# 1. Performance

## (1) Qualitative Information on Consolidated Business Results

### \* Overview of the Year of Fiscal 2025 (April 1, 2025 – March 31, 2026)

#### Business Environment

The global economy continued to grow moderately during the term, supported by stabilized inflation rates, monetary easing policies in major economies, and increased investment in AI-related sectors. Meanwhile, against a backdrop of protectionist trade policies and geopolitical tensions, uncertainty persisted, and financial and capital markets also saw volatility. Escalated military tensions in the Middle East have recently led to rising energy prices and disruptions in supply chains. The Japanese economy has continued on a moderate recovery trend, supported by improvements in employment and income environments. However, real wage growth remained sluggish due to rising prices, particularly for food items.

Against this backdrop, remote work and other aspects of new ways of working became entrenched in the Company's core workplace market, and business processes continued to evolve with advancements in AI and IT. This led to changes in challenges facing customers and their needs over time, with a growing demand for digital services that support business digitization and productivity improvements despite the shrinking printing demand.

Under these circumstances, the economic climate remained uncertain, including monetary policy trends in each country and fluctuations in foreign exchange and financial markets.

Regarding the average exchange rates of major currencies, the yen in fiscal 2025 was ¥150.79 to the U.S. dollar, down ¥1.86 from the previous year, and ¥174.81 to the euro, up ¥10.95.

#### Results for the Fiscal Year

For Ricoh (the Company and its affiliates), fiscal 2025 was the final year of the 21st Mid-Term Management Strategy which started in April 2023. We advanced our efforts with an aim to become a digital services company that supports workers' creativity and provides services to meet changing workplaces as our medium- to long-term goal, in order to achieve the Ricoh Group's Mission & Vision of "Fulfillment through Work."

The Ricoh Group focuses on three domains, Process Automation to free workers from routine tasks, Workplace Experience that boost creativity, and IT Services that build robust workplace foundations. In these focused domains, we provide services with global delivery capability in the changing workplace environment while tapping a global customer base, our sales and service structures with strong capabilities in identifying and addressing workspace challenges, and our distinctive in-house intellectual property\*.

\* In-house intellectual property: Intellectual property created through the company's own efforts that has economic value, such as serving as a source of revenue through licensing fees and other means.

In fiscal 2025, we boosted the Office Services business earnings by acquiring high-values added recurring revenue contracts. In the Office Printing business, we focused on maintaining and enhancing profitability by generating synergies in development and production of MFPs and other devices through ETRIA, a joint venture company founded in July 2024 with Toshiba Tec Corporation ("Toshiba Tec") and rigorously implementing streamlined MIF management and sales initiatives to targeting customers. In addition, Oki Electric Industry Co., Ltd. ("OKI") joined ETRIA in October 2025, and we have been reinforcing our development and production capabilities. As well as implementing measures under our Corporate Value Improvement Project, we strengthened our organizational capabilities to respond more flexibly to changing business conditions while pursuing an earnings structure that befits a digital services company. As a response to the introduction of new U.S. tariff policies, we acted to mitigate tariff impacts in all the areas of production, logistics, and procurement through pricing and sales channels.

Consolidated sales for the term increased by 3.2% year-on-year (increased by 1.8% excluding the foreign exchange impact) to ¥2,608.3 billion. While in the Office Printing business, sales increased mainly due to contributions from product sales by ETRIA to Toshiba Tec and OKI and growth in the Office Services business despite sluggish non-hardware sales and the impact of U.S. tariff policies.

By region, in Japan, sales increased, centering on the Office Services business with continued strong performance. We captured demands for PC replacement and enhanced security and acquired related service and support contracts, which contributed to sales expansion of IT services. Additionally, information systems applications and solutions addressing legal revisions remained strong, contributing to an increase in sales from application services. Furthermore, increased hardware sales in the Office Printing business and product sales by ETRIA to Toshiba Tec and OKI resulted in an increase of 9.2% from a year earlier.

