion due to factors such as the acquisition of PFU and the depreciation of the yen, in addition to increase in sales and expenses associated with business growth.

Other income increased year on year. In the previous term, we recorded income including gains on U.S. subsidiary land sales. During the fiscal year, we went on to record gains such as sales of land in Japan.

We accordingly posted an operating profit of ¥78.7 billion, an increase of ¥38.6 billion from the previous fiscal year.

Net financial expenses increased, reflecting increases in interest expense and foreign exchange losses.

The share of profit of investments accounted for using the equity method was higher, reflecting better performances among equity-method affiliates.

We recorded an ¥81.3 billion profit before income tax expenses, an increase of ¥36.9 billion from the previous fiscal year.

Income tax expenses increased by ¥11.9 billion, owing largely to the increase in profit before income tax expenses.

We therefore posted a ¥54.3 billion profit attributable to owners of the parent, an increase of ¥23.9 billion from the previous fiscal year.

Comprehensive income was ¥101.7 billion, owing largely to the profit increase above and an increase in translation adjustments for foreign operations.

\* Edge devices: Networked devices with data processing functions, such as multifunctional printers or

cameras that serve as an entry and exit point for various data, such as text, photographs, audio, and video.

# Operating results by segment are as follows:

|  |            | (Millions of yen) |         |        |

#### a. Digital Services

Digital Services sales increased by 15.6% (an increase of 7.2% excluding foreign currency exchange fluctuations) to ¥1,650.4 billion in the fiscal year 2022. The office services business continued to grow, despite the impact of shortages in ICT products on sales activities and the sales of related services.

We expanded domestic sales of solutions independent of ICT-based products, such as services to comply with the revised Electronic Books Preservation Act and invoicing system. We also strengthened our ability to propose solutions through training. As a result, sales of Scram series remained strong mainly due to the good performances of operation management after system installation, virtualization consolidation, and security-related services.

In April 2022, we agreed on a business partnership with Cybozu, Inc. ("Cybozu") concerning the digital services business. We then proceeded to launch the "RICOH kintone plus" solution, the cloud-based business improvement platform jointly developed with Cybozu based on a strategic alliance, in October 2022. "RICOH kintone plus" enables collaboration between our co-creation platform "RICOH Smart Integration" and MFPs. In December 2022, we went on to conclude a capital alliance agreement with Cybozu, and we are working towards stronger initiatives in the digital services field. In the Americas, sales of security-related services continued to be robust. We completed the acquisition of the U.S. company Cenero, which provides communications services, and progressively strengthened our proposal capabilities in the office services business.

We succeeded in growing net sales in Europe through the sale of packaged solutions and by generating synergies with acquired IT service companies. We acquired Pure AV Ltd. in the United Kingdom, AVC A/S in Denmark, and Corelia SAS in France, proceeded with the training of internal systems engineers and sales staff responsible for the office services business, strengthened the foundation of the office services business, and enhanced our sales and support structures. In the office printing business, sales of edge devices increased due to improvements in the supply shortage of A4 MFPs, etc. toward the end of the fiscal year 2022, and progress in the delivery of edge devices, including A3 MFPs, at the time of the bulk sales, despite the impact of material shortages and delays in product supply due to lockdown in China. Non-hardware sales recovered at a more moderate pace than anticipated. On the other hand, in response to rising costs mainly due to ocean freight, we secured profits by implementing pricing controls such as price pass-through and selling value-added products. At the same time, we implemented profit improvement measures such as structural reform of maintenance services.

As a result, segment operating profit increased by ¥12.0 billion to ¥28.2 billion.

# **b.** Digital Products

In fiscal 2022, we worked to strengthen our range of edge devices that support digital services. We launched the RICOH IM C6010/C5510/C4510/ C3510/C3010/C2510/C2010 full-color A3 MFPs in February 2023. These paper document digitalization devices provide value in terms of both customer DX and sustainability. Amid the progressive shift to digital order sheets and invoices due to changes in working styles and legal reform, MFPs have become edge devices, linking paper-based analogue information with digital technology. These new products are enabling users to digitalize a wide range of paper documents. By saving on resources and energy, they also reduce environmental burdens across all facets of lifecycle, contributing to reducing environmental burdens from customers' business activities.

Regarding video and audio digitalization, in June 2022, we launched the RICOH Meeting 360 V1, an all-in-one teleconferencing device incorporating a 360° camera, as an edge device to enhance the sense of presence at web meetings. In November 2022, we launched the RICOH Portable Monitor 150BW/150, a lightweight handout display featuring a touch function. These edge devices enhance the efficiency of customer workflows by coordinating with a range of applications through the RICOH Smart Integration co-creation platform.

Digital Products sales rose by 9.1% (an increase of 2.1% excluding foreign currency exchange fluctuations) to ¥26.7 billion. Sales including intersegment sales increased by 16.7%, to ¥440.3 billion. While plant operation suffered from parts and materials shortages, together with lockdowns in China for the enforcement of zero-covid policies and the subsequent spread of the COVID-19 cases there, we implemented flexible production measures and sales increased year-on-year due to recovery of production. We secured profits as a result of through measures such as cost improvement activities by enhancing manufacturing structure, in response to a decline in profit margin due to a temporary increase in A4 MFP's shipment ratio toward the end of the fiscal year and a continuous rise in the price of parts and materials. Operating profit was ¥31.5 billion, a year-on-year decline of ¥9.9 billion. However, operating profit was basically unchanged after excluding the one-off factors such as the gains on U.S. subsidiary's land sales recorded in the previous fiscal year.

#### c. Graphic Communications

In July 2022, we launched RICOH IM CW2200/CW2200H/ CW1200/CW1200H wide format digital full-color MFPs in the commercial printing business. These new devices not only feature high-speed full-color and monochrome output, but also significantly faster scanning speeds, greatly improving productivity in applications such as plan printing and plan data transmission, and promoting more efficient business operations. In September 2022, we went on the launch the color management solution RICOH Auto Color Adjuster, a new solution for on-site use in the printing industry to achieve more efficient color-matching and color adjustment.

Graphic Communications sales increased by 25.5% (an increase of 11.3% excluding foreign currency exchange fluctuations) to ¥234.8 billion. Sales in the commercial printing business increased thanks to the recovery of economic activities in Europe and the United States. Although it was affected by the shortages in parts and materials, sales of production printers increased due to efforts to secure production volume by procuring substitute parts. Sales of non-hardware remained strong and recovered to pre-pandemic levels. In the industrial printing business, sales of ink jet heads were robust, despite the impact of lockdowns in the key Chinese market. Although profit came under pressure from a rise in costs due to the procurement of substitute parts in the commercial printing business, overall operating profit of Graphic Communications increased by ¥15.0 billion year-on-year to ¥14.5 billion, driven by an improvement in development, production, and services activities, as well as the effect of the depreciation of the yen.

#### d. Industrial Solutions

In the thermal business, fiscal 2022 marked the adoption of our On-demand Direct Printing (ODP) Thermal Media thermal printing technology for product packaging by several major convenience stores. The introduction of Label-free printing allows information such as product names and ingredients to be printed directly on the upper surface of packaging, thus making the paper labels previously attached to packaging redundant, and contributing to alleviating environmental burdens. It also eliminates the work of affixing paper labels and replacing ink ribbons in manufacturing processes, achieving an increase in productivity across a wide range of fields such as retail and logistics.

In the industrial products business, we launched RICOH AGV\* 3000 autonomous delivery vehicle in September 2022. This vehicle is designed to transport goods of a wide variety of shapes and sizes through the narrow spaces and diverse layouts of production and logistics sites, then contributes to on-site digital transformation.

Industrial solutions sales increased by 14.1% (an increase of 5.2% excluding foreign currency exchange fluctuations) to ¥113.5 billion. In the thermal business, while energy and raw material prices, also logistics and other costs continued to rise, we absorbed this rise through the flexible implementation of pricing controls, including price pass-through. In addition, sales expanded of linerless labels and demand grew from the logistics and distribution industries in Europe and the U.S., contributing to the sales increase. Sales declined in the industrial products business, which was

affected by reduced production by automotive customers due to the lockdowns in China. Operating profit increased by ¥1.6 billion from the previous year, to ¥3.1 billion, due partly to the effect of securing profits through pricing controls.

The electronics business in Industrial Solutions has been reclassified into Digital Products from the third quarter. Prior year comparative figures have also been reclassified to conform to the current year's presentation.

\* AGV (automated guided vehicles): Automated transport vehicles guided by recognition of lines of tape on the floor.

#### e. Other

We acquired shares of PFU and made it our consolidated subsidiary in September 2022. PFU boasts the global No. 1 market share and customer base for business scanners. By strengthening our business scanners, we are able to respond to special documents that are difficult to read by existing MFPs. This will enable us to provide value not only to the office domain but also to more specialized fields, such as the teller window operations of medical institutions and public institutions, and the processing services of various documents at financial institutions and corporate backyards. Moreover, PFU also provides cloud development and managed security services in Japan, and this acquisition also bolsters our IT management services capabilities. We are supplementing and enhancing the areas of specialization of each company to generate synergies, and thereby accelerating our growth into a digital services company.

In the Smart Vision business, jointly with SpiderPlus & Co., we launched a collaboration, with the aim of accelerating DX in the construction industry.

Other sales increased by 461.5% (an increase of 454.5% excluding foreign currency exchange fluctuations) to ¥108.6 billion. This increase was mainly due to the acquisition of PFU. We also engaged in new business creation, such as an additional investment in Elixirgen Scientific, Inc. in the drug discovery support business and activities aimed at the commercialization of social infrastructure inspection services, including verification testing and new project development.

We posted a ¥3.2 billion operating loss in this segment due to advance investments in new business creation including above mentioned activities. However, this was an improvement of ¥12.2 billion.

\* Digital services as a business segment is mainly limited to the office services business and the office printing sales business. This segment does not include all digital services, which Ricoh aims to transform into "a digital services company" that connects workplaces and support worker's creativity. "Digital Services" provided as "a digital services company" is included in all the business segments as well as Digital Services business segment.

#### 1) Production

Production in each segment for the years ended March 31, 2022 and 2023 are as follows:

|                             | Millions           |                    |        |
|-----------------------------|--------------------|--------------------|--------|
|                             | For the year ended | For the year ended |        |
|                             | March 31, 2022     | March 31, 2023     | Change |
| Digital Services            | _                  | _                  | _      |
| Digital Products            | 323,573            | 398,324            | 23.1%  |
| Graphic Communications      | 143,192            | 163,193            | 14.0%  |
| <b>Industrial Solutions</b> | 99,178             | 114,530            | 15.5%  |
| Other                       | 19,021             | 106,063            | 457.6% |
| Total                       | 584,964            | 782,110            | 33.7%  |

- (Note) 1. The amounts are based on sales prices, including intersegment transactions. In addition, production related to services has been excluded from the production and production related to only manufacturing are displayed above.
  - 2. Production of PFU is included in Other segment.
  - 3. The electronics business in Industrial Solutions has been reclassified into Digital Products from the current year. Prior year comparative figures have also been reclassified to conform to the current year's presentation.

#### 2) Orders Received

Not applicable as the production system adopted is based on estimated orders.

## 3) Sales

Sales in each segment for the years ended March 31, 2022 and 2023 are as follows:

| Digital Services         1,428,192         1,650,414         15.6%           Digital Products         24,466         26,702         9.1%           Graphic Communications         187,082         234,843         25.5%           Industrial Solutions         99,497         113,572         14.1% |                        | Millions           |                    |        |
|---|------------------------|--------------------|--------------------|--------|
| Digital Services       1,428,192       1,650,414       15.6%         Digital Products       24,466       26,702       9.1%         Graphic Communications       187,082       234,843       25.5%         Industrial Solutions       99,497       113,572       14.1%                               |                        | For the year ended | For the year ended |        |

| ,   | Graphic Communications | 187,082            | 234,843            | 25.5%  |
| Other 19.350 108.649 461.5°   | Industrial Solutions   | 99,497             | 113,572            | 14.1%  |
| ->,   | Other                  | 19,350             | 108,649            | 461.5% |
| Total 1,758,587 2,134,180 21.49   | Total                  | 1,758,587          | 2,134,180          | 21.4%  |

(Note) 1. All intersegment transactions are eliminated.

- 2. Information on sales by customer is omitted because no single customer accounted for 10% or more of the total revenues for the years ended March 31, 2022 and 2023.
- 3. Sales of PFU are included in Other segment.
- 4. The electronics business in Industrial Solutions has been reclassified into Digital Products from the current year. Prior year comparative figures have also been reclassified to conform to the current year's presentation.

# (3) Financial positions

Total assets increased by ¥296.7 billion from the end of fiscal 2021, to ¥2,149.9 billion. In addition to the acquisition of PFU, the yen depreciated from the end of the previous term, producing currency translation differences for foreign assets and boosting the amount of total assets. After excluding the foreign exchange impact, total assets increased by ¥221.0 billion. The year-end rates for major currencies for the yen at end of fiscal 2022 were ¥133.53 against the U.S. dollar (up ¥11.14 from the previous year) and ¥145.72 against the euro (up ¥9.02). Trade and other receivables rose by ¥79.2 billion, mainly due to the increase in sales towards at end of fiscal year 2022. Inventories rose by ¥81.8 billion due to factors such as an increase in sales inventories, the securing of safety inventory, acquisitions, and the depreciation of the yen. Goodwill and intangible assets increased by ¥106.9 billion on the acquisition of PFU and service business companies in Europe and the U.S., as well as the depreciation of the yen and other factors.

Total liabilities were up ¥244.4 billion, to ¥1,191.8 billion. Trade and other payables increased by ¥43.8 billion owing to an increase in purchases. The total of current and non-current bonds and borrowings increased by ¥127.5 billion with the procurement of funds through syndicated loans and other means. Total equity increased by ¥52.2 billion, to ¥958.0 billion. Equity declined in line with the repurchase and retirement of ¥30.0 billion of treasury stock, implemented as a policy to enhance shareholder returns. However, as a result of the yen's depreciation, exchange differences on translation of foreign operations rose by ¥40.7 billion. Equity attributable to owners of the parent was up ¥29.5 billion, to ¥931.5 billion. The equity ratio declined 5.4 points from the end of fiscal 2021 to 43.3%, mainly due to share repurchases and other capital policy measures, as well as new borrowings, but remained at a stable level.

# (4) Cash flows

Net cash provided by operating activities was ¥66.7 billion, down ¥15.7 billion from the previous year. While profitability improved significantly, inventories rose and trade and other receivables increased due to an increase in sales during the fiscal year. Net cash used in investing activities increased by ¥74.5 billion, to ¥133.9 billion, mainly due to the acquisition of PFU and other active acquisitions and investments. We accordingly posted a negative free cash flow (net cash provided by operating activities plus net cash used in investing activities) of ¥67.2 billion, down ¥90.3 billion. Net cash provided by financing activities was ¥35.4 billion, after a decline of ¥167.1 billion in cash used from the previous fiscal year. This was mainly due to an increase in cash provided due to borrowing and other funds procurement, despite the increase in cash used to implement ¥30.0 billion in share repurchases. Cash and cash equivalents at the end of fiscal 2022 thus totaled ¥210.8 billion, down ¥23.1 billion. We will systematically employ operating cash flows from business investments to invest in further growth and bolster shareholder returns.

Please refer to "II. BUSINESS OVERVIEW 1. MANAGEMENT POLICIES, MANAGEMENT ENVIORMENTS AND ISSUES TO BE SOLVED (2) Medium-Term Direction Capital Policies Supporting Growth" for more information on capital policy.

i. All indices are calculated based on consolidated data.

ii. Operating cash flow is shown in consolidated statement of cash flow. Interest bearing debt are bonds and borrowings.

# Cash and Asset-Liability Management

In recent years, Ricoh made efforts to achieve greater efficiencies in utilizing cash balances held by its subsidiaries pursuant to its policy of ensuring adequate financing and liquidity for its operations and growth and maintaining the strength of its financial position. One method that Ricoh has implemented to achieve greater efficiency is building up its group cash management system in each region as well as globally. This cash management system functions as an arrangement in which Ricoh's funds are pooled together and cash resources are lent and borrowed from one group company to another with finance companies located in each region coordinating this arrangement. As part of that, Ricoh introduced a global cash pooling system and realized further improvement of fund operation efficiency globally.

Ricoh also enters into various derivative financial instrument contracts in the normal course of its business and in connection with the management of its assets and liabilities. Ricoh enters into foreign currency contracts to hedge against the potentially adverse impact of foreign exchange fluctuation on local currency-denominated assets and liabilities. Ricoh uses these derivative instruments to reduce its risk and to protect the market value of its assets and liabilities in conformity with Ricoh's policy. Ricoh does not use derivative financial instruments for trading or speculative purposes nor is it a party to leveraged derivatives.

# Sources of Funding

Ricoh's principal sources of funding are a combination of cash and cash equivalents on hand, various credit facilities and long-term debt securities. In assessing its liquidity and capital resources needs, Ricoh places importance on the balance of cash and cash equivalents and operating cash flows in the consolidated statement of cash flows.

As of March 31, 2023, Ricoh had ¥210.8 billion in cash and cash equivalents and ¥376.2 billion in credit facilities. Of the ¥376.2 billion in credit facilities, ¥346.2 billion was available for borrowing by Ricoh as of March 31, 2023. The Company has committed credit lines with banks having credit ratings satisfactory to Ricoh in the aggregate amount of ¥150.0 billion. These committed credit line amounts of the Company are included in the ¥376.2 billion figure for credit facilities. Ricoh may also borrow up to its borrowing limit from financial institutions under the interest rates of each respective market.

The Company and certain subsidiaries raise capital by bank borrowings and issuing long-term debt securities in various currencies. Furthermore, Ricoh utilizes a cash management system globally elsewhere to efficiently manage the Ricoh Group funding.

The Company obtains ratings from the following major rating agencies: Standard & Poor's Rating Services ("S&P") and Rating and Investment Information, Inc. ("R&I"). As of June 20, 2023, S&P assigned long-term and short-term credit ratings for the Company of BBB and A-2, respectively, and R&I assigned long-term and short-term credit ratings for the Company of A+ and a-1, respectively.

# Cash Requirements and Commitments

Ricoh believes that its cash and cash equivalents, funds expected to be generated from its operations and procurement funds such as bonds and borrowings are sufficient to meet its cash requirements at least through fiscal year ending March 31, 2024. Even if there were a decrease in cash flows from operations as a result of fluctuations in customer demands from one year to another due to unexpected changes in global economic conditions, Ricoh believes that current funds on hand along with funds available under existing credit facilities would be sufficient to finance its operations. In addition, Ricoh believes that it is able to secure adequate resources to fund ongoing operating requirements and investments related to the expansion of businesses and the development of new projects through its access to financial and capital markets. While interest rates of such instruments may fluctuate due to economic trends and other factors in various countries, Ricoh believes that the effect of such fluctuations would not significantly affect Ricoh's liquidity, due mainly to the adequate amount of Ricoh's cash and cash equivalents on hand, stable cash flow generated from its operating activities and group-wide cash management system.

### 5. MATERIAL AGREEMENTS, ETC.

(1) The important patent and licensing agreements

The following table lists some of the important patent and licensing agreements which the Company is currently a party to:

| Counterparty  | Country<br>and<br>Region | Summary of the Contract  | Contract Term  |
|---|--------------------------|--|--|
| International<br>Business Machines<br>Corporation                                 | USA                      | Comprehensive cross license patent agreement related to information processing technology (reciprocal agreement) | March 28, 2007 to expiration date of the patent subject to the agreement   |
| Adobe Inc.  | USA                      | Patent licensing agreements related to development of printer software and sales (counterparty as licensee)      | January 1, 1999 to March 31, 2024  |
| Lemelson Medical,<br>Education &<br>Research<br>Foundation Limited<br>Partnership | USA                      | Patent licensing agreement related to computer image analysis and other products (counterparty as licensee)      | March 31, 1993 to expiration date of the patent subject to the agreement   |
| HP Inc.   | USA                      | Comprehensive cross license patent agreement related to document processing systems (reciprocal agreement)       | October 31, 2011 to expiration date of the patent subject to the agreement |
| BROTHER<br>INDUSTRIES,<br>LTD.  | Japan                    | Patent licensing agreement related to office equipment (Company as licensor)                                     | October 1, 2019 to<br>September 30, 2024                                   |

(2) Business integration agreement and Shareholder agreement for integration of development and manufacturing of multifunction printers and other devices

Ricoh Company, Ltd. and Toshiba Tec Corporation, in the resolution of the Board of Directors of each company on May 19, 2023 to conclude an agreement to set the terms and conditions for integrating businesses regarding the development and manufacturing of multifunction printers and other devices by necessary procedures such as company split effective on a specific day between April 1, 2024 and June 30, 2024 to be separately agreed upon by the two companies. The Boards of Directors of both companies also resolved to conclude a shareholders agreement related to the Business Integration.

For the details, refer to "V. Financial Information – Notes to Consolidated Financial Statements – 37. SUBSEQUENT EVENTS (Business partnership and the conclusion of a business integration agreement and a shareholders agreement)"

#### 6. RESEARCH AND DEVELOPMENT

Ricoh (Ricoh Company, Ltd. and our consolidated subsidiaries) is committed to providing excellence to improve the quality of living and to drive sustainability as our basic management philosophy. Although the global spread of COVID-19 continues, economic activities are gradually resuming thanks to the spread of vaccines and other factors. On the other hand, our operating environment is becoming increasingly uncertain due to factors such as the continuing shortage of parts and materials and accelerating inflation caused by the prolonged conflict in Russia and Ukraine among other factors. Against this backdrop, in its R&D activities, we have been focusing on growing out of being an OA manufacturer and transforming into a digital services company as it accelerates transformation beyond COVID-19.

As a digital services company, we will continue to provide products and services that transform the workplace in order to realize our vision for 2036, "Fulfillment through Work"

Ricoh is strengthening its internal and external digital and data-based infrastructure and value creation functions under the CTO (Chief Technology Officer) and CDIO (Chief Digital Innovation Officer). We have defined customer success as the value provided by Ricoh and are strengthening our internal and external data utilization infrastructure and functions to deepen existing business and evolve new customer value, as well as to sustainably enable these activities. We aim to further expand as a digital services company by leveraging our global customer base of approximately 1.4 million companies.

Under the business unit structure introduced in fiscal 2021, we have shifted from the concept of consolidating resources for each customer and product in each business unit of each business domain to a new system in which research and development is integrated by business domain, ranging from medium-to long-term research for the future to immediate product development, design, and production.

In accordance with the above changes in the structure, the role and nature of headquarters research and development has also been changed.

The company has defined two areas of research at the headquarters as technological strategies to support medium- to long-term growth outside of its current business domains: "a digital twin that fosters evolutions in workplace practices," and "digital printing for a mass customization era." Research and development for the achievement of these strategies and the development of Ricoh's common infrastructure technologies are being conducted at Advanced Technology R&D Division.

Research and development of digital infrastructure technology to support RICOH Smart Integration (RSI) is being promoted by the Digital Strategy Department. We are engaged in the development of AI/ICT technology, the development of technology to digitize work, and the training and enhancement of digital human resources involved in these areas to support the expansion of the Group as a digital services company.

Furthermore, the Ricoh Futures Business Unit is engaged in business incubation based on the technological development of the headquarters research center and is strengthening the development system with the aim of early commercialization.

As for how we proceed with research and development, we investigate and search for market needs and conduct research and technological development by taking advantage of the characteristics of each region while deepening cooperation among our global business locations. Moreover, we have established technology centers and customer experience centers around the world to provide feedback to product development on needs identified directly through customer support, thereby developing value co-creation activities together with customers.

In open innovation, we are actively utilizing the power of universities, research institutes, and companies to efficiently develop cutting-edge technologies, and in the fiscal year ended March 31, 2023, we newly started joint research with universities including the University of Tokyo and Keio University. In addition, TRIBUS accelerator program, which aims to support the growth of startup companies and internal and external entrepreneurs to co-create businesses, has been implemented since fiscal 2019. In the fiscal year ended March 31, 2023, the fourth year of the program, a contest will be held from among 142

applications, and the themes that pass the contest will be eligible to utilize various resources, including approximately 250 supporters registered within Ricoh, with the aim of further fostering a culture that supports and fosters people who take on challenges and encourages the creation of new businesses.

Ricoh capitalized a portion of its development investments and recorded them as intangible assets in accordance with the application of IFRS. Research and development investment for the fiscal year ended March 31, 2023, including development costs recorded under intangible assets, amounted to \mathbb{1}07.7 billion.

# (1) Digital Services

Ricoh defines the value it provides to customers as Empowering Digital Workplaces and contributes to improving the operational efficiency and productivity of customers by supporting the digital transformation of workplaces.

Recently, there has been a growing demand for diverse workstyles that are not restricted by time or location, and Ricoh is working to develop services that can contribute to solving our customers' issues through digital transformation in various workflows, including not only paperless office operations, but also trade ecosystems that support business-to-business transactions, on-site work support using remote equipment, and streamlined social infrastructure inspection operations that are facing labor shortage issues.

Ricoh offers RICOH Smart Integration (RSI), which connects MFPs and other devices that are highly compatible with cloud services, making it possible for customers to use the latest services at any time. Using this platform, we will continue to contribute to the success of customers by providing digital services that support the creativity of people working in all kinds of workplaces.

In the fiscal year ended March 31, 2023, we promoted strategic collaborations, including the development, sales for RICOH kintone plus and capital alliance, through an OEM business partnership with Cybozu, Inc. Through this collaboration, we will support the sharing of information and streamlining of business processes related to various operations with the power of digital technology, thereby supporting the future growth and competitiveness of our customers and contributing to the DX (digital transformation) of work in the future of companies and organizations.

We also acquired all shares of Cenero, LLC, which is engaged in design and implementation of communication services and video conferencing systems and provision of integrated AV (audio visual) solutions, to expand the value of Empowering Digital Workplaces offering through communication and collaboration services.

In addition, NR-Power Lab Co., Ltd., a joint venture with NGK Insulators Ltd. regarding electric power business, was launched, and by combining NGK Insulator's NAS® battery and storage battery control technology with our renewable energy distribution record platform utilizing blockchain technology, we will provide electric power digital services to expand the use of renewable energy, which is essential for achieving carbon neutrality, thereby contributing to the realization of a sustainable society.

Major achievements in the fiscal year ended March 31, 2023 are as follows.

# Launched the business improvement platform RICOH kintone plus for the Japanese and the U.S. markets

### Accelerate DX for SMEs by escorting the use of digital technology in the field

- Linking with RICOH Smart Integration (RSI)
- Based on the business improvement know-how we have accumulated through the provision of scrum packages for SMEs and scrum assets for mid-sized companies, as well as the requests we have received from customers through the provision of kintone®, we have added original plugin apps and functions linked to our MFPs

# Began rolling out the RICOH Print Management Cloud, an all-in-one printing infrastructure solution, in each region

# Getting rid of servers for printing-related systems through cloud

• Enables centralized management by eliminating dependence on print servers

• Designed for global security compliance from user protection, data protection, process compliance, to data center security (GDPR, ISO27001, NCSC, OWASP, SOC2)

# Launched RICOH Drive, a cloud storage service that connects the office, the field, and the home Syncs with edge device applications and supports enterprise digitalization through secure data sharing

- In addition to file encryption and communication path encryption, security features such as user-specific access restrictions and log management enable secure data sharing both inside and outside a company
- When sending or receiving files to or from external users who do not have a RICOH Drive ID, email address authentication and one-time passwords are issued to prevent accidental transmission
- Through RICOH Smart Integration (RSI), various edge devices and applications including MFPs can be linked, enabling usage in accordance with the workflow of each customer's industry and business

# Integrated a group of cloud services that streamline B2B transactions and began offering them as the Trade Forms DX Series

# Integrated six services, including the RICOH Cloud OCR Series, into a single service

- Provides digitalization of the entire workflow related to business transactions by linking with other product series and third-party services
- Cloud service for constantly updating to the latest laws and regulations
- Provides a support system that accompanies the customer from the preparation for the start of service operation to the establishment of operations

#### Released DocuWare Version 7.6/7.7

# Enhanced content management and workflow functions, as well as API-based integration with a variety of external systems, to help companies improve the efficiency of their business processes

- Provides the ability to customize transfer data to meet the requirements of third-party software and share links of archived documents to Microsoft Teams (version 7.6)
- One Click Indexing for enhanced automatic entry of invoice items and iPaaS Connector for integration with other business applications (version 7.7)

# **Released Axon Ivy Version 10**

# Pursuit of scalability and ease of use to the limit

• Fully compatible with cloud environments. Provides new process editor, "Marketplace" system interface for integration with third-party IT systems, customizable dashboards, and integration with Microsoft Teams

# Released RICOH Remote Field, a real-time two-way video and audio streaming service Contributed to DX through high-quality, low-latency, 4K360-degree video that connect the field and the office

- Achieves real-time, two-way streaming of video and audio with stable connection quality as a service utilizing RICOH Smart Integration (RSI)
- The service provides both high video quality and low latency through our media bandwidth control technology for video and audio, which we have cultivated through our videoconferencing and web conferencing systems, and enables stable connections even in mobile network environments such as 4G
- Supports communication between remote locations by connecting various spaces in real time through two-way streaming of video and audio

# Released RICOH Flexible Image Checker, a practical solution for the manufacturing industry Enabling more efficient visual checks using various angles of the hand-held camera

- When an object to be inspected is photographed with a camera, the inspection app analyzes missing
  parts and differences from the finished product using pattern matching and automatically makes a pass
  or fail decision
- The hand-held camera makes it possible to check the object from various angles, and at the same time, a hand-held cover can be attached to control tilt and blurring

• Based on our experience at our production sites in Japan and overseas, we have implemented a technology that automatically corrects for tilted or blurred images and performs pattern matching

Research and development investment in this business segment for the fiscal year ended March 31, 2023 totaled ¥13.5 billion.

# (2) Digital Products

While the number of people returning to the office is increasing after the impact of COVID-19 has subsided, a variety of workstyles have taken root, such as working from home or workcations. We believe that we will not return to the situation before the COVID-19 pandemic, where everyone gathers in one place to work. The Digital Products Business Unit continues to focus on the development of digital edge device technologies that support these diverse ways of working.

In the fiscal year ended March 31, 2023, we renewed our mainstay A3 color MFPs that can provide value to customers in terms of both DX (digital transformation) and sustainability. In order to seamlessly connect analog and digital, RICOH Smart Integration (RSI) enables the printer to link with various applications such as "RICOH kintone plus." In addition, by promoting resource and energy conservation, the environmental impact (carbon footprint) over the entire product lifecycle has been reduced by 27% compared to its predecessor, and recycled plastic is used for 50% of the total resin weight of the main body, while the use of paper materials for product packaging has also reduced the amount of packaging plastic by 54%. We will continue to advance these environmentally friendly technologies.

In the fiscal year ended March 31, 2023, we acquired 80% of the shares of PFU Limited, making it a consolidated subsidiary. PFU Limited has the world's No.1 scanner market share and excellent paper transport technology to support this market share, and we expect technological synergies with our MFPs and printers in the future.

In the edge devices other than printing or scanning, in addition to interactive whiteboards (electronic blackboards) and projectors, we have also released a new 360° conference system and portable monitors. Based on our knowledge and experience in the office working environment, we will further expand the value we provide to our customers in all aspects of work.

Difficulties in terms of production continued in the fiscal year ended March 31, 2023, such as the long-term plant shutdown due to the COVID-19 pandemic and the continuing sharp rise in raw material prices. We will continue to build a manufacturing system that is not affected by changes in the external environment, including a rapid switch to alternative parts and parallel production at multiple sites, which we have been working on since fiscal 2021.

Major achievements in the fiscal year ended March 31, 2023 are as follows.

# Released RICOH IM C6010/C5510/C4510/C3510/C3010/C2510/C2010, full-color MFPs that support DX by helping to resolve issues for each type of business

Providing value to customers through solution collaboration and industry-leading environmental performance

- We have enhanced functionality as an edge device, enabling the digitization of a wide variety of paper documents, including small-size documents such as business cards and receipts
- · Link with applications such as RICOH kintone plus through RICOH Smart Integration (RSI)
- Enhanced paper folding and needleless binding options
- Contribute to the realization of a recycling-oriented and decarbonized society by reducing environmental impact

# Realization of remote meetings with a sense of presence Released RICOH Meeting 360 V1 microphone speaker with 360° camera Web conferencing device that captures the entire atmosphere of a conference room

- 360° camera can show the entire conference room and all participants
- · Automatic recognition of the speaker and instant close-up
- Equipped with omni-directional microphone capable of collecting sound from a distance of up to approximately 6 meters and a high-quality speaker unit

# Released RICOH Portable Monitor 150BW/150, a lightweight handout-type display with OLED and touch functionality

# Supporting hybrid work by encouraging co-creation of communication

- 15.6-inch portable display that is easy to carry and can be operated by touching
- Communication device that facilitates collaboration in small groups by taking advantage of face-to-face meetings

# Released RICOH PJ WXL4960/WXL4960NI desktop short throw projectors with laser light source For installation on a teacher's desk with no restriction on projection position as a large classroom presentation device

- Equipped with specifications and functions suitable for large classroom projectors
- Designed to meet the needs of educational settings, with our unique front input terminal and auto ecofriendly mode
- · Laser light source for brighter and clearer image quality, longer life, and improved convenience

# Released RICOH IP C6020 and RICOH IP C6020M A3 color printers Equipped with a 7-inch full-color touch panel and enhanced solution integration functions to streamline operations

- MultiLink-Panel enables intuitive operation like that of a tablet device or smartphone
- Link with solutions such as the Ricoh Personal Authentication System AE2 to create a more secure printing environment
- In addition to its full range of functions, such as reduced power consumption while enabling large-volume paper feeding, it also offers excellent energy-saving performance

Research and development investment in this business segment for the fiscal year ended March 31, 2023 totaled ¥33.0 billion.

### (3) Graphic Communications

Ricoh aims to solve the issues faced by customers working in the frontlines through DX (digital transformation) and contribute to their business expansion and workstyle reforms, and we will continue to provide innovative solutions that combine workflow software with products that have advantages in terms of performance and price.

In the commercial printing business field, for customers in the printing industry, we are proposing a combination of printers that contribute to higher productivity, special color toners that enable high value-added such as gold and silver, and workflow solutions that enable integrated management of processes from upstream to downstream to accelerate the Offset to Digital and drive the digitalization of the processes of customers in the frontlines.

To this end, we continue to develop electrophotographic technology, supply technology, optical design technology, image processing technology, inkjet technology, next-generation imaging engine element technology, and cutting-edge software technology.

We will also provide total printing solutions through our long-standing partnership with Heidelberger Druckmaschinen AG (Germany), which promotes printing DX, alliances with processing machine vendors and other companies that support a wide variety of printed materials, and initiatives to develop solutions in collaboration with our customers.

The upgraded RICOH Pro VC70000e enables the use of a wider range of media, expanding the range of work for our customers, and the inclusion of new software has enabled further automation and streamlining of operations.

Major achievements in the fiscal year ended March 31, 2023 are as follows.

# RICOH Pro VC70000e expands business opportunities in offset and digital printing business The RICOH Pro VC70000e is available for upgrade from an existing predecessor, Ricoh Pro VC70000, and has the following features:

- Proprietary pre-coat technology enables use of a wider range of media and applications, improving overall print quality
- · New print head developed for sharper text and fine lines
- Software advances such as RICOH Pro Scanner Option and RICOH Supervisor provide constant feedback on machine and job status, and AI generates accurate and efficient processes

# Released RICOH Auto Color Adjuster color management solution

# The company's proprietary high-speed spectrophotometric color measurement technology and color adjustment process streamline operations at printing sites

- The RICOH Auto Color Adjuster enables the reproduction of correct colors by measuring the entire paper surface at high speed, creating an ICC profile for color adjustment from a dedicated chart or sample image, and using this profile with the color production printer that outputs the color. In addition, by quantifying the printer's color status based on the dedicated chart, objective color quality control is possible
- Color matching can be easily performed in printing according to color swatches

In the industrial printing business field, we will focus on the development and commercialization of industrial inkjet printhead technologies to expand our product lineup. For MH series heads, which have been well received by customers for their high durability and wide ink compatibility, we have launched a new model with enhanced durability and system compatibility. In addition, the TH series head, which utilizes MEMS (Micro Electro Mechanical System) technology for compact and high-definition printing, has been adopted by an increasing number of new customers.

For the garment printing market, we have also launched a solution that enables customers using the already released RICOH Ri 1000/2000 to use new applications as Direct-to-Film. Together with the entry-level RICOH Ri 100, we offer products that meet the needs of our customers.

Major achievements in the fiscal year ended March 31, 2023 are as follows.

# Released RICOH MH5422, RICOH MH5442, and RICOH MH5422 Type A, new industrial inkjet printheads

# Combining high image quality and high productivity, three models are available depending on the application

- The 1,280 nozzle and 150npi x 4 row nozzle offer high quality printing with improved uniformity of the drop placement accuracy and ejection speed, in addition to the position and standard droplet volume of 7pl. In addition, stability at high frequency drive has been improved, and it can be used at drive frequencies of up to 50 kHz
- Compatible with all UV, water-based, and solvent inks. In particular, water-based ink has more than doubled the service life of its predecessor RICOH MH5421/5441
- High water-repellent treatment technology improves the strength of the water-repellent film compared to conventional heads, providing stable image quality even after long hours of use
- In addition to the pin-alignment model, the lineup includes a high-precision surface-alignment model. Improved mounting accuracy and ease of alignment during head mounting and replacement, facilitating position adjustment

#### Providing a Direct-to-Film solution for use with garment printers

- RICOH Ri 1000/2000 offers a Direct-to-Film solution that prints on PET film and transfers it to garments, and can also print on leather, nylon, and other materials
- Print CMYK first, then white on top of CMYK
- Compliant with OEKO-TEX standards
- · Supported by Productionserver of ColorGATE Digital Output Solutions GmbH, a member of Ricoh

Research and development investment in this business segment for the fiscal year ended March 31, 2023 totaled ¥28.0 billion.