Overseas, in the Americas, corporate investment remained subdued due to uncertainty over the outlook stemming from factors such as the impact of tariff policies, leading to a decline in sales, particularly in hardware sales in the Office Printing business and Commercial Printing business. In the Office Services business, we accelerated business growth by concentrating management resources on growth areas. We acquired audio visual (AV) integrators, Presentation Products, Inc. ("PPI") in the U.S. and ET Group in Canada, to advance initiatives aimed at the growth of the Workplace Experience. Meanwhile, we sold our managed IT services business in the U.S. As a result, sales in the Americas decreased by 4.7% from a year earlier (decreased by 3.6% excluding the foreign exchange impact). In Europe, the Middle East, and Africa, hardware and non-hardware sales in the Office Printing business remained weak, reflecting concerns over economic downturns caused by factors such as U.S. tariff policies. In the Office Services business, while companies remained cautious toward IT infrastructure investments, signs of sales recovery emerged from the second half of fiscal 2025, driven mainly by the realization of synergies with acquired companies and an improvement in IT infrastructure demand. On a full-year basis, sales in this geographic region increased by 3.8% (decreased by 2.6% excluding the foreign exchange impact) from a year earlier partly owing to the depreciation of the yen. In other geographic regions, sales remained at the same level (decreased by 0.8% excluding the foreign exchange impact) year-on-year, impacted by intensifying price competition in the Office Printing business and weak demand for industrial inkjet heads in China. Overall, overseas sales decreased by 0.5% year-on-year. Excluding the impact of exchange rate fluctuations, overseas sales are estimated to have decreased by 2.8% year-on-year.

Gross profit increased by 2.4% year-on-year to ¥889.1 billion. This was due to growth in the Office Services business, the benefits of the Corporate Value Improvement Project, as well as the depreciation of the yen, despite a decrease in sales in the Office Printing business and Commercial Printing business.

Selling, general and administrative expenses decreased by 0.5% year-on-year to ¥815.1 billion due to factors such as a reduction in expenses related to the Corporate Value Improvement Project implemented in fiscal 2024 and the benefits from the Project despite increased costs due to business growth, inflation-driven rises in personnel and other expenses, the non-recurring cost recorded following core system integration in Europe, and the depreciation of the yen.

Other income includes proceeds from sale of the managed IT services business in the U.S. and gain on sale of property, plant and equipment, primarily in Japan. Other income for fiscal 2024 included allocation towards the penalty for terminating the alliance agreement of compensation for vacating the site received in previous years following the arbitral award of arbitration request filed by a Ricoh subsidiary\*. As a result, other income increased year-on-year to ¥23.7 billion.

\* Please refer to "Notice Regarding the Arbitral Award of Arbitration Request Filed by Ricoh Subsidiary and Revision to the Forecast of Consolidated Operating Results for the Fiscal Year Ending March 31, 2025" released on November 25, 2024.

Impairment losses on goodwill increased, primarily due to the recording of losses in the Drug Discovery Support business and the Office Services business in certain regions.

As a result of the above, operating profit increased by ¥26.8 billion to ¥90.7 billion from the previous fiscal year.

Net financial income decreased year-on-year, reflecting a decrease in foreign exchange gain. The share of profit on investments accounted for using the equity method was lower year-on-year, reflecting a decrease in profits from equity method affiliates.

We recorded profit before income tax expenses of ¥92.2 billion, an increase of ¥22.2 billion from the previous fiscal year.

Income tax expenses increased by ¥11.1 billion year-on-year, reflecting an increase in profit before income tax and revisions to estimates on the recoverability of deferred tax assets, given the business environment and restructuring in certain regions.

Overall, we posted profit attributable to owners of the parent of ¥55.6 billion, an increase of ¥9.9 billion from the previous fiscal year.

Comprehensive income increased to ¥149.4 billion, owing largely to an increase in currency exchange differences on translation of foreign operations.

## **\* Review by Business Segment**

### Digital Services

Digital Services sales were ¥1,988.5 billion and increased by 3.0% as compared to the previous fiscal year.

In the office services business, sales increased as compared to the previous corresponding period. In Japan, IT services grew, driven by PC replacement demand, capturing demand for enhanced security, and the acquisition of related service and support contracts. In addition, application services also saw increased revenue, supported by strong performance in information-related applications and solutions addressing legal revisions. In the Americas, sales decreased due to the sale of the managed IT services business in the U.S. as part of efforts to concentrate management resources on growth areas, as well as the impact of a decline in BPS\* sales. On the other hand, initiatives to drive growth in workplace experience progressed through the acquisitions of PPI in the U.S. and ET Group in Canada, both AV integrators. In Europe, the Middle East, and Africa, a cautious stance toward IT infrastructure investment continued due to uncertainty about the outlook; however, sales increased mainly in IT services from the second half as the effects of synergy initiatives with acquired companies materialized. On a full-year basis, sales increased due to the impact of the depreciation of the yen; however, in real terms, sales decreased. In the office printing business, hardware performance remained steady in Japan, while sales declined overseas due to the impact of U.S. tariff policies and other factors. Non-hardware sales decreased as demand continued to weaken, particularly in Europe and the U.S. Operating profit was supported by growth in the office services business mainly in Japan, the effects of the Corporate Value Improvement Project, and gains recorded in connection with the transfer of the managed IT services business in the U.S. On the other hand, operating profit was affected by several downward factors, including a decline in non-hardware profitability in the office printing business, the impact of U.S. tariff policies, and temporary expenses related to reviewing and strengthening assets and systems (including core system integration in Europe). As a result, operating profit for Digital Services was ¥27.9 billion, down ¥4.3 billion compared to the previous corresponding period.