#### (4) Industrial Solutions

In the thermal business field, we aim to gain further customer trust by providing high quality products and services, including high value-added thermal paper, which holds an overwhelming share of the global market.

In high value-added thermal paper, we have been developing products that solve social issues (phenol-free labels\* with enhanced safety of coloring materials) in the European and Japanese markets in response to growing environmental awareness in recent years and in the fiscal year ended March 31, 2023, we also commenced sales in the North American market. We will gradually expand globally and in product lineups.

\*Uses thermal paper with a phenol content of less than 0.02% (the Company's standard) In addition, we are developing the business of rewritable laser systems and high-speed printing solutions (FC-LDA Printer) using semiconductor laser beams, combining the unique optics technologies we have cultivated over the years. Furthermore, through the development of label-less thermal technology, which adds heat-sensitive function to packaging materials, we are contributing to the reduction of environmental impact, labor savings at logistics sites where there is a severe manpower shortage, and the advancement of automation in the manufacturing industry.

Label-less thermal printing technology was adopted by a major Japanese convenience store chain in May 2022. Since its launch, it has been well received by convenience store customers for improved visibility of information on ingredients, allergens, etc., and in the food manufacturing process for reduction of environmental impact, automation and labor saving, and streamlining of packaging material inventory, and its introduction is expanding to other convenience stores as well.

Major achievements in the fiscal year ended March 31, 2023 are as follows.

# Our label-less thermal packaging was adopted by SEVEN-ELEVEN Direct printing of raw material labels on packaging materials contributes to reduced environmental impact, increased work efficiency, and improved productivity

- High transparency and high-quality thermal media layer
   Thermal functional layer is inked by utilizing dispersion technology, high resistance coloring technology, and layer composition technology, and then packaged by coating this layer
   Fitting well with the design, it achieves direct printing of variable information and the durability and safety required for food packaging
- Thermal ink with high printability
   Utilizing our proprietary thermal materials and formulation technologies, we have developed inks that can be processed at the same time as packaging materials design printing, maintaining the productivity of packaging materials

In the industrial products business field, by combining production technology with cutting-edge technologies such as IoT, AI, and image recognition, we provide inspection line solutions focusing on the integration of various industrial facilities and the appearance of coatings such as vehicle bodies and exterior parts by visualizing information through information conversion through data recognition processing. For example, we produce and sell inspection lines that enhance safety and reliability in the fast-growing automotive lithium-ion battery appearance inspection and vehicle paint appearance inspection fields, contributing to reduced manpower and automation at the frontlines. Going forward, we plan to utilize the data obtained from these inspection facilities to offer new value to our customers. We are also working with various partners to develop stereo cameras for automatic control and safety assistance for automobiles and logistics and construction equipment vehicles by integrating the optical technology, image recognition, AI, and other cutting-edge technologies we have developed. In the fiscal year ended March 31, 2023, we developed and launched a system to prevent collisions at construction and civil engineering sites where cranes are used, by automatically detecting suspended loads and workers, capturing them in three dimensions, detecting the risk of collisions between suspended loads and workers, and notifying crane operators through joint demonstration experiments with TOYO CONSTRUCTION CO., LTD.

Major achievements in the fiscal year ended March 31, 2023 are as follows.

# Developed a crane operation safety support system and conducted joint demonstration tests with TOYO CONSTRUCTION CO., LTD.

# Contributing to improved safety at work sites by reducing collisions between suspended loads and workers in crane operations

- The system automatically detects and tracks the position of the suspended load and the worker at the unloading location using images acquired from a stereo camera and AI, and issues an alarm when the suspended load and worker are close to each other, thereby supporting safe work of all workers
- Cloud integration enables notification to remote administrators as well as recording and management of work status
- Accumulates and learns on-site data through the cloud, enabling highly accurate detection of workers' locations in various sites
- Browser application can be used to learn on-site risk management by using recordings of hazardous scenes at each site
- The effectiveness of the system in improving safety at sites where cranes are used has been recognized, and it was registered in the New Technology Information System (NETIS\*) in October 2022
  - \*NETIS: A database system developed by the Ministry of Land, Infrastructure, Transport and Tourism for the purpose of sharing and providing information related to new technologies for their utilization

Research and development investment in this business segment for the fiscal year ended March 31, 2023 totaled ¥3.7 billion.

# (5) Other Segments

Leveraging Ricoh's technological capabilities, this segment provides a wide range of products and services from industrial to consumer applications. We also aim to create new businesses that contribute to solving social issues in the frontlines, healthcare, and the environment.

## **■**Digital Cameras

Ricoh Imaging Co., Ltd., which is engaged in the digital camera business, is further enhancing the value of its two brands, PENTAX and GR, and connecting directly with customers using digital methods to further sharpen and deepen the appeal of both brands.

Based on the pillars of optical design and optical component processing technologies cultivated over 100 years of camera development history, Ricoh develops digital camera products that achieve excellent tone reproduction and texture depiction in all sensitivity ranges by combining PRIME V and GR ENGINE 6 image processing engines, which incorporate the most advanced digital image processing technologies, with accelerator units I and II, which achieve advanced noise processing. In addition to these technologies, our cameras are equipped with proprietary SR (Shake Reduction) in-body image stabilization mechanism, enabling excellent image stabilization performance, and we have also developed a low-pass selector function and a real resolution function that apply this mechanism. We offer the following series of digital cameras equipped with these technologies to users who are particular about photography.

Major achievements in the fiscal year ended March 31, 2023 are as follows.

# Released the RICOH WG-80, a compact digital camera capable of underwater photography at a depth of 14 meters

- This is a waterproof compact digital camera with high waterproof performance, excellent drop-shock resistance, and a variety of shooting functions in a compact and lightweight body
- The compact and lightweight body is waterproof to 14 meters, drop impact resistant to 1.6 meters, and cold resistant to minus 10 degrees Celsius, making it highly reliable for shooting in environments where ordinary digital cameras and smartphones are difficult to use

# Released RICOH GR IIIx Urban Edition and RICOH GR III Diary Edition Special Limited Kit highend compact digital cameras

• The RICOH GR IIIx and RICOH GR III are special spec high-end compact digital cameras with high image quality suitable for professional use and a compact, lightweight body ideal for snapshooting, each with body colors inspired by urban living and daily life, respectively

# Released HD PENTAX-D FA MACRO 100mmF2.8ED AW macro lens with dustproof and drip-proof construction

• The optical system has been redesigned using the latest design technology to achieve high resolution and high contrast from the maximum aperture for sharp images, and is the first of our macro lenses to feature a dustproof and drip-proof structure

# Released smc PENTAX XW16.5 and smc PENTAX XW23 eyepieces for astronomical telescopes

• The new eyepieces are high-performance eyepieces for astronomical telescopes with a new 5-group/7element optical system that produces sharp images of stars up to the periphery of the field of view and the widest field of view in the series at 85°, enabling powerful observation of nebulae and star clusters

# Released PENTAX KF, a dustproof, drip-proof, compactly designed digital SLR camera

- PENTAX KF is standard-class digital SLR camera with basic performance features including a full-fledged optical viewfinder in a compact, dustproof, and drip-proof body suitable for outdoor photography
- This model is equipped with functions and performance equivalent to those of higher-class models, including a glass pentaprism optical viewfinder with a field of view of approximately 100% and in-body image stabilization equivalent to 4.5 stops in shutter speed conversion

#### ■Smart Vision

Since releasing the RICOH THETA, a camera that can capture 360-degree images in a single shot, we have expanded the scope of our business utilizing 360-degree images and video. Currently, we are developing our SaaS business by strengthening our RICOH360 platform business, which provides solutions that streamline the entire workflow by linking it with cloud services to improve operational efficiency and productivity.

In the construction industry, there is an urgent need to increase labor productivity, as the revised work-practice reform related laws scheduled to take effect in April 2024 includes penalties related to maximum overtime hours. Against this backdrop, we have started collaborations with other companies to accelerate DX (digital transformation) in the construction industry and to further expand the RICOH360 platform business.

Major achievements in the fiscal year ended March 31, 2023 are as follows.

# Started collaboration with a construction technology company for the RICOH360 platform business Accelerating DX in the field by providing solutions for the construction industry

- With the construction tech company SpiderPlus & Co., we have started collaboration between the RICOH360 platform business and SpiderPlus' SPIDERPLUS construction DX services business for the purpose of accelerating DX in the construction industry
- We have started to verify services for BIM (Building Information Modeling), which is promoted by the public and private sectors in the construction industry, by providing our 360-degree image/video technology information and functions to SpiderPlus & Co.
- We will continue to collaborate with construction technology companies that are familiar with workflow in order to enhance the functions of RICOH360 to solve short-term issues based on user needs in the construction industry and medium- to long-term issues based on market trends

#### ■ Healthcare

Ricoh positions the healthcare business, which is required to cope with an aging society, reduce medical costs, and prevent the spread of viruses and other infectious diseases, as one of the businesses in which it will work to solve social issues.

We are engaged in technological development in two key areas: biomedical, which supports drug discovery based on our core technologies for high-speed induction differentiation of iPS cells and mRNA design and manufacturing; and medical imaging, which visualizes the brain and central and peripheral nerve activities by utilizing magnetoencephalographs and spinal cord magnetometers.

Major achievements in the fiscal year ended March 31, 2023 are as follows.

# Strengthening drug discovery support business using mRNA Reached an agreement with Elixirgen Scientific, Inc., (eSci), a biotechnology company, to acquire additional shares of eSci

- By acquiring a majority stake in eSci and converting it into a subsidiary, we aim to accelerate the development and establishment of a drug discovery platform to solve social issues such as aging and pandemics, and contribute to people's health and peace of mind
- eSci possesses proprietary technology that can rapidly induce differentiation of iPS and ES (embryonic stem) cells into various types of cells, as well as strength in mRNA design and manufacturing. eSci will expand the areas of application of this technology with digitalization and AI (artificial intelligence) technologies that we have developed up until now, and contribute to the acceleration of personalized medicine and drug discovery research

# Established a fund to revitalize the mRNA drug discovery market in Japan Strengthening research and development support for drug discovery startups utilizing mRNA

- In September 2022, we established the Ricoh Biomedical Startup Fund to support research and development activities of mRNA drug discovery startups in Japan, with the aim of revitalizing the mRNA drug discovery market in Japan
- The fund supports the development and establishment of mRNA-based drug discovery platform in Japan by combining the strengths of the company and eSci/EsJ\* with the technologies and know-how of startups
  - \*EsJ: Elixirgen Scientific Japan, Inc.

# The company and Elixirgen Scientific Japan's proposal was selected by the Ministry of Economy, Trade and Industry for the Project for Developing Biopharmaceutical Manufacturing Sites to Strengthen Vaccine Production

- The Project for Developing Biopharmaceutical Manufacturing Sites to Strengthen Vaccine Production is a publicly solicited project by the Ministry of Economy, Trade and Industry to promote the early establishment of an actual production system (large-scale production) for biopharmaceuticals, including COVID-19 vaccines in Japan, as well as to promote the early supply of vaccines
- With the adoption by this project, we aim to further increase production capacity for medical mRNA, and we will support research and development of mRNA drugs, including vaccines, more broadly
- By establishing a manufacturing base in Japan for mRNA investigational drugs through this project
  and investing in startup companies through the fund, we will create an environment in which mRNA
  drugs can be created more freely and contribute to people's health and peace of mind

# **■**Environment

One of the key social issues that Ricoh focuses on through its business is the achievement of a decarbonized society, and Ricoh is accelerating its efforts toward thorough energy conservation and active use of renewable energy, including becoming the first Japanese company to participate in the RE100 program.

We are working on innovations toward decarbonization, such as improving the energy efficiency of our products and developing materials using recycled materials and plant-derived raw materials. Going forward, we will encourage business partners and customers to cooperate with us, thereby contributing to the creation of a decarbonized society throughout the entire value chain.

Major achievements in the fiscal year ended March 31, 2023 are as follows.

# Released the RICOH EH CO2 Sensor D101, which enables monitoring of environmental information in offices and other commercial facilities

Environmental power generation technology enables acquisition of various environmental information without the need for battery replacement or wiring

- We launched the RICOH EH CO<sub>2</sub> Sensor D101 in mid-June 2022, which can acquire CO<sub>2</sub> concentration in addition to temperature, humidity, illuminance, and air pressure, as a new environmental sensing device that can acquire environmental information for offices and commercial facilities without the need for battery replacement or wiring
- The RICOH EH DSSC Series, a solid-state dye-sensitized solar cell module developed by the company, is mounted on the sensor to enable continuous operation under indoor light, and since it uses wireless communication to collect environmental information, multiple units can be installed to enable centralized real-time management even over a large floor
- With this product, we aim to provide our customers with a safe and secure working environment by contributing not only to the confirmation of human density and ventilation conditions, which is part of infection control measures, but also to introduce DX for the environmental management of workplaces

# RICOH EH Environmental Sensor D202 used for IoT facility inspection using security robots by Mitsubishi Estate Co., Ltd.

Contributing to the realization of DX for inspection work that does not rely on the manpower of facilities technicians

- Our RICOH EH Environmental Sensor D202 has been adopted for IoT facility inspection using security robots being promoted by Mitsubishi Estate Co., Ltd.
- In this system, an autonomous mobile robot that performs patrols and standing guard automatically collects data from IoT sensors and cameras installed in equipment and performs equipment inspections, and RICOH EH Environmental Sensor D202 is an IoT sensor that detects environmental information inside air conditioners
- Although the current equipment is inspected visually or by regular patrols by equipment technicians, by remotely checking the filter status inside air conditioning equipment, it achieves inspections that do not rely on the manual labor of equipment technicians and contributes to workstyle reforms

### ■Business Co-creation

TRIBUS, an accelerator program that aims to support the growth of startups and internal and external entrepreneurs to co-create businesses, has been implemented since fiscal 2019.

Major achievements in the fiscal year ended March 31, 2023 are as follows.

# Micro-hydropower generation using a 3D printer is studied in a sewage application study by the Ministry of Land, Infrastructure, Transport and Tourism

- WEeeT-CAM, an in-house startup selected for the TRIBUS new business creation initiative, has
  developed a micro hydroelectric generator incorporating 3D printed blades made of biomass\*1 derived
  materials in collaboration with Seabell Incorporated and Kanazawa Institute of Technology, and use at
  a water treatment plant is being considered
- The waterwheel part weighs 25% less and the equipment part 15% lighter than conventional metal micro hydroelectric generators, and the time required to create the waterwheel has been significantly shortened from about one month to three days
- The waterwheel part is made of resin for improved underwater durability. Compared to a waterwheel made with commonly used 3D printer materials, the waterwheel blades are twice\*2 as strong, which is equivalent to those of metal blades. It has been found that the strength is maintained even after being placed underwater for a long period of time and can be used for conventional micro hydroelectric power generation
  - \*1 Biomass: Renewable organic resources derived from living organisms, excluding fossil resource
  - \*2 Maximum bending breaking strength is 133N/nm² with our RD3 New method, compared to 60N/nm² with the resin properties of conventional materials

# Released the RICOH Image Pointer GP01, a compact hand-held projector

- Image Pointer, an in-house startup selected for the TRIBUS new business creation initiative, has launched a compact hand-held projector
- The compact body fits comfortably in one's hand and weighs only 220g, making it small enough to fit in your pocket
- Even though it is small, it is capable of trapezoidal correction and color change, and is equipped with a speaker. Projection sizes range from 25 to 80 inches. Projection can be done at will, getting close or getting away, depending on the projection location and the number of people in the room
- It supports Wi-Fi<sup>TM</sup> for instant connectivity, requires no app, and has HDMI® connectivity. Wireless projection onto a desk or wall makes it possible to share your favorite photos and videos with everyone on a large screen

Research and development investment in this business segment for the fiscal year ended March 31, 2023 totaled ¥14.0 billion.

#### (6) Fundamental Research

Up until now, Ricoh has been engaged in the following fundamental research fields that lead to product differentiation: advanced sensing and edge device technologies that integrate photonics technology, MEMS, image recognition and image processing technologies; fundamental technologies such as analysis and simulation; technological functional materials such as verification, and simulation; applied research and development of printing technology; data collection and analysis technology to contribute to customers' business efficiency and new ways of working regardless of time and place; and system solution development applying artificial intelligence.

Going forward, Advanced Technology R&D Division is developing these technologies as its core, focusing on two areas of value to be provided.

- Human Digital Twin at Work (HDT): Digitalization technology for people working in the workplace. It utilizes technologies such as behavioral sensing and vital sensing, as well as recognition and AI technologies, to support creativity of workers.
- Industrial Digital Printing System (IDPS): Digitalization of manufacturing and production processes through the development of industrial inkjet technology that discharges functional materials instead of ink, leading to dramatic improvements, waste reduction, and energy conservation.

Common fundamental technologies such as analysis and simulation will continue to be rolled out to Ricoh's development and production sites to further improve efficiency and quality.

We are also actively promoting co-creation with collaborative partners, and conducted value verification with more than 30 collaborative partners in the fiscal year ended March 31, 2023.

In addition, we are building a system of collaboration with overseas research institutions and companies with the aim of expanding research and development activities on a global level. We participated in the Horizon Europe (an international framework for research and innovation addressing critical issues of our time) program and initiated joint research and development with major research institutions and leading companies in Europe.

Major achievements in the fiscal year ended March 31, 2023 are as follows.

# GELART JET Head next-generation inkjet printhead technology Aiming to achieve a sustainable society through the expansion of the application areas of inkjet technology

- The unique head supports high pressure and enables printing on large and thick surfaces by discharging high viscosity and large drop size paint, printing on curved and uneven surfaces by expanding the flying distance of paint, and expanding the application of inkjet technology to non-printing applications by discharging large particle-containing materials
- The technology is being used to develop digital painting technology for applications such as walls, road surfaces, and automobile exteriors. It minimizes waste of materials and energy generated in the painting process, contributing to a sustainable society by reducing environmental pollution and saving energy

• At IGAS2022 (International Graphic Arts Show) held in November 2022, we presented the technologies developed in the IDPS area, including this technology, under the concept of "functional jetting"

# Technology development to achieve HDT (Human Digital Twin at Work) Acceleration of development through co-creation activities

- We established a social collaboration course called Fulfillment through Work with the University of
  Tokyo and started joint research on future workstyles that enhance creativity and job satisfaction for
  individuals and teams. By combining the strengths of both entities, our experience in office solutions
  backed by our technology and know-how and the University of Tokyo's outstanding academic
  knowledge and technology, we aim to create new value through the exchange of intellectual, human,
  and physical resources in the field of technology and the promotion of joint research and development
  activities
- In collaboration with VIE STYLE Inc. we began joint research on improving intrinsic motivation to work through the use of brain tech. By combining VIE STYLE's knowledge of next-generation wearable earpiece electroencephalographs and neurotechnology with gamification of work, we aim to improve the wellbeing and performance of working individuals by enhancing intrinsic motivation (job satisfaction) at work

The Digital Strategy Department is developing and strengthening RICOH Smart Integration (RSI) as a digital platform for creating customer value.

By connecting various business systems and devices with RSI, we digitize the business flow and contribute to business DX (digital transformation). Specifically, we develop and provide services in a short period of time by combining our own technologies and our partners' technologies as components, microservices, and containers with edge devices to build workflows for low code or no code. Further, by combining and utilizing various data including image data accumulated in RSI with AI, we are promoting the creation of new customer value to solve issues faced by customers and society.

Major achievements in the fiscal year ended March 31, 2023 are as follows.

# Technology to quantify sensory information such as gloss and luxury perceived by people and visualize the relationship between them

Contributing to the efficiency of the product development process by understanding the relationship between emotions and textures

- Proposing a method for constructing a sensitivity model using optimization methods for the qualitative and humanistic emotion and texture design process in product development
- The graph structure applied to structural equation modeling is optimized by a genetic algorithm, using the evaluation points related to the emotions and textures obtained from sensory evaluation experiments as variables. It achieves a sensibility model construction based on the set statistics without dependence on any particular person
- Although this study focused on emotions and textures from sight, it can be applied to sensory information in other senses (touch, hearing, taste, and smell)
- The results of this research were presented at IEEE SMC 2022 in the Czech Republic in October 2022

# Developed a new algorithm for image recognition AI that can be applied in the medical field Accelerating research and development for labor-saving diagnosis by applying AI to EEG decoding of epilepsy

- We developed a new algorithm for image recognition AI using deep learning in collaboration with Osaka University.
- Results of a study showed that the algorithm developed in this research can be applied to the analysis of EEG measured by magnetoencephalograms to identify waveforms that are characteristic of epilepsy (epileptic waveforms)
- The application of this technology to magnetoencephalography, which is performed prior to epilepsy surgery, is expected to significantly reduce the amount of labor required for diagnosis.

Research and development investment in this business segment for the fiscal year ended March 31, 2023 totaled ¥15.3 billion.

# III. PROPERTY, PLANT AND EQUIPMENT

# 1. SUMMARY OF CAPITAL INVESTMENTS, ETC.

Capital investment in the fiscal year ended March 31, 2023 was \$45,459 million. A breakdown of capital investment by segment is as follows:

|                               | Millions of yen    |                    |   |  |  |  |
|-------------------------------|--------------------|--------------------|---|--|--|--|
|                               | For the year ended | For the year ended | Main mumaga of investment                     |  |  |  |

| Total                         | 37,359             | 45,459             |   |  |  |  |

# (Notes)

- 1. These investments were financed mostly with Ricoh's own capital or borrowings.
- 2. Capital investment of PFU is included in Other segment.
- 3. The electronics business in Industrial Solutions has been reclassified into Digital Products from the current year. Prior year comparative figures have also been reclassified to conform to the current year's presentation.

(Notes) 1. The tables above do not include construction in progress.

- 2. Currently there is no material idle equipment.
- 3. The facilities of the Tohoku plant at Ricoh Industry Co., Ltd. are owned by the Company, but the manufacturing is performed under a consignment agreement with Ricoh Industry Co., Ltd.
- 4. The disclosures for PFU Limited and Ricoh Electronics, Inc. are based on consolidated figures.
- 5. The land used by Ricoh Thermal Media (Wuxi) Co., Ltd., Shanghai Ricoh Digital Equipment Co., Ltd. and Ricoh Manufacturing (China) Ltd. are leased from third parties and disclosed within brackets [].

# 3. PLANS FOR CAPITAL INVESTMENT, DISPOSALS OF PROPERTY, PLANT AND EQUIPMENT, ETC.

The amount of capital investment for the fiscal year ending March 31, 2024 will be \$48,000 million. A breakdown by segment is as follows:

|                        | Millions of Yen     | _  |
|------------------------|---------------------|--|
|                        | For the year ending |  |
|                        | March 31, 2024      | Main purpose of investment   |
| Digital Services       | 18,000              | Investment in infrastructure relating Digital Services                         |
| Digital Products       | 13,300              | Expansion and renewal of production facilities and improvement of productivity |
| Graphic Communications | 6,100               | Expansion and renewal of production facilities and improvement of productivity |
| Industrial Solutions   | 4,100               | Expansion and renewal of production facilities and improvement of productivity |
| Other                  | 4,000               | Capital investment related to new business development                         |
| Corporate              | 2,500               | Improve information system, etc.   |
| Total                  | 48,000              |  |

#### (Notes)

- 1. These investments will be mostly financed with Ricoh's own capital or borrowings.
- 2. Capital investment of PFU is included in Other segment.

### IV. INFORMATION ON THE COMPANY

# (8) Share ownership plan for directors (and other officers) and employees

At the 119th Ordinary General Meeting of Shareholders held on June 21, 2019, the Company has agreed to introduce a share-based compensation plan with stock price conditions (hereinafter, "the plan") for the Company's board directors and executive officers (excluding outside board directors; hereafter, "directors and executive officers"). The operation of this system has been extended by a resolution of the Board of Directors held on March 6, 2023. The Company has adopted Board Incentive Plan trust in which beneficiaries include the directors and executive officers (hereinafter, "the Trust") as the structure for the plan.

1) The summary of the trust is as follows.

| (1) Name                          | Trust for granting shares to the  | Trust for granting shares to the  |
|-----------------------------------|-----------------------------------|-----------------------------------|
|                                   | Company's Directors               | Company's Executive Officers      |
| (2) Assignor                      | Ricoh Company, Ltd.               |                                   |

| Total number of treasury stock held   | 75,771           | _                 | 76,917                | _                 |

<sup>(</sup>Note) 1. The number of shares of treasury stock acquired due to requests to purchase stock of less than one of unit of shares from June 1, 2023, to the filing date is not included.

<sup>2.</sup> The above table does not include the shares of the Company held by Board Incentive Plan trust in which beneficiaries include directors and executive officers.

#### 3. DIVIDEND POLICY

With regard to shareholder returns, we set the total return ratio to 50% as a guideline and plan to raise dividend and repurchase treasury stock flexibly with an eye on dividend yields. With regard to dividend, we aim to continue increasing dividends in line with growth in profits. With regard to repurchase of treasury stock, we will implement flexibly while taking into account the management environment and state of growth investment and improve Earnings Per Share (EPS).

The dividend per share distributed at interim was \$17.0, and the dividend per share at year-end was \$17.0, for a total of \$34.0.

An appropriation of surplus will be made to shareholders twice a year at interim and year-end. The appropriation of surplus at interim is based upon a resolution of the Board of Directors and the distribution of surplus at year-end is decided upon a resolution at the General Meeting of Shareholders.

The Company provides in its Articles of Incorporation that an appropriation of surplus at interim will be made to shareholders of record as of September 30 of each year by a resolution of the Board of Directors.

The appropriation of surplus for the fiscal year ended March 31, 2023, is as follows:

| Date of resolution                                       | Total dividends (Millions of Yen) | Dividend per share (Yen) |
|--|-----------------------------------|--------------------------|
| Board of Directors Meeting (November 4, 2022)            | 10,361                            | 17.0                     |
| Ordinary General Meeting of Shareholders (June 23, 2023) | 10,361                            | 17.0                     |

### 4. CORPORATE GOVERNANCE, ETC.

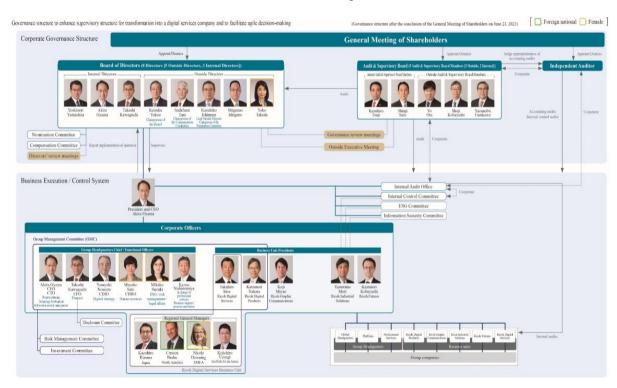

# (1) Corporate Governance

### 1) Basic Policies for Corporate Governance

Ricoh, through its corporate activity as a whole, including activities by management, is working to enhance our governance system to strengthen competitiveness in line with stakeholder expectations, while ensuring management transparency based on corporate ethics and legal compliance. By doing so, Ricoh aims to achieve sustainable growth, and improve shareholder value and corporate value. Ricoh established The Ricoh Way as a set of guiding principles and values that serve as the foundation for all our business activities. The Ricoh Way, which comprises our founding principles, Mission & Vision, and Values, is the foundation of our management policy and strategy, and also is the basis of its autonomous corporate governance.

# 2) Reason for adopting current corporate governance structure

The Company has introduced a corporate audit system. In addition, the Company is making efforts to enhance oversight of executive management by the Board of Directors and enhance execution of operations by the executive officer system. Furthermore, by appointing Outside Directors, the Company is making efforts toward further improvement of corporate governance by decision-making and oversight of executive management through discussion from their independent perspectives. The nomination and compensation of Directors and Executive Officers are deliberated by the Nomination Committee and the Compensation Committee, advisory bodies that are comprised of a majority of Independent Outside Directors. The recommendations of each committee are reported to the Board of Directors.

The Board of Directors reflected on Ricoh's founding spirit to discuss the ideas and principles that underpin that body's deliberations, decisions, and actions to help enhance corporate value. It accordingly established the following values for Board culture in fiscal 2022.

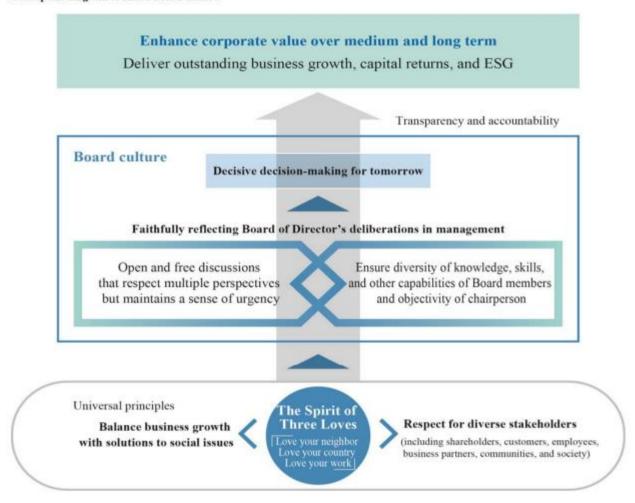

#### The Board of Directors shall:

- 1. Honor the Spirit of Three Loves, engaging with and respecting the interests of shareholders, customers, employees, partner companies, communities and society, and other stakeholders while overseeing management strategies and plans that help resolve social issues.
- 2. The chairperson shall objectively lead diverse and highly independent Board members to engage in constructive deliberations that value a diversity of open and free viewpoints. Management shall faithfully reflect the results of these deliberations.

3. Board members shall understand their social responsibilities, make robust decisions for the future, and oversee management's implementation of decisions, so that Ricoh can enhance medium- and long-term corporate value by delivering exceptional business growth, capital profitability, and ESG goals.

As the business climate and management structure change, the Board of Directors will constantly refer back to the culture described above in deliberating, making decisions, choosing directors, and engaging with shareholders and other stakeholders.

#### Conceptual diagram of Ricoh Board culture

#### Corporate governance system under the business unit structure

On April 1, 2021, Ricoh shifted to a business unit structure in order to transform our business structure into a digital services company and further improve returns on capital.

Each business unit operates its business autonomously. The Group headquarters focuses on medium- to long-term strategic planning, capital allocation to each business unit, and business management strictly based on the growth potential and return on capital of each business unit. Through this process, we will aim to raise the corporate value of the entire Group.

Based on this renewal of the organizational structure, we are proceeding with the following governance related initiatives from the perspectives of oversight, execution, and audit:

- 1) Oversight
  - a) The Board of Directors and the Nomination Committee have carried out performance evaluations of executive managers, including the head of each business unit, in addition to the existing evaluations of Directors including the CEO, since fiscal 2021.
  - b) The Board of Directors deliberates on the performance status of each business unit on a quarterly basis and monitors invested capital and return on capital.
  - c) The Board of Directors is strengthening its monitoring to ensure that internal controls and risk management are functioning properly after transition to a business unit structure, including the delegation of authority to each business unit and the review of affiliate management.

#### 2) Execution

- a) After clarifying the scope of responsibility of each business unit through the business unit structure, each business unit sets its own targets (return on capital, etc.), monitors results at monthly business unit management meetings, and discusses issues and countermeasures with the CEO and general managers of Group headquarters.
- b) Profits earned by each business unit will be first consolidated on a Group basis. Resource reallocation policy will be decided every year at the portfolio management meeting, which is part of the management meeting (Group Management Committee (GMC)). At the portfolio management meeting, each business is analyzed based on the three evaluation axes of finance, marketability, and compatibility with digital service, and GMC members agree on a business category that establishes resource priorities. The Directors attend these meetings on a voluntary basis.
- c) In addition to implementing autonomous internal control and risk management, each business unit addresses the Group's managerial risks in cooperation with the risk management division of Group headquarters. The risk management division of Group headquarters regularly exchanges individual information with each business unit and provides support to resolve individual issues according to the robustness of internal control and risk management identified there. In addition, Ricoh is implementing initiatives to enhance the sensitivity to risk and strengthen risk management capabilities throughout Ricoh, such as holding risk-related study sessions for risk management promoters in each organization.

#### 3) Audit

- a) The Audit & Supervisory Board recognizes that the following audit issues require close attention: "the optimal form of headquarters function governance for a digital services company," "autonomous internal control and risk management by business units and management of subsidiaries," and "control environments within individual organizations," such as employee and workplace environments and organizations. In addition to the review of each organization at the headquarters and subsidiaries, the Audit & Supervisory Board conducts cross-sectional reviews of headquarters functions dispersed as a result of the introduction of the business unit structure, as well as interviews with each business unit president and Group headquarters function managers and participation in various meetings to audit the status of initiatives from the oversight and execution perspectives described above.
- b) The internal audit division, the Independent Auditor and Audit & Supervisory Board Members closely exchange opinions and share information on governance and internal control issues and concerns after the transition to the business unit structure, and reflect them in their respective audit items, thereby collaborating and strengthening the three-way audit.

### (I) The Board of Directors

The Board of Directors is responsible for management oversight and important decision-making for Group management. By appointing highly independent Outside Directors, Ricoh ensures greater transparency in its management and fair decision-making.

By leveraging the expertise and experience of each Director who is not concurrently serving as an Executive Officer, including Independent Outside Directors and Executive Directors in holding serious discussion on important issues, the Company encourages initiatives in new areas of growth, creating a structure that allows for management oversight from the viewpoints of various stakeholders, including shareholders. As a rule, all Directors must attend at least 80% of meetings of the Board of Directors, and are required to provide an effective supervisory function for corporate management.

The Board of Directors is chaired by an Independent Outside Director, and Independent Outside Directors on the Board of Directors constitute a majority. In fiscal 2022, five (5) of the eight (8) Directors were Independent Outside Directors. In addition, the Company appoints a Lead Independent Director to enable Outside Directors to better fulfill their roles and functions on the Board of Directors. The Lead Independent Director will be responsible for improving and enhancing governance in collaboration with the Chairperson of the Board of Directors, and will serve as the leader of Independent Outside Directors at the Company.

The appointment of the Lead Independent Director will be made as necessary based on the judgment of the Board of Directors in light of the Company's management situation and the appointment of the Chairperson of the Board of Directors and the Directors. Appropriate collaboration and division of roles by the Chairperson of the Board of Directors and the Lead Independent Director will ensure the smooth operation of the Board of Directors and the fulfillment of its functions.

Furthermore, the Company has appointed a Chairperson in April 2023. In appointing the Chairperson, the Board of Directors and the Nomination Committee carefully deliberated on the role to be played by the Chairperson so that the relationship of its authority and responsibility with those of the CEO would be clear. As a result, the role of the Chairperson in the Company has been defined as an Internal Director who primarily supervises management, does not concurrently serve as an Executive Officer, and is not involved in the day-today execution of the Company's business. The definition has been clearly stated in the internal rules and regulations. Based on the above roles, the delegation of the Chairperson's duties is based on the perspectives of strengthening the supervisory function, providing support to the business execution, and external activities. By granting the Chairperson representative authority, we have further strengthened the Chairperson's support to the business execution and external activities, and clarified the position to fulfill his or her responsibilities in order to enhance corporate value. The position and duties of the Chairperson are reviewed on a regular basis in light of the business environment and execution.

Chairperson of the Board Keisuke Yokoo Director Yoshinori Yamashita Director Akira Oyama Takashi Kawaguchi Director Independent Outside Director (Lead Independent Director) Kazuhiko Ishimura Independent Outside Director Sadafumi Tani Shigenao Ishiguro Independent Outside Director Independent Outside Director Yoko Takeda

Pursuant to the provisions of Article 427, paragraph 1 of the Companies Act, the Company has executed a contract with Mr. Kazuhiko Ishimura, Mr. Keisuke Yokoo, Mr. Sadafumi Tani, Mr. Shigenao Ishiguro and Ms. Yoko Takeda to limit liability for damages as stipulated in Article 423, Paragraph 1 of the Companies Act, to the higher of ¥10 million or the minimum liability limit amount stipulated in Article 425, Paragraph 1 of the Companies Act.

### (II) Audit & Supervisory Board

The Audit & Supervisory Board discusses and decides on audit policies and assignment of duties, audits the execution of duties by Directors, plays a supervisory function on management through cooperating with the Company's Independent Auditor and the internal audit division, and auditing the Company's individual organizations and subsidiaries. In addition to the Board of Directors and its advisory committee meetings, Audit & Supervisory Board Members attend other important meetings and regularly exchange information with the Representative Director and Outside Directors.

The Company has five (5) Audit & Supervisory Board Members, comprising two (2) full-time members who are familiar with internal circumstances and three (3) outside members who meet the requirements for independent Audit & Supervisory Board Member set by the Company, and the majority of the members are independent Outside Audit & Supervisory Board Members. In addition, the Audit & Supervisory Board is required to secure necessary knowledge, experience, and specialized abilities in a well-balanced manner in forming the Audit & Supervisory Board. We have built a system that enables deep discussion from an independent and objective perspective, capitalizing on a wealth of experience and wide-ranging insight in the specialized fields of each Audit & Supervisory Board Member.

Audit & Supervisory Board Member Audit & Supervisory Board Member Independent Outside Audit & Supervisory Board Member Independent Outside Audit & Supervisory Board Member Independent Outside Audit & Supervisory Board Member

Kazuhiro Tsuji Shinji Sato Yo Ota Shoji Kobayashi Yasunobu Furukawa Pursuant to the provisions of Article 427, paragraph 1 of the Companies Act, the Company has executed a contract with Mr. Yo Ota, Mr. Shoji Kobayashi and Mr. Yasunobu Furukawa to limit liability for damages as stipulated in Article 423, Paragraph 1 of the Companies Act, to the higher of ¥5 million or the minimum liability limit amount stipulated in Article 425, Paragraph 1 of the Companies Act.

# (III) Nomination Committee / Compensation Committee

Decisions on the nomination of the CEO and other senior managers, and their compensation, etc. are one of the most important matters for management oversight by the Board of Directors. The Company secures transparency and objectivity of appointment and dismissal, and compensation of Directors and Executive Officers, etc. by establishing the "Nomination Committee," which is chaired by an Independent Outside Director, with Independent Outside Directors making up the majority; and the "Compensation Committee." In addition, one Outside Audit & Supervisory Board Member attends the deliberations of the Nomination Committee and Compensation Committee as an observer at each meeting. The Nomination Committee and Compensation Committee for fiscal 2022 each consisted of four Independent Outside Directors and one Internal Director.

# (IV) Governance Review Meeting / Directors' Review Meeting / Outside Executive Meeting

Governance review meetings are held to provide a forum for comprehensive discussions on Ricoh's direction of governance and related issues by Directors, Audit & Supervisory Board Members and other relevant parties. The outline of the review meetings held is disclosed in the Corporate Governance Report and other documents.

Directors' review meetings are held to provide an opportunity and sufficient time for prior discussions by Directors and Audit & Supervisory Board Members to resolve on important company themes (such as the midterm management strategy) at Board of Directors meetings.

From the viewpoint of active contribution to discussions at meetings of the Board of Directors, the Outside Executive Meeting serves as a forum to share information and perspectives based on the independent and objective standpoints among Outside Directors and Outside Audit & Supervisory Board Members, as well as between Outside Directors and Outside Audit & Supervisory Board Members, and Full-time Audit & Supervisory Board Members and other executives.

# (V) Group Management Committee

The Group Management Committee (GMC), chaired by the President and Chief Executive Officer and consisting of executive officers who fulfill certain conditions, has been established as a decision-making body authorized by the Board of Directors. The GMC facilitates deliberations and renders decisions on Ricoh's overall management from the perspective of total optimization. While items requiring a resolution of the Board of Directors are stipulated in the Board of Directors Regulations, matters for approval or important items related to business execution that do not satisfy these criteria are decided by the GMC. The following items regarding the execution of duties by the GMC are reported to the Board of Directors at least once every three months.

- Important management indicators and the implementation status of important measures in terms of business strategy

- Items resolved by the GMC and the results of the resolution

Matters to be discussed at the GMC are as follows.

- 1. Planning of management strategy
  - Management philosophy
  - Medium and long-term management strategy
  - Approval of short-term (annual) management policies and business plans
  - Consolidated financial plans and borrowing facilities
- 2. Execution of management strategy
  - Review and determination of proposals by Board of Directors
  - Approval of financial decisions based on internal rules and regulations
  - Determination of managerial risk items for Ricoh
  - Important personnel policy matters of Ricoh Company, Ltd.
- 3. Decision-making and reporting on other important matters

Outside Directors also participate in the GMC as observers in order to deepen their understanding of business operations.

<Participation by Outside Directors as observer in fiscal 2022>

|                     | February #2 | 1                                       |
|                     | February #3 | 2                                       |
|                     | March       | 1                                       |

# (VI) **Disclosure Committee**

The Disclosure Committee performs appropriate disclosure of information that may influence the decisions of investors in addition to promoting dialogue with shareholders and capital markets by proactively disclosing corporate information that contributes to investment decisions, and thereby seeks to develop relationships of trust with shareholders and capital markets as well as to achieve an appropriate recognition of Ricoh.

This committee is composed of representatives from different functional organizations, including the disclosure management division, accounting division, legal division, business planning division, Board of Directors operating division, public relations division, and internal control division, information-generating and acknowledging departments, the Supervising Organizations managing affiliates, and the CFO, who is responsible for information disclosure.

During fiscal 2022, the committee performed a review of internal processes and internal regulations in order to enhance its effectiveness.

We conduct deliberation on active disclosure and monitoring of disclosing procedures regarding company information that contributes to investors' investment decisions, along with the judgment on the appropriateness and accuracy of annual report documents and timely disclosure documents, and judgment on the necessity of information disclosure in disclosure procedures. Furthermore, the internal control division regularly evaluates the timeliness of information disclosure, the accuracy and validity of disclosure statements, and the validity of disclosure decisions, etc., and reports its findings to the Board of Directors and the Internal Control Committee.

| Fiscal 2022     | 2        | Agenda  |
|-----------------|----------|---|
| First Meeting   | April    | Disclosure content of the convocation notice            |
| Second Meeting  |          |   |
| Third Meeting   | June     | Revision of the disclosure policy                       |
| Fourth Meeting  |          | Contents of response to corporate research              |
| Fifth Meeting   | August   | Disclosure content of the Ricoh Group Integrated Report |
| Sixth Meeting   |          | Disclosure content of the Ricoh Group TCFD Report       |
| Seventh Meeting | December | Revision of disclosure rules                            |
| Eighth Meeting  | March    | Report on fiscal year results                           |

### (VII) Internal Control Committee

The Internal Control Committee is an organization established under the President and CEO of the Company to deliberate and make decisions on internal control of the entire Ricoh.

The committee is composed of executive officers who fulfill certain requirements. As a rule, it meets once every quarter, but extraordinary or emergency meetings may be held at other times.

The committee deliberates on the following matters.

- 1. Assessment of the design and operation of internal controls, and their rectification
- Assessment of the design and operation of internal control as a whole
- · Assessment of the effectiveness of internal controls related to financial reporting
- · Assessment of the effectiveness of internal controls related to information disclosure
- · Revision of internal controls
- 2. Determination of policies for internal control activities
- Determination of basic policies for internal controls related to financial reporting
- · Determination of internal audit plans for each fiscal year
- 3. Response to defects in internal control
- Decisions on response in the case of serious incidents
- 4. Presentation of proposals to the Board of Directors for the amendment of internal control principles
- Presentation of proposals to the Board of Directors for the amendment of internal control principles, in consideration of environmental changes

Specifically, in the case of serious incidents that may impact the entire Ricoh, the Internal Control Committee confirms details including the background, cause, and measures to prevent recurrence. Where doubts remain regarding the validity of measures to prevent recurrence, or issues remain regarding the possibility of recurrence of that incident in Ricoh, the committee promptly determines the necessary countermeasures, and ensures that these are implemented from a top-down approach. In addition, taking into consideration internal control issues reported by internal audits and risk management and compliance activities, the GMC discusses and decides on measures to be taken to prevent recurrence.

Internal Control Committee meetings

# (VIII) Risk Management Systems and Risk Management Committee

Ricoh's risk management systems can be divided into two main levels, as shown in Figure 1 below.

- 1. Managerial risks, which are selected and managed autonomously by the GMC for management items of particular importance, within the management of Ricoh
- 2. Corporate functional organization risks and business unit risks that each business organization is responsible for managing its own business

These two levels clarify the bodies responsible for risk management enabling agile decision-making and swift action in response to each level of risk, and together form an integrated risk management system. The management of some risks may be transferred from one level to the other due to changes in the level of impact caused by environmental changes.

The Risk Management Committee is an advisory body to the GMC that was established to strengthen risk management processes across the entire Ricoh. The committee is chaired by the corporate officer in charge of risk management and has experts from each organization as members to ensure comprehensive coverage of risks and substantial discussions, and to propose to the GMC specific risks requiring response or focus in terms of the management of Ricoh. Furthermore, the committee will review and restructure the risk management system in 1 and 2 in Figures 1 as necessary in order to strengthen the effectiveness of risk management across Ricoh.

In addition, in order to establish a more effective and integrated risk management system through coordination between management and each business execution organization, we have appointed risk management managers and promoters from each organization, and have established an autonomous risk management system for each organization.

Moreover, at the Group Risk Management Collaboration Reinforcement Conference for each risk management promoter, study sessions and information sharing related to risk management are held, and ongoing efforts are being made to make the organization more responsive to risk.

| Fiscal 20      | 022      | Agenda   |  |
|----------------|----------|--|--|
| First Meeting  | April    | Consideration of strengthening the rolling planning process for managerial risks               |  |
|                |          | <ul> <li>Consideration of risk information disclosure</li> </ul>                               |  |

|                |          | <ul> <li>Discussion of promotion plan concerning managerial risks for fiscal 2023</li> </ul>   |  |

#### (IX) Investment Committee

The Investment Committee, as an advisory committee to the GMC, verifies investment plans based on financial considerations including capital costs, and strategic considerations such as profitability and growth risks, etc. Members representing different functional organizations perform prior reviews and discussion on diversifying investment projects to external entities in order to ensure consistency with management strategies and raise the effectiveness of investments while improving the speed and accuracy of investment decisions.

The committee mainly discusses investments from the perspective of strategies, finance, and risks. Its members include a chairperson appointed by the President and CEO, representatives from the business planning, accounting, legal, and internal control functions as specialists for each functional organization, as well as various experts depending on the project. The committee receives prior inquiries from planning departments to provide evaluations and advice after performing comprehensive discussion on the investment value of a project. Although the committee is not authorized to approve or disapprove of any investment projects, it assists the decision-maker in making objective decisions by clearly presenting the results of the committee's deliberations on each project.

In order to improve the accuracy of external investment decisions for the Company as a whole, the committee also deliberates on projects below the GMC's standard amount for approval, and provides advice on investment decisions and considerations made by the planning department as well as on project negotiations.

#### <Continuous monitoring of investments >

After investments are executed, we will periodically summarize the progress of the investments and provide monitoring reports to the GMC on a semi-annual basis in accordance with the content and timing of the business plan and quantitative indicators (KPI) that have been approved by the GMC and other decision-making bodies after the Investment Committee's deliberation process.

### <Initiatives to develop M&A experts>

Since fiscal 2019, we have systematically developed human resources to lead M&A and PMI\* to success. By raising the level of planning divisions, we are improving the quality of investment projects and enhancing discussions and deliberations at the Investment Committee.

The training program offers the Company's original program (20 courses with the duration of six months) based on our past cases. So far, 156 people have obtained completion certificates. This is scheduled to be continued in fiscal 2023 as well.

In addition, even after the completion of this training program, we will hold courses for corporate value evaluation and financial analysis, as well as specialized courses for different functions, such as human resources, environment, and IT, to provide continuous support to program attendees and help them further improve their abilities.

These efforts have increased the speed and reliability of investment reviews in the planning department. \* PMI (Post Merger Integration):

It refers to the integration process to maximize the integration effect that was initially expected after the M&A. The scope of integration covers all processes related to integration, such as management, business, and awareness.

#### (X) **ESG Committee**

The ESG Committee aims to respond promptly and appropriately to the expectations and requests of stakeholders by continuously discussing environmental, social, and governance issues faced by Ricoh at a management-level and leading the discussions to the quality enhancement of the entire Group. The ESG Committee plays the following specific roles:

- 1. Formulate Ricoh Sustainability Strategy to resolve social issues through business, such as initiatives toward achieving SDGs, into the foundation of the Company's management
- 2. Identify medium- to long-term sustainability risks and opportunities as well as material issues faced by the entire Group (investment decisions on risks and opportunities related to climate change recommended by the TCFD\*1)
- 3. Supervise and advise on sustainability strategies, material issues, and progress in KPIs for each business division throughout the entire Group
- 4. Identify sustainability issues to be submitted for discussion at the Board of Directors and report them to the Board of Directors

The committee is chaired by the CEO and consists of GMC members including Internal Executive Director, and business unit presidents\*2. The committee, which meets quarterly, has established a system to examine and discuss sustainability issues across the Company by inviting representatives of the relevant business divisions according to the theme to be discussed, and other means.

In fiscal 2022, the committee met four times to discuss the following.

\*2 Internal Audit & Supervisory Board Members participate as observers.

\*1 TCFD (Task Force on Climate-related Financial Disclosures):

Established by the Financial Stability Board (FSB), the TCFD provides stability to financial markets by promoting information disclosure of climate-related risks and opportunities by companies, and facilitating a smooth transition to a low-carbon society.

| Fiscal 2022       |          | Agenda  |
|-------------------|----------|---|
| First<br>Meeting  | May      | <ul> <li>Report on the results of material ESG items and deliberation on draft disclosure for the convocation notice and the annual securities report</li> <li>Deliberations on information security system proposals</li> <li>Report on trends and points for enhancement in ESG activities</li> </ul>           |
| Second<br>Meeting | August   | <ul> <li>Roadmap of the Ricoh Group's decarbonization efforts and deliberations on measures</li> <li>Ricoh Group Integrated Report, ESG-related media publication reports</li> </ul>  |

| Fourth<br>Meeting | February | Planning deliberations on 2023 Ricoh Group Integrated Report Report on 20th Mid-Term Management Plan ESG improvement activities and external assessment results Report on changes in customer demands as seen from ESG benchmark and business talks in fiscal 2022 Report on environmental appeal of new products |

<sup>\*</sup> RBA (Responsible Business Alliance):

An alliance of more than 150 leading companies that have agreed to a uniform code of conduct and audit process for their suppliers.

### (XI) Information Security Committee

The Information Security Committee was newly established in the second half of fiscal 2022 as a body under the President and CEO to make decisions regarding the security of Ricoh. The committee consists of Executive Officers who meet certain eligibility requirements and will meet quarterly beginning in fiscal 2023 in principle.

The committee mainly deliberates on Ricoh's security strategy, security governance, and security operations.

The risks to information security have been increasing rapidly in recent years. The scope of response by companies is also expanding due to the frequency of cyber-attacks, the diversification and sophistication of malware technologies (ransomware\*, etc.), the tightening and diversification of laws and regulations in various countries, and the emergence of geopolitical risks.

In addition, as we aim to transform ourselves into a digital services company, we must not only mitigate security risks in our digital services but also view them as investments for business growth in order to further solidify profitability in our existing businesses.

Recently, while companies are aiming to improve their competitiveness through DX, there are also security issues that need to be resolved. To this end, a security department was established in fiscal 2022 under the direct control of the CEO, who is in charge of security management, to plan and implement security and privacy protection strategies for Ricoh as a whole. The department supports the operation of the committee by making prompt management decisions on security and clarifying strategies to comply with the laws and regulations of various countries.

| Fisca             | al 2022  | Agenda                              |
|-------------------|----------|-------------------------------------|
| First<br>Meeting  | November | Current issues and future responses |
| Second<br>Meeting | December | Security ratings discussions        |

<sup>\*</sup> Ransomware: A malicious program that infects a computer or smartphone. If corrupted by a ransomware, the files stored on the victim's computer/smartphone get encrypted (making the files inaccessible) and the attacker demands ransom from the victim to restore the files.

#### 3) Other matters for Corporate Governance

# (I) Policy for constructive engagement with shareholders

The Company engages dynamically and constructively with shareholders. We maintain a cycle in which we reflect feedback from shareholders in our activities to cultivate trust through mutual understanding. In operating based on that cycle, we endeavor to innovate and deliver value that is useful for everyone, everywhere, helping to enhance their lives and create social sustainability while increasing medium- and long-term corporate value.

Person responsible for dialogue with shareholders:

Representative Director, President and CEO

Department(s)/person(s) in charge:

Depending on the purpose of the dialogue and the number of shares held, this will be conducted by the IR/SR departments, and by the President and CEO, CFO, business unit presidents, CHRO, ESG officers, and Internal as well as Outside Directors/Audit & Supervisory Board Members.

Main dialogue opportunities:

Large and small meetings such as medium- to long-term strategy briefings, financial results briefings, and business briefings, as well as 1-on-1 individual dialogues are conducted. In addition, briefings are held at externally sponsored IR events and conferences as appropriate.

Feedback to management:

- (1) After conducting large meetings such as briefings on quarterly financial results and medium- to long-term strategy briefings, we report on the reaction from the capital market based on information including the content of dialogue with shareholders and investors and analyst reports.
- (2) The views on the Company obtained through dialogue with management and the IR/SR departments, as well as with the capital market through means such as a perception study survey, are shared with management and executives, with the President and CEO and CFO taking the lead in improving disclosure that leads to more constructive dialogue.
- (3) We report the opinions of shareholders and investors, mainly when management engages in dialogue with them, unchanged in principle in terms of content, in order to provide feedback to management as clearly and without discrepancies as possible.

Regarding insider information:

To prevent the leak of insider information and ensure fairness in information disclosure, the Company observes a quiet period from the day following the final day of each fiscal year to the day of the annual financial results announcement.

Results of dialogue for the current fiscal year

The Company's information dissemination and dialogue results for the current fiscal year are as follows. Total of 6 large meetings: (1 briefing on mid-term management strategy / 1 business briefing / 4 financial results briefings)

Total of 7 small meetings: (5 management\* meetings / 1 Outside Director meeting / 1 ESG department meeting)

Total of 235 1-on-1 meetings: (38 management\* meetings [9 IR/ 29 SR] / 195 IR/SR departments / 2 ESG department)

\* Management: President and CEO, CFO, Outside Directors, ESG officers

### (II) Approach to Election of Directors

### **Election Criteria for Directors**

<Management capabilities>

Superior insight and judgment necessary for management functions

- 1. Knowledge of a wide range of businesses and functions, and has the ability to think and make decisions appropriately from a company-wide and long-term perspective
- 2. Insight into the essence of issues
- 3. Vision to make best decisions on a global level
- 4. Judgment and insight based on extensive experience, as well as excellent track record leading to significant improvements in corporate value and competitive strength
- 5. Ability to think and make decisions appropriately from the perspective of various stakeholders including shareholders and customers based on a firm awareness of corporate governance

<Character and personality>

Positive trust relationships between Directors and management team for smooth performance of the oversight function

- 1. Integrity (honesty, moral values and ethics); exemplifies fair and honest decisions and actions based on a high sense of morality and ethics in addition to the strict observance of laws, regulations, and internal rules.
- 2. Interacts with others with respect and trust based on a spirit of respect for humanity and sets an example for decisions and actions that respect the personality and individuality of others based on a deep understanding and acceptance of diverse values and ideas.

### **Election criteria for Outside Directors**

In addition to the election criteria for Internal Directors stated above, the election criteria for Outside Directors include having excellence in areas such as expertise in different fields, problem discovery and solving capabilities, insight, strategic thinking capabilities, risk management capabilities, and leadership. Outside Directors must also meet the Company's standards for independence of Outside Directors and Outside Audit & Supervisory Board Members. As for the standards the Company established, please refer to "4. CORPORATE GOVERNANCE, ETC. (2) Directors and senior management 2) Outside Directors and Outside Audit & Supervisory Board Members".

### **Diversity Policy**

We believe that the Board of Directors of the Company should be composed of directors with management ability and a rich sense of humanity in addition to various viewpoints and backgrounds, on top of multidimensional sophisticated skills. In addition, it is our policy to select candidates based on their character and knowledge with no distinction made on the basis of race, ethnicity, gender, or nationality or similar attributes, thus ensuring diversity in such attributes.

### (III) Election Process and Evaluation Process for Directors

The Company is making ongoing efforts to strengthen and enhance corporate governance for the Company's sustainable growth and improvement of shareholder value and corporate value.

### <Nomination Committee>

To secure objectivity, transparency, and timeliness for procedures to appoint, dismiss, and evaluate Directors, the CEO, and other members of the management team, the Board of Directors has established the Nomination Committee, which is an advisory body to the Board of Directors.

To increase objectivity and independence, the Nomination Committee is comprised of a majority of Independent Outside Directors, and is chaired by an Independent Outside Director. In addition, one Outside Audit & Supervisory Board Member attends meetings of the committee so as to ensure transparency in deliberation.

(At of the submission date of this report, the committee is chaired by an Independent Outside Director with four Independent Outside Directors, one Internal Non-executive Director, and a majority of Independent Outside Directors.)

The Nomination Committee deliberates on the following matters and reports on the deliberation and conclusions to the Board of Directors.

(Inquiry items from the Board of Directors)

- 1) Nomination of candidates for CEO and Directors
- 2) Whether or not the CEO and Directors should be replaced
- 3) Evaluation of the performance of the CEO and Executive Directors
- 4) Confirmation of status of CEO succession plans and development of future CEO candidates
- 5) Confirmation of appointment/dismissal proposals and reasons therefore for Executive Officers, Advisors, and Fellows\*1
- 6) Review of the evaluation of Non-executive Directors\*2, their positions, and the nature of their assignments
- 7) Approval or disapproval on the formulation, revision or abolishment of appointment/dismissal systems for Directors and Executive Officers
- 8) Other matters individually consulted by the Board of Directors
- \*1 Fellow: The Company defines a "fellow" as a person who holds excellent technological prowess or knowledge recognized in the world, and who is able to further pursue his or her expertise, and lead research activities for utilizing and developing such expertise. Fellows are appointed by resolution of the Board of Directors.
- \*2 Non-executive Director: An Internal Director who does not concurrently serve as an Executive Officer and is not involved in the day-to-day execution of the Company's business

### (Other agenda items)

- 1) Confirmation of reasons for selecting candidates for Audit & Supervisory Board Member based on requests from the Audit & Supervisory Board
- 2) Confirmation of performance evaluation of Executive Officers
- 3) Other matters consulted by the CEO

### <Election process>

In order to maintain a Board of Directors structure that enables appropriate and effective management decision-making and supervision of business execution, the Nomination Committee undertakes ongoing deliberation on the composition of the Board and the specializations, experience (skills matrix), etc. required of Directors, based on the issues recognized at the meeting held to evaluate the effectiveness of the Board of Directors, before nominating candidates for Director. Candidate nominations for Director are deliberated by the Nomination Committee over several sessions, and undergo a strict screening process. The Nomination Committee engages in multifaceted assessment of the qualities, experience, skills, diversity, etc. required of the Company's Directors, in accordance with the management environment, strategic direction, challenges, etc., against the basic criteria of management ability, character and personality necessary to fulfill the role and responsibilities of Director, and reports to the Board of Directors after clarifying the basis for nomination.

Based on reporting from the Nomination Committee, the Board of Directors deliberates from a shareholder perspective, and then determines which candidates for Director are to be submitted to the General Meeting of Shareholders.

A skills and career matrix that maps out personnel, roles, skills, career experience, etc. is also used when determining the Company's executive structure, with the aim of building a structure to facilitate swift and accurate decision-making by the GMC, as well as appointing and developing appropriate human resources in terms of the management succession plan. The CEO reports to the Nomination Committee on the selection and training policy of management candidates.

### <Evaluation process>

Directors are evaluated annually in two steps by the Nomination Committee, upon consultation by the Board of Directors. In the first evaluation, careful and appropriate deliberations are made on the competence of Directors to continue in their duties, ensuring timeliness of appointment and dismissal. In the second evaluation, Directors' achievements are evaluated with a multifaceted approach, and their issues are clarified through feedback to improve the quality of management. The Nomination Committee's deliberations and conclusions on the evaluation of Directors are reported to the Board of Directors to thoroughly oversee whether the Director is suitable to continue in their duties.

Furthermore, evaluations are based on such standards as "Management oversight status as a Director," "Financial aspects including key management indicators regarding business results, return on capital, etc.;" and "Contribution to shareholders and evaluation by capital markets."

< Key items for Director evaluation > for Directors concurrently serving as Executive Officers

| Evaluation perspective      | Category                | Evaluation items (typical items)   | Example of item details  |
|-----------------------------|-------------------------|--|--|
| Management oversight status | Qualities and abilities | Actions aimed at maximizing shareholder value and corporate value, attitude toward executive oversight and mutual checks and balances among Directors, risk management, and insight necessary for corporate management |  |
| Financial Performance       |                         | Business performance on a consolidated basis  Status of annual business plan   | Sales, operating profit, profit, ROE, ROIC, FCF By business unit, by region, |
| indicators                  |                         | Performance under the Mid-Term Management Plan   | key measures Finance, key measures   |
| Capital market /            | Capital<br>market       | Stock price indicators   | Stock price, market capitalization, PBR                                      |
| indicators                  | Shareholder             | Rating TSR/shareholder returns   |  |

TSR, which is used as one of the criteria for "contribution to shareholders and capital market evaluation perspectives" to evaluate Directors, is calculated based on the average share price for the fiscal year (see table below) to avoid the impact of sudden share price fluctuations.

| Holding period          | 1 year | 2 years | 3 years | 4 years | 5 years | 6 years |
|-------------------------|--------|---------|---------|---------|---------|---------|
| RICOH (incl. dividends) | 95.4%  | 138.6%  | 107.0%  | 104.5%  | 113.1%  | 126.0%  |
| TOPIX (incl. dividends) | 101.2% | 120.7%  | 129.9%  | 126.5%  | 128.9%  | 158.3%  |

(Notes) 1. March 31, 2023 is the record date for TSR.

2. The TSR is calculated using the average of the daily dividend-included stock price for the year in order to equalize the effect of the share price at the beginning and the end of the period.

### (IV) Evaluation of CEO and CEO Succession Plan

The CEO succession plan is an important initiative for improving shareholder value and corporate value of Ricoh in a continuous manner over the medium to long-term and continuously fulfilling the social responsibilities of the Group as a member of society. From the viewpoint of strengthening corporate governance, Ricoh works to establish a CEO succession plan with procedures that are objective, timely, and transparent.

### 1) CEO Evaluation

The CEO is evaluated annually in two steps by the Nomination Committee, at the request of the Board of Directors.

In the first evaluation, careful and appropriate deliberations are made on the soundness of the CEO to continue in his/her duties, ensuring timeliness of appointment and dismissal. In the second evaluation, the CEO's achievements are evaluated with a multifaceted approach, and his/her issues are clarified through feedback in an effort to improve the quality of management. The Nomination Committee's deliberations and conclusions on the evaluation of the CEO are reported to the Board of Directors to effectively oversee the CEO.

As with Directors who concurrently serve as Executive Officers, the CEO is evaluated based on the "Management oversight status as a Director," "Financial aspects including key management indicators regarding business results, return on capital, etc." and "Contribution to shareholders and evaluation by capital markets" (see above), as well as "Future financial viewpoint" to evaluate his/her overall management supervision and business execution capabilities as a CEO.

Note: Please refer to "(III) Election Process and Evaluation Process for Directors <Evaluation process> <Key items for Director evaluation>".

<Key items for CEO evaluation>

| Evaluation perspective                  | Category      | Evaluation items (typical items)                                   | Examples of item details               |  |  |  |  |
|---|---------------|--|--|--|--|--|--|
| Management<br>oversight<br>status       | Same categori | Same categories and evaluation items as those for Directors (note) |  |  |  |  |  |
| Financial indicators                    | Same as above | е  |  |  |  |  |  |
| Capital market / shareholder indicators | Same as above | Same as above  |  |  |  |  |  |
|   | ESG           | Environment  | Environmental management initiatives   |  |  |  |  |
|   |               | Society  | SDGs initiatives                       |  |  |  |  |
|   |               | Governance   | System, disclosure, IR, compliance     |  |  |  |  |
| Future<br>financial                     |               | Development and use of human resources                             | Personnel systems and work environment |  |  |  |  |
| indicators                              | Employees     | Employee engagement  | External survey                        |  |  |  |  |
|   |               | Safety and health  | Workplace safety and health management |  |  |  |  |
|   | Customers     | Serious incident   | Product and information security       |  |  |  |  |
|   |               | Customer satisfaction  | External survey                        |  |  |  |  |

As former CEO Yamashita resigned as CEO on March 31, 2023, in addition to the usual evaluation items for him, a review of the following items was conducted as a summary of the six years since the former CEO assumed office on April 1, 2017, and the results were reported to the Board of Directors by the Chairperson of the Nomination Committee as feedback for the new management team, including current CEO Oyama.

- <Evaluation items for the six years in office added as a summary of the CEO's term in office>
- Consolidated financial results (net sales, operating profit, free cash flow, etc.)
- Return on capital (ROE, ROIC, TSR, shareholder returns, etc.)
- Focus on growth businesses (business portfolio, etc.)
- Cost structure reform initiatives
- Changes in assets (investments and disposal) and asset efficiency

### 2) Selection, development and evaluation of CEO candidates

<Selection of new CEO effective April 1, 2023>

For the CEO succession, the Nomination Committee has been systematically training and reviewing succession candidates, replacing, and narrowing down the list of candidates, and implementing training based on each candidate's issues. In particular, since fiscal 2021, when former CEO Yamashita entered his fifth year in office and the selection process for a successor CEO began in full, the Nomination Committee has held a total of 12 sessions for deliberation, evaluation, and discussion regarding the succession. The Nomination Committee has ensured transparency and objectivity in the selection process through fair and objective deliberation led by the Chairperson who is an Outside Director, interviews with Outside Directors (committee members), and third-party assessments.

After careful deliberations by the Nomination Committee on the track record, experience, qualifications, and character of several candidates, the committee concluded that in accelerating the transformation into a digital services company, Mr. Akira Oyama is a suitable successor CEO, based on his track record of expanding overseas operations and strengthening the profitability of office services, his global business experience, as well as his experience in company-wide roles such as CFO and business planning, his unifying power including that for overseas management, and his ability to identify potential needs from a global perspective and link them to services. Based on the report from the Nomination Committee, the Board of Directors, at its meeting held on January 30, 2023, selected Mr. Akira Oyama as the successor CEO, taking into consideration factors including the tenure of former CEO Yamashita and the starting year of the 21st Mid-Term Management Strategy, and as a result, determined that the transition to a new management team led by a new CEO effective April 1, 2023, was necessary to ensure the implementation of measures toward becoming a digital services company.

### <Positioning of the Nomination Committee and the Board of Directors >

Once a year (around September), the CEO prepares a list of potential future CEO candidates together with a development plan for them and elaborates on the proposals at the Nomination Committee in early November.

The Nomination Committee deliberates on the appropriateness of the CEO candidate list and development plans, provides advice to the CEO on candidate development, and reports the findings to the Board of Directors. The Board of Directors confirms the appropriateness of the candidate selection and development plans upon reporting from the Nomination Committee and is actively involved in the selection and development of CEO candidates.

### <Selection of candidates>

CEO candidates are selected by terms as follows according to the timing of the change. The backup candidate in case of accident in the table below is determined via resolution of the Board of Directors at the same time the CEO is selected.

| Terms                                | Number of persons selected |  |
|--------------------------------------|----------------------------|--|
| Backup candidate in case of accident | One                        |  |
| First candidate in line              | Several                    |  |
| Second candidate in line             | Several                    |  |

### <Development of candidates>

The Nomination Committee deliberates on the development plan for future CEO candidates and gives guidance to the CEO, who, in the next fiscal year, provides growth opportunities suited to each candidate according to their individual targets, allowing the candidates to accumulate experience. The CEO also gives direct guidance to promote the candidate's development based on individual assessment.

### <Evaluation of candidates>

CEO candidates are evaluated annually, and the CEO reports on the achievements and growth of each candidate during the development period (April to March next year) to the Nomination Committee in early November (the evaluation period is from April to October, which is the month before the Nomination Committee meets). The Nomination Committee deliberates on the continuation or replacement of CEO candidates and, if necessary, evaluates CEO candidates, utilizing advice from outside experts, etc., and reports the results of its deliberations to the Board of Directors. Upon reporting from the Nomination Committee, the Board of Directors evaluates the CEO candidates and confirms the validity of deliberations on which candidates are to remain or to be replaced, and is actively involved in the process.

### (V) Results Summary of the Evaluation of Effectiveness of the Board of Directors During Fiscal 2022

On May 8, 2023, the Company evaluated the effectiveness of the Board of Directors during fiscal 2022 (from April 2022 to March 2023), and the results are as outlined below.

I. Outline of Evaluation: Effectiveness of the Board of Directors during fiscal 2022
The evaluation continued to include how the Nomination Committee and Compensation Committee as well as the response of the business executives to Board of Directors, along with the effectiveness of the Board of Directors. A third-party evaluation was also implemented as well in order to ensure objectivity.

### [Evaluation process]

The evaluation was carried out at a discussion attended by all Directors and Audit & Supervisory Board Members, after sharing written evaluations by the Directors and the Audit & Supervisory Board Members, as well as the results of questionnaires' analysis by the third-party anonymous survey. Through discussions, participants reviewed and evaluated the performance of the Board of Directors during fiscal 2022, in terms of the basic policies on the operation of the Board of Directors and the three action items outlined below, which were set forth by the Company's Board of Directors in the last evaluation of effectiveness.

### <Basic policies for fiscal 2022 >

- 1) Monitor and support important measures to achieve the goals as the final year of the 20th Mid-Term Management Plan
- 2) Discuss and support the formulation of the 21st Mid-Term Management Strategy with the aim of maximizing corporate value as a digital services company

#### <Action items for fiscal 2022 >

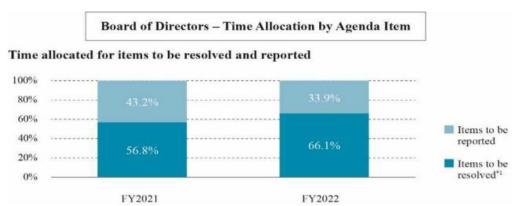

- i) In a highly uncertain business environment, monitor the progress of key management indicators and measures to achieve the business plan for fiscal 2022, and encourage execution as necessary
- ii) In order to maximize corporate value as a digital services company, further enhance discussions on the transformation of the business structure, improvement of return on capital, and other matters concerning the management base, including the human capital to support it, and reflect them in the 21st Mid-Term Management Strategy
- iii) Along with continuous improvement of corporate governance, inspect and supervise the business unit structure, risk management system, new personnel system, ESG (future finances), etc., to create an environment for sustainable growth

# II. Results summary of the "Evaluation of Effectiveness of the Board of Directors" for fiscal 2022 II-1. Results of operation of the Board of Directors

In fiscal 2022, the final year of the 20th Mid-Term Management Plan, we monitored the progress of key indicators and measures for each business unit, and also deliberated on medium- and long-term management policies and strategies based on the annual plan as the year for formulating the 21st Mid-

Term Management Strategy. With respect to the CEO succession plan, the Nomination Committee had enough meetings and time to conduct the final selection of the successor CEO and discuss the new management structure.

In addition to the on-site inspections by Outside Directors and Outside Audit & Supervisory Board Members, roundtable discussions with local employees, and participation in management meetings as observers to gain an understanding of the Company's actual situation, opportunities were provided for dialogue through small meetings between shareholders and Outside Directors to deepen discussions from the shareholders' perspective, with the aim of reflecting the shareholders' views in management. The allocation of time to agenda items at meetings of the Company's Board of Directors held in fiscal 2022 is disclosed as follows, for the purpose of ensuring the transparency in the status of deliberations of the Board of Directors.

\*1 Items to be resolved: In addition to agenda items for resolution of the Board of Directors, these include Director's review meetings and governance review meetings held for deliberation in preparation for making a resolution.

\*2 Resolutions in accordance with the provisions of the Companies Act, personnel matters, other individual proposals, etc.

### II-2 Summary

The following is a summary of the results of discussions among the members of the Board of Directors regarding written evaluations by the Directors and the Audit & Supervisory Board Members, as well as third-party evaluations.

- The unanimous evaluation was that the composition of the Board of Directors was appropriate, that free and vigorous discussions were held under the Chairperson of the Board of Directors, an Outside Director, who presided from the neutral standpoint, that appropriate supervision and decision-making were carried out in response to various changes in the business environment, and that the effectiveness of the Board of Directors was ensured.
- The Nomination Committee ensured that the process of the changes of CEO was highly fair and transparent, and the Compensation Committee revised the executive compensation system from a shareholder perspective, including the introduction of performance-linked stock-based compensation. Both committees, which are chaired by an Outside Director and consist of a majority of Outside Directors, conducted extensive deliberations and were evaluated as effectively functioning as advisory bodies to the Board of Directors.

- It was judged that the selection of a new Lead Independent Director has further strengthened the effectiveness of governance, and the Board of Directors now engages in deliberations with a more shareholder-oriented perspective, with Directors aware of shareholder expectations and concerns through ongoing SR by senior management and small meetings between shareholders and Outside Directors.
- On the other hand, it was pointed out that "further enhancement of deliberations and response to issues to achieve corporate value that meets the expectations of stakeholders" and "qualitative growth with transformation into a digital services company through steady implementation of the fiscal 2023 business plan" are needed, based on the trends of the Company's corporate value and evaluation of the current business performance.
- In addition, it was pointed out that, in transforming the business structure, it is necessary to review and continuously improve integrated risk management under the business unit structure.

### <Action items for fiscal 2022 i) and ii)>

- In a highly uncertain business environment, the Board of Directors made efforts to understand the actual status of the business through monitoring the performance and measures of each business unit, and encouraged improvement of issues in response to the business environment.
- It was positively evaluated that the Board of Directors also supported the development of the management infrastructure through deliberations on human capital strengthening, capital policy, and IT infrastructure overhaul, laying the foundation for the implementation strategies under the 21st Mid-Term Management Strategy, as well as supervision and decision-making toward the transformation of the business structure, including implementation of growth investments and business alliances aimed at strengthening digital services.
- On the other hand, recognizing that the highly uncertain business environment will continue, there were remarks pointing out the need for discussion on a resilient management structure, as well as the need to accelerate the transformation of the business structure to enhance corporate value, and the importance of deepening discussions on improving the profitability of the office services business and business portfolio management using ROIC.

### <Action item for fiscal 2022 iii)>

- The Board of Directors was commended for sharing governance issues through governance review meetings and Outside Executive Meetings, and for regularly requesting reports on internal audits, risk management, and ESG progress to strengthen the governance structure necessary for a digital services company.
- Efforts to directly understand the operation status of the new personnel system and environmental initiatives through on-site inspections and communication with local employees, as well as in-depth discussions at Board of Directors' meetings and inspections from multiple perspectives, were highly evaluated as having led to improved effectiveness of the supervisory function.
- Meanwhile, the need for verification of integrated risk management in accordance with the management structure based on the business unit structure, response to risks specific to each region and business unit, the head office structure, and Ricoh-style job-based personnel system and its operation was also pointed out.