\*BPS (Business Process Services) resolve issues related to corporate business processes by outsourcing tasks to specialist vendors.

### Digital Products

Digital Products sales were ¥186.3 billion and increased by 18.7% as compared to the previous corresponding period (Sales including intersegment sales were ¥587.1 billion and increased by 0.4%). Sales increased due to product sales from ETRIA to Toshiba Tec, as well as product sales to OKI, which joined ETRIA in October 2025. On the other hand, sales of hardware primarily to overseas markets decreased due to the impact of U.S. tariff policies, and as a result, sales including intersegment sales increased slightly.

Although there was a decrease in profit associated with the decline in sales, the effects of structural reforms implemented in the previous fiscal year and ongoing initiatives to strengthen production and development capabilities contributed to improved profitability. As a result, operating profit for Digital Products was ¥31.5 billion, up ¥2.8 billion compared to the previous corresponding period. In addition, in this fiscal year, OKI, which has strengths including proprietary LED technologies, newly joined ETRIA, and operations began as a joint venture of three companies together with Toshiba Tec. At ETRIA, initiatives to create synergies are steadily progressing, including common engine development, optimization of the production structure, and improvement of procurement efficiency.

### Graphic Communications

Graphic Communications sales were ¥284.0 billion and decreased by 2.9% as compared to the previous corresponding period. In the commercial printing business, non-hardware sales of production printers remained solid. Hardware sales declined, mainly in the U.S., the core market, due to restrained investment stemming from the impact of tariff policies and uncertainty about the outlook. Although a recovery trend was observed in the fourth quarter due to the effects of sales promotion measures, sales decreased for the full year. Although cost reductions and the effects of structural reforms implemented in the previous fiscal year contributed positively, the decrease in sales led to a decline in overall profit. As a result, operating profit for Graphic Communications was ¥18.6 billion, down ¥4.5 billion compared to the previous corresponding period.

### Industrial Solutions

Industrial Solutions sales were ¥106.2 billion and decreased by 5.3% as compared to the previous corresponding period.

Sales declined due to the continued impact of reduced logistics-related demand in the Americas and the transfer of the optical business implemented in the previous fiscal year, although the thermal business remained steady in Japan and Europe. Excluding the impact of the transfer, sales were on par with the previous year.

While overall sales decreased, improved profitability through cost reduction and pricing control, combined with the absence of one-time expenses recorded in the previous corresponding period related to the transfer of the optical business, resulted in operating profit for Industrial Solutions of ¥2.4 billion, an increase of ¥4.2 billion compared to the previous corresponding period.

### Other

Other segment sales were ¥43.1 billion and increased by 20.3% as compared to the previous corresponding period.

The camera business showed strong performance, with sustained high demand centered on the RICOH GR series, resulting in higher sales and profit.

Upfront investment for new business creation and the recording of an impairment loss on goodwill in the drug discovery support business resulted in operating loss of ¥3.3 billion for the Other segment; however, this represented an improvement of ¥2.2 billion from the previous corresponding period, supported by the effects of business selection and concentration.

#### Eliminations and Corporate

Profit (loss) not attributable to the above segments is recorded in the Eliminations and Corporate.

Operating profit (loss) improved by ¥26.3 billion compared to the previous corresponding period mainly due to the recording of gains on sales of fixed assets implemented mainly in Japan in the current fiscal year, whereas temporary expenses associated with the implementation of the “Second Career Support Program” in Japan were recorded in the previous corresponding period.

(Notes) Digital services as a business segment are mainly limited to the office services business and the office printing sales business. This segment does not include all digital services, which Ricoh aims to transform into “a digital services company” that connects workplaces and support workers’ creativity. “Digital Services” provided as “a digital services company” is included in all the business segments as well as Digital Services business segment.