# III. Efforts to improve the effectiveness of the Board of Directors in fiscal 2023 Based on the above evaluation, the Company's Board of Directors will operate in accordance with the following basic policies and work to improve the effectiveness of the Board of Directors based on three specific action items.

### <Basic policies for fiscal 2023 >

- 1) Discuss and oversee the realization of corporate value that meets stakeholder expectations
- 2) Monitor and support performance and key measures, from both quantitative and qualitative aspects, to achieve qualitative growth with transformation into a digital services company

### <Action items for fiscal 2023 >

i) Enhance deliberations on enhancing corporate value, deepen discussions to a level where concrete measures can be implemented, and provide more effective supervision from the perspective of corporate value

- ii) Supervise and support the Company to achieve qualitative growth with transformation into a digital services company through steady implementation of the fiscal 2023 business plan
- iii) Continuously improve integrated risk management linked to the management system, which enables both sound risk-taking and risk control in order to accelerate the transformation into a digital services company

### (VI) System to secure appropriateness of operations

The systems to secure the appropriateness of the Company's operations are reviewed on a regular and ongoing basis in response to changes in the business environment, and resolutions are made at the Board of Directors.

### **Internal Control System Basic Policy**

The Ricoh Way, which comprises our founding principles ("The Spirit of Three Love" - love your neighbor, love your country, love your work), Mission & Vision, and Values, is the foundation of Ricoh's management policy, strategy, and internal control system.

Inspired by the values incorporated in The Ricoh Way, we are working to establish and implement an internal control system aimed at strengthening competitiveness and continuously improving the system while ensuring transparency based on corporate ethics and legal compliance.

### (1) Systems to ensure appropriate compliance with laws and Articles of Incorporation concerning the implementation of Directors' and employees' duties

Based on the principle of autonomous corporate governance, the Company promotes a corporate culture that values both a sense of duty to meet the various expectations of stakeholders and high ethics suited to good social conscience.

# 1) Systems to ensure appropriate compliance with laws and Articles of Incorporation concerning the implementation of Directors' duties

- (i) Management transparency and fairness of decision-making are strengthened by the presence of Outside Directors. In addition, the Board of Directors is composed of a majority of Outside Directors to strengthen functions of overseeing from different perspectives.
- (ii) The Board of Directors is positioned as the highest decision-making organization for business management and is chaired by an Outside Director, who leads the Board from a neutral position, in order to facilitate in-depth discussions for important matters to reach robust decisions.
- (iii) As part of the strengthening of management oversight functions by the Board of Directors, the "Nomination Committee" and the "Compensation Committee", which are chaired by Outside Directors have been established. In each committee, the majority of the members are Outside Directors, so that the transparency and objectivity of the selection of candidates and compensation of Directors and executive officers, etc. is secured.
- (iv) Policies regarding disclosure has been established to assure the accuracy, timeliness and completeness of disclosure of corporate information and the "Disclosure Committee", which is chaired by a CFO who is responsible for information disclosure, is established to verify and decide the importance of disclosure of information, necessity of disclosure and validity of the content.

### 2) Systems to ensure appropriate compliance with laws and Articles of Incorporation concerning the implementation of employees' duties

- (i) Regarding CSR (Corporate Social Responsibility) including compliance, in order to thoroughly implement the "Ricoh Group Code of Conduct" which articulates the general rules of conduct for Ricoh and its officers and employees, the Specialty Committee and a reporting line to report incidents and seek advice have been established. Also, various training programs are set up to enhance compliance domestically and overseas. Ricoh prohibits unfavorable treatments of anyone who made the report to the reporting line due to such reporting.
- (ii) Efforts are being made to improve business processes and construct a framework for standardized internal control throughout Ricoh, with the goal of "complying with laws, norms and internal rules", "improvement of business effectiveness and efficiency", "maintaining high reliability of financial reporting", and "securing of assets", including compliance to the Financial Instruments and Exchange Law and other relevant laws and regulations.

- (iii) The Company shall establish a department (Risk Management and Legal Center) specializing in enhancing and promoting the functions of the above on an integrated basis.
- (iv) To ensure appropriate internal auditing, a division of internal management and control shall be established. The division examines and evaluates business operations based on legal compliance and rational criteria, and perform audit for improvement.
- (v) To establish and improve an internal control system of Ricoh, the Company shall institute an "Internal Control Committee," which is expected to convene regularly to evaluate, deliberate and decide on development and improvement of internal control.

### (2) Systems related to the retention and management of information related to the implementation of Directors' duties

Records and proposals related to decisions by Directors in the course of their duties are created, retained and managed in compliance with applicable laws, regulations and internal rules. Documents are kept so that they can be retrieved and reviewed when a request from Directors and Audit & Supervisory Board Members is made.

### (3) Regulations and other systems regarding risk management for losses

- (i) The occurrence of losses shall be proactively prevented based on risk management regulations.
- (ii) Should losses nevertheless arise, efforts shall be made to minimize damage (loss) based on standards for initial reaction.
- (iii) In order to respond to diversifying sources of uncertainty both inside and outside Ricoh, the "Risk Management Committee" assesses critical risks and evaluates responses, and devises risk management measures. In addition, a risk management promotion division will be established to expand risk management activities globally.

### (4) System to ensure the efficient implementation of Directors' duties

- (i) The executive officer system, its division of duties clarified, speeds up the decision-making process through the delegation of authority to each business unit
- (ii) The GMC is a decision-making organization chaired by the President and CEO, delegated by the Board of Directors, and composed of executive officers who meet specific criteria and other members. The GMC operates so as to accelerate deliberation and decision-making from the perspective of the optimum management of the entire Ricoh, concerning the most appropriate strategies for direction of each business unit and the entire Ricoh, within the powers granted to it.
- (iii) The "Board of Directors office" realizes robust decision-making and management oversight with high transparency by supporting the Board of Directors.

#### (5) Systems to ensure correct business standards at Ricoh and its subsidiaries

Ricoh shall devise a system that ensures adherence to correct business standards to improve business performance and enhance the prosperity of Ricoh, while respecting each other's independence, as follows:

- (i) The Company's Board of Directors and the GMC make decisions and perform management oversight for Ricoh as a whole
- (ii) The Company establishes its management regulations concerning each company, and prescribes a system for reporting matters regarding the performance of duties of the Directors of each company, and the Directors' authority for conducting such duties efficiently.
- (iii) Each Ricoh Group company conducts risk management for losses relating to the company. Should any incident arise, the company should strive to minimize damage and recover quickly, and promptly report to the Company.
- (iv) To ensure that the duties of Ricoh's Directors and employees are performed in compliance with laws and regulations and Articles of Incorporation, we formulate a set of common rules which shall be followed as Ricoh's common standards, the "Ricoh Group Standard," and promote compliance across Ricoh.

### (6) Systems established to ensure the effective performance of duties by Audit & Supervisory Board Members

1) Matters regarding measures to secure independence of employees whom Audit & Supervisory Board Members request to assist them in the performance of their duties from Directors and efficacy of instructions given to such employees

- (i) The Company shall establish an Audit & Supervisory Board office, where exclusively assigned employees assist Audit & Supervisory Board Members in performing their duties under their command.
- (ii) Personnel evaluations regarding said employees shall be made by the Audit & Supervisory Board. Furthermore, personnel changes regarding said employees shall be made only after gaining agreement of the Audit & Supervisory Board.

# 2) Systems for Directors and employees of Ricoh to report to Audit & Supervisory Board Members and other systems related to the reporting to Audit & Supervisory Board Members

- (i) Directors and employees shall promptly report to Audit & Supervisory Board Members concerning risks that may affect the operation or the performance of Ricoh or material violations of compliance concerning execution of duties.
- (ii) Directors shall provide Audit & Supervisory Board Members with opportunities to attend important meetings, view minutes and materials of important meetings, as well as important resolution documents.
- (iii) Directors shall report the status of business and assets regularly or occasionally at the request of Audit & Supervisory Board Members.
- (iv) The Company prohibits unfavorable treatments of any Directors or employees of Ricoh, who made the report to Audit & Supervisory Board Members due to such reporting.

# 3) Other systems established to ensure effective performance of duties by Audit & Supervisory Board Members

- (i) Audit & Supervisory Board Members may regularly exchange opinions with Representative Directors.
- (ii) Directors and employees of Ricoh shall establish an environment for effective auditing of the Company and each Ricoh Group company by Audit & Supervisory Board Members at the time of audit.
- (iii) The Company shall create an environment that enables Audit & Supervisory Board Members to conduct effective auditing through mutual cooperation with the Independent Auditor and the division of internal management and control.
- (iv) The Company shall pay expenses incurred from the performance of duties of Audit & Supervisory Board Members and from receiving advice from outside experts as necessary.

### (VII) Approach to Election of Audit & Supervisory Board Members Election Criteria for Audit & Supervisory Board Members

Candidates for Audit & Supervisory Board Members are selected for a balance of knowledge, experience, and specialized abilities required of the Audit & Supervisory Board taken into consideration, such as, in particular, the appointment of at least one person with sufficient knowledge of finance and accounting, in addition to the candidate's ability to contribute to the sound and sustained growth of the Company and the medium- to long-term enhancement of its corporate value through the performance of duties as an Audit & Supervisory Board Member.

In selecting candidates for Audit & Supervisory Board Members, the Audit & Supervisory Board has established the following criteria and makes a comprehensive judgment based on these criteria. [Audit ability]

- 1. Appropriate experience, ability, and the necessary knowledge regarding finance, accounting and law
- 2. Professional skepticism and the ability to investigate facts properly, with an earnest attitude, and exercise objective judgement
- 3. Sense of duty and courage founded on personal beliefs, and the ability to make active and forthright suggestions and proposals to Directors and employees
- 4. The ability to see matters from a shareholders' perspective, act on this perspective, and engage in audits based on an attitude of learning from actual front lines, actual things and actual facts [Knowledge background and temperament]
- 1. Healthy in mind and body, and able to serve for a full four-year tenure as Audit & Supervisory Board Member
- 2. Always aspires to improve him/herself, with a desire to learn new things
- 3. Able to communicate with local top management in English

### Election Criteria for Outside Audit & Supervisory Board Members

In addition to the criteria above, Outside Audit & Supervisory Board Members are elected based on their high degree of specialist insight in the fields of corporate management, finance, accounting and law, and their extensive experience. The absence of any issues of independence regarding their relationships with the Company, its Representative Director, other Directors and important employees, with reference to the Company's Standards for Independence of Outside Directors and Outside Audit & Supervisory Board Members that be shown in "IV. INFORMATION ON THE COMPANY, 4 CORPORATE GOVERNANCE, ETC., (2) Directors and senior management, 2) Outside Directors and Outside Audit & Supervisory Board Members", is an additional criterion.

### **Diversity**

In appointing Audit & Supervisory Board Members, the Company believes that the Audit & Supervisory Board should be composed of Audit & Supervisory Board Members with diverse experiences and perspectives, in addition to the above-mentioned auditing abilities, backgrounds, and personalities. In addition, no distinction is made on the basis of race, ethnicity, gender, nationality or similar attributes, and candidates are selected based on their character and knowledge, thus ensuring diversity in such attributes.

### (VIII) Election Process for Audit & Supervisory Board Members

"Recommendation of candidates" and "candidate nomination/proposal" for Audit & Supervisory Board Member is conducted primarily by the Audit & Supervisory Board, in accordance with the process shown below, with an emphasis on ensuring the independence of Audit & Supervisory Board Members. The Audit & Supervisory Board provides a list of candidates for Audit & Supervisory Board Members based on the criteria for the appointment of Audit & Supervisory Board Members, recommends candidates based on the list and in deliberation with the President and CEO as necessary, and nominates and proposes candidates after confirmation by the Nomination Committee.

The Board of Directors respects the judgment of the Audit & Supervisory Board and passes a resolution for a proposal for the appointment of Audit & Supervisory Board Members submitted to the General Meeting of Shareholders.

### (IX) Related Party Transactions

If the Company engages in transactions with Directors, the internal rules require a resolution of approval in advance by the Board of Directors. In addition, to supervise conflict-of-interest transactions by executives, all Directors are required to submit a yearly report to the Audit & Supervisory Board Members regarding any transactions conflicting with the Company.

### (X) Number of Directors

The number of directors is limited to 15 as set out in the Company's Articles of Incorporation.

### (XI) Conditions for Resolution on Appointments of Directors

The Company's Articles of Incorporation stipulate that a resolution to appoint a director or corporate auditor must be made by the majority vote of attending shareholders holding at least one-third of the voting rights of shareholders who are eligible to exercise voting rights.

### (XII) Acquisition of treasury stock

Pursuant to the provisions of Article 165, Paragraph 2 of the Corporation Law of Japan, the Company's Articles of Incorporation stipulate that the Company may acquire treasury stock by resolution of the Board of Directors. The aim is to allow management to swiftly exercise capital policies as deemed appropriate in response to changes in the operating environment by allowing the Company to acquire treasury stock through market transactions, etc.

(XIII) Requirements for Special Resolution by an Ordinary General Shareholders' Meeting Pursuant to Article 309, Paragraph 2 of the Corporation Law of Japan, the Company's Articles of Incorporation stipulate that special resolutions by an ordinary general shareholders' meeting must be passed by at least a two-thirds majority vote of attending shareholders holding at least one-third of the voting rights of shareholders eligible to exercise voting rights. The aim is to lower the required quorum for a special resolution of an ordinary general shareholders' meeting to facilitate the smooth operations of the meeting.

### (XIV) Determination of Interim Dividends

Under the provisions of the Company's Articles of Incorporation, pursuant to Article 454, Paragraph 5 of the Japanese Corporate Law, the Company may through the resolution of the Board of Directors pay an interim dividend with the record date of September 30 each year to allow an expeditious distribution of profits to shareholders.

### (XV) Outline of liability limitation contracts

The Company amended its Articles of Incorporation regarding liability limitation contracts at the 115th Ordinary General Meeting of Shareholders on June 19, 2015, establishing the provision of contracts to limit liabilities of Directors (excluding Executive Directors) and Audit & Supervisory Board Members. The outline of liability limitation contracts, which the Company concluded only with Outside Directors and Outside Audit & Supervisory Board Members in accordance with the revised Articles of Incorporation, is as follows.

- (a) Liability limitation contracts with Outside Directors Under such contracts, the maximum liability of Outside Directors shall be the higher of either of ¥10 million or a minimum liability amount stipulated in Article 425, Paragraph 1 of the Companies Act.
- (b) Liability limitation contracts with Outside Audit & Supervisory Board Members Under such contracts, the maximum liability of Outside Audit & Supervisory Board Members shall be the higher of either of ¥5 million or a minimum liability amount stipulated in Article 425, Paragraph 1 of the Companies Act.

### (XVI) Outline of directors and officers liability insurance contracts

The Company has entered into a directors and officers liability insurance contract pursuant to Article 430-3, Paragraph 1 of the Companies Act with an insurance company, to insure officers of Ricoh (Directors, Audit & Supervisory Board Members, Executive Officers, etc.), with all insurance premiums at its expense. The insurance contract covers damages and litigation expenses arising from claims made to insured officers during the insurance period as a result of their actions in their capacity as an officer. However, certain damages are not covered by the insurance, including those arising from an action of the insured officer taken with the knowledge that it violates laws and regulations.

### (2) Directors and senior management

### 1) Directors and senior management members

Directors and Audit & Supervisory Board Members of the Company as of June 26, 2023 are as follows:

Men: 12 persons, Women: 1 person (Ratio of women in the Directors and Audit & Supervisory Board Members: 7.7%)

| Name              | Current Position                                       |                        |   |

Directors and Audit & Supervisory Board Members are elected at a general meeting of shareholders for one year and four years terms, respectively, and may serve any number of consecutive terms. The Board of Directors appoints from among its members a Chairperson and one or more Representative Directors in accordance with the Corporation Law of Japan.

The following table shows the number of shares of common stock owned by each Director and Audit & Supervisory Board Member of the Company as of March 31, 2023. None of the Company's Directors or Audit & Supervisory Board Members is a beneficial owner of more than 1% of the Company's common stock.

| Name                | Position                                 | Number of Shares |
|---------------------|--|------------------|
| Yoshinori Yamashita | Chairperson                              | 61,100           |
| Akira Oyama         | Representative Director                  | 29,500           |
| Takashi Kawaguchi   | Director                                 | 2,400            |
| Keisuke Yokoo       | Outside Director                         | 3,200            |
| Sadafumi Tani       | Outside Director                         | 3,700            |

|                   | Company.  |
|                   | Concurrently, as the Chairperson of the Nomination Committee, he led the operation of the       |
|                   | committee, encouraged lively discussions among members, and reported its content to the         |
|                   | Board of Directors. As a member of the Compensation Committee, he has actively made             |
|                   | proposals and engaged in discussions from a corporate top executive viewpoint.                  |

#### Name

### Shigenao Ishiguro

Since Mr. Shigenao Ishiguro joined TDK ELECTRONICS CO., LTD. (currently TDK Corporation) in 1982, he has led the Company's overseas expansion through his extensive overseas experience. After serving as Corporate Officer from June 2014 and Senior Vice President from June 2015, he was appointed President & Representative Director in June 2016, and has contributed to the development of the company and the enhancement of its corporate value by exercising outstanding management skills, such as promoting the transformation of the company's business structure by developing new businesses based on EX (energy transformation) and DX(digital transformation), including the battery and sensor businesses. In addition, as Chairperson & Representative Director from April 2022, and as Chairperson & Director since June 2022, he has exercised governance functions from a medium- to long-term and broad perspective.

He is expected to make objective management decisions and oversight from an independent standpoint based on his proven track record of global management excellence, fostering new businesses and transforming business structures, and his deep insights into sustainability and governance.

Concurrently, as a member of the Nomination Committee, he is expected to make proposals and engage in discussions from a corporate top executive viewpoint.

### Yoko Takeda

Ms. Yoko Takeda joined the Bank of Japan in 1994, where she was in charge of overseas economic analysis and domestic and international financial market analysis. After studying abroad, she joined Mitsubishi Research Institute, Inc. (MRI) in April 2009, where she served in numerous positions, including General Manager of Research Center for Policy and Economy (appointed in October 2017) and Deputy General Manager of the Think Tank Unit and General Manager of Center for Policy and the Economy (in October 2020). Currently, as a Research Fellow, Deputy General Manager of the Think Tank Unit, General Manager of the Planning and Administration Office, and General Manager of the Center for Policy and the Economy of MRI, she has demonstrated her outstanding skills and abilities in research and analysis of finance and economics. She has also been actively involved in external activities, including serving on numerous government councils. She has made a wide range of policy recommendations regarding issues such as monetary policy, public finance, social security systems, and labor markets.

She is expected to make objective management decisions and oversight from an independent standpoint based on her wealth of insight and analytical skills related to global economic and social trends, as well as deep insight and knowledge of employment issues and human resource development, which she has cultivated over many years as an economist. Concurrently, as a member of the Compensation Committee, she is expected to make proposals and engage in discussions from a viewpoint different from that of a corporate executive.

| Name              | Their function and role in Corporate Governance   |
|-------------------|---|
| Yo Ota            | Mr. Yo Ota actively made comments at the Audit & Supervisory Board and the Board of Directors based on his extensive track records from his many years of experience as an attorney practicing all areas of corporate law, including M&As, corporate governance, and compliance, and his extensive experience as a specialist in corporate governance. In addition to the above activities, he also participated in audits of divisions and subsidiaries in fields of particular focus in relation to his areas of expertise or importance, and provided advice and recommendations. He is also expected to contribute to ensure the transparency in the process of determining compensation by attending Compensation Committee meetings as an observer.   |
| Shoji Kobayashi   | Mr. Shoji Kobayashi actively made comments at the Audit & Supervisory Board and the Board of Directors from an objective perspective based on his extensive experience gained through many years in development and business management while serving in important positions at Kao Corporation, such as General Manager of a business division and Executive Officer, as well as his deep insight into the management and governance of a global corporation, acquired as a full-time Audit & Supervisory Board Member of Kao Corporation, and his broad knowledge regarding all aspects of technology. In addition to the above activities, he also attended numerous audits of business units and Group headquarters organizations, subsidiaries, etc., and provided advice and recommendations from a wide range of perspectives, including technical and business operations, as well as ESG and engagement.   |
| Yasunobu Furukawa | Mr. Yasunobu Furukawa actively made comments at the Audit & Supervisory Board and the Board of Directors based on his many years of experience as a certified public accountant and as an engagement partner for audits of global corporations with operations overseas at Ernst & Young ShinNihon LLC, and on his extensive insight and experience in corporate management as an outside director, audit committee member, and outside audit & supervisory board member for other companies.  He also participated in audits of divisions and subsidiaries in fields of particular focus in relation to his areas of expertise or importance, and provided advice and recommendations. In addition, when receiving reports from the Independent Auditor, he was particularly active in asking questions from his professional perspective. He is also expected to contribute to ensure the transparency in the nomination process by attending Nomination Committee meetings as an observer. |

The Company engages the election criteria for Outside Directors, as member of the Board of Directors, in "IV. INFORMATION ON THE COMPANY, 4 CORPORATE GOVERNANCE, ETC., (1) Corporate Governance, 3) Other matters for Corporate Governance, (II) Approach to Election of Directors". The Company expects the Outside Directors to fully utilize their knowledge and experiences, and to contribute to strengthening the corporate governance through decision-making and supervising of the Company's management, based on discussions made from an independent and objective standpoint. As for the election criteria for Outside Audit & Supervisory Board Members, in "IV. INFORMATION ON THE COMPANY, 4 CORPORATE GOVERNANCE, ETC., (1) Corporate Governance, 3) Other matters for Corporate Governance, (VII) Approach to Election of Audit & Supervisory Board Members and (VIII) Election Process for Audit & Supervisory Board Members", the Company places emphasis on ensuring their independence, and confirms the candidates' eligibility from an objective standpoint based on the election criteria.

Furthermore, the Outside Audit & Supervisory Board Members are expected to actively provide proposals and audit, drawing on the respective individual expertise and background.

As each of the Outside Directors and Outside Audit & Supervisory Board Members are performing the function and roles expected, and the independence criteria of the Outside Directors are met, the Company

recognizes the appointment of the current Outside Directors and Outside Audit & Supervisory Board Members are appropriate.

The Company established the Company's Standards for Independence of Outside Directors and Audit & Supervisory Board Members as below and confirms these standards to elect Outside Directors and Outside Audit Supervisory Board Members.

- 1. In principle, Outside Directors and Outside Audit & Supervisory Board Members of the Company should be independent from the Company and should satisfy all of the items set out below.
- (i) A person who is not a shareholder holding 10% or more of the total voting rights of the Company (a "major shareholder"), or a person who is not a director, audit and supervisory board member, accounting advisor, executive officer, executive director, corporate officer, manager or any other employee of the major shareholder of the Company.
- (ii) A person who is not a director, audit and supervisory board member, accounting advisor, executive officer, executive director, corporate officer, manager or any other employee of a company of which the is a major shareholder.
- (iii) A person who is not a director (excluding outside directors who are independent), audit and supervisory board member, accounting advisor, executive officer, executive director, corporate officer, manager or any other employee of the Ricoh Group or a person who was not a director (excluding outside directors who are independent), audit and supervisory board member, accounting advisor, executive officer, executive director, corporate officer, manager or any other employee of the Ricoh Group within 10 years preceding the assumption of the office of Outside Director.
- (iv) A person of which the Ricoh Group was not a major business partner (whose sales to the Ricoh Group accounted for 2% or more of its consolidated net sales) in the immediately preceding fiscal year or any of the three fiscal years prior to such fiscal year, or a person who is not a director (excluding outside directors who are independent), executive officer, executive director, corporate officer, manager or any other employee thereof (including its parent company and subsidiaries).
- (v) A person who was not a major business partner of the Ricoh Group (to which sales of the Ricoh Group accounted for 2% or more of consolidated net sales of the Ricoh Group) in the immediately preceding fiscal year or any of the three fiscal years prior to such fiscal year, or a person who is not a director (excluding outside directors who are independent), executive officer, executive director, corporate officer, manager or any other employee thereof (including its parent company and subsidiaries).
- (vi) A person who is not a consultant, certified public accountant, certified tax accountant, lawyer or any other professional who received money or other property other than executive compensation, either directly or indirectly, from the Ricoh Group in an amount of ¥10 million or more in the immediately preceding fiscal year or per year in average over the past three fiscal years.
- (vii) A person who does not belong to an organization, such as a law firm, auditing firm, tax accounting firm, consulting firm or any other professional advisory firm, that received money or other property, either directly or indirectly, from the Ricoh Group in an amount equivalent to 2% or more of its total revenue in the immediately preceding fiscal year or per year in average over the past three fiscal years.
- (viii) A person who is not a spouse, a relative within the second degree of kinship or a relative who lives in the same household of a person who falls under the items (i) through (vii).
- (ix) A person who is not a director, audit and supervisory board member, accounting advisor, executive officer, executive director, corporate officer, manager or any other important employee of a company, its parent company or subsidiary that has directors dispatched from the Ricoh Group.
- (x) A person who is unlikely to cause a substantial conflict of interests with the Company.
- 2. The Company may appoint a person as Outside Director or Outside Audit and Supervisory Board Member if it determines that the person is qualified for the post, even though he/she fails to satisfy any of the above items (i) and (iv) through (ix) in the preceding paragraph, provided that the Company explains to external parties the reason for its determination that the person qualifies for the post.

3) Cooperation among internal audits, audits by Audit & Supervisory Board Members and accounting audits and relations with internal control departments

Outside directors, as member of the Board of Directors, are responsible for management oversight and important decision making concerning Ricoh's management. Outside Audit & Supervisory Board Members are responsible for auditing the decision making and operations performed by Executive Officers.

Outside Audit & Supervisory Board Members receive quarterly reports on the status of activities from the Internal Audit Office, which is in charge of internal audit, at meetings of the Audit & Supervisory Board, and the External Auditor who is in charge of accounting audits explains audit plans, audit reports, quarterly review results, quality control systems, etc.

Outside Audit & Supervisory Board Members are shared information from full-time Audit & Supervisory Board Members at meetings of the Audit & Supervisory Board regarding the three-way audit meeting which consists of Internal Audit Office and External Auditor and information exchange meetings held regularly by full-time Audit & Supervisory Board Members and External Auditor. The three-way audit meeting is held to exchange views of auditing policies and plans, and to share the findings from the audits performed by each auditor.

Furthermore, Outside Audit & Supervisory Board Members maintain an effective cooperation with Internal Audit & Supervisory Board Members, External Auditor and Internal Management & Control Division. They attend the interviews to Directors performed by External Auditor with Internal Audit & Supervisory board members and the Internal Management & Control Division and perform audits with Internal Audit & Supervisory board members, if necessary.

Through these cooperation and relationships, Outside Directors and Audit & Supervisory Board Members express their opinions in a timely manner from their respective professional standpoints.

### (3) Audit

- 1) Operating Status of Audit & Supervisory Board
- a. Audit & Supervisory Board members and the Audit & Supervisory Board

The Audit & Supervisory Board Office has been established, staffed by four full-time employees dedicated to this office with a certain degree of guaranteed independence from the Business Execution and assists the activities of the Audit & Supervisory Board Members, such as collection and analysis of information globally and support for investigation.

### b. Operation of the Audit & Supervisory Board

The Audit & Supervisory Board meetings were held 14 times during fiscal 2022 (average time per meeting: approximately 141 minutes). Attendance rate of the Audit & Supervisory Board meetings and Board of Directors meetings for each Audit & Supervisory Board member are as follows.

| Position   | Name              | Attendance rate for the<br>Audit & Supervisory<br>Board meetings held<br>during the fiscal year | Attendance rate for the Board of Directors meetings held during the fiscal year |
|--|-------------------|---|---|
| Audit & Supervisory Board<br>Member<br>(Full-time)   | Kazuhiro Tsuji    | 100% (14 out of 14)   | 100% (15 out of 15)   |
| Audit & Supervisory Board<br>Member<br>(Full-time)   | Shinji Sato       | 100% (14 out of 14)   | 100% (15 out of 15)   |
| Independent outside Audit & Supervisory Board Member | Yo Ota            | 86% (12 out of 14)  | 100% (15 out of 15)   |
| Independent outside Audit & Supervisory Board Member | Shoji Kobayashi   | 100% (14 out of 14)   | 100% (15 out of 15)   |
| Independent outside Audit & Supervisory Board Member | Yasunobu Furukawa | 100% (14 out of 14)   | 100% (15 out of 15)   |

In fiscal 2022, the Audit and Supervisory Board made the following resolutions, engaged in the following deliberations, and issued the following reports.

18 resolutions:

Audit policy, audit plan, and division of duties, selection of the Chairperson of the Audit & Supervisory Board, full-time Audit & Supervisory Board Members, and specific Audit & Supervisory Board Members, audit budgets, Audit & Supervisory Board's Report, Notes on the Audit Performance, contents of summary of Audit & Supervisory Board audit activities, internal regulations related to Audit & Supervisory Board Members ("Audit & Supervisory Board Member Auditing Regulations," etc.), reappointment of the Independent Auditor, agreement regarding audit fee paid to the Independent Auditor, prior approval procedures for non-auditing activities of the Independent Auditor, etc.

35 deliberations:

Review of exchange of opinions and the status of deliberations at the Board of Directors meetings, evaluation of the Independent Auditor, the results of Audit & Supervisory Board Member review, contents of regular meetings and follow-up with the Representative Director, Chairperson of the Board of Directors and Lead Independent Director and the methods used to hold these meetings, remuneration for Audit & Supervisory Board Members, prior consultation regarding resolutions, etc.

48 reports:

Status of execution of duties by full-time Audit & Supervisory Board Members (monthly), status of operation of the Investment Committee, status of creation and operation of the disclosure system, status of non-audit work by the Independent Auditor, contents of securities report, the contents of business report, convocation notices, and subsequent events, the results of audits by the Independent Auditor, the status of internal audits, etc.

### c. Outline of audit activities

We reviewed risks and issues in the five areas, namely (1) Directors, (2) Business execution, (3) Subsidiaries, (4) Internal audit, and (5) Accounting audit, and formulated annual activity plans. Outline of audit activities in each of these areas and division of duties of Audit & Supervisory Board Members are illustrated in Table1 below. Audit activities are mainly carried out by full-time Audit & Supervisory Board Members, and the contents are shared in a timely manner at the Audit & Supervisory Board meetings. Outside Audit & Supervisory Board Members conduct audits with full-time Audit & Supervisory Board Members and make recommendations, taking advantage of their respective expertise and backgrounds, and express their opinions from the independent standpoint.

Table1 : Outline of audit activities ★ Meetings organized by the Audit & Supervisory Board members

| Areas            |   | Allocation of |   |
|------------------|---|---------------|---|
|                  |   | respons       | ibilities   |

Number of Audit & Supervisory Board Member reviews conducted: 5 business unit audits, 17 Group headquarters audits, and 22 subsidiary audits (9 in Japan and 13 overseas)

In fiscal 2022, the final year of the Company's 20th Mid-term Management Plan, the Company engaged in a variety of initiatives, including the business unit structure that was introduced in the previous fiscal year, and introduced a new Ricoh-style job-based personnel system, with the aim of transforming into a digital services company. The Audit & Supervisory Board examined these business activities as well as associated expected risks based on changes in the internal and external environment. As a result, "the optimal form of headquarters function governance for a digital service company," "autonomous internal control and risk management by business units and management of subsidiaries," and "control environments within individual organizations," were established as areas of focus for fiscal 2022.

# Area of focus: (i) The optimal form of headquarters function governance for a digital service company

Based on the issues recognized in conjunction with governance changes resulting from the introduction of the business unit structure, and the state of responses to these issues, the Audit & Supervisory Board confirmed the status of the creation for the optimal form of headquarters function governance for a digital services company.

- Confirmation of group governance design, creation, and operation structure
  - The Audit & Supervisory Board Members conducted reviews of each business unit and headquarters organization. They confirmed the status of the establishment and operation of governance and checks and balances functions within each functional organization, the status of headquarters cross-functional and support functions, and the division of responsibilities.
- Feedbacks regarding internal control issues identified through auditing activities, Outside Executive Meetings, governance review meetings, and other discussions were provided as appropriate at information sharing meetings with the leaders of Group headquarters functional organization and the presidents of business units in order to assist with making improvements.

<sup>\*1</sup> Audit & Supervisory Board Member review: A series of audit procedures to be conducted including on-site audit at headquarters, principal offices, and subsidiaries as a general rule

- Confirmation of the states of governance in functions whose structure changed as a result of the transition to the business unit structure
  - With regard to functions related to quality, purchasing, and supply chain management, shared by multiple business units, Audit & Supervisory Board Members performed reviews spanning organizations, including the Group headquarters management organization, and confirmed the status of their mutual cooperation, divisions of duties, and other matters.

## Area of focus: (ii) Autonomous internal control and risk management by business units and management of subsidiaries

Under the business unit structure, each business unit is required to autonomously conduct internal control, risk management, and management of its own subsidiaries. The Audit & Supervisory Board confirmed that structures for doing so had been created and were being appropriately operated and managed.

- Confirmation of the status of creation of systems aligned with business unit characteristics and resources
  - The Audit & Supervisory Board conducted Audit & Supervisory Board Member reviews of business units, participated in business operation meetings, and used information sharing meetings with business unit presidents to confirm the status of their creation of internal controls and the status of the operation and management of these internal controls.
  - The Audit & Supervisory Board confirmed improvements made to address issues pointed out during internal audits, etc., the rollout of these improvements throughout the Group, and the status of creation and operation of processes for firmly establishing these improvements.
  - Audit & Supervisory Board Member reviews were carried out of subsidiaries selected based on their importance, the presence or absence of risks, and whether or not there were changes in management conditions following the introduction of the business unit structure. The status of management by Supervising Organizations\*2 and their cooperation were confirmed.

### Area of focus: (iii) Control environments within individual organizations

The Audit & Supervisory Board confirmed whether each organization was properly maintaining a control environment, taking into consideration the transition to the business unit structure, the impact of the Ricoh-style job-based personnel system introduced in fiscal 2022, and the like.

- Confirmation of the level of understanding among employees regarding changes in the internal environment, the impact of these changes, and changes in the organization culture
  - In Audit & Supervisory Board Member reviews conducted at some of the headquarters organizations (5 organizations) and subsidiaries (9 companies), roundtable discussions with employees were also conducted to determine the impact of changes in the internal environment, how these changes were seen by individual employees, the degree to which they accepted the new systems, the impact on the workplace, and the like.
  - The Audit & Supervisory Board confirmed the understanding of current situation by top management of each organization and subsidiary concerning the results of internal employee engagement surveys and compliance surveys and the status of measures taken in response.

<sup>\*2</sup> Supervising Organizations: Headquarters organizations that administer their Affiliate(s) individually.

The information and insights obtained through these activities were shared at Outside Executive
Meetings and the opinions of Outside Directors and Outside Audit & Supervisory Board Members
were confirmed.

These were provided to Supervising Organizations and related organizations such as human resource departments as feedbacks.

### d. Coordination with Independent Auditor and Evaluation

The content of coordination between Audit & Supervisory Board Members and Independent Auditor, Deloitte Touche Tohmatsu LLC, is as follows.

Table2: Content of coordination between Audit & Supervisory Board Members and Independent Auditor

With regard to the Key Audit Matters (KAM) in fiscal 2022, the Audit & Supervisory Board confirmed the status of deliberations on the occasions of the explanations on the Independent Auditor's audit plans, quarterly review reports, etc., and strove to communicate appropriately with the executive side, as well.

### 2) Operating Status of Internal Audit

### a. Organization, personnel, and procedures

As of the end of March 2023, the Internal Auditing Office of an independent dedicated organization had 23 members. Based on the Internal Audit Standard and the Annual Auditing Plan, the Internal Audit Office conducts internal audits of the status of Ricoh's business execution using a risk approach from the viewpoints of legal compliance, effectiveness and efficiency of operations, reliability of financial reporting, and safeguarding of assets, and provides advice and recommendations for improvement from a fair and objective standpoint.

In addition to individual audit reports, the results are reported quarterly to the Internal Control Committee established under the President & CEO.

They are also reported to the Board of Directors every six months.

The Internal Audit Office also evaluates and reports on internal control over financial reporting in accordance with the Financial Instruments and Exchange Act.

b. Mutual Cooperation among internal audits, audits by the Audit & Supervisory Board members and accounting audits, and relations with internal control departments

The results of the internal audit and the contents of the report to the Internal Control Committee, including the annual audit plan, are reported to the Audit & Supervisory Board quarterly by the Internal Audit Office for an exchange of opinions.

In addition, we hold monthly information exchange meetings with the full-time Audit & Supervisory Board members to report the results of internal audits and the status of internal controls. We use a common database to access information, including audit reports, on a day-to-day basis, and conduct audits in close cooperation with each other.

In addition, the Audit & Supervisory Board members, the Internal Audit Office, and the Independent Auditors hold quarterly information exchange meetings (Three-Way Audit Meetings) to exchange opinions on the results of each audit and on the status of internal controls and risk assessments understood by the accounting auditors, and to maintain close cooperation.

The Internal Audit Office and the Independent Auditors exchange information on the status of internal audits and internal control audits every month.

Items pointed out in these audits are reported quarterly to the principal administrative divisions and the risk management division. We are working to strengthen internal controls and improve the quality of business execution through a follow-up cycle in which we review improvements and reconfirm that necessary improvements are being made.

- 3) Accounting Audit
- a. Name of certified public accountants

Deloitte Touche Tohmatsu LLC

b. The length of years the Accounting Auditor has served

Four years

- c. Certified public accountants (CPAs) who conducted the audit on the Company's financial statements Masato Shoji, Kenjiro Ikehata and Yosuke Nakamoto
- d. The numbers of audit assistants involved in the audit

There were total of 96 audit assistants involved in the audit as of March 31, 2023, 26 certified public accountants and 70 others.

e. Policy to select the independent auditor and the reason

The Audit & Supervisory Board has established the following policy to select the independent auditor (policy regarding the decisions to reappointment, dismissal, non-reappointment and appointment the independent auditor).

Policy to select the independent auditor

The Audit & Supervisory Board, by unanimous agreement, will dismiss the independent auditor when confirmed that the independent auditor falls under any item of Article 340, Paragraph 1 of the Companies Act. In this case, the dismissal and its reasons will be reported at the first general meeting of shareholders to be held after the dismissal.

The Audit & Supervisory Board establishes the evaluation criteria for the independent auditors, and considers the selection of the independent auditor every year, taking into account its independence, expertise, quality control system, audit fees and group audit system, whether it is difficult for the independent auditor to properly perform audit duties, etc.

If there are any doubts regarding the reappointment of the independent auditor, or if the engagement becomes a long-term audit engagement, then the Audit & Supervisory Board will periodically listen to proposals from multiple auditing firms and will reappoint the independent auditor or will decide on the contents of resolutions to submit to the General Meeting of Shareholders regarding the dismissal or non-reappointment of the independent auditor, or election of another independent auditor.

The Audit & Supervisory Board conducted an evaluation based on the "Policy to select the independent auditor (policy regarding the decisions to reappointment, dismissal, non-reappointment and appointment the independent auditor)", and confirmed that there was no matters falling under each item of Article 340, Paragraph 1 of the Companies Act and that there was no doubt about reappointment and decided that it would be appropriate to reappoint Deloitte Touche Tohmatsu LLC.

f. Evaluation of the Independent Auditor by the Audit & Supervisory Board Members and the Audit & Supervisory Board

The Independent Auditor was evaluated based on the following evaluation criteria defined by the Audit & Supervisory Board.

- The Audit & Supervisory Board communicated with the Independent Auditor regarding the content shown in Table 2 and monitored the quality of its auditing, such the stances of the Independent Auditor and the status of coordination with network firms, etc.
- Management letters and mid-term reports were used to confirm that information and recommendations were being appropriately provided to management.
- During the period (November and December), full-time Audit & Supervisory Board Members conducted interviews with executive divisions (accounting and internal auditing) regarding the performance of the Independent Auditor. Based on the results of these interviews and the quality of audits by the Independent Auditor, the Audit & Supervisory Board performed a performance review during the period. Requests for the Independent Auditor were collected and organized in the middle of the fiscal year, and explanations were received regarding replies to these requests.
- The Audit & Supervisory Board conducted an evaluation review at the end of the fiscal year (April), referring to the replies to the requests and other information, through evaluation items\*3 for the Independent Auditor defined by the Audit & Supervisory Board, determined the appropriateness of the reappointment of the Independent Auditor, and confirmed points of improvement in the upcoming fiscal year.
  - \*3 Evaluation items for the Independent Auditor: Quality control by the audit firm, audit team, audit fee, etc., communication with Audit & Supervisory Board Members, etc., relationship with management, etc., group audits, fraud risk

Descriptions of non-audit services to consolidated subsidiaries

(Fiscal year ended March 31, 2022)

Non-audit services from the same network as the Company's accounting auditor (Deloitte Touche Tohmatsu Limited) to consolidated subsidiaries were in respect of the tax compliance related services, etc.

(Fiscal year ended March 31, 2023)

Non-audit services from the same network as the Company's accounting auditor (Deloitte Touche Tohmatsu Limited) to consolidated subsidiaries were in respect of the tax compliance related services and the advisory services on corporate acquisitions, etc.

(3) Other fees

Not applicable.

#### (4) Policy on determination of audit fees

In determining the amount of audit fees, the Company has a thorough discussion with the certified public accountants, including the scale and characteristics of the businesses.

(5) Reason why the Audit & Supervisory Board agreed to the audit fees etc.

The Audit & Supervisory Board conducted necessary verifications to determine whether the details of the audit plan for auditing by the Independent Auditor, the state of execution of accounting audit duties, and the calculation basis for audit fee estimates are appropriate or not. Upon these verifications, the Audit & Supervisory Board concluded that the amount of audit fee, etc., of the Independent Auditor is reasonable and consent has been given to it.

#### (4) Compensation to Directors and Audit & Supervisory Board Members

(i) Policy on determination of Compensation for Directors & Supervisory Board Members and its calculation formula

#### 1. How to determine policy regarding decisions on individual compensation, etc.

The policy is decided by the Board of Directors considering the deliberation and recommendation by the Compensation Committee, which is an advisory body to the Board of Directors.

#### 2. Compensation policy

Executive compensation is used as a concrete incentive to achieve sustainable increases in corporate earnings for the medium- to long-term, in the pursuit of increased shareholder value of Ricoh. In addition, from the viewpoint of strengthening corporate governance, measures to secure objectivity, transparency, and validity are taken in setting up compensation levels and determining individual compensation. The Company determines executive compensation based on the following basic policies:

- 1) Compensation composition
- Compensation for Internal Directors who concurrently serve as Executive Officer is comprised of three elements: i) basic compensation that reflects expected roles and responsibilities, ii) bonuses that reflect business results (performance-linked compensation), and iii) compensation that reflects medium- to long-term increase in shareholder value.
- Compensation for Internal Directors who do not concurrently serve as Executive Officers is comprised of basic compensation, bonuses and stock-based compensation in light of their role of overseeing business execution as full-time Director with extensive knowledge of the actual situation of the Company.

- Compensation for Outside Directors responsible for management oversight and Audit & Supervisory Board Members responsible for auditing is comprised only of basic compensation in order for them to focus on fair oversight and auditing, thereby ensuring independence from the execution of business.

  2) Governance
- The Company will ensure objectivity, transparency and appropriateness in designing the compensation system, setting compensation levels and determining individual compensation through appropriate external benchmarks and ongoing deliberations and monitoring by the Compensation Committee.
- The Compensation Committee and the Board of Directors deliberates on the appropriateness of individual director compensation amounts based on the results of the Nomination Committee's evaluation of Directors and other factors

# 3. Policy regarding decisions on individual compensation, etc., and matters related to performance linked compensation, non-monetary compensation, etc. for fiscal 2022

#### 1) Process for determining compensation

The Company has established a voluntary Compensation Committee to build a more objective and transparent compensation review process that helps increase profits, enhance corporate value, and strengthen corporate governance through incentives. The Compensation Committee determines each compensation plan for basic compensation, bonuses, compensation for acquiring stock, and performance-linked stock-based compensation after multiple deliberations based on the compensation standards for Directors and business performance, as well as the results of the Nomination Committee's evaluation of Directors, and makes recommendations to the Board of Directors.

The Board of Directors deliberates and decides on each compensation plan recommended by the Compensation Committee. With respect to bonuses, the Board of Directors determines the total amount of bonuses to be paid after confirming that the amount of bonuses for each individual Director is appropriate in accordance with the formula for Directors' bonuses, and decides on a proposal for the payment of bonuses to Directors and whether or not to submit the proposal to the General Meeting of Shareholders. After the proposal for payment of bonuses to Directors is approved at the General Meeting of Shareholders, the amount of the individual bonuses determined by the Board of Directors is paid.

#### 2) Policy for determining compensation level

In order to ensure appropriate linkage with corporate performance, the Compensation Committee confirms every fiscal year whether the target level of the Company's performance has been secured for each compensation category of basic compensation and short-, medium-, and long-term incentives. The compensation levels of the peer group officers based on the results of a survey by an external professional organization are used as guides, while the payment rate for short-, medium-, and long-term incentives is set to fluctuate according to the Company's performance.

#### 3) Compensation for Directors

| Type                                  | Name  | Internal<br>Director | Outside<br>Director | Comments  |
|---------------------------------------|---|----------------------|---------------------|---|
| Fixed                                 | Basic compensation                              | 0                    | 0                   | Compensation based on roles and responsibilities  |
| Variable<br>(short-term)              | Performance-linked bonuses                      | 0                    | -                   | Linked to achievement of performance targets  |
| Variable<br>(medium- to<br>long-term) | Compensation for acquiring stock                | 0                    | -                   | The entire amount paid is used for the acquisition<br>of Company shares through the Executive Stock<br>Ownership Plan |
|                                       | Performance-linked stock-<br>based compensation | 0                    | -                   | Incentive to enhance shareholder value and corporate value over the medium to long term                               |

#### i) Basic compensation (fixed)

Basic compensation is monetary compensation paid monthly during the term of office as a compensation that reflects the roles and responsibilities expected of Directors. The amount of compensation is decided within the range of the total amount of compensation determined at the general meeting of shareholders, and the total amount of compensation paid for fiscal 2022 was ¥263.01 million.

|                    | Composition of compensation   | Main method of setting compensation levels   |
|--------------------|---|--|
| Internal Directors | "Compensation pertaining to management oversight" and "compensation reflecting the importance of individual roles and management responsibilities" as a base, with additional "compensation based on positions, such as Representative Director, member of the Nomination Committee, or member of the Compensation Committee" | <ul> <li>The importance of individual roles and management responsibilities of Directors who concurrently serve as Executive Officers are determined with reference to the job grade framework of external specialized agencies.</li> <li>Compensation for Directors who do not concurrently serve as Executive Officers is determined in light of their role of overseeing business execution with their extensive knowledge of the actual situation of the Company serving full-time.</li> </ul> |
| Outside Directors  | "Compensation pertaining to management oversight" and "compensation pertaining to advice to management" as a base, with additional "compensation based on positions, such as Chairperson of the Board of Directors, Chairperson of the Nomination Committee and Chairperson of the Compensation Committee"                    | The amount of compensation is set with reference to objective data from external specialized agencies.   |

#### ii) Performance-linked bonuses (short-term)

Performance-based bonuses are monetary compensation paid after the end of a fiscal year as compensation that reflects the Company's performance and shareholder value improvements in the target fiscal year. For fiscal 2022, the following indicators were established.

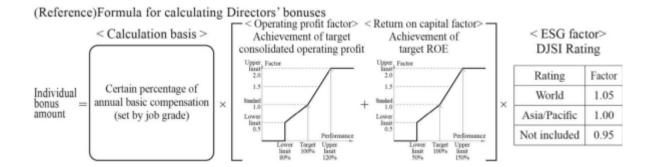

| Evaluation indicator                                | Reason   |
|---|--|
| Achievement of target consolidated operating profit | Clarify that Directors are responsible for increasing earnings and improving profitability by setting operating profit, which correlates with market capitalization and represents achievements in business activities, as an evaluation indicator |
| Achievement of target ROE                           | Clarify that Directors are responsible for improving shareholder value by setting ROE, a key indicator for enhancing return on capital, as an evaluation indicator   |
| Annual DJSI* Rating                                 | Provide an incentive for ESG improvement by using the DJSI's annual rating, which is used as a tool for confirming company-wide ESG initiatives, as an evaluation indicator  |

<sup>\*</sup>Dow Jones Sustainability Index (DJSI):

A share index jointly developed by Dow Jones in the US and S&P Global, a company specializing in research on sustainable investment, the Dow Jones Sustainability Index measures the sustainability of major companies around the world from the three perspectives of economy, environment and society.

In addition, the Compensation Committee deliberates on the appropriateness of individual bonus payment amounts based on the results calculated by the formula for calculating Directors' bonuses below, including the results of the evaluation of Directors by the Nomination Committee, and make recommendations to the Board of Directors, which then decides whether or not to submit a proposal for the payment of bonuses to Directors to the General Meeting of Shareholders.

With regard to bonuses for fiscal 2022, the Compensation Committee's deliberations determined that the results calculated according to the formula for calculating Directors' bonuses below are appropriate, and the total amount to be paid is 74.94 million yen.

Targets and Results for Evaluation Indicators (fiscal 2022)

|   | Target        | Results       | Factor |
|---|---------------|---------------|--------|
| Achievement of target consolidated operating profit | ¥90.0 billion | ¥78.7 billion | 0.69   |
| Achievement of target ROE                           | 7.0%          | 5.9%          | 0.84   |
| Annual DJSI Rating                                  | World         | World         | 1.05   |

<sup>\*</sup>The target values are the fiscal 2022 forecast which was briefed in the fiscal 2021 financial results released on May 10, 2022.

iii) Compensation that reflects the improvement of shareholder value (medium- to long-term) Compensation that reflects the stock price consists of the following "compensation for acquiring stock," and "performance-linked stock-based compensation" for the purpose of further strengthening Directors' commitment to improving the Company's corporate value over the medium- to long-term.

#### (Cash compensation for acquiring stock)

Cash compensation for acquiring stock is cash compensation intended to steadily increase the number of shares held by the Directors and to share with shareholders the benefits and risks arising from fluctuations in the stock price. Cash compensation for acquiring stock is paid monthly as fixed salary during the term of office, and the entire amount paid is used for the acquisition of Company shares by the Ricoh Executive Stock Ownerships Plan. The amount is set for each position within the range of the total compensation decided at the general meeting of shareholders, and the total compensation paid for fiscal 2022 was ¥10.43 million.

#### (Performance-linked stock-based compensation)

At the 119th Ordinary General Meeting of Shareholders held on June 21, 2019, the Company introduced a stock-based compensation plan with stock price conditions (the "Plan") using a trust as the compensation structure for Directors with the approval of shareholders, the Plan will be partially revised and continued from September 1, 2023 as a performance-linked stock-based compensation plan in order to further strengthen awareness of shared interests and risks with shareholders, and to demonstrate Directors' commitment to sustainable growth and improved shareholder value, including appropriate shareholder returns. The performance-linked stock-based compensation is a plan under which the Board Incentive Plan trust (hereinafter referred to as the "Trust") established by the Company with monetary contributions acquires the Company's common stock ("Company Shares") from the stock exchange market (including off-floor trading) and delivers the number of Company Shares equivalent to the number of points granted by the Company to each Director through the Trust. In principle, Directors will receive Company Shares after the completion of each period subject to performance evaluation (each period of three consecutive fiscal years commencing on April 1 of each year after 2023; the same shall apply thereafter). The number of points granted to each Director by the Company will be determined based on the base amount for each job grade in accordance with the rule of performance shares determined by the resolution of the Board of Directors and will vary within a range of 0% to 200% by taking into account the evaluation of the Company's TSR relative to the TOPIX (including dividends) growth rate as well as its ranking relative to the TSR of the peer group, and the degree of achievement of ESG targets during the performance evaluation period. Company Shares will be delivered at a rate of one share per point. In addition, preissuance malus-clawback clause has been established to request the return of stock-based compensation in the event of serious misconduct, etc. that causes an impact on the Company during the Director's term of office.

For the Plan before the amendments, in principle, the Company will stop granting new points after September 1, 2023, and the number of Company Shares corresponding to the accumulated points will be delivered at the time of retirement in accordance with the provisions of the Plan before the amendments. The amount of expenses recorded based on the points granted for the fiscal 2022 under the Plan before the amendments was \(\frac{\frac{1}}{3}\)2023 million, and shares (4,000 shares) were granted to a Director who retired during fiscal 2022 in proportion to the result of the comparison of the Company's stock price growth rate (95.7%) with TOPIX growth rate (122.0%) during the tenure of the Director to the accumulated points.

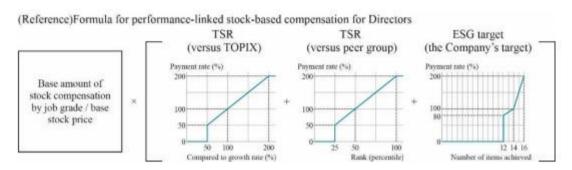

(Major amendments to the Plan)

|   | Item   | Performance-linked stock-based compensation (after amendments)  | Stock-based compensation with stock price conditions (before amendments)  |
|---|--|---|---|
| 1 | Evaluation indicators (Reason and aim for setting indicators)        | The evaluation of the Company's TSR relative to the TOPIX (including dividends) growth rate and its ranking relative to the TSR of the peer group, and the degree of achievement of ESG targets during the performance evaluation period (to strengthen the link between management responsibility for increasing shareholder value and achieving sustainable development goals and stock-based compensation) | Results of comparison of the Company's stock price growth rate with TOPIX growth rate during tenure (to share with shareholders the benefits and risks of stock price fluctuations) |
| 2 | Standard for granting points   | Points are granted according to the above evaluation indicators based on the base amount of stock-based compensation by job grade and the base stock price  | Points are granted according to the above evaluation indicators based on the position   |
| 3 | Timing of delivery of<br>Company Shares to the<br>eligible Directors | In principle, after the completion of each performance evaluation period (three years after the commencement of the performance evaluation period)  | In principle, at the time of retirement   |

[Reference] Process from grant of rights to delivery of shares under the amended Plan (image)

| Plan | Event \ Calendar year  | X | X+1 year | X+2 years | X+3 years | X+4 years | X+5 years |
|------|--|---|----------|-----------|-----------|-----------|-----------|
|      | Grant of rights  | ☆ |          |           |           |           |           |
| X    | Period subject to performance evaluation   |   |          |           |           |           |           |
| Α    | Vesting of rights<br>(determination of the<br>number of points granted,<br>delivery of shares) |   |          |           | *         |           |           |
|      | Grant of rights  |   | ☆        |           |           |           |           |
| X+1  | Period subject to performance evaluation   |   |          |           |           |           |           |
| X+1  | Vesting of rights<br>(determination of the<br>number of points granted,<br>delivery of shares) |   |          |           |           | *         |           |
|      | Grant of rights  |   |          | ☆         |           |           |           |
| X+2  | Period subject to performance evaluation   |   |          |           |           |           |           |
| X+2  | Vesting of rights<br>(determination of the<br>number of points granted,<br>delivery of shares) |   |          |           |           |           | *         |

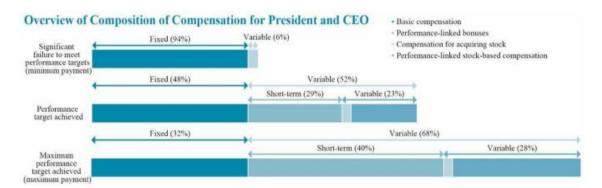

The number of points to be granted for fiscal year X is determined on a single fiscal year basis after the evaluation over a performance evaluation period of three fiscal years, including fiscal year X and two subsequent fiscal years (X+1 year and X+2 years) and three years (X+3 years) after the end of the performance evaluation period (three fiscal years), and shares are issued accordingly. Similarly, the number of points to be granted for fiscal year X+1 is determined on a single year basis after the evaluation over a performance evaluation period of three fiscal years, including fiscal year X+1 and two subsequent fiscal years (X+2 years and X+3 years) and three years (X+4 years) after the end of the performance evaluation period (three fiscal years), and shares are issued accordingly.

#### 4. Policy on determining the ratio of fixed and variable compensation

In order to clarify responsibility for performance for each role and function, the ratio of fixed compensation (basic compensation) to variable compensation (performance-linked bonus, compensation for acquiring stock, and performance-linked stock-based compensation) is designed so that those with more management responsibility will receive a greater proportion of variable compensation. For the highest-ranking President and CEO, the fixed/variable compensation ratio will approximately be 5:5 when the standard performance target for fiscal 2022 is achieved (Operating profit of ¥90.0 billion and ROE of 7.0%), and 3:7 when the maximum performance target is achieved (Operating profit of ¥108.0 billion or more and ROE of 10.5% or higher).

The Company will continue to emphasize the enhancement of shareholder value and corporate value over the medium to long term, and will further increase the ratio of variable compensation linked to shareholder value and business performance, and will continue to deliberate on the appropriate amount of compensation for each compensation type.

#### 5. Other important matters regarding decisions on individual compensation, etc.

#### 1) Return of stock-based compensation (malus-clawback clause)

Regarding performance-linked stock-based compensation, a malus clause and a clawback clause are stipulated in the rule of performance shares that are determined by the Board of Directors of the Company. In the event that a Director engages a serious misconduct, etc. that causes an impact on the Company, all or part of the points granted up to that time will expire by a resolution of the Board of Directors and the Director subject to the malus clause and the clawback clause will not be eligible for beneficiary rights related to the expired points.

Furthermore, the Company can request those who have already received delivery of Company Shares and delivery of money in lieu of Company Shares to return the amount obtained by multiplying the total number of points by the closing price of the Company Shares on the Tokyo Stock Exchange on the date such request is made.

#### 2) Prohibition of stock trading for a certain period

In compliance with insider trading regulations, even after the delivery of the Company's shares, incentive compensation shares may not be bought or sold until one year has elapsed from the date following the recipient's retirement.

3) Handling of compensation amid significant environmental changes, etc.

In the event of a significant change in the business environment, sudden deterioration of business performance, and quality issues that may damage corporate value, serious accidents, scandals, etc., the compensation for Directors may be temporarily reduced or suspended by a resolution of the Board of Directors.

# 6. Reasons why the Board of Directors has determined that the content of individual compensation, etc. for Directors is consistent with the policy for determining compensation

In determining individual compensation for Directors in fiscal 2022, the Compensation Committee conducted a multifaceted examination including consistency with the above policy for determining compensation, and the Board of Directors deliberated and made decisions, basically respecting the recommendation made by the Compensation Committee. Therefore, we have determined that the individual compensation for Directors in fiscal 2022 was consistent with the above policy for determining compensation.

## 7. Matters concerning resolutions at the general meeting of shareholders regarding compensation of officers, etc.

| Compensation type   | Details   | Resolution  | Number of recipients at<br>the time of resolution |
|---|---|---|---|
|   | The amount of basic compensation (including the cash portion of the compensation for acquiring stock): ¥46 million or less per month (including 7 million yen or less per month for Outside Directors)  | 116th Ordinary<br>General Meeting of<br>Shareholders held<br>on June 17, 2016 | 11<br>(including 4 Outside<br>Directors)          |
| Compensation for Directors                                  | The maximum amount of contribution and the maximum total number of points to be granted to Directors for the stock-based compensation with stock price conditions are ¥300 million in total (¥100 million per fiscal year) and 300,000 points in total (100,000 points per fiscal year) for the initial period (from the fiscal year ended March 31, 2020 to the fiscal year ended March 31, 2022). In the event that the period covered is extended by a resolution of the Board of Directors of the Company for a period not exceeding five fiscal years, the amount shall be ¥100 million multiplied by the number of fiscal years of the extended period, and the number of points shall be 100,000 points multiplied by the number of fiscal years of the extended period. | 119th Ordinary<br>General Meeting of<br>Shareholders held<br>on June 21, 2019 | 3   |
| Compensation<br>for Audit &<br>Supervisory<br>Board Members | The amount of basic compensation: ¥9 million or less per month  | 84th Ordinary<br>General Meeting of<br>Shareholders held<br>on June 29, 1984  | 4   |

#### 8. Compensation for Audit & Supervisory Board Members

Compensation for Audit & Supervisory Board Members consists only of basic compensation for their role of appropriately performing audits. Compensation levels are discussed by the Audit & Supervisory Board based on the results of an external benchmark study and are determined within the remuneration framework for Audit & Supervisory Board Members approved at the 84th Ordinary General Meeting of Shareholders.

(ii) The total amount of compensation, etc., total amount of each type and number of persons for each Directors and Audit & Supervisory Board Members Category

Total amount of each type (Millions of Yen)

|   |   |  |       | (Million       | is of Yen)                                 |   |                         |

| and Audit &<br>Supervisory<br>Board<br>Members              | Outside<br>Audit &<br>Supervisory<br>Board<br>Members | 36   | 36    | _              | _  | _   | 3                       |
| Total   |   | 474  | 356   | 74             | 10   | 32  | 16                      |

#### Notes:

- 1. It was decided that aggregate basic compensation of Directors should not exceed ¥46 million per month (including ¥7 million per month for Outside Directors), according to the resolution of the 116th Ordinary General Meeting of Shareholders held on June 17, 2016. It was decided that aggregate basic compensation of Audit & Supervisory Board Members should not exceed ¥9 million per month, according to the resolution of the 84th Ordinary General Meeting of Shareholders held on June 29, 1984.
- 2. The compensation paid to Directors excludes employee wages for Directors who are also employees.
- 3. It was decided that stock price-linked compensation was abolished and stock-based incentive with stock price conditions was introduced according to the resolution of the 119th Ordinary General Meeting of Shareholders held on June 21, 2019. The above is the amount recorded as an expense in the current fiscal year according to Japanese standards.

#### (iii) The individual amount of compensation to Directors and Audit & Supervisory Board Members

|                        | Total amount                                     |          |                        |                               |             | mount of eac<br>illions of Ye              | <b>7</b> I  |

Notes: CEO in Fiscal year ended March 31, 2023, and only members who were awarded with consolidated remuneration of ¥100 million or more in total are stated above.

(iv) The portion of an employee's salary for Directors who concurrently serve as employees There is no significant amount for the portion of employee's salary for Directors who concurrently serve as employees.

#### (5) Information on share holdings

1) Standards and principle of classification of equity securities

The Company classified the securities, which is held for the movement of stock value or dividend income, as pure investment and others are equity securities for purposes other than pure investment.

- 2) Equity securities held for purposes other than pure investment
- a. The holding policy, the methods of evaluation for rational reason and contents of evaluating the worth to verify each issue by the Board of Directors

From the viewpoint of streamlining and strengthening of business alliance and development of collaborative businesses, the Company shall be able to hold shares of the relating partners only when such holding of shares is deemed necessary and effective for the future development of Ricoh, while taking into consideration of the returns such as dividends.

Specifically, the Board of Directors will verify each issue whether the benefits and risks of the holding are worth the capital cost, and if the holding loses significance in the medium- to long-term, they will be reduced accordingly.

b. Number of stock names and Nonconsolidated Statement of Financial Position Amount as of March 31, 2023.

 $\label{thm:companying} \textit{The accompanying notes are an integral part of these consolidated financial statements}.$ 

Notes: The difference in the amount of "cash and cash equivalents" between consolidated statement of financial position and consolidated statement of cash flows represents bank overdrafts.

#### **Notes to Consolidated Financial Statements**

Ricoh Company, Ltd. and its Subsidiaries

#### 1. REPORTING ENTITY

Ricoh Co., Ltd. (the "Company") is a company domiciled in Japan. The consolidated financial statements of the Company as of and for the year ended March 31, 2023, comprise of the Company and its subsidiaries (the "Ricoh" as a consolidated group) and Ricoh's interest in associates.

Ricoh is operating development, manufacturing, sales and service activities on the business segments of Digital Services, Digital Products, Graphic Communications, Industrial Solutions and Other (see Note 5, "Operating Segments").

#### 2. BASIS OF PREPARATION

#### (1) Statements of Compliance

Ricoh's consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRSs") based on the stipulations of Article 93 of the "Regulations Concerning Terminology, Form and Method for Preparing Financial Statements". Ricoh meets all the requirements for "Regulations Concerning Terminology, Form and Preparation Methods of Consolidated Financial Statements" (Ministry of Finance of Japan Regulation No. 28, 1976).

#### (2) Basis of Measurement

Ricoh's consolidated financial statements have been prepared on the historical cost basis, except for certain assets and liabilities, including financial instruments measured at fair value and retirement benefit assets and liabilities as shown in Note 3, "significant accounting policies".

#### (3) Functional and Presentation Currency

The items included in financial statements of each group company are measured by the currency of the primary economic environment in which each group company operates ("functional currency"). The consolidated financial statements are presented in Japanese yen, which is also the Company's functional currency. All amounts presented in Japanese yen have been rounded to the nearest million.

#### (4) New Standards and Interpretations

Significant accounting policies which are applied to the Consolidated Statement of Financial Position are consistent with previous fiscal year excepting the table below.

| IFRSs  | Title        | Summaries of new IFRSs/amendments  |
|--------|--------------|--|
| IAS 12 | Income Taxes | A temporary exception to the requirements to recognize and disclose information about deferred tax assets and liabilities related to BEPS 2.0 - Pillar Two income taxes. |

#### (5) Early Adoption of New Standards

Ricoh did not have early adoption of any new standards.

#### (6) Use of Estimates and Judgments

For the preparation of consolidated financial statements in accordance with IFRSs, it is required that management makes judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in future periods in which the revision affects.

For the consolidated financial statements for the current fiscal year, Ricoh assumes that the effect of the surge in resource prices and inflation will persist to a certain extent over the next fiscal year and beyond although the impact on economic activities from COVID-19 and impact on the Ricoh's performance due to the supply constraints resulting from component shortages and logistics issues are gradually improving.

Ricoh has considered the business impact of the situation in which society will not completely recover to a pre-pandemic normal and of the sales price fluctuations as measures to deal with cost increase of components, in view of the well-received new work style stemming from the downsizing of office spaces and decreasing attendance rate at work as teleworking triggered by the COVID-19 pandemic has taken root.

The items on which estimates and assumptions have a significant effect in the consolidated financial statements are impairment losses on tangible assets, intangible assets and goodwill and recognition of deferred tax assets. Ricoh tests goodwill and fixed assets for impairment and evaluates the recoverability of deferred tax assets on the grounds that future business plans are established in accordance with certain assumptions in consideration of the above scenarios. Please refer to Note 12 - Impairment losses (impairment losses on tangible assets, intangible assets and goodwill) and Note 21 - Income taxes (recognition of deferred tax assets) for more information.

The following notes include information in respect to uncertainties of judgments and estimates which have a significant risk to cause material adjustments in the next fiscal year.

- Note 13 Lease (Estimation of lease terms)
- Note 18 Provisions (Estimation of expenditures required to settle obligations)
- Note 22 Employee benefits (Estimation of the present value of defined benefit plan obligations)
- Note 25 Financial Instruments and related disclosures (Estimation of allowance for doubtful receivables, fair value of financial instruments)
- Note 27 Sales (Estimation of variable considerations for revenue recognition)

#### 3. SIGNIFICANT ACCOUNTING POLICIES

#### (1) Principles of Consolidation

#### (a) Business Combinations

Business combinations are accounted for using the acquisition method. Goodwill is recognized and measured as the excess of the net of the acquisition date amounts of identifiable assets acquired and liabilities assumed over the aggregate of consideration transferred, the amount of any noncontrolling interests and, in case of business combinations achieved in stages, the acquisition date fair value of the previously held equity interest. If the consideration of the acquisition is lower than the fair value of the identifiable assets and liabilities, the difference is immediately recognized as profit in the consolidated statement of profit or loss. If the amount of initial accounting for a business combination is not determined by the end of the reporting period in which the combination occurs, the provisional amounts for the items for which the accounting is incomplete are reported and are adjusted during the measurement period, which is one year from the acquisition date. The acquisition related costs are charged to expenses as incurred.

Business combinations of entities under common control or business combinations in which all the combined entities or businesses are ultimately controlled by the same party or parties both before and after the business combinations when that control is not transitory are accounted for based on the carrying amounts.

#### (b) Subsidiaries

Subsidiaries are entities which are controlled by Ricoh. Ricoh controls an entity when Ricoh has exposure, or rights, to variable returns from its involvement with the entity and has the ability to affect those returns

through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date when control is obtained until the date when it is lost. In case that the accounting policies applied by a subsidiary differ from those applied by the Group, adjustments are made to the subsidiary's financial statements, if necessary. All intercompany balances and transactions have been eliminated in preparing the consolidated financial statements.

The disposal of interests in subsidiaries are accounted for as equity transactions if Ricoh retains control over the subsidiaries. Any difference between the adjustment to the noncontrolling interests and the fair value of the consideration received is recognized directly in equity as Ricoh Company, Ltd. shareholders' equity. Any surplus or deficit arising on the loss of control is recognized in profit or loss.

#### (c) Associates

Associates are entities over which Ricoh has significant influence to govern financial and operating policies, but does not have control them.

Investments in associates are accounted for using the equity method and are recognized at cost on acquisition. The investments include goodwill recognized on acquisition.

Ricoh's share of the income and expenses of the associates accounted for using the equity method and changes in Ricoh's share in such equity are included in the consolidated financial statements from the date when significant influence or joint control is obtained until the date it is lost. The accounting policies of associates accounted for using the equity method have been adjusted to ensure consistency with those applied by Ricoh.

#### (2) Foreign Currency

#### (a) Foreign currency transactions

Foreign currency transactions are translated into functional currencies of Ricoh by applying the rate of exchange prevailing at the date of transaction. At the end of each reporting period, monetary assets and liabilities denominated in foreign currencies are retranslated into functional currencies at the prevailing exchange rate at the reporting date. Nonmonetary assets and liabilities measured at fair value that are denominated in foreign currencies are retranslated using the exchange rate at the date when the fair value was determined. Exchange differences arising from retranslation are recognized in profit or loss.

#### (b) Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising from acquisitions of foreign operations are translated using the exchange rate at the reporting date. In addition, the income and expenses of foreign operations are translated using the average exchange rate for the year excluding those cases in which exchange rates are fluctuating significantly. In the event of significant exchange rate fluctuations, the exchange rate at the date of the transaction is used.

Foreign exchange translation differences are recognized in other comprehensive income. On disposal of the entire interest in foreign operations and on the partial disposal of the interest involving loss of control, significant influence or joint control, the cumulative amount of the foreign exchange translation differences related to such foreign operations is reclassified to profit or loss at the time of such disposal.

#### (3) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, bank deposits available for withdrawal on demand and short-term investments which are readily convertible to known amounts of cash, due within 3 months or less and substantially free from any price fluctuation risk.

#### (4) Inventories

Inventories are measured at the lower value of cost or net realizable value. The cost of inventory includes purchase costs and conversion costs that contain appropriate allocation of fixed and variable overhead expenses. These costs are assigned to inventories mainly by the weighted-average method.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

#### (5) Assets held for sale

A non-current asset (or disposal group) is classified as held for sale if its carrying amount will be recovered principally through a sale transaction rather than through continuing use. The classification requires both of conditions, when the asset (or disposal group) is available for immediate sale in its present condition and when its sale is highly probable. For the sale to be highly probable, management must be committed to a plan to sell the asset (or disposal group) and the sale must be expected to be concluded within one year from the date of the classification.

After the classification, the asset (or disposal group) is measured at the lower of its carrying amount and fair value less costs to distribute and depreciation on the asset (or disposal group) ceases. Regarding the measurement, an impairment loss for any initial or subsequent write-down of the asset (or disposal group) to fair value less costs to sell is recognized through profit or loss. The gain can be recognized up to the amount not in excess of the cumulative impairment loss that has been recognized.

#### (6) Property, Plant and Equipment

#### (a) Recognition and measurement

Property, plant and equipment are measured by using the cost model and carried at cost less any accumulated depreciation and any accumulated impairment loss. The cost of items of property, plant and equipment includes costs directly attributable to the acquisition and initial estimate of the costs of dismantling and removing the items and restoring the site on which they are located. When the useful life of each part of an item of property, plant and equipment varies, it is accounted for as a separate item of property, plant and equipment.

#### (b) Subsequent costs

Ordinary maintenance and repairs are charged to expense as incurred. Major replacements and improvements are capitalized to the extent they enhance the future economic benefit of the Ricoh's asset.

#### (c) Depreciation

Depreciation of property, plant and equipment other than land and construction in progress is mainly computed under the straight-line method based on the estimated useful life of each item. The depreciation period generally ranges from 2 to 60 years for buildings and structures, 1 to 20 years for machinery, equipment and vehicles, and 1 to 20 years for tools, furniture and fixtures. The depreciation methods, useful life and residual values are reviewed at the end of each fiscal year and changed when necessary.

#### (7) Goodwill and Intangible Assets

#### (a) Goodwill

Goodwill measurements at initial recognition are presented in "(1) Principles of Consolidation (a) Business Combinations". It is not amortized and is measured by deducting impairment loss from cost.

#### (b) Intangible Assets

Intangible assets are measured by using the cost model and carried at cost less any accumulated amortization and accumulated impairment loss.

#### (i) Capitalized software costs

Ricoh capitalizes certain internal and external costs incurred to acquire or create internal use software during the application development stage as well as upgrades and enhancements that result in additional functionality. The capitalized software is amortized on a straight-line basis generally over 2 to 10 years.

#### (ii) Development assets

An intangible asset arising from development activities (or from the development phase of an internal project) shall be recognized if, and only if, Ricoh can demonstrate all of the following:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- its intention to complete the intangible asset for use or sale;
- its ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- its ability to measure reliably the expenditure attributable to the intangible asset during its development.

Amortization of such asset commences on the commercial production date after the completion of an internal project, and the asset is amortized on a straight-line basis over its estimated useful life, generally ranging from 2 to 10 years, that is the period over which it is expected to generate net cash inflows. Other development expenditure and expenditure on research activities are recognized as an expense as incurred.

#### (iii) Other intangible assets

Intangible assets acquired separately are measured at cost at initial recognition. Intangible assets acquired in a business combination and recognized separately from goodwill are measured at fair value on the acquisition date.

#### (iv) Amortization (other than development assets)

Intangible assets with definite useful lives are amortized over the estimated useful life and a determination is made as to whether there exists any indication of impairment. Intangible assets consisting primarily of software, customer relationships and trademarks are amortized on a straight-line basis over 1 to 20 years. Intangible assets with indefinite useful lives and intangible assets that are not ready to use are not amortized, but are tested annually for impairment until the asset's life is determined to no longer be indefinite.

#### (8) Impairment losses of tangible assets, right-of-use assets, goodwill and intangible assets

The Ricoh determines on the last day of each reporting period whether there is indication of impairment in the carrying amount of non-financial assets excluding inventories and deferred tax assets. Upon identifying an impairment indicator, impairment test is conducted with reference to the recoverable amount of the asset.

Goodwill, intangible assets without definite useful lives and intangible assets that are yet to be ready for use are tested for impairment on an annual basis. Cash generating unit which serves as the basis for conducting impairment test, is defined as the smallest group of asset identifiable as source of cash inflow largely independent from the cash inflows of other assets or asset groups. Cash generating units benefiting from goodwill are defined as the smallest units being monitored for the purpose of internal control, within the scope of business segments before aggregation.

Recoverable amount of an asset or a cash generating unit is defined as fair value after deducting disposal cost or value in use, whichever higher. In calculating the value in use, estimated future cash flows are discounted into present value by using a pre-tax discount rate reflecting the asset-specific risk which has not been considered in estimating either the time value of money or future cash flows.

Since corporate assets will not generate independent cash inflow, if an indication of impairment is identified in a corporate asset, impairment test is conducted with reference to the recoverable amount of the cash generating unit to which such corporate asset is attributable to.

Impairment loss is recognized when the carrying amount of an asset or a cash generating unit exceeds its recoverable amount. Impairment loss recognized in relation to a cash generating unit is first allocated to reduce the carrying amount of goodwill allocated to the unit, and then to other assets of the unit in proportion to the carrying amount of each such asset.

For the asset or cash generating unit for which impairment loss was recognized in the past periods, whether there is an indication that warrants reversal of such recognized impairment loss is determined. For the asset or cash generating unit showing an indication that warrants such reversal of impairment loss, its recoverable amount is estimated and the impairment loss is reversed if such estimated recoverable amount is found to exceed the carrying amount. The carrying amount after reversal of impairment loss should not exceed the carrying amount reflecting the depreciations or amortizations up to the reversal had the impairment loss not been recognized. Reversal of impairment loss for goodwill is excluded.

#### (9) Leases

#### (a) Leases as lessee

Ricoh assesses whether the contract is or contains a lease, at the inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

When the underlying asset is real estate, Ricoh allocates the consideration of the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components. When the underlying asset is other than real estate, Ricoh elects not to separate non-lease components from lease components, and instead accounts for each lease component and any associated non-lease components as a single lease component.

For a contract that is, or contains, a lease, Ricoh recognizes right-of-use assets and lease liabilities at the commencement date of the lease. Lease liabilities are measured at the present value of outstanding lease payments discounted using the lessee's incremental borrowing rate at the commencement date. Right-of-use assets are initially measured at the initial measurement amount of the lease liability adjusted for the prepaid lease payments and other factors.

Right-of-use assets are measured at cost and depreciated on a straight-line basis over the shorter of their estimated useful lives and lease terms. Lease payments are apportioned between interest expenses and the reduction of the outstanding liability using the effective interest method.

Interest expenses are presented on the consolidated statement of profit or loss separately from depreciation expenses of right-of-use assets.

Ricoh does not recognize right-of-use assets and lease liabilities for short-term leases (with a lease term of 12 months or less) and leases for low-value assets. Ricoh recognizes the lease payments associated with these leases as expenses on a straight-line basis over the lease term.

#### (b) Leases as lessor

A finance lease is a lease that transfers substantially all the risks and rewards incidental to ownership of an asset to the lessee. Other leases are classified as operating leases. In circumstances in which the lessor is a manufacturer or dealer, the profit or loss from a finance lease is recognized in accordance with the same revenue recognition policy as that for products sales. Finance income is recognized over the term of the lease using the effective interest method. In circumstances in which the lessor is neither a manufacturer nor dealer, finance income is recognized over the term of the lease using the effective interest method.

The interest rate implicit in the lease is the discount rate that causes the aggregate present value of the minimum lease payments and the unguaranteed residual value to be equaled to the sum of the fair value of the leased asset and any initial direct costs incurred by the lessor.

Income from operating leases is recognized on a straight-line basis over the term of the lease.

#### (10) Provisions

Provisions are recognized when Ricoh has present obligations as a result of past events, when it is probable that outflows of resources embodying economic benefits will be required to settle the obligations and reliable estimates can be made of the amount of the obligations. Where the time value of money is material, the provision is measured based on the present value using a discount rate that reflects the risks specific to the obligations.

The estimated costs of dismantling, removing and restoring assets and any other expenditures arising from an obligation are recognized as provisions for asset retirement obligation, which is included in the cost of "Property, plant and equipment". The estimated costs and discount rate are reviewed annually, and where Ricoh considers it is necessary to change them, addition or deduction will be made to the carrying amount of the asset, which is treated as changes in accounting estimates.

The warranties provision corresponds to the cost of product warranties related to after-sales service and is recognized based on the estimated cost of after-sales service during the warranty period. The warranty costs were included in "Cost of sales".

#### (11) Government grants

Government grants are recognized at fair value when there is a reasonable assurance that Ricoh will comply with the terms and conditions attached to the grants. Government grants related to income are recognized in profit or loss over the period in which the related costs for which the grants are intended to compensate are recognized, and are mainly deducted in the related expenses. With regard to government grants for the purchase of assets, the amount of the grant is credited to deferred income and recognized in profit over the expected useful life of the relevant assets.

#### (12) Employee benefits

#### (a) Post-employment benefits

Ricoh has defined benefit corporate pension plans and defined contribution plans.

The net obligations for defined benefit plans are recognized at the present value of the amount of future benefits that the employees have earned in the current and prior periods less the fair value of any plan assets on a plan-by-plan basis. Actuarial gains and losses arising from defined benefit plans are recognized immediately in other comprehensive income and directly reclassified to retained earnings from other components of equity. Past service costs are recognized in profit or loss.

The contribution to the defined contribution plans is recognized as an expense when the related service is provided by the employee.

#### (b) Short-term employee benefits

Short-term employee benefits are recognized as expenses when the related service is provided. A liability is recognized for the amount expected to be paid if Ricoh has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be reliably estimated.

#### (13) Share-based Payment

Ricoh has equity-settled share-based compensation plans.

Under the equity-settled share-based compensation plan, the amount of services received is measured with reference to the fair value of the granted capital instruments at the granted date, and is recognized as an expense over the vesting period. The same amount is recognized as an increase in additional paid-in capital.

#### (14) Financial Instruments

Ricoh classifies the financial assets and liabilities that it holds into the following categories: (i) financial assets measured at amortized cost, (ii) debt instruments measured at fair value through other comprehensive income (iii) equity instruments measured at fair value through other comprehensive income, (iv) financial assets measured at fair value through profit or loss and (v) financial liabilities measured at amortized cost.

#### (a) Initial recognition and measurement

Ricoh initially recognizes trade and other receivables on the date when they are originated. Financial assets purchased or sold in the ordinary course of business are initially recognized on the settlement date. Financial assets measured at fair value through profit or loss are initially measured at fair value. Financial assets measured at amortized cost, debt instruments and equity instruments measured at fair value through other comprehensive income are initially measured at fair value plus transaction costs directly attributable to the acquisition. However, trade receivables that do not contain a significant financing component are initially measured at the transaction price.

#### (b) Classification and subsequent measurement

(i) Financial assets measured at amortized cost

Financial assets held by Ricoh are measured at amortized cost if both of the following conditions are met:

- The financial asset is held in a business model in which the objective is to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial recognition, the carrying amounts of the financial assets measured at amortized cost are recognized using the effective interest method less impairment loss, if any. Amortization using the effective interest method and gains and losses on derecognition are recognized in profit or loss for the period.

(ii) Debt instruments measured at fair value through other comprehensive income

Financial assets held by Ricoh are classified as debt instruments measured at fair value through other comprehensive income if both of the following conditions are met.

- The financial asset is held in a business model in which the objective is to hold financial assets in order to collect contractual cash flows and sale the financial asset; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These financial assets are measured at fair value after initial recognition, and subsequent changes including foreign exchange, impairment gains or losses, and interest income from debt instrument are recognized as profit or loss. Other changes are included in other comprehensive income. When the debt instruments are derecognized, accumulated other comprehensive income is reclassified to profit or loss.

(iii) Equity instruments measured at fair value through other comprehensive income

Ricoh has made an irrevocable election to present subsequent changes in the fair value of financial assets, except financial assets measured at amortized cost and debt instruments measured at fair value through other comprehensive income and classify them in equity instruments measured at fair value through other comprehensive income.

These financial assets are measured at fair value after initial recognition, and changes in the fair value are included in other comprehensive income. When the fair value significantly declines or the equity instruments are derecognized, accumulated other comprehensive income is reclassified to retained earnings.

Dividends from equity instruments measured at fair value through other comprehensive income are recognized as profit or loss.

(iv) Financial assets measured at fair value through profit or loss

Financial assets other than financial assets measured at amortized cost as well as debt instruments and equity instruments measured at fair value through other comprehensive income are measured at fair value through profit or loss.

These financial assets are measured at fair value after initial recognition, and changes in their fair value are recognized in profit or loss.

(v) Financial liabilities measured at amortized cost

Bonds, borrowings, trade and other payables which Ricoh holds are initially measured at fair value less transaction costs directly attributable to the issuance. After initial recognition, these financial liabilities are measured at amortized cost.

#### (c) Derecognition of non-derivative financial assets and liabilities

Ricoh derecognizes financial assets when the contractual rights to the cash flows from the assets expire or Ricoh transfers the financial assets in a transaction in which substantially all the risks and rewards of ownership of the financial assets are transferred.

Ricoh derecognizes financial liabilities when contractual obligations are discharged, cancelled or expired.

#### (d) Impairment of non-derivative financial assets

With respect to impairment of financial assets measured at amortized cost, Ricoh recognizes a loss allowance for expected credit losses on such financial assets. At each reporting date, Ricoh assesses whether the credit risks on the financial assets have increased significantly since initial recognition. The determination of whether a credit risk on the financial assets has increased significantly is based on a change in the default risk, considering past due information and the financial difficulties of the obligors.

If the credit risk on a financial instrument has not increased significantly since initial recognition, the loss allowance for that financial instrument is measured at an amount equal to the 12- month expected credit loss. If a credit risk on a financial instrument has increased significantly since initial recognition, the loss allowance is measured at an amount equal to the lifetime expected credit loss. However, with respect to trade receivables that do not contain a significant financing component, the loss allowance is measured through simplified approach.

The expected credit loss of financial asset is estimated in a way that reflects the following:

- an unbiased and probability-weighted amount determined by evaluating a range of possible outcomes;
- the time value of money; and
- reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The amounts of these measurements are recognized in profit or loss. If an event that reduces an impairment loss occurs after the impairment loss has been recognized, the impairment loss will be reversed to the extent of the decrease and credited to profit or loss.

#### (e) Equity

#### (i) Ordinary shares

Incremental costs, net of tax, directly attributable to the issuance of equity instruments are deducted from equity.

#### (ii) Treasury shares

If the Company purchases its own equity instruments (treasury shares), the consideration paid, net of directly attributable transaction costs and tax, is recognized as a deduction from equity. If the Company disposes of treasury shares, any gain or loss arising from the disposal is recognized in equity.

#### (f) Derivative financial instruments and hedging activities

Ricoh manages its exposure to certain market risks, those primarily related to foreign currency and interest rate, through the use of derivative instruments. As a matter of policy, Ricoh does not enter into derivative contracts for trading or speculative purposes.

Ricoh recognizes all derivative instruments as either assets or liabilities in the consolidated statement of financial position and measures those instruments at fair value. When entering into a derivative contract, Ricoh determines as to whether or not the hedging relationship meets hedge effectiveness requirements. In general, a derivative applicable for hedge accounting may be designated as either (1) a hedge of the exposure to changes in the fair value of a recognized asset or liability ("fair value hedge") or (2) a hedge of the exposure to changes in variability of the expected cash flows associated with an existing asset or liability or a highly probable forecasted transaction ("cash flow hedge").

Ricoh formally documents all relationships between hedging instruments and hedged items as well as its risk management objectives and strategies for undertaking various hedge transactions. This process includes linking all derivatives that are designated as fair value or cash flow hedges to specific assets and liabilities on the consolidated statement of financial position or to specific firm commitments or forecasted transactions.

#### (i) Fair value hedges

Derivative instruments designated as fair value hedges are measured at fair value. Changes in the fair values of derivatives designated as fair value hedges are recognized as gains or losses and are offset by the gains or losses resulting from the changes in the fair values of the hedged items.

#### (ii) Cash flow hedges

The effective portion of the gains and losses of hedging instruments in a cash flow hedge are recognized through other comprehensive income. Other comprehensive income is reclassified to profit or loss in the same period during which the hedged expected cash flows affect profit or loss. Changes in the fair values of the ineffective portions of cash flow hedges are recognized immediately in profit or loss.

#### (iii) Derivatives not designated as hedging instruments

Changes in the fair value of derivative financial instruments which do not qualify for hedge accounting are recognized in profit or loss.

#### (15) Revenue Recognition

Ricoh recognizes and measures revenue based on a 5-step approach as follows.

Step 1: Identify the contract(s) with a customer

Step 2: Identify the performance obligations in the contract

- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation

The specific revenue recognition standards are described in Note 27 Sales.

#### (16) Finance Income and Finance Costs

Finance income mainly comprises dividend income, interest income and foreign currency exchange gain. Dividend income is recognized on the date when the right to receive payment is established. Interest income is recognized when incurred using the effective interest method.

Finance costs mainly comprise interest costs and foreign currency exchange loss. Interest costs are recognized when incurred using the effective interest method.

#### (17) Income Taxes

Income taxes comprise current taxes and deferred taxes. These are recognized in profit or loss, except for those taxes which are recognized either in other comprehensive income, directly in equity or arising from business combinations.

Current taxes are the expected taxes payable or receivable on taxable profit or loss using the tax rates and tax laws enacted or substantially enacted by the end of the reporting period adjusted by taxes payable or receivable in prior years. Deferred tax assets and liabilities are recognized on temporary differences between the carrying amounts of assets and liabilities for accounting purposes and their tax bases, net operating loss carryforwards and tax credit carryforwards.

Deferred tax assets and liabilities are not recognized if the temporary difference arises from the initial recognition of an asset or liability in a transaction which is not related to a business combination and, at the time of transaction, affects neither book basis nor tax basis profits (tax losses). Deferred tax liabilities are not recognized if the taxable temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognized for taxable temporary differences associated with investments in subsidiaries and investments accounted for by the equity method. However, if Ricoh is able to control the timing of the reversal of the temporary differences and it is probable that the temporary differences will not be reversed in the foreseeable future, deferred tax liabilities are not recognized. Deferred tax assets arising from deductible temporary differences associated with investments in subsidiaries and associates accounted for by the equity method are recognized only to the extent that it is probable that there will be sufficient taxable profit against which the benefit of temporary differences can be utilized and the temporary differences will be reversed in the foreseeable future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the temporary differences are expected to be reversed based on tax laws that have been enacted or substantively enacted by the end of reporting period. Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and income taxes are levied by the same tax authority on either the same taxable entity or different taxable entities which intend either to settle current tax assets and liabilities on a net basis or to realize the assets and settle the liabilities simultaneously.

Deferred tax assets are recognized for unused tax losses, tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that the related tax benefits will be realized.

Ricoh adopt the exception to the requirements to recognize and disclose information about deferred tax assets and liabilities related to BEPS 2.0 - Pillar Two income taxes.

#### (18) Earnings Per Share

Basic earnings per share are calculated by dividing profit and loss attributable to ordinary shareholders of the parent company by the weighted average number of ordinary shares outstanding during the year, adjusted by the number of treasury shares. Diluted earnings per share are calculated by adjusting all the effects of potentially dilutive ordinary shares.

#### (19) Operating Segments

Operating segments are components of business activities from which Ricoh may earn revenues and incur expenses, including revenues and expenses relating to transactions with other operating segments, and for which discrete financial information for operating results of all operating segments is available and is regularly reviewed by management in order to determine the allocation of resources to the segment and assess its performance.

#### 4. NEW STANDARDS AND INTERPRETATIONS NOT YET ADOPTED

New standards and interpretations that were not effective in the reporting period ended March 31, 2023 and which Ricoh has not yet adopted for the preparation of consolidated financial statements are set forth in the table below. The effect of IAS 12 - Deferred Tax related to Assets and Liabilities arising from a Single Transaction is minor. Ricoh is currently evaluating the effect of other than IAS 12 - Deferred Tax related to Assets and Liabilities arising from a Single Transaction.

| IFRSs  | Title                                      | Date on or after which<br>the application is<br>required for new<br>reporting periods | Ricoh's applicable reporting period | Summaries of new IFRSs/amendments  |

#### 5. OPERATING SEGMENTS

Ricoh's operating segments are composed of Digital Services, Digital Products, Graphic Communications, Industrial Solutions and Other.

The electronics business in Industrial Solutions has been reclassified into Digital Products from the current year. Prior year comparative figures have also been reclassified to conform to the current year's presentation.

The following table presents the content of operating segment.

| Segments               | Business Domains  |
|------------------------|---|
| Digital Services       | Sales of MFPs (multifunctional printers), laser printers, digital duplicators, wide |
|                        | format printers, facsimile machine, scanners, personal computers, servers,          |
|                        | network equipment, related parts & supplies, services, support, software and        |
|                        | service & solutions related to documents  |
| Digital Products       | Production and OEM of MFPs (multifunctional printers), laser printers, digital      |
|                        | duplicators, wide format printers, facsimile machine, scanners, network             |
|                        | equipment, and related parts & supplies, production and sales of electronic         |
|                        | components  |
| Graphic Communications | Production and sales of cut sheet printers, continuous feed printers, inkjet heads, |
|                        | imaging systems, industrial printers, related parts & supplies, services, support   |
|                        | and software  |
| Industrial Solutions   | Production and sales of thermal paper and thermal media, industrial optical         |
|                        | component/module and precision mechanical component                                 |
| Other*                 | Digital cameras, 360° cameras, environment, healthcare                              |

<sup>\*</sup> Sales, profit and loss, etc. of PFU are included in Other.

(Note) Digital services as a business segment is mainly limited to the office services business and the office printing sales business. This segment does not include all digital services, which Ricoh aims to transform into "a digital services company" that connects workplaces and support worker's creativity. "Digital Services" provided as "a digital services company" is included in all the business segments as well as Digital Services business segment.

Segment profit (loss) is based on operating profit (loss) and is used by Ricoh's management in allocating resources and in assessing business performance. Segment profit (loss) excludes certain adjustment such as elimination of unrealized gain or loss on inventories and fixed assets accrued from intersegment transaction.

The following tables present certain information regarding Ricoh's operating segments and geographic areas for the years ended March 31, 2022 and 2023. Intersegment transactions are made at arm's-length prices. No single customer accounted for 10% or more of the total sales for the years ended March 31, 2022 and 2023.

# (1) Operating Segment Information

|  | Millions of Yen                   |                                   |

| Depreciation and amortization: |                    |                    |  |
| Digital Services               | 43,438             | 46,600             |  |
| Digital Products               | 18,492             | 16,712             |  |
| Graphic Communications         | 8,796              | 9,293              |  |
| Industrial Solutions           | 4,679              | 4,973              |  |
| Other                          | 5,324              | 10,859             |  |
| Corporate                      | 9,750              | 9,031              |  |
| Consolidated                   | 90,479             | 97,468             |  |

Assets are allocated to the operating segments which mainly benefited from the assets.

Corporate assets consist primarily of cash and cash equivalents, other financial assets, investments accounted for using the equity method and deferred tax assets that are not related to specific operating segments.

# (2) Sales by Product Category

Information for sales by product category is as follows:

|                        | Millions           | Millions of Yen    |  |  |
|------------------------|--------------------|--------------------|--|--|
|                        | For the year ended | For the year ended |  |  |
|                        | March 31, 2022     | March 31, 2023     |  |  |
| Sales:                 |                    |                    |  |  |
| Digital Services       | 1,428,192          | 1,650,414          |  |  |
| Digital Products       | 24,466             | 26,702             |  |  |
| Graphic Communications | 187,082            | 234,843            |  |  |
| Industrial Solutions   | 99,497             | 113,572            |  |  |
| Other                  | 19,350             | 108,649            |  |  |
| Total sales            | 1,758,587          | 2,134,180          |  |  |

(Note) Each category includes the following product lines:

| Digital Services            | MFPs (multifunctional printers), laser printers, digital duplicators, wide    |
|-----------------------------|---|
|                             | format printers, facsimile machine, scanners, personal computers, servers,    |
|                             | network equipment, related parts & supplies, services, support, software and  |
|                             | service & solutions related to documents                                      |
| Digital Products            | OEM of MFPs (multifunctional printers), laser printers, digital duplicators,  |
|                             | wide format printers, facsimile machine, scanners, network equipment, and     |
|                             | related parts & supplies. Electronic components                               |
| Graphic Communications      | Cut sheet printers, continuous feed printers, inkjet heads, imaging systems,  |
|                             | industrial printers, related parts & supplies, services, support and software |
| <b>Industrial Solutions</b> | Thermal paper and thermal media, industrial optical component/module and      |
|                             | precision mechanical component  |
| Other*                      | Digital cameras, 360° cameras, environment, healthcare                        |

<sup>\*</sup> Sales of PFU are included in Other segment.

#### (3) Geographic Information

Sales based on the location of customers and noncurrent assets, including property, plant and equipment, right-of-use assets, goodwill and intangible assets were as follows:

|  | Millions of Yen    |                    |  |

#### 6. BUSINESS COMBINATIONS

(For the year ended March 31, 2022) There was no significant business combination.

(For the year ended March 31, 2023) (PFU Limited)

- 1. Outline of business combination
- (i) Name and description of acquired business Name of acquired business: PFU Limited

Description of business : Document scanners, industrial computing products and other hardware;

security and document management and other software & services; configuration of IT infrastructure; and multivendor services provided in

cooperation with third-party companies

#### (ii) Reason for the acquisition of shares

This share acquisition is a part of the growth investments outlined in the medium- to long-term plan through FY2025. PFU has the No. 1 share in the global market for document scanners and offers cloud construction and managed security services in Japan. By making PFU a subsidiary of the Company, the Company intends to strengthen edge devices that support digital services by acquiring industry and business scanners that serve as entry points for business workflows, and also intends to fortify its human capital through acquiring software engineers and digital professionals in the field, close to its customers and edge devices including construction and operation of multi-cloud environments and security services. In doing so, the Company intends to achieve digital transformation (DX) for customers and expand Ricoh's the office services business, which is positioned as an area of accelerated growth in its business portfolio management. In addition, PFU has the No. 1 share in the Japanese market for industrial computer boards and boasts an extensive product lineup. The combination of PFU's strengths and the Company's electronics business will create synergies in production, purchasing, and development to increase cost competitiveness, strengthen the industrial computer business, and develop new edge devices that will advance the digitalization of frontlines in fields such as logistics and manufacturing.

(iii) Acquisition date September 1, 2022

(iv) Percentage of voting equity interests acquired 80%

# 2. Consideration transferred and each major class of consideration

Cash ¥90.584 million

(Note) Price adjustments after acquisition have been finalized, and the final acquisition cost was determined.

#### 3. Acquisition-related costs

The acquisition-related costs of ¥236 million were included in "Selling, general and administrative expenses" in the consolidated statement of profit or loss.

#### 4. Assets acquired, liabilities assumed, non-controlling interests and goodwill

|   |             | N          | Iillions of Yen |
|---|-------------|------------|-----------------|
|   | Provisional | Subsequent | Revised         |
|   | fair value  | revision   | fair value      |
| Fair value of the consideration transferred | 90,584      |            | 90,584          |
| Cash and cash equivalents                   | 42,060      | _          | 42,060          |
| Trade and other receivables                 | 19,698      | _          | 19,698          |
| Inventories                                 | 24,322      | _          | 24,322          |
| Property, plant and equipment               | 7,482       | (1,882)    | 5,600           |
| Intangible assets                           | 6,631       | 36,675     | 43,306          |
| Other assets                                | 13,885      |            | 13,885          |
| Trade and other payables                    | (13,575)    | _          | (13,575)        |
| Other liabilities                           | (29,344)    | (11,327)   | (40,671)        |
| Net assets                                  | 71,159      | 23,466     | 94,625          |
| Non-controlling interests                   | (14,487)    | (4,517)    | (19,004)        |
| Goodwill                                    | 33,912      | (18,949)   | 14,963          |
| Total                                       | 90,584      |            | 90,584          |

Non-controlling interests are measured by the non-controlling interests' proportionate share in the recognized amounts of the acquiree's identifiable net assets. Goodwill arising from the acquisition of PFU consists primarily of future economic benefits and synergies with existing operations. Ricoh applied the acquisition method to account for the acquisition and the acquisition cost has been allocated to the assets acquired and the liabilities assumed based on the estimated fair values as at the acquisition date. The initial accounting for the business combination had not been completed as of December 31, 2022 and the amounts disclosed previously were provisional based on the information available at that time. The allocation of the acquisition cost was completed as of March 31, 2023. As it was completed, the amounts of assets acquired, liabilities assumed, non-controlling interests and goodwill were revised as above. The operating results of PFU have been included in the accompanying consolidated financial statements after the acquisition date.

The Company granted written put options to sell the subsidiary shares to the non-controlling shareholder of the acquired company. The present value of the written put options granted to the non-controlling shareholder was recognized as financial liabilities in the amount of \(\frac{\pmathbf{Y}}{2},485\) million at the acquisition date, and the same amounts were deducted from additional paid-in capital. The amount of the financial liabilities related to the written put options increased by \(\frac{\pmathbf{Y}}{1},656\) million due to the determination of the final acquisition cost.

#### 5. Impact on Ricoh's business results

Sales and profit generated by PFU since the acquisition date amounted to \(\frac{\cupage}{\cupage}\)888 million and \(\frac{\cupage}{\cupage}\)6,347 million, respectively. Assuming the business combination had been conducted at the beginning of the period, the pro-forma information for the year ended March 31, 2023 would have been \(\frac{\cupage}{\cupage}\)2,181,265 million in sales and \(\frac{\cupage}{\cupage}\)55,550 million in profit for the period, respectively. The amounts are unaudited by the independent auditor.

#### (Other business combinations)

Business combinations other than the acquisition of PFU Limited that are individually immaterial but are material collectively are disclosed in aggregate.

#### 1. Consideration transferred and each major class of consideration

|  | Millions of Yen |
|--|-----------------|
| Cash   | 11,002          |
| Fair value of the equity interest held immediately before the acquisition date | 4,620           |
| Contingent consideration   | 4,374           |
| Total  | 19,996          |

#### 2. Acquisition-related costs

The acquisition-related costs of ¥421 million were included in "Selling, general and administrative expenses" in the consolidated statement of profit or loss.

# 3. Assets acquired, liabilities assumed, non-controlling interests and goodwill The acquisition-date fair values of the consideration transferred, assets acquired and liabilities assumed, non-controlling interests and goodwill are as follows:

|   | Millions of Yen |
|---|-----------------|
| Fair value of the consideration transferred | 19,996          |
| Current assets                              | 7,956           |
| Non-current assets                          | 14,247          |
| Current liabilities                         | (5,993)         |
| Non-current liabilities                     | (4,122)         |
| Net assets                                  | 12,088          |
| Non-controlling interests                   | (2,643)         |
| Goodwill                                    | 10,551          |
| Total                                       | 19,996          |

Non-controlling interests are measured by the non-controlling interests' proportionate share in the recognized amounts of the acquiree's identifiable net assets. Goodwill arising from the acquisition consists primarily of future economic benefits and synergies with existing operations. Ricoh applied the acquisition method to account for the acquisition and the acquisition cost has been allocated to the assets acquired and the liabilities assumed based on the estimated fair values as at the acquisition date. The initial accounting for some acquirees was incomplete as of March 31, 2023 and therefore, the provisional amounts of intangible assets and goodwill may be adjusted upon the completion of the purchase price allocation. The operating results have been included in the accompanying consolidated financial statements since the acquisition date.

#### 4. Gain on step acquisitions through business combinations

As a result of the remeasurement of the acquisition-date fair value of the equity interest in the acquiree held by Ricoh immediately before the acquisition date, gain on step acquisitions through business combinations of \(\frac{\frac{\text{2}}}{2}\),401 million was included in "Other income" in the consolidated financial statement of profit or loss.

#### 5. Impact on Ricoh's business results

Sales and profit for the year of acquirees since the acquisition date and assuming the business combination had been conducted at the beginning of the period, the pro-forma information for the year ended March 31, 2023 are not disclosed since the impact on the consolidated financial statements is immaterial.

# 7. CASH AND CASH EQUIVALENTS

Details of cash and cash equivalents are as follows:

|   | Millions of Yen |                 |  |
|---|-----------------|-----------------|--|
|   | As of March 31, | As of March 31, |  |
|   | 2022            | 2023            |  |
| Cash and cash equivalents   |                 |                 |  |
| Cash and deposit  | 240,389         | 222,097         |  |
| Less time deposit over 3 months   | (81)            | (207)           |  |
| Total cash and cash equivalents on consolidated statement of financial position | 240,308         | 221,890         |  |
| Bank overdrafts   | (6,288)         | (11,006)        |  |
| Total cash and cash equivalents on consolidated statement of cash flows         | 234,020         | 210,884         |  |

#### 8. TRADE AND OTHER RECEIVABLES

The components of trade and other receivables are as follows:

|   | Millions of Yen         |                         |  |
|---|-------------------------|-------------------------|--|
|   | As of March 31,<br>2022 | As of March 31,<br>2023 |  |
| Notes receivables and electronically recorded monetary claims | 33,636                  | 36,780                  |  |
| Accounts receivables  | 300,998                 | 369,016                 |  |
| Other receivables   | 71,890                  | 77,196                  |  |
| Less allowance for doubtful receivables                       | (9,376)                 | (6,563)                 |  |
| Total   | 397,148                 | 476,429                 |  |

The amounts expected to be recovered or settled within or after 12 months after the reporting period are as follows:

|                  | Millions                | Millions of Yen         |  |  |  |
|------------------|-------------------------|-------------------------|--|--|--|
|                  | As of March 31,<br>2022 | As of March 31,<br>2023 |  |  |  |
| Within 12 months | 396,425                 | 475,830                 |  |  |  |
| After 12 months  | 723                     | 599                     |  |  |  |
| Total            | 397,148                 | 476,429                 |  |  |  |

#### 9. INVENTORIES

Details of inventories are as follows:

|                                    | Millions of Yen      |                         |  |
|------------------------------------|----------------------|-------------------------|--|
|                                    | As of March 31, 2022 | As of March 31,<br>2023 |  |
| Goods and products                 | 125,831              | 190,403                 |  |
| Work in progress and raw materials | 106,727              | 123,965                 |  |
| Total                              | 232,558              | 314,368                 |  |

The amount of write-down is as follows:

|                      | Millions           | Millions of Yen    |  |  |
|----------------------|--------------------|--------------------|--|--|
|                      | For the year ended | For the year ended |  |  |
|                      | March 31, 2022     | March 31, 2023     |  |  |
| Amount of write-down | 7,680              | 9,368              |  |  |

The amount of write-down is included in "Cost of sales" in the consolidated statement of profit or loss.

#### 10. PROPERTY, PLANT AND EQUIPMENT

Cost, accumulated depreciation and impairment loss, and the carrying amount of property, plant and equipment are as follows:

#### Cost

|  |         |                                | Millio                       | ns of Yen                              |                          |          |
|--|---------|--------------------------------|------------------------------|--|--------------------------|----------|

| Impairment loss Total                | 1,068                              | 107            |  |

Impairment loss for the year ended March 31, 2022 was included in "Selling, general and administrative expenses" in the amount of \(\frac{\pmathbf{4}762}{762}\) million and "Impairment of goodwill" in the amount of \(\frac{\pmathbf{4}306}{306}\) million, respectively. Impairment loss for the year ended March 31, 2023 was included in "Cost of sales" in the amount of \(\frac{\pmathbf{4}2}{2000}\) million, "Selling, general and administrative expenses" in the amount of \(\frac{\pmathbf{4}35}{3000}\) million and "Impairment of goodwill" in the amount of \(\frac{\pmathbf{4}70}{3000}\) million, respectively.

#### (3) Impairment losses and the background

(For the year ended March 31, 2022) Ricoh recognized no significant impairment loss.

(For the year ended March 31, 2023)

Ricoh recognized no significant impairment loss.

#### (4) Impairment test of goodwill

(For the year ended March 31, 2022)

The recoverable amount of goodwill was determined based on the value in use. The value in use is the present value calculated by discounting the estimated cash flows based on projections approved by management and the growth rate after the projection period. The growth rate used is determined in consideration of the long-term growth rate of the market to which the CGU or CGU group belongs ( -4 to 2%). The discount rate used is calculated based on the pre-tax weighted average capital cost of each CGU or CGU group (10 to 13%). Business plans are projected for 5 years and the growth rate does not exceed the long-term average growth rate for the market in which the asset is used.

Ricoh assumes that although the global resurgence of new variants of COVID-19 and the supply constraints due to component shortages and logistics issues continue to affect its business results, to a certain extent, over the next fiscal year and beyond, the situation will gradually improve in the future.

For impairment test of goodwill, Ricoh has taken into account the business impact of the situation in which society will not completely recover to a pre-pandemic normal in view of the prolonged impact of the COVID-19 pandemic as well as the well-received "new normal" work style stemming from the downsizing of office spaces and decreasing attendance rate at work as teleworking has taken root. Ricoh also has taken into account the business impact the supply constraints due to component shortages and logistics issues and fluctuations in sales price caused by the response to rising costs of component, etc.

Office Printing (Europe, Middle East and Africa sales group) CGU group is exposed to a risk of resulting in a material adjustment to the carrying amounts of goodwill within the next financial year. The recoverable amount in Office Printing (Europe, Middle East and Africa sales group) exceeds its carrying amount by \tilde{\text{\text{\text{\text{\text{group}}}}} in the value in use, Ricoh considers the sales volume, print output volume and sales price of MFPs, etc. in the projection, the growth rate after the projection period, and the discount rate are recognized as key assumptions.

The result of estimating of the growth rate and the discount rate is set forth in the table below. This estimates whether recognition of impairment loss is necessary in case how much the discount rate rise. Ricoh expects that the carrying amount will not exceed the recoverable amount even if there are reasonably possible changes in the sales volume, print output volume and sales price of MFPs, etc. in the projection underlying the recoverable amount.

|  | Growth rate | Discount rate |
|--|-------------|---------------|
| Office Printing (Europe, Middle East and Africa sales group) | (4.3%)      | +2.0%         |

Ricoh expects that the carrying amount will not exceed the recoverable amount even if there are reasonably possible changes in the major assumptions underlying the recoverable amount (growth rate, discount rate, etc.) in other CGU or CGU group which goodwill are allocated.

#### (For the year ended March 31, 2023)

The recoverable amount of goodwill was determined based on the value in use. The value in use is the present value calculated by discounting the estimated cash flows based on projections approved by management and the growth rate after the projection period. The growth rate used is determined in consideration of the long-term growth rate of the market to which the CGU or CGU group belongs ( -4 to 2%). The discount rate used is calculated based on the pre-tax weighted average capital cost of each CGU or CGU group (11 to 15%). Business plans are projected for 5 years and the growth rate does not exceed the long-term average growth rate for the market in which the asset is used.

As described in Note 2. BASIS OF PREPARATION- (6) Use of Estimates and Judgments, Ricoh assumes that the effect of the surge in resource prices and inflation will persist to a certain extent over the next fiscal year and beyond although the impact on economic activities from COVID-19 and impact on the Ricoh's performance due to the supply constraints resulting from component shortages and logistics issues are gradually improving.

Ricoh has considered the business impact of the situation in which society will not completely recover to a pre-pandemic normal and of the sales price fluctuations as measures to deal with cost increase of components, in view of the well-received new work style stemming from the downsizing of office spaces and decreasing attendance rate at work as teleworking triggered by the COVID-19 pandemic has taken root.

Office Printing (Europe, Middle East and Africa sales group) CGU group is exposed to a risk of resulting in a material adjustment to the carrying amounts of goodwill within the next financial year. The recoverable amount in Office Printing (Europe, Middle East and Africa sales group) is determined based on value in use, which fully exceeds its carrying amount. In estimating the value in use, Ricoh considers the sales volume, print output volume and sales price of MFPs, etc., the related cost in the projection, the growth rate after the projection period, and the discount rate are recognized as key assumptions.

Ricoh expects that the carrying amount will not exceed the recoverable amount even if there are reasonably possible changes in the major assumptions underlying the recoverable amount (growth rate, discount rate, etc.) in all CGU or CGU group which goodwill are allocated.

The details of goodwill after recognition of impairment losses by CGU or CGU group are as follows.

|  | Millions of Yen         | Millions of Yen         |
|--|-------------------------|-------------------------|
|  | As of March 31,<br>2022 | As of March 31,<br>2023 |
| Office Printing (Common function group excluding sales)      | 70,888                  | 76,517                  |
| Office Printing (Europe, Middle East and Africa sales group) | 51,187                  | 55,298                  |
| Office Services (Europe software development group)          | 13,454                  | 18,463                  |
| Office Printing (Japan sales group)                          | 4,981                   | 4,981                   |
| Other CGUs, CGU groups                                       | 25,355                  | 45,357                  |
| Total  | 165,865                 | 200,616                 |

#### 13. LEASE

#### (1) As Lessor

Lease receivables are included in other financial assets.

Ricoh is engaged in the leasing business of Ricoh's products. Most of these leases are accounted for as finance leases.

Residual risk on leased equipment is not significant, because of the existence of a secondary market with respect to the equipment and having sales means such as extension of arrangement with customer.

#### (a) Finance lease

Future receivables under finance leases are as follows:

|  | Millions of Yen |                 |
|--|-----------------|-----------------|
|  | As of March 31, | As of March 31, |
|  | 2022            | 2023            |
| Gross investments in finance leases                |                 |                 |
| Due in 1 year or less                              | 109,260         | 112,230         |
| Due after 1 year through 2 years                   | 71,698          | 73,686          |
| Due after 2 year through 3 years                   | 44,724          | 46,305          |
| Due after 3 year through 4 years                   | 22,302          | 24,444          |
| Due after 4 year through 5 years                   | 6,999           | 8,494           |
| Due after 5 years                                  | 904             | 930             |
| Undiscounted lease receivables                     | 255,887         | 266,089         |
| Unguaranteed residual value                        | (5,839)         | (5,907)         |
| Future finance income                              | (26,426)        | (28,334)        |
| Present value of minimum lease payments receivable | 223,622         | 231,848         |

The following table presents selling profit or loss and finance income on the net investment in the lease.

|   | Millions of Yen    |                    |
|---|--------------------|--------------------|
|   | For the year ended | For the year ended |
|   | March 31, 2022     | March 31, 2023     |
| Selling profit or loss                            | 32,312             | 40,865             |
| Finance income on the net investment in the lease | 16,881             | 17,685             |

#### (b) Operating lease

Future receivables under operating leases are as follows:

|                                  | Millions of Yen |                 |
|----------------------------------|-----------------|-----------------|
|                                  | As of March 31, | As of March 31, |
|                                  | 2022            | 2023            |
| Due in 1 year or less            | 11,771          | 13,886          |
| Due after 1 year through 2 years | 6,830           | 5,885           |
| Due after 2 year through 3 years | 3,754           | 3,697           |
| Due after 3 year through 4 years | 2,117           | 2,284           |
| Due after 4 year through 5 years | 1,091           | 1,154           |
| Due after 5 years                | 578             | 599             |
| Undiscounted lease receivables   | 26,141          | 27,505          |

The following table presents operating lease income.

|  | Millions of Yen    |                    |
|--|--------------------|--------------------|
|  | For the year ended | For the year ended |
|  | March 31, 2022     | March 31, 2023     |
| Lease income                               | 35,520             | 43,728             |
| Income relating to variable lease payments | 1,816              | 1,274              |

#### (2) As Lessee

Ricoh leases many assets including land, buildings, machinery, equipment and fixtures.

Information on leases, as a lessee, is as follows:

#### (a) Right-of-use assets

Carrying amount of right-of use assets consists of the follows:

|                                | Millions of Yen |                 |
|--------------------------------|-----------------|-----------------|
|                                | As of March 31, | As of March 31, |
|                                | 2022            | 2023            |
| Land, buildings and structures | 47,375          | 48,230          |
| Vehicles, equipment and other  | 10,355          | 8,773           |
| Total                          | 57,730          | 57,003          |

The amount of right-of-use assets increased by ¥25,309 million and ¥27,676 million for the years ended March 31, 2022 and 2023, respectively.

Total cash outflow for leases were \(\frac{\pmax}{32}\),195 million and \(\frac{\pmax}{33}\),237 million for the years ended March 31, 2022 and 2023, respectively.

#### (b) Income and expenses relating to right-of use assets

Income and expenses relating to right-of use assets consist of the following:

| _   | Millions of Yen    |                    |
|---|--------------------|--------------------|
|   | For the year ended | For the year ended |
|   | March 31, 2022     | March 31, 2023     |
| Depreciation expenses for right-of-use assets:                      |                    |                    |
| Land, buildings and structures                                      | 23,746             | 25,562             |
| Vehicles, equipment and other                                       | 5,436              | 5,311              |
| Total   | 29,182             | 30,873             |
| Expenses relating to short-term lease and lease of low-value assets | 4,306              | 3,000              |

Income and expenses with sublease and sale and lease back were not material.

Interest expense on lease liabilities is described in Note 30, Finance income and finance costs. Analysis of the contractual maturities of lease liabilities are described in Note 25, Financial instruments and related disclosures - (4) Liquidity risk management.

#### (c) Extension option and termination options

In Ricoh, each company is responsible for managing its lease contracts, and lease conditions are individually negotiated, resulting in a wide range of contract conditions. Extension option and termination option are mainly included in real estate leases for offices and warehouses. These options are used as necessary for the lease contractor to utilize real estate for business.

#### 14. OTHER FINANCIAL ASSETS

The components of other financial assets are as follows:

|   | Millions        | Millions of Yen |  |
|---|-----------------|-----------------|--|
|   | As of March 31, | As of March 31, |  |
|   | 2022            | 2023            |  |
| Derivative assets                       | 147             | 202             |  |
| Lease receivables                       | 229,461         | 237,755         |  |
| Less allowance for doubtful receivables | (8,994)         | (8,893)         |  |
| Total                                   | 220,614         | 229,064         |  |
| Current                                 | 92,293          | 93,906          |  |
| Noncurrent                              | 128,321         | 135,158         |  |

#### 15. OTHER INVESTMENTS

The components of other investments are as follows:

|                                 | Millions of Yen |                 |
|---------------------------------|-----------------|-----------------|
|                                 | As of March 31, | As of March 31, |
|                                 | 2022            | 2023            |
| Securities and equity interests | 11,841          | 18,972          |
| Bonds                           | 488             | 387             |
| Total                           | 12,329          | 19,359          |
| Current                         | _               | _               |
| Noncurrent                      | 12,329          | 19,359          |

#### 16. TRADE AND OTHER PAYABLES

The components of trade and other payables are as follows:

|  | Millions of Yen         |                         |
|--|-------------------------|-------------------------|
|  | As of March 31,<br>2022 | As of March 31,<br>2023 |
| Notes payables and electronically recorded obligations | 10,276                  | 9,158                   |
| Accounts payable                                       | 167,098                 | 208,924                 |
| Other payables   | 91,160                  | 94,347                  |
| Total  | 268,534                 | 312,429                 |

#### 17. LOANS AND BORROWINGS

Long-term borrowings are as follows:

|  | Millions of Yen |                |
|--|-----------------|----------------|
|  | As of As of     |                |

| Total  | 121,042         | 205,110        |

All bonds outstanding as of March 31, 2023 are redeemable at the option of Ricoh under certain conditions as provided in the applicable agreements.

Bonds are subject to certain covenants such as restrictions on additional secured borrowings as defined in the agreements. Ricoh was in compliance with all such covenants as of March 31, 2023.

Short-term borrowings consist of the following:

|                                    | Millions of Yen |                |  |
|------------------------------------|-----------------|----------------|--|

| Balance as of March 31, 2023                       | 5,323                       | 2,174                | 5,625                   | 6,193            | 19,315   |
| Current liabilities                                | 168                         | 2,174                | 4,057                   | 4,569            | 10,968   |
| Noncurrent liabilities                             | 5,155                       | _                    | 1,568                   | 1,624            | 8,347    |

Ricoh recognizes provisions for asset retirement obligation when there is an obligation to dismantle, remove or restore assets at the end of lease contract or obligation to decontaminate certain fixed assets. Future expected outflows of economic benefits are long-term in nature and may be affected by future business plans.

The warranties provision corresponds to the cost of the warranty that the finished goods comply with the agreed-upon specifications and is recognized based on the estimated cost during the warranty period. The warranty costs were included in in "Cost of sales".

The restructuring provision consists of expenditures on restructuring activities such as fixed costs reductions in order to enhance competitiveness. Restructuring provisions are expected to be utilized mainly within the next fiscal year. However, they may be affected by future business plans.

Other provisions mainly consist of litigation provisions.

#### 19. OTHER FINANCIAL LIABILITIES

Details of other financial liabilities are as follows:

|   | Millions of Yen |                 |  |
|---|-----------------|-----------------|--|
|   | As of March 31, | As of March 31, |  |
|   | 2022            | 2023            |  |
| Derivative liabilities  | 2,079           | 362             |  |
| Contingent consideration                                      | _               | 7,245           |  |
| Written put option liabilities over non-controlling interests | _               | 22,541          |  |
| Total   | 2,079           | 30,148          |  |
| Current   | 2,079           | 2,582           |  |
| Noncurrent  | _               | 27,566          |  |

#### 20. GOVERNMENT GRANTS

Government grants are recognized at fair value when there is a reasonable assurance that Ricoh will comply with the terms and conditions attached to the grants. Government grants related to income are recognized in profit or loss over the period in which the related costs for which the grants are intended to compensate are recognized, and are mainly deducted in the related expenses. With regard to government grants for the

purchase of assets, the amount of the grant is credited to deferred income and recognized in profit or loss over the expected useful life of the relevant assets.

For the years ended March 31, 2022 and 2023, government grants related to income were mainly employment grants related to COVID-19. Government grants for the purchase of assets were principally related to capital expenditures on R&D of the Company and the production facility of a manufacturing subsidiary in Japan.

For the year ended March 31, 2022, the amount of government grants recognized in the consolidated statement of profit or loss was \(\frac{\pmathbf{Y}}{7}\),954 million, which were deducted by \(\frac{\pmathbf{4}}{4}\),281 million in "cost of sales" and \(\frac{\pmathbf{Y}}{2}\),531 million in "selling, general and administrative expenses", and were included by \(\frac{\pmathbf{1}}{1}\),142 million in "other income".

For the year ended March 31, 2023, the amount of government grants recognized in the consolidated statement of profit or loss was \(\frac{\pmathbf{4}}{4}\),353 million, which were deducted by \(\frac{\pmathbf{1}}{1}\),924 million in "cost of sales" and \(\frac{\pmathbf{1}}{1}\),619 million in "selling, general and administrative expenses", and were included by \(\frac{\pmathbf{8}}{8}\)10 million in "other income".

The total balance of government grants, presented as deferred income in "other current liabilities" or "other non-current liabilities" in the consolidated statement of financial position as of March 31, 2022 and March 31, 2023 was \(\frac{\pmathbf{3}}{3}\), 383 million and \(\frac{\pmathbf{3}}{3}\), 2010 million, respectively.

There are no unfulfilled conditions or contingencies related to government grants recognized as deferred income.

21. INCOME TAXES

Details of deferred tax assets and liabilities are as follows:

|  |                           |                                    | Mil  | lions of Yen  |                                      |                            |

Millions of Yen

Ricoh assesses the probability that a portion or all of the future deductible temporary differences, net operating loss carryforwards and tax credit carryforwards can be used to offset future taxable profits on recognition of deferred tax assets. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible and whether loss carryforwards are utilizable. Ricoh considers the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based upon the level of historical taxable income and projections for future taxable income over the periods in which the temporary differences are deductible or loss carryforwards are utilizable, Ricoh believes it is more likely than not that the deferred tax assets of these deductible differences will be realized. The amount of the deferred tax assets considered realizable, however, will be reduced if estimates of future taxable income during the carryforward period are reduced.

As described in Note 2. BASIS OF PREPARATION- (6) Use of Estimates and Judgments, Ricoh assumes that the effect of the surge in resource prices and inflation will persist to a certain extent over the next fiscal year and beyond although the impact on economic activities from COVID-19 and impact on the Ricoh's performance due to the supply constraints resulting from component shortages and logistics issues are gradually improving.

For the recoverability of deferred tax assets, Ricoh has considered the business impact of the situation in which society will not completely recover to a pre-pandemic normal and of the sales price fluctuations as measures to deal with cost increase of components, in view of the well-received new work style stemming from the downsizing of office spaces and decreasing attendance rate at work as teleworking triggered by the COVID-19 pandemic has taken root.

Ricoh applies the group tax sharing system in Japan. Most of the recognized deferred tax assets are related to the tax group in Japan. In the business plan in estimating the taxable income of the future sharing group, Ricoh recognizes that the sales of the office services business, the sales price and sales volume of MFPs and consumables such as toner, and the related cost are an important assumption.

Net operating loss carryforwards, deductible temporary differences and foreign tax credit carryforwards for which deferred tax assets have not been recognized are as follows:

|                                  | Millions of Yen |                |  |
|----------------------------------|-----------------|----------------|--|
|                                  | As of As of     |                |  |
|                                  | March 31, 2022  | March 31, 2023 |  |
| Net operating loss carryforwards | 125,604         | 135,158        |  |
| Deductible temporary differences | 3,071           | 4,396          |  |
| Foreign tax credit carryforwards | 602             | 436            |  |
| Total                            | 129,277         | 139,990        |  |

The expiration date and amounts of net operating loss carryforwards for which deferred tax assets are not recognized are as follows:

|                              | Millions of Yen |                |  |
|------------------------------|-----------------|----------------|--|
|                              | As of As of     |                |  |
|                              | March 31, 2022  | March 31, 2023 |  |
| Within 4 years               | 44,531          | 64,841         |  |
| After 5 years and thereafter | 81,073          | 70,317         |  |
| Total                        | 125,604         | 135,158        |  |

The above amounts do not include net operating loss carryforwards in which deferred tax assets related to local taxes (residence tax and enterprise tax) are not recognized as it is not covered by the group tax sharing system. The amount of net operating loss carryforwards related to residence tax and enterprise tax as of March 31, 2022 were \$32,417 million and \$85,686 million, respectively, and as of March 31, 2023 were \$12,972 million and \$64,563 million, respectively.

The amounts of recognized deferred tax assets over the amounts of deferred tax liabilities and the recoverability of deferred tax assets are dependent on future taxable profits as of March 31, 2022 and 2023 were ¥63,413 million and ¥49,839 million, respectively. These deferred tax assets were recognized in the Company or some other subsidiaries which recognized tax losses for the years ended March 31, 2022 and 2023. The Company and certain subsidiaries assess the probability that such subsidiaries can utilize deductible temporary differences, net operating loss carryforwards and foreign tax credit carryforwards against future taxable profits.

Deferred tax assets related to the group tax sharing system are included because tax losses are recorded for the fiscal years ended March 31, 2022 and 2023.

Details of current and deferred tax expenses are as follows:

|                                       | Millions of Yen                   |                                   |  |
|---------------------------------------|-----------------------------------|-----------------------------------|--|
|                                       | For the year ended March 31, 2022 | For the year ended March 31, 2023 |  |
|                                       | March 31, 2022                    | March 51, 2025                    |  |
| Current tax expense:                  |                                   |                                   |  |
| Current year                          | 11,415                            | 14,071                            |  |

| Changes in unrecognized deferred tax  | (1,211)                           | 3,805                             |  |
| assets in previous years              | (1,211)                           | 3,803                             |  |
| Total deferred tax expense            | 2,348                             | 11,596                            |  |
| Total provision for income taxes      | 13,763                            | 25,667                            |  |

The amount of the benefits arising from previously unrecognized tax losses, tax credit or temporary differences of a prior period that were used to reduce current tax expenses for the years ended March 31, 2022 and 2023 were \mathbb{4},837 million and \mathbb{4}5,939 million, respectively, and these benefits were included in the current tax expense.

The Company and its domestic subsidiaries are subject to a number of income taxes, which, in the aggregate, represent a statutory income tax rate of approximately 31% for the years ended March 31, 2022 and 2023.

Reconciliation of the statutory income tax rate to the effective income tax rate is as follows:

|   | For the year ended March 31, 2022 | For the year ended March 31, 2023 |
|---|-----------------------------------|-----------------------------------|
| Statutory income tax rate   | 31%                               | 31%                               |
| Nondeductible expenses  | 5                                 | 1                                 |
| Nontaxable income   | (1)                               | (0)                               |
| Changes in unrecognized deferred tax assets in previous years               | (3)                               | 5                                 |
| Income tax exposures  | (6)                               | (1)                               |
| Taxes on undistributed earnings of foreign subsidiaries                     | 5                                 | 5                                 |
| Difference in statutory tax rates of foreign subsidiaries                   | (5)                               | (6)                               |
| Impairment of goodwill  | 0                                 | 0                                 |
| Share of profit (loss) of investments accounted for using the equity method | (4)                               | (2)                               |
| Other, net  | 9                                 | (1)                               |
| Effective income tax rate   | 31                                | 32                                |

Ricoh does not recognize deferred tax liability on undistributed retained earnings of domestic subsidiaries because dividends from domestic subsidiaries are almost tax-free under the domestic tax law. Ricoh does not recognize deferred tax liability on the taxable temporary differences associated with a portion of undistributed retained earnings in foreign subsidiaries because Ricoh is in a position to control the timing of the reversal of the temporary differences and it is probable that such differences will not reverse in the foreseeable future.

The amount of those taxable temporary differences as of March 31, 2022 and 2023 were \(\frac{\pma}{378}\),696 million and \(\frac{\pma}{434}\),292 million, respectively.

#### 22. EMPLOYEE BENEFITS

#### (1) Defined benefit plans

Ricoh has defined benefit corporate pension plans and lump-sum payment plans. The benefits of these defined benefit plans are provided based on employees' years of service, compensation level and other terms. Contributions to these plans have been made to provide future pension payments in conformity with actuarial calculations determined by the current basic rate of salary.

The Company and certain subsidiaries have contract-type corporate pension plans based on pension provision. The Company and certain subsidiaries have established Ricoh's group corporate pension provisions stipulating the contents of the pension plan such as eligibility requirements, contents and method for determining benefit payments and burden of contributions by agreement with their employees and have had these plans approved by the Minister of Health, Labour and Welfare. The Company and certain subsidiaries maintain plans by exchanging contracts with trust banks and insurance companies for the payment of contributions and the management of accumulated funds. The trust banks maintain and manage the plan assets while they perform actuarial calculation and payments of annual and lump-sum benefits.

The Company and certain subsidiaries are responsible for operations related to the administration and investment of pension reserves for the participants in compliance with laws and regulations and any orders issued by the Minister of Health, Labour and Welfare. Furthermore, the Company and certain subsidiaries are prohibited from engaging in any actions that could hinder proper administration and investment of the pension reserves for the purpose of furthering their own interests or the interests of third parties other than the participants.

For the years ended March 31, 2022 and 2023, a pension buyout was implemented in the retirement benefit plan of certain overseas subsidiaries. As a result, Ricoh recognized settlement gain and loss in the consolidated statement of profit or loss for the years ended March 31, 2022 and 2023.

The changes in the defined benefit obligations and plan assets of the pension plans are as follows:

|  | Millions of Yen                   |                                   |  |  |
|--|-----------------------------------|-----------------------------------|--|--|
| Domestic plans   | For the year ended March 31, 2022 | For the year ended March 31, 2023 |  |  |
| Net defined benefit obligations at beginning of year:        | 30,876                            | 20,275                            |  |  |

<sup>(</sup>i) Actuarial gain or loss for the years ended March 31, 2022 and 2023 arose mainly from changes in financial assumptions.

The weighted average of significant actuarial assumptions used to determine defined benefit obligations are as follows:

|                               | Domest      | Domestic plans |             | n plans     |
|-------------------------------|-------------|----------------|-------------|-------------|
|                               | As of March | As of March    | As of March | As of March |
|                               | 31, 2022    | 31, 2023       | 31, 2022    | 31, 2023    |
| Discount rate                 | 0.6%        | 1.1%           | 3.0%        | 4.4%        |
| Rate of compensation increase | 2.4%        | 2.4%           | 1.9%        | 2.1%        |

<sup>(</sup>ii) Income related to plan assets excludes interest income.

In situations in which the discount rate changes, the effects on the defined benefit obligation as of March 31, 2022 and 2023 are shown below. The sensitivity analysis is based on the assumption that there are no other changes in the actuarial calculations, but, in fact, other changes in assumptions could possibly affect the defined benefit obligation. Ricoh does not expect any changes in the rate of compensation to increase.

| Total assets                            | 84,692  | 102,553 | 187,245 |  |

<sup>(</sup>i) Assets with quoted market prices in an active market represents a portfolio of investments that primarily consists of Liability Driven Investment (LDI), designated to match the plan assets with a change in the present value of the defined benefit obligation arising from a change in indices, such as interest rates and inflation.

Ricoh's investment objectives are to maximize returns subject to specific risk management policies. Its risk management policies permit investments in mutual funds, debt and equity securities and prohibit speculative investment in derivative financial instruments. Ricoh addresses diversification by utilizing mutual fund investments whose underlying investments are in domestic and international fixed income securities and domestic and international equity securities. These mutual funds are readily marketable and can be sold to fund benefit payment obligations as they become payable.

Ricoh's model portfolio for domestic plans consists of three major components: approximately 35% is invested in equity securities, approximately 35% is invested in debt securities and approximately 30% is invested in other investment vehicles, consisting primarily of investments in life insurance company general accounts.

Outside of Japan, investment policies vary by country, but the long-term investment objectives and strategies remain consistent. Ricoh's model portfolio for foreign plans has been developed as follows: approximately 15% is invested in equity securities, approximately 75% is invested in debt securities and approximately 10% is invested in other investment vehicles, consisting primarily of investments in life insurance company general accounts.

Ricoh expects to contribute ¥16,080 million to its pension plans for the year ending March 31, 2024.

The weighted average duration of defined benefit obligations was 10 years as of March 31, 2023.

#### (2) Defined contribution plans

The Company and certain subsidiaries have defined contribution plans. The cost of defined contribution plans for the years ended March 31, 2022 and 2023 were \mathbb{Y} 10,861 million and \mathbb{Y} 12,470 million, respectively.

#### (3) Employee benefit expense

The employee benefit expense included in "Cost of sales" and "Selling, general and administrative expenses" in the consolidated statement of profit or loss for the years ended March 31, 2022 and 2023 were \(\frac{1}{2}\) 579,830 million and \(\frac{1}{2}\) 674,918 million, respectively.

#### 23. SHARE-BASED PAYMENT

# Share-Based Compensation Plans using Board Incentive Plan trust in which beneficiaries include Directors and Executive Officers of the Company

(a) Details of share-Based compensation plans

The Company has introduced a share-based compensation plan with stock price conditions (hereinafter, "the plan") for the Company's board directors and executive officers (excluding outside board directors; hereafter, "directors and executive officers"). This is aimed at reinforcing common interest between the Company's directors and executive officers and the shareholders. It will also achieve a highly transparent and fair share-based incentive system, with stock price conditions, to show commitment to sustainable development and medium to long-term improvement of our corporate value.

The Company has adopted a Board Incentive Plan trust in which beneficiaries include the directors and executive officers. Under the plan, the Company's shares are acquired through the trust using money contributed by the Company as the source of funds. In accordance with "Rules relating to grand of shares" established by the Company, from the date of commencement of the plan, points (1 point = 1 shares) are granted to the directors and executive officers each month at the end of the month during the period which the plan applies. The plan is designed so that the number of shares granted to the directors and executive officers are based on the comparative result of the growth rate of the Company's stock price and the growth rate of TOPIX (Tokyo stock price index) within a certain time frame. In principle, by carrying out the prescribed beneficiary vesting procedures at the time of retirement for directors and executive officers, those individuals are able to receive shares of the Company, with the number of shares corresponding to the number of points granted.

The plan is accounted for as equity-settled share-based compensation.

(b) Number of points granted during the period and weighed average fair value of points

The fair value of the points on the date of grant is determined by adjusting the market value of the Company's shares taking expected dividends in account.

The number of points granted during the period and the weighted average fair value of the points are as follows:

|  | For the year ended | For the year ended |
|--|--------------------|--------------------|
|  | March 31, 2022     | March 31, 2023     |
| Number of points granted during the period | 51,585             | 106,575            |
| Weighted average fair value (yen)          | 1,047              | 1,153              |

#### (c) Share-based payment expenses

Share-based payment expenses for the years ended March 31, 2022 and 2023 were ¥54 million and ¥123 million, respectively. This expense was presented within "Selling, general and administrative expenses" in the consolidated statement of profit or loss.

#### 24. CAPITAL AND RESERVES

#### (1) Common Stock

The numbers of shares authorized and issued are as follows:

|                            | Number of shares   |                    |  |
|----------------------------|--------------------|--------------------|--|
|                            | For the year ended | For the year ended |  |
|                            | March 31, 2022     | March 31, 2023     |  |
| Authorized:                |                    |                    |  |
| Ordinary shares            | 1,500,000,000      | 1,500,000,000      |  |
| Issued:                    |                    |                    |  |
| Balance, beginning of year | 744,912,078        | 637,468,178        |  |
| Adjustment for the year    | (107,443,900)      | (27,946,200)       |  |
| Balance, end of year       | 637,468,178        | 609,521,978        |  |

The decrease in the total number of shares issued for the years ended March 31, 2022 and 2023 was due to the retirement of treasury stock.

#### (2) Reserves

# (a) Additional Paid-in Capital

Under the Company Law of Japan ("the Company Law"), at least 50% of the proceeds of certain issues of common shares shall be credited to common stock. The remainder of the proceeds shall be credited to additional paid-in capital. The Company Law permits, upon approval at the general meeting of shareholders, the transfer of amounts from additional paid-in capital to common stock.

#### (b) Retained Earnings

The Company Law provides that a 10% dividend of retained earnings shall be appropriated as additional paid-in capital or as a legal reserve until the aggregate amount of the additional paid-in capital and the legal

reserve equals 25% of common stock. The legal reserve may be used to eliminate or reduce a deficit or be transferred to retained earnings upon approval at the general meeting of shareholders.

Retained earnings available for dividends under the Company Law is based on the amount recorded in the Company's general accounting records maintained in accordance with accounting principles generally accepted in Japan.

The Company Law limits the amount of retained earnings available for dividends. Retained earnings of ¥ 110,112 million and ¥ 90,869 million as of March 31, 2022 and 2023, respectively, were not restricted by the limitations under the Company Law.

#### (3) Treasury stock

The number of shares of treasury stock as of March 31, 2022 and 2023 included in the number of shares issued shown above were 468,700 shares and 447,171 shares, respectively. The Company has established the Board Incentive Plan trust in which beneficiaries include directors and executive officers. The number of the shares in the Company owned by the trust as of March 31, 2022 and 2023 were 398,600 shares and 371,400 shares, respectively. The shares owned by the trust were included in the number of shares of treasury stock.

(For the year ended March 31, 2022)

At the meeting of the Board of Directors of the Company held on March 3, 2021, the Company resolved a share repurchase. The share repurchases for the year ended March 31, 2022 is as follows and has been completed on December 10, 2021 (on delivery date basis).

(1) Share category Common stock (2) Number of shares (3) Repurchase cost ¥ 92,709,040,000

(4) Period April 1, 2021, through December 10, 2021 (on delivery date basis)

(5) Method Open market purchase on Tokyo Stock Exchange

#### (4) Dividends

Dividends paid are as follows:

| Resolution   | Class of shares    | Amount of dividends (Millions of Yen) | Dividends<br>per share<br>(Yen) | Record date        | Effective date   |
|--|--------------------|---------------------------------------|---------------------------------|--------------------|------------------|
| Ordinary general meeting of shareholders held on June 24, 2021 | Ordinary<br>shares | 5,391                                 | 7.5                             | March 31, 2021     | June<br>25, 2021 |
| Board of Directors' meeting held on November 4, 2021           | Ordinary<br>shares | 8,677                                 | 13.0                            | September 30, 2021 | December 1, 2021 |
| Ordinary general meeting of shareholders held on June 24, 2022 | Ordinary<br>shares | 8,286                                 | 13.0                            | March 31, 2022     | June<br>27, 2022 |
| Board of Directors' meeting held on November 4, 2022           | Ordinary<br>shares | 10,361                                | 17.0                            | September 30, 2022 | December 1, 2022 |

Note: The total amount of dividends by the resolution of the ordinary general meeting of shareholders held on June 24, 2021 and the board of directors' meeting held on November 4, 2021 include \(\mathbf{\ceig}\) 3 million and \(\mathbf{\ceig}\) 5 million respectively corresponding to the Company's shares owned by the Board Incentive Plan trust in which beneficiaries include directors and executive officers.

In addition, the total amount of dividends by the resolution of the ordinary general meeting of shareholders held on June 24, 2022 and the board of directors' meeting held on November 4, 2022 include ¥ 5 million and ¥ 7 million respectively corresponding to the Company's shares owned by the Board Incentive Plan trust in which beneficiaries include directors and executive officers.

Dividends whose record date is in the current fiscal year but whose effective date is in the following fiscal year are as follows:

| Resolution   | Class of shares    | Amount of<br>dividends<br>(Millions<br>of Yen) | Source of dividends | Dividends<br>per share<br>(Yen) | Record date    | Effective date   |
|--|--------------------|--|---------------------|---------------------------------|----------------|------------------|
| Ordinary general meeting of shareholders held on June 23, 2023 | Ordinary<br>shares | 10,361   | Retained earnings   | 17.0                            | March 31, 2023 | June<br>26, 2023 |

Note: The total amount of dividends by the resolution of the board of directors' meeting held on June 23, 2023 includes \(\frac{1}{2}\) 6 million corresponding to the Company's shares owned by the Board Incentive Plan trust in which beneficiaries include Directors and Executive Officers.

#### 25. FINANCIAL INSTRUMENTS AND RELATED DISCLOSURES

#### (1) Capital risk management

Ricoh's capital management policy is to maintain a strong financial position, which enables us to procure sufficient funds for business expansions and to build an efficient capital structure in order to achieve continuous growth and increase corporate value.

Ricoh manages net interest-bearing debt, where cash and deposits are deducted from interest-bearing debt, capital (equity attributable to owners of the parent company) and the debt-to-equity ratio (ratio of interest-bearing debt to equity). The amounts as of each year end are as set forth in the table below.

In addition, Ricoh manages net interest-bearing debt, excluding debt from sales financing, for managerial purposes.

| _   | Millions of Yen          |           |  |  |
|---|--------------------------|-----------|--|--|
|   | As of March 31, As of Ma |           |  |  |
|   | 2022                     | 2023      |  |  |
| Interest-bearing debt                                 | 302,546                  | 427,270   |  |  |
| Cash and deposit                                      | (240,389)                | (222,097) |  |  |
| Net interest-bearing debt                             | 62,157                   | 205,173   |  |  |
| Capital (equity attributable to owners of the parent) | 902,042                  | 931,556   |  |  |
| Debt Equity Ratio                                     | 0.07                     | 0.22      |  |  |

#### (2) Market risk management

#### (a) Foreign currency exchange rate risk

#### (i) Foreign currency exchange rate risk management

The financial results, assets and liabilities are subject to foreign exchange fluctuations because of the high volume of Ricoh's production and sales activities in the Americas, Europe and Other, such as China.

Ricoh enters into foreign currency contracts to hedge against the potentially adverse impact of foreign currency fluctuations on those assets and liabilities denominated in foreign currencies.

#### (ii) Foreign currency contracts

Foreign currency contracts are as follows:

Foreign Currency Contracts

|               |                | As of March 31, 2022               |                              |  |  |  |
|---------------|----------------|------------------------------------|------------------------------|--|--|--|
|               | Exchange rates | Contract amounts (Millions of Yen) | Fair value (Millions of Yen) |  |  |  |
| U.S. dollar/¥ | ¥ 122.39       | _                                  | _                            |  |  |  |
| Euro/¥        | ¥ 136.70       | 13,670                             | (710)                        |  |  |  |
| Pound/Euro    | € 1.18         | 46,213                             | (255)                        |  |  |  |
|               |                | As of March 31, 2023               |                              |  |  |  |

|               | As of Watch 31, 2025 |                                    |                              |  |  |
|---------------|----------------------|------------------------------------|------------------------------|--|--|
|               | Exchange rates       | Contract amounts (Millions of Yen) | Fair value (Millions of Yen) |  |  |
| U.S. dollar/¥ | ¥ 133.53             | 1,647                              | 3                            |  |  |
| Euro/¥        | ¥ 145.72             | 1,749                              | (29)                         |  |  |
| Pound/Euro    | € 1.14               | 42,064                             | 58                           |  |  |

#### (iii) Sensitivity analysis for foreign currency risk

The following table represents Ricoh's sensitivity analysis of financial instruments for foreign currency risk exposures. The analysis shows the hypothetical impact on profit before income tax expenses in the consolidated statement of profit or loss that would have resulted from a 1 yen appreciation of the Japanese yen against the U.S. dollar and the euro at the end of the year. The analysis is based on the assumption that such balances and interest rates are constant.

Sensitivity analysis for foreign exchange exposure is as follows:

|             | Millions           | Millions of Yen    |  |  |  |  |
|-------------|--------------------|--------------------|--|--|--|--|
|             | For the year ended | For the year ended |  |  |  |  |
|             | March 31, 2022     | March 31, 2023     |  |  |  |  |
| U.S. dollar | 94                 | (35)               |  |  |  |  |
| Euro        | (131)              | (116)              |  |  |  |  |

#### (b) Interest rate risk

#### (i) Interest rate risk management

Ricoh's interest-bearing debt is mainly bonds and borrowings with fixed interest rates. At present, the current level of interest rate risk is minor.

## (ii) Sensitivity analysis for interest rate

If the interest rate of financial instruments held by Ricoh as of March 31, 2022 and 2023 had increased by 1%, the impact on profit before income tax expenses in the consolidated statement of profit or loss would have been as set forth below.

The analysis assumes interest-bearing debt with floating rates affected by interest rate fluctuation and is based on the assumption that other factors, including the impact of foreign exchange fluctuation, are constant.

|                                   | Millions of Yen                      |                |  |
|-----------------------------------|--------------------------------------|----------------|--|
|                                   | For the year ended For the year ende |                |  |
|                                   | March 31, 2022                       | March 31, 2023 |  |
| Profit before income tax expenses | (107)                                | (84)           |  |

#### (3) Credit risk management

#### (a) Credit risk of financial assets

Receivables generated from operating activities of Ricoh are exposed to the credit risk of its business partners.

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. As for such risk, Ricoh sets a credit limit, conducts surveys on credit and monitoring of the performance of its business partners on an ongoing basis. Ricoh believes that potential risk such as concentration of credit risk needs to be minimized, and therefore, Ricoh makes adjustment to the extent of granting credit based on the results of monitoring. In addition, Ricoh measures and recognizes an allowance for doubtful receivables by estimating future credit losses with consideration for future situations.

Ricoh considers whether credit risk on that financial instrument has increased significantly since initial recognition by evaluating changes in default risk with reference to factors including the decline of counterparty results and delinquency information. Additionally, Ricoh recognizes credit-impaired financial asset if it experiences serious overdue payment, such as over 180 days or more, and customers with serious financial difficulties. Ricoh directly reduces the gross carrying amount of a financial asset when there are no reasonable expectations of recovering a financial asset in its entirety, such as when receivables are legally extinguished.

When Ricoh uses derivative transactions, financial institutions are limited to those which are highly credible. Therefore, credit risk is recognized to be minimal.

The total carrying amount of financial assets represents the maximum amount of exposure to credit risk.

(i) The measurement of expected credit losses on trade receivables and lease receivables

Ricoh applies the simplified method in which the loss allowance on trade receivables and lease receivables is measured in an amount equal to the lifetime expected credit losses.

(ii) The measurement of expected credit loss on loans and other receivables

When at the end of the reporting period, the credit risk on loans and other receivables has not significantly increased since initial recognition, Ricoh calculates the amount of loss allowance on these financial instruments by estimating the 12-month expected credit loss collectively based upon both historical credit loss experience and forward-looking information such as economic conditions. Ricoh manages loan transactions by ongoing credit evaluations, establishing appropriate credit limits and monitoring accounts periodically to minimize the credit risk of these financial instruments.

## (b) Quantitative and qualitative information on expected credit loss

Allowance for doubtful trade receivables and lease receivables is as follows:

|                                | Millions of Yen                          |  |         |  |  |  |
|--------------------------------|--|--|---------|--|--|--|
|                                | Non-credit-impaired doubtful receivables | Credit-impaired<br>doubtful<br>receivables | Total   |  |  |  |
| As of April 1, 2021            | 10,720                                   | 4,572                                      | 15,292  |  |  |  |
| Net provision                  | 257                                      | 3,116                                      | 3,373   |  |  |  |
| Charge-offs                    | (586)                                    | (1,034)                                    | (1,620) |  |  |  |
| Exchange differences and other | 715                                      | 610  | 1,325   |  |  |  |

#### (4) Liquidity risk management

Ricoh raises funds through borrowings from financial institutions or issuance of bonds. These liabilities are exposed to the liquidity risk that Ricoh would not be able to repay liabilities on the due date resulting from the deterioration of the financing environment.

The Company and certain subsidiaries have committed limit of borrowing and overdraft facilities with financial institutions as well as commercial paper programs.

Ricoh has implemented a cash management system as a pooling-of-funds arrangement to achieve greater efficiencies in the utilization of liquidity on hand from one group company to another company through finance subsidiaries located in each region.

Ricoh has various funding methods and also has several committed lines of credit with financial institutions in order to reduce the liquidity risk.

An analysis of the contractual maturities of financial liabilities other than guarantee liabilities (including derivative financial instruments) is as follows:

| <u>-</u>  |                 |                        |                                    | Millions                                   | of Yen                                      |   |   |                      |

| Contingent consideration                                      | _               | _               | 7,245                | 7,245      |  |  |  |
| Written put option liabilities over non-controlling interests | _               | _               | 22,541               | 22,541     |  |  |  |
| Bonds and borrowings  | 121,042         | 117,985         | 205,110              | 199,713    |  |  |  |
| Total   | 123,121         | 120,064         | 235,258              | 229,861    |  |  |  |

#### Note:

#### (i) Cash and cash equivalents, time deposits and trade and other payables

These are not included in the table above, as their carrying amounts approximate their fair values due to short-term settlement.

## (ii) Trade and other receivables

Trade and other receivables settled in a short period are not included in the table above because the carrying amounts approximate the fair values due to the short maturities of these instruments. Any other receivables that are not material are not included in the table above.

#### (iii) Lease receivables

The fair value of lease receivables is calculated per each receivable classified per certain period based on the present value of such receivable discounted by the interest rate which takes into account the period to maturity and the credit risk. Lease receivables using the inputs described above are classified as Level 3.

#### (iv) Derivatives

Derivative instruments include foreign currency contracts. These derivative instruments are classified as Level 2 since the fair values of these instruments are measured mainly by obtaining quotes from brokers or proper valuation methods based on available information.

#### (v) Securities, equity interests and bonds

Securities, equity interests and bonds include mainly marketable securities and bonds, as well as unlisted securities and equity interests. As the fair value of marketable securities and bonds is measured using quoted prices of identical assets in an active market and is therefore observable, their fair value is classified as Level 1. As the fair value of unlisted securities and equity interests is measured based on valuation techniques using observable indicators such as market prices of comparable companies, as well as unobservable indicators, their fair value is classified as Level 3.

#### (vi) Bonds and borrowings

Bonds and borrowings expected to be settled in less than 12 months are not included in the table above as the carrying amounts approximate fair values due to the short-term maturities of these instruments.

The fair value of bonds and borrowings are calculated from estimated present values using year-end borrowing rates applied to borrowings with similar maturities derived from future cash flows on a per-loan basis as well as calculated based on market prices. Bonds and borrowings using inputs described above are

classified as Level 2, since they are valued using observable market data.

#### (vii) Contingent consideration

Contingent consideration is classified as Level 3, since the fair value of contingent consideration is calculated taking into account future performance of acquired companies and payment amounts.

#### (viii) Written put option liabilities over non-controlling interests

The amount stated as the fair value of written put option liabilities over non-controlling interests is determined by discounting future cash flows at the interest rate taking into account the credit risk at the period to the date of exercise and at the end of the period. Written put option liabilities over non-controlling interests using inputs described above are classified as Level 2, since they are valued using observable market data.

#### (ix) Measurement of financial instruments

Measurement methods for the financial instruments in accordance with IFRS9 'Financial Instruments' were as follows.

At amortized cost: trade receivables, bonds (as liabilities) and borrowings, written put option liabilities over non-controlling interests.

At fair value through profit or loss: derivative assets, securities and equity interests, derivative liabilities, contingent consideration.

At fair value through other comprehensive income: securities and equity interests, bonds (as assets).

Ricoh classifies the equity instruments it holds to maintain and strengthen relationships with the companies as the financial assets measured at fair value through other comprehensive income.

The fair values of major investments in the equity instruments measured at fair value through other comprehensive income were as follows:

#### (As of March 31, 2022)

| Company name                       | Fair value<br>(Millions of Yen) |
|------------------------------------|---------------------------------|

| XAVIS.Co.,Ltd.                     | 482                             |
| HISAMITSU PHARMACEUTICAL CO., INC. | 446                             |
| Tokio Marine Holdings, Inc.        | 263                             |

Note: SAN-AI OBBLI CO.,LTD. changed company name from SAN-AI OIL CO.,LTD. to SAN-AI OBBLI CO.,LTD. on April 1, 2022.

Ricoh sold and derecognized some of its financial assets measured at fair value through other comprehensive income in consideration for improving assets efficiency as well as revising business relationships with the companies. The total amounts of the fair value of such financial assets at the time of sale and the cumulative gains or losses on the sales are as follows:

|                           | For the year ended | For the year ended |  |
|---------------------------|--------------------|--------------------|--|
|                           | March 31, 2022     | March 31, 2023     |  |
|                           | (Millions of Yen)  | (Millions of Yen)  |  |
| Fair value                | 3,803              | 566                |  |
| Cumulative gains (losses) | 2,250              | 227                |  |
| Dividend income           | 98                 | 5                  |  |

The dividends related to held investments in equity instruments designated at fair value through other comprehensive income for the years ended March 31, 2022 and 2023 were ¥875 million and ¥521 million, respectively.

Ricoh transfers to retained earnings the cumulative gains or losses arising from changes in the fair value if financial assets measured at fair value through other comprehensive income recognized in other components of equity when it disposes of an investment or when the fair value declines significantly. Cumulative gains or losses of other comprehensive income, net of tax, that were transferred to retained earnings for the years ended March 31, 2022 and 2023 were \mathbb{\frac{1}{2}}1,547 million and \mathbb{\frac{1}{2}}159 million, respectively.

#### (6) Fair value measurement applied in consolidated statement of financial position

The analysis of financial instruments subsequently measured at fair value is shown below. The fair value hierarchy of financial instruments is categorized as follows from Level 1 to Level 3:

Reclassification among the levels in the fair value hierarchy is recognized upon the date when the event or change in circumstances causing the reclassification to occur.

Level 1: Fair values measured using quoted prices in active markets with respect to identical assets or liabilities

Level 2: Fair values measured using inputs other than quoted prices that are observable, either directly or indirectly

Level 3: Fair values measured using inputs not based on observable market data

The following tables present the fair-value hierarchy of financial assets and liabilities that are measured at fair value in the consolidated statement of financial position.

|                          |         | Millions of | of Yen   |        |
|--------------------------|---------|-------------|----------|--------|
|                          |         | As of March | 31, 2022 |        |

| Contingent               | _                    | _       | 7,245   | 7,245  |  |  |
| consideration            |                      |         |         |        |  |  |
| Total liabilities        | _                    | 362     | 7,245   | 7,607  |  |  |

#### Note:

- (i) Derivative instruments include foreign currency contracts. These derivative instruments are classified as Level 2 since the fair values of these instruments are measured mainly by obtaining quotes from brokers or proper valuation methods based on available information.
- (ii) Securities, equity interests and bonds include mainly marketable securities and bonds, as well as unlisted securities and equity interests. As the fair value of marketable securities and bonds is measured using quoted prices of identical assets in an active market and is therefore observable, their fair value is classified as Level 1. As the fair value of unlisted securities and equity interests is measured based on valuation techniques using observable indicators such as market prices of comparable companies, as well as unobservable indicators, their fair value is classified as Level 3.
- (iii) Contingent consideration is classified as Level 3, since the fair value of contingent consideration is calculated taking into account future performance of acquired companies and payment amounts.

As to financial assets categorized at Level 3, significant changes in fair value are not expected in case that an unobservable input is replaced by a reasonable alternative assumption.

A reconciliation of financial assets categorized at Level 3 from beginning balances to ending balances is as follows:

| _  | Millions of Yen    |                    |  |  |
|--|--------------------|--------------------|--|--|
|  | For the year ended | For the year ended |  |  |
|  | March 31, 2022     | March 31, 2023     |  |  |
| Beginning balance                            | 2,453              | 3,011              |  |  |
| Total gains and losses:                      |                    |                    |  |  |
| - in profit or loss (i)                      | 161                | (435)              |  |  |
| - in other comprehensive income (ii)         | 93                 | 33                 |  |  |
| Purchases                                    | 369                | 1,960              |  |  |
| Sales  | (64)               | (235)              |  |  |
| Reclassified to Level 1 due to listing (iii) | (100)              | _                  |  |  |
| Others                                       | 99                 | 216                |  |  |
| Ending balance                               | 3,011              | 4,550              |  |  |

#### Note:

- (i) Total gains and losses included in net profit or loss relate to financial assets held at the end of the period that are restated to fair value through net profit or loss. These are included in "Finance income" and "Finance costs" in the consolidated statement of profit or loss.
- (ii) Total gains and losses included in other comprehensive income relate to financial assets at fair value through other comprehensive income held at the end of the period. These are included in "Net changes in fair value of financial assets measured through other comprehensive income" in the consolidated statement of comprehensive income (see Note 31, "Other Comprehensive Income").
- (iii) Reclassification is because the initial public offering of investees made possible to observe its fair value by the share market price.

A reconciliation of financial liabilities categorized at Level 3 from beginning balance to ending balance is as follows:

|                                      | Millions of Yen    |
|--------------------------------------|--------------------|
|                                      | For the year ended |
|                                      | March 31, 2023     |
| Beginning balance                    | <u> </u>           |

#### (7) Derivative financial instruments and hedging activities

Ricoh manages its exposure to certain market risks, those primarily related to foreign currency and interest rate, through the use of derivative instruments. As a matter of policy, Ricoh does not enter into derivative contracts for trading or speculative purposes.

Ricoh recognizes all derivative instruments as either assets or liabilities in the consolidated statement of financial position and measures those instruments at fair value. When entering into a derivative contract, Ricoh determines as to whether or not the hedging relationship meets hedge effectiveness requirements.

In general, a derivative applicable for hedge accounting may be designated as either a hedge of the exposure to changes in the fair value of a recognized asset or liability ("fair value hedge") or a hedge of the exposure to changes in variability of the expected cash flows associated with an existing asset or liability or a highly probable forecasted transaction ("cash flow hedge").

The periods in which the cash flows associated with the cash flow hedge derivatives are expected to occur and the periods in which the cash flows are expected to enter into the determination of profit or loss are within 1 year.

Gains and losses resulting from the fair values of derivatives not designated as hedging instruments were ¥670 million (loss) and ¥1,798 million (gain) for the years ended March 31, 2022 and 2023, respectively, and are included in "Finance income" and "Finance costs" in the consolidated statement of profit or loss. The gains and losses as noted above were due mainly to the impact of foreign exchange fluctuation.

As of March 31, 2022 and 2023, hedging instruments designated as cash flow hedges were not recorded.

As of March 31, 2022 and 2023, cash flow hedge reserves were not recorded.

#### (8) Liquidated financial assets not qualifying for derecognition criteria

Certain foreign subsidiaries of the Company transferred lease receivables with recourse. Ricoh recognized receivables subject to these transfers as well as relevant liabilities as "Borrowings" since the risks and economic values were retained and these transactions did not meet the derecognition criteria for financial assets.

The following table presents the carrying amount of financial assets and related liabilities that are transferred but do not meet the derecognition criteria, as well as the fair value where related liabilities have recourse only to the transferred assets:

|                                | Millions o           | of Yen     | Millions of Yen      |            |  |
|--------------------------------|----------------------|------------|----------------------|------------|--|
|                                | As of March 31, 2022 |            | As of March 31, 2023 |            |  |
|                                | Carrying amount      | Fair value | Carrying amount      | Fair value |  |
| Finance lease receivables, net | 260                  | 282        | 99                   | 105        |  |
| Borrowings                     | 260 260              |            | 99                   | 99         |  |

#### 26. OTHER INCOME

The components of other incomes are as follows:

|   | Millions of Yen    |                    |  |
|---|--------------------|--------------------|--|
|   | For the year ended | For the year ended |  |
|   | March 31, 2022     | March 31, 2023     |  |
| Gain on sale of tangible assets and intangible assets   | 14,004             | 11,738             |  |
| Government grants                                       | 1,142              | 810                |  |
| Gain on step acquisitions through business combinations | _                  | 2,401              |  |
| Others  | 2,814              | 6,595              |  |
| Total   | 17,960             | 21,544             |  |

## 27. SALES

#### 1. Disaggregation of sales

As described in Note 5, Operating Segments, Ricoh has five business units as reportable segments, namely Digital Services, Digital Products, Graphic Communications, Industrial Solutions, and Other. Sales are based on the location of customers and are disaggregated by geographic region. The relationship between these disaggregated sales and each reportable segment is as follows:

| _                                     |         |              | Millions of Yen                   |         |           |
|---------------------------------------|---------|--------------|-----------------------------------|---------|-----------|
| For the year ended March 31, 2022     | Japan   | The Americas | Europe, Middle<br>East and Africa | Other   | Total     |
| Digital Services                      | 615,808 | 329,961      | 380,384                           | 102,039 | 1,428,192 |
| Digital Products                      | 16,754  | 669          | 49                                | 6,994   | 24,466    |
| Graphic<br>Communications             | 26,381  | 86,820       | 48,520                            | 25,361  | 187,082   |
| <b>Industrial Solutions</b>           | 37,628  | 22,115       | 17,617                            | 22,137  | 99,497    |
| Other                                 | 8,671   | 4,082        | 3,608                             | 2,989   | 19,350    |
| Total segment sales                   | 705,242 | 443,647      | 450,178                           | 159,520 | 1,758,587 |
| Revenue from contracts with customers | 700,574 | 391,073      | 376,145                           | 134,665 | 1,602,457 |
| Revenue from other sources            | 4,668   | 52,574       | 74,033                            | 24,855  | 156,130   |

<sup>\*1</sup> Figures exclude intersegment sales.

<sup>\*2</sup> The electronics business in Industrial Solutions has been reclassified into Digital Products from the current year. Prior year comparative figures have also been reclassified to conform to the current year's presentation.

<sup>\*3</sup> Revenue from other sources includes revenue from lease contracts as defined under IFRS 16.

|                                       | Millions of Yen |              |                                   |         |           |

Millions of Von

The Ricoh's business consists of Digital Services, Digital Products, Graphic Communications, Industrial Solutions, and Other, and sells products and provides services in each business.

Sales are measured at the amount of consideration promised in a contract with the customer, after deducting the amount of discounts, rebates based on the volume of purchases, etc. For variable consideration, including variable discounts and rebates, Ricoh estimates the amount of consideration to

<sup>\*2</sup> Sales of PFU are included in Other segment.

<sup>\*3</sup> Revenue from other sources includes revenue from lease contracts as defined under IFRS 16.

<sup>\*1</sup> The above revenue includes revenue from other sources than IFRS 15, mainly lease revenue in accordance with IFRS 16.

<sup>\*2</sup> Sales of PFU are included in Other segment.

<sup>\*3</sup> The electronics business in Industrial Solutions has been reclassified into Digital Products from the current year. Prior year comparative figures have also been reclassified to conform to the current year's presentation.

which it is entitled using all reasonably available information, including historical, current, and projected estimates, and recognizes revenue only to the extent that it is highly probable that a significant reversal will not occur.

In Digital Services and Other, revenue from sales of merchandise in which Ricoh is an agent is recognized at the net amount.

With respect to product warranties, Ricoh accounts for such warranties as a provision, since the customer does not have the option to independently purchase such warranties and Ricoh does not provide services to the customer in addition to the warranty that the finished goods comply with the agreed-upon specifications. There are no significant return and refund obligations and other similar obligations.

Revenue from products in Digital Services (equipment such as multifunctional printers, printers, personal computers and servers), Digital Products (OEM of multifunctional printers and printers) and Graphic Communications (production printer, inkjet heads, imaging systems and industrial printers, etc.) is recognized typically when they have been installed and accepted by the customer, and revenue from related consumables related to these equipment is recognized at the time of delivery, as delivery represent the timing at which legal title and physical possession of the product, significant risks associated with ownership of the product, and economic value are transferred to the customer, and performance obligation of Ricoh is deemed to have been satisfied.

Revenue from the sales of Industrial Solutions (thermal paper, industrial optical components, etc.) and major products of Other is recognized at the time when such equipment, etc., is delivered to the customer, as the customer acquires control over the equipment, etc., at the time of delivery of the equipment, etc., and performance obligation of Ricoh is deemed to have been satisfied.

In the office printing business in Digital Services and the commercial printing business of Graphic Communications, revenue is recognized from maintenance contracts that charge a metered fee based on the customer's equipment usage, a fixed fee, or a base fee plus a metered fee based on usage. Ricoh has determined that its performance obligation under maintenance contracts is to provide the customer with equipment available at all times in accordance with the contract, and revenue is recognized over a certain period of time as the relevant performance obligation is satisfied. Revenue from maintenance contracts based on a fixed fee is recognized equally over the contract period for the transaction amount related to the contract with the customer. Revenue from maintenance contracts that charge a metered fee based on usage and that charge a base fee plus a metered fee based on usage are recognized based on the amount invoiced to the customer.

In the office services business of Digital Services, sales of software services are mainly divided into two types: license-based services with maintenance services, and cloud-based services. Revenue from license-based services is recognized when the software is provided according to the customer's specifications and the customer acquires control over the software at the time of delivery, and performance obligation of Ricoh is deemed to have been satisfied. On the other hand, revenue from maintenance services is recognized over time, as maintenance and support services for products are provided over a certain period of time and performance obligation of Ricoh is satisfied over a certain period of time. Similarly, revenue from cloud-based services is recognized over time, as services are provided through applications according to customer's specifications over a certain period of time.

As receivables under installment sales contracts are billed monthly over the installment payment period, Ricoh makes adjustments with respect to the financing component. For other contracts, Ricoh receives consideration generally within one year after performance obligation of Ricoh is satisfied, and they do not contain a significant financing component.

#### 2. Receivables and liabilities from contracts with customers

The ending balance of receivables and liabilities from contracts with customers were as follows:

|   | Million             | Millions of Yen      |  |  |
|---|---------------------|----------------------|--|--|
|   | As of April 1, 2022 | As of March 31, 2023 |  |  |
| Receivables from contracts with customers | 372,249             | 445,253              |  |  |
| Contract liabilities                      | 68,366              | 86,232               |  |  |

Contract liabilities are included in "Other current liabilities" and "Other non-current liabilities" on the consolidated statement of financial position. Contract liabilities are mainly related to advanced payments from customers for maintenance contracts. For revenues recognized for the years ended March 31, 2022 and 2023, amounts included in contract liabilities at the beginning of the fiscal year were ¥28,030 million and ¥37,805 million, respectively. For the years ended March 31, 2022 and 2023, the amount of revenue recognized from performance obligations satisfied (or partially satisfied) in the previous period was not material.

#### 3. Transaction price allocated to the remaining performance obligation

As of March 31, 2022 and 2023, the remaining performance obligation of the contracts with an initial service period of more than one year at the end of reporting period was ¥198,575 million and ¥222,127 million, respectively. The transaction prices are mainly related to maintenance contracts for equipment sold to customers, and include fixed fees and the base fee component for metered fee contracts. They do not include the metered fee component for metered fee contracts. The time frame in which Ricoh expects to recognize such transaction prices as revenue is approximately one to five years. Ricoh has applied a practical expedient, and omits disclosures for individual contracts with expected durations of one year or less.

#### 4. Assets recognized from the costs to obtain or fulfill contracts with customers

Ricoh capitalizes the incremental costs of obtaining contracts with customers as an asset if those costs are expected to be recoverable and records them in "Other current assets" and "Other non-current assets" in the consolidated statement of financial position. Incremental costs of obtaining contracts are those costs that Ricoh incurs to obtain a contract with a customer that would not have been incurred if the contract had not been obtained. Incremental costs of obtaining contracts recognized as assets by Ricoh are mainly the initial costs incurred related to sales commissions. The related assets are amortized on a straight-line basis over the estimated contract terms.

|  | Millions of Yen     |                      |  |
|--|---------------------|----------------------|--|
|  | As of April 1, 2022 | As of March 31, 2023 |  |
| Assets recognized from costs to obtain a contract with customers | 6,727               | 7,063                |  |

For the years ended March 31, 2022 and 2023, amortization associated with the assets recognized from the costs to obtain contracts with customers were \(\frac{\pma}{4}\),232 million and \(\frac{\pma}{4}\),594 million, respectively.

## 28. SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Details of selling, general and administrative expenses are as follows:

|  | Millions                          | of Yen         |
|--|-----------------------------------|----------------|
|  | For the year ended For the year e |                |
|  | March 31, 2022                    | March 31, 2023 |

| Compensation for acquiring stock                     | 11                                | 10                                |
| Stock-based compensation with stock price conditions | 17                                | 40                                |
| Total  | 354                               | 388                               |

#### 34. CAPITAL COMMITMENTS AND CONTINGENCIES

As of March 31, 2022 and 2023, Ricoh had outstanding contractual commitments for acquisition or construction of property, plant and equipment and other assets aggregating to ¥ 7,662 million and ¥ 13,222 million, respectively.

As of March 31, 2022 and 2023, there were no significant financial guarantee.

#### 35. GROUP ENTITIES

Refer to "4. Information on Affiliates" in "I. Overview of the Company".

#### 36. ASSOCIATES

#### 1. Material associates

Ricoh's material associate is Ricoh Leasing Co., Ltd. (referred to as "Ricoh Leasing") (reporting date: March 31).

Ricoh Leasing is engaged in the general leasing business in Japan. In addition to leasing Ricoh's products to customers, Ricoh Leasing conducts factoring transactions with Ricoh group companies in Japan.

The following table reconciles summarized financial statements of Ricoh Leasing to the carrying amounts of Ricoh's equity interests.

|                                    | Million              | s of Yen             |
|------------------------------------|----------------------|----------------------|
|                                    | As of March 31, 2022 | As of March 31, 2023 |
| Current assets                     | 665,836              | 704,170              |
| Non-current assets                 | 557,959              | 577,543              |
| Current liabilities                | 284,164              | 295,089              |
| Non-current liabilities            | 737,808              | 774,071              |
| Total equity                       | 201,823              | 212,553              |
| Percentage ownership interest      | 33.7%                | 33.7%                |
| Total equity attributable to Ricoh | 68,014               | 71,822               |
| Consolidation adjustments          | 361                  | 279                  |
| Carrying amount of equity          | 68,375               | 72,101               |

At the time of loss of control of Ricoh Leasing in April 2020, residual investments were valued at fair value reflecting the premium on significant influence. Therefore, carrying amount of equity attributable to Ricoh reflected the premium on significant influence.

The amount calculated by multiplying the number of shares of Ricoh Leasing held by Ricoh by the market prices on the same day were \(\frac{\pmax}{3}\)4,565 million and \(\frac{\pmax}{3}\)9,547 million for the years ended March 31, 2022 and 2023, respectively.

|                                     | Millions of Yen                   |                                   |
|-------------------------------------|-----------------------------------|-----------------------------------|
|                                     | For the year ended March 31, 2022 | For the year ended March 31, 2023 |
| Sales                               | 71,897                            | 76,709                            |
| Profit                              | 14,196                            | 15,801                            |
| Other comprehensive income          | 691                               | (645)                             |
| Share of:                           |                                   |                                   |
| Profit                              | 4,784                             | 5,339                             |
| Other comprehensive income (loss)   | 233                               | (218)                             |
| Total comprehensive income          | 5,017                             | 5,121                             |
| Dividends received by Ricoh Leasing | 1,138                             | 1,350                             |

## 2. Individually immaterial associates

Carrying amounts of Ricoh's equity interests in individually immaterial associates were as follows:

|            | Million              | Millions of Yen      |  |
|------------|----------------------|----------------------|--|
|            | As of March 31, 2022 | As of March 31, 2023 |  |
| Associates | 13,021               | 11,428               |  |

Ricoh's share of total comprehensive income in individually immaterial associates was as follows:

|                                   | Millions of Yen                   |                                   |
|-----------------------------------|-----------------------------------|-----------------------------------|
|                                   | For the year ended March 31, 2022 | For the year ended March 31, 2023 |
| Share of:                         |                                   |                                   |
| Profit                            | 820                               | 812                               |
| Other comprehensive income (loss) | 53                                | (41)                              |
| Total comprehensive income        | 873                               | 771                               |

#### 37. SUBSEQUENT EVENTS

(Business partnership and the conclusion of a business integration agreement and a shareholders agreement)

The Company and Toshiba Tec Corporation ("Toshiba Tec") resolved at meetings of the Boards of Directors of both companies held on May 19, 2023, to conclude an agreement to set the terms and conditions for integrating businesses ("Integration Agreement") regarding the development and manufacturing of multifunction printers and other devices by necessary procedures such as company split effective on a specific day between April 1, 2024 and June 30, 2024 to be separately agreed upon by the two companies ("Business Integration"). The Boards of Directors of both companies also resolved to conclude a shareholders agreement related to the Business Integration ("Shareholders Agreement").

#### 1. Background and External Environment

Although the office printing market is recovering from the sharp decline in printing volume caused by the spread of the COVID-19 pandemic, the pre-existing and ongoing trend toward a paperless transition continues. The global market as a whole will continue on a gradual downward trend.

Against the backdrop of expanding remote work and a worsening labor shortage due to Japan's shrinking workforce, the need for digitalization of various operations in offices and in the frontlines has become apparent. Companies in the office printing industry are positioning Digital Transformation ("DX") demand as a growth area and focusing on developing and providing solutions using IT (information

As the competitive landscape shifts from providing stand-alone hardware to solutions combined with software and services, a common challenge has become a growing competitiveness in the development and production of printing devices. In addition, there is a need to build resilient supply chains that can respond flexibly to rising geopolitical risks. On the other hand, opportunities exist for creating new customer value based on printing-related technology through the expansion of digitalization of office and field operations.

#### 2. Outline of the Business Integration

technology).

The Company is committed to transforming itself into a digital services company with its mission and vision of "Fulfillment through Work" to achieve sustainable growth and further development. The Company is working closely with its customers to contribute to the transformation of their business processes and the creation of new value by combining various edge devices and optimal applications. Toshiba Tec aims to become "a global top solutions partner" that co-creates solutions leading to new value and resolving social issues together with its customers and partners by practicing its corporate philosophy, "Create with You".

To respond to the previously described market changes, the two companies will enter into a joint venture that takes on the role of MFPs' development and manufacturing to realize the following:

- (1) Strengthen competitiveness and business foundations of office printing device manufacturing By bringing the two companies' respective technological strengths in the development and production of office printing equipment, the two companies will expand their planning, design, and development functions. The two companies will also make joint purchases for parts and materials, and mutually utilize their production bases to build a resilient supply chain that responds flexibly to heightened geopolitical risks and aims to achieve more robust manufacturing. Furthermore, the two companies will contribute to the realization of a circular economy by enhancing the efficiency and sophistication of reuse and recycling efforts to collect used MFPs.
- (2) Collaborate on the planning and development of new solutions in the frontlines utilizing the technologies and resources of the two companies

The Business Integration will enable the two companies to shift their resources to focus more on areas of innovation and individual areas of differentiation, thereby increasing their competitiveness and

strengthening their business foundations. Furthermore, the two companies will work on joint planning and development of new solutions to support customers' DX by integrating image recognition technology utilizing Toshiba Tec's barcode printer, RFID, etc., and the Company's optical and image processing technologies, such as cameras and projectors.

The two companies will provide competitive, high-quality, and high-value-added products created through co-creation to the global market through their respective branded products that pursue their unique user experience. Each of the two companies will provide solutions combined with various software and services through their respective sales channels to help customers enhance their productivity by digitalizing and improving workflows tailored to the needs of each of their operations. Thus, each of the two companies will contribute to resolving social issues by helping customers realize DX in their workplaces.

#### 3. Summary of the Business Integration

#### (1) Method of the Business Integration

The Business Integration covers MFPs' development and the manufacturing operations of the two companies in Japan and overseas, excluding certain countries' businesses\* of Toshiba Tec. This coverage is hereinafter collectively referred to as the "Business". The Business is, furthermore, hereinafter specified as "Ricoh's Business" and "Toshiba Tec's Business". The Business Integration will be implemented mainly by an absorption-type split in order to succeed the Ricoh's Business and Toshiba Tec's Business to Ricoh Technologies Company, Ltd., a subsidiary company of the Company in Japan ("Joint Venture"). The investment ratio in the Joint Venture after the Business Integration shall be 85% by the Company and 15% by Toshiba Tec.

The absorption-type split of the Company to implement the Business Integration is hereinafter referred to as the "Ricoh Absorption-type Split", and the absorption-type split agreement between the Company and the Joint Venture for the Ricoh Absorption-type Split is hereinafter referred to as the "Ricoh Absorption-type Split Agreement". The absorption-type split of Toshiba Tec to implement the Business Integration is hereinafter referred to as the "Toshiba Tec Absorption-type Split", and the absorption-type split agreement between Toshiba Tec and the Joint Venture for the Toshiba Tec Absorption-type Split is hereinafter referred to as the "Toshiba Tec Absorption-type Split Agreement".

Furthermore, the Ricoh Absorption-type Split and the Toshiba Tec Absorption-type Split are hereinafter collectively referred to as the "Absorption-type Split", and the Ricoh Absorption-type Split Agreement and the Toshiba Tec Absorption-type Split Agreement are hereinafter collectively referred to as the "Absorption-type Split Agreement".

Business Integration will be accounted as an acquisition of Toshiba Tec's Business by the Joint Venture on the effective date in accordance with IFRS 3 "Business Combinations".

\* Toshiba Tec businesses in certain countries may also be included in Toshiba Tec's Business at Toshiba Tec's discretion after the completion of certain procedure.

(2) Schedule of the Business Integration

| Both companies' Board of Directors to approve | May 19, 2023 |
|---|--------------|
| the conclusion of the Integration Agreement   |              |
| and the Shareholders Agreement                |              |
| Conclusion of the Integration Agreement and   | May 19, 2023 |
| the Shareholders Agreement                    |              |
| Both companies' Board of Directors to approve | Undecided    |
| the conclusion of the Absorption-type Split   |              |
| Agreement                                     |              |
| Conclusion of the Absorption-type Split       | Undecided    |
| Agreement                                     |              |

| Effective date of the Absorption-type Split | A specific day between April 1, 2024 and June |
|---|---|
|   | 30, 2024 to be separately agreed upon by the  |
|   | two companies (scheduled)                     |

(Note 1) Both Ricoh Absorption-type Split and Toshiba Tec Absorption-type Split will be conducted as a simplified absorption-type split under Article 784, Paragraph 2 of the Companies Act, without obtaining approval at the shareholders' meetings of both companies.

(Note 2) The implementation of the Business Integration is subject to the conditions that, among others, (i) all procedures under the competition laws (including procedures such as notifications and obtaining clearances, etc.) and notifications and other procedures under foreign investment regulations in Japan and other countries or regions have been completed, and (ii) no event has occurred or been found that has or may have a material adverse effect on the assets, business, financial condition, operating results or cash flow status or other value of the Business of both companies.

(Note 3) The above schedule is the current schedule and is subject to change upon consultation between the two companies in the course of the procedures for the Business Integration, depending on the obtainment of permits and approvals from the relevant authorities or for other reasons.

(3) Outline of the successor company in absorption-type split (the Joint Venture) (as of March 31, 2023)

|      | Outline of the successor company in absorption-type split (the Joint Venture) (as of March 31, 2023) |   |      |

#### 5. Future outlook

Ricoh is investigating the impact of the Absorption-type Split and the Business Partnership on the consolidated business results for the fiscal year ending March 31, 2024.

#### (Business Combination)

On June 1, 2023, Ricoh Europe Holdings PLC, a wholly owned subsidiary of the Company, acquired all shares of PFH Technology Group, a leading provider of IT infrastructure, cloud and managed workplace services in Ireland, in order to expand digital services.

Consideration for acquisition in cash is 88.25 million EURO \*1 (¥13,123 million \*2), which was paid on acquisition date.

The fair value of assets acquired, liabilities assumed, and goodwill are in the process of being calculated. (\*1) In addition to consideration for acquisition in cash, the share purchase agreement also includes contingent consideration. The contingent consideration is calculated on the basis of agreed-upon conditions depending on the achievement of PFH Technology Group's performance targets and could be up to 28.75 million EURO (undiscounted).

(\*2) 1 EURO = 148.70 yen (as of June 1, 2023)

#### 38. AUTHORIZATION OF CONSOLIDATED FINANCIAL STATEMENTS

The consolidated financial statements were authorized for issue by Akira Oyama, Representative Director and President, and Takashi Kawaguchi, Director and Executive Corporate Officer, on June 26, 2023.

Deloitte Touche Tohmatsu LLC Marunouchi Nijubashi Building 3-2-3 Marunouchi, Chiyoda-ku Tokyo 100-8360 Japan

#### INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of Ricoh Company, Ltd.:

#### **Opinion**

We have audited the consolidated financial statements of Ricoh Company, Ltd. and its subsidiaries (the "Group"), which comprise the consolidated statement of financial position as of March 31, 2023, and the consolidated statement of profit or loss, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of March 31, 2023, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards ("IFRSs").

## **Basis for Opinion**

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the provisions of the Code of Professional Ethics in Japan, and we have fulfilled our other ethical responsibilities as auditors. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

## Valuation of goodwill related to Office Printing (Europe, Middle East and Africa sales group)

#### Key Audit Matter Description

As described in Note 12 to the consolidated financial statements, the Group recorded goodwill related to Office Printing (Europe, Middle East and Africa sales group) in the amount of 55,298 million yen at the end of the current fiscal year. The goodwill arose from the past acquisition aiming to expand the Group's sales and services network and customer base in the Office Printing business, and there is a risk that expected cash flows are not generated due to deviations from the business plan, changes in the market environment, and other adverse changes.

In testing goodwill for impairment, the Group measures the recoverable amount of the group of cash-generating units, including goodwill, based on the value in use. The value in use is the present value of the estimated future cash flows based on the business plan prepared by management and the expected growth rate after the periods covered by the business plan.

In estimating the value in use, the Group uses the followings as significant underlying assumptions:

- The estimated number of units sold, print output volume and sales prices of multi-function printers during the periods covered by the business plan
- · Costs related to sales
- The expected growth rate after the periods covered by the business plan
- · The discount rate

These assumptions can be affected by the decrease in office attendance rates due to downsizing of office spaces and teleworking that has taken root with the COVID-19 pandemic as a turning point, the fluctuations in sales prices in accordance with cost conditions, etc., and involve significant judgments made by management and uncertainties. Therefore, we identified the valuation of goodwill related to Office Printing (Europe, Middle East and Africa sales group) as a key audit matter.

## How the Key Audit Matter Was Addressed in the Audit

In testing the valuation of goodwill related to Office Printing (Europe, Middle East and Africa sales group), we mainly performed the following procedures. These include procedures performed by component auditors of consolidated subsidiaries under our instructions:

- 1. Evaluation of Internal Controls
  - We tested the design and operating effectiveness of internal controls over the processes related to the valuation of goodwill, and mainly focused on the internal controls that evaluate the reasonableness of significant assumptions used in the business plan.
- 2. Evaluation of Reasonableness of Value in Use
  - · We discussed with management the estimated number of units sold, print volume and sales prices of multi-function printers, costs related to sales and the expected growth rate, as well as the effects of the decrease in office attendance rates due to downsizing of office spaces and teleworking that has taken root with the COVID-19 pandemic as a turning point, and the fluctuations in sales prices in accordance with cost conditions, etc., and performed a trend analysis using historical results. We also compared the estimated number of units sold and print volume and the expected growth rate with available external information regarding the market forecast. In addition, we examined the consistency of estimated sale prices with historical results and relevant information and evaluated its feasibility.
  - We evaluated the estimation accuracy of the business plan and whether management biases existed by comparing the business plan prepared in the past with historical results.
  - With the assistance of our network firm's fair value specialist, we evaluated the appropriateness of the valuation method and discount rate used by management in estimating the value in use.
  - We evaluated the effect on the recoverable amount using alternative assumptions which reflected estimation uncertainty in the estimated future cash flows, expected growth rate and discount rate.

## Valuation of deferred tax assets for the tax sharing group in Japan

#### Key Audit Matter Description

Addressed in the Audit In testing the valuation of deferred tax assets for the tax sharing group in Japan, we mainly performed the following procedures:

How the Key Audit Matter Was

Ricoh Company, Ltd. (the "Company") and the "tax sharing group") utilize the group tax sharing system in Japan.

some of its Japanese subsidiaries (collectively,

As described in Note 21 to the consolidated

financial statements, deferred tax assets, before offsetting against deferred tax liabilities, was 120.370 million ven at the end of the current fiscal year, and are mostly attributable to the tax sharing group in Japan.

The Company assesses the probability that a portion or all of the future deductible temporary differences, net operating loss carryforwards and tax credit carryforwards can be used to offset future taxable profits on recognition of deferred tax assets related to the tax sharing group.

The future taxable profits of the tax sharing group in Japan are estimated based on the business plan prepared by management. Significant assumptions, including sales from the office services business, the estimated number of units sold and sales prices of multi-function printers and consumables, such as toner, and related costs, etc. are used in preparing the business plan. These assumptions can be affected by the penetration of new working styles that have taken root with the COVID-19 pandemic as a turning point, rising costs of resources, and inflation, etc. and involve significant judgments made by management and uncertainties. Therefore, we identified the valuation of deferred tax assets for the tax sharing group in Japan as a key audit matter.

#### 1. Evaluation of Internal Controls

- · We tested the design and operating effectiveness of internal controls over the evaluation of deferred tax assets related to the tax sharing group in Japan and focused on the internal controls that evaluate the reasonableness of significant assumptions used in the business plan.
- 2. Evaluation of Reasonableness of Future Taxable **Profits** 
  - · We discussed with management sales from the office services business, the estimated number of units sold and sale prices of multi-function printers and consumables, such as toner, as well as effects of the penetration of new working styles that have taken root with the COVID-19 pandemic as a turning point, etc., performed a trend analysis using historical results, and compared the estimated number of units sold and print volume and the expected growth rate with available external information regarding the market forecast. In addition, we examined the consistency of estimated related costs with historical results and relevant information and evaluated its feasibility.
  - We evaluated the estimation accuracy of the business plan and whether management biases existed by comparing the business plan prepared in the past with historical results.

#### Other Information

Management is responsible for the other information. Audit & Supervisory Board members and the Audit & Supervisory Board are responsible for overseeing the Directors' execution of duties relating to the design and operating effectiveness of the controls over the other information. The other information comprises the information included in the Annual Securities Report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Responsibilities of Management and Audit & Supervisory Board Members and the Audit & Supervisory Board for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern in accordance with IFRSs and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Audit & Supervisory Board members and the Audit & Supervisory Board are responsible for overseeing the Directors' execution of duties relating to the design and operating effectiveness of the controls over the Group's financial reporting process.

## Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in Japan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the consolidated financial statements,
whether due to fraud or error, design and perform audit procedures responsive to those risks. The
procedures selected depend on the auditor's judgment. In addition, we obtain audit evidence that is
sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material
misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve
collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain, when performing risk assessment procedures, an understanding of internal control relevant to
  the audit in order to design audit procedures that are appropriate in the circumstances, but not for the
  purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate whether the overall presentation and disclosures of the consolidated financial statements are
  in accordance with IFRSs, as well as the overall presentation, structure and content of the
  consolidated financial statements, including the disclosures, and whether the consolidated financial
  statements represent the underlying transactions and events in a manner that achieves fair
  presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements.
   We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with Audit & Supervisory Board members and the Audit & Supervisory Board regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide Audit & Supervisory Board members and the Audit & Supervisory Board with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with Audit & Supervisory Board members and the Audit & Supervisory Board, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## Interest Required to Be Disclosed by the Certified Public Accountants Act of Japan

Our firm and its designated engagement partners do not have any interest in the Group which is required to be disclosed pursuant to the provisions of the Certified Public Accountants Act of Japan.