## (2) Financial Position

Assets, Liabilities, and Equity at Year-End

	(Billions of yen)

Equity attributable to owners of the parent ratio (%)	43.7	45.5	1.8 points

Total assets increased by ¥183.0 billion from the end of fiscal 2024, to ¥2,540.1 billion. The assets succeeded to from OKI following its participation in ETRIA increased from the end of the previous fiscal year. After excluding foreign exchange impact and the assets succeeded to from OKI, total assets increased by ¥17.0 billion. The year-end rates for major currencies for the yen at end of fiscal 2025 were ¥159.88 against the U.S. dollar (down ¥10.36 from the previous year) and ¥183.41 against the euro (down ¥21.33).

In the asset section, cash and cash equivalents increased by ¥14.1 billion from the end of fiscal 2024. Trade and other receivables increased by ¥47.2 billion following an increase in sales in Japan. In addition, inventories increased by ¥32.0 billion mainly due to the business integration of OKI and addition to the scope of consolidation following acquisitions in the Americas, as well as an increase in procurement costs reflecting the impact of U.S. tariffs.

Total liabilities increased by ¥50.3 billion from the end of fiscal 2024, to ¥1,352.7 billion. Trade and other payables and other current liabilities increased mainly due to the foreign exchange impact from the depreciation of the yen. Meanwhile, bonds and borrowing decreased by ¥8.5 billion in total of current and non-current liabilities.

Total equity increased by ¥132.7 billion from the end of fiscal 2024, to ¥1,187.4 billion. In the equity section, exchange differences on translation of foreign operations increased following the recording of profit for fiscal 2025 and the depreciation of the yen. Furthermore, capital surplus and non-controlling interests increased following the OKI's participation in ETRIA.

As a result, equity attributable to owners of the parent increased by ¥126.0 billion from the end of fiscal 2024, to ¥1,156.1 billion. The equity ratio increased by 1.8 points from the end of fiscal 2024 to 45.5%

## (3) Cash Flows

	(Billions of yen)		
	March 31, 2025	March 31, 2026	Change
Cash flows from operating activities	136.8	158.1	21.2
Cash flows from investing activities	(79.3)	(72.5)	6.8
Cash flows from financing activities	(45.5)	(83.0)	(37.5)
Cash and cash equivalents at end of year	181.8	193.4	11.6

Net cash provided by operating activities was ¥158.1 billion, increased by ¥21.2 billion from a year earlier, despite an increase in inventories and cash outflows, including the payment of additional retirement benefits under the Second Career Support Program in Japan that was implemented in the previous fiscal year, in the current fiscal year. This is mainly due to cash outflows in the previous fiscal year owing to the refund of deposits following the arbitral award of arbitration request filed by the Company's subsidiary.

Net cash used in investing activities decreased by ¥6.8 billion year-on-year to ¥72.5 billion, mainly due to cash inflows in the previous fiscal year attributable to sale of the optical business and gains in the current fiscal year on sale of the managed IT services business in the U.S. and sale of property, plant and equipment, primarily in Japan.

Overall, we posted a positive free cash flow (net cash provided by operating activities plus net cash used in investing activities) of ¥85.5 billion, increased by ¥28.0 billion from a year earlier.

Net cash used in financing activities increased by ¥37.5 billion year-on-year to ¥83.0 billion, mainly due to a decrease in proceeds from debt from a year earlier.

Cash and cash equivalents at the end of fiscal 2025 thus totaled ¥193.4 billion, increased by ¥11.6 billion from the end of fiscal 2024.

#### (4) Forecast for the coming fiscal year

In March 2026, we announced the Mid-Term Management Strategy '26 beginning from April 2026. As our medium- to long-term goal, we aim to become a global leading integrator that contributes to customers' competitive advantage and differentiation by combining our own and third-party products, services, and software in the workplace, in order to achieve our Mission & Vision of "Fulfillment through Work."

A moderate growth trend was maintained in the global economy during the fiscal year under review, supported by factors such as stabilization of inflation rates and increased investment related to AI. However, the economic outlook for global business remained clouded due to factors such as protectionist trade policies and rising geopolitical tensions in the Middle East, which led to higher energy prices and continued disruptions in supply chains. This adverse external environment is expected to persist in the next fiscal year, and cost increase factors are also anticipated, including the impact of rising prices for semiconductor memory and other materials, which has become apparent since the fourth quarter of the current fiscal year.

For the next fiscal year, we forecast consolidated sales of ¥2,700.0 billion, operating profit of ¥95.0 billion, and profit attributable to owners of the parent of ¥62.0 billion. Growth in stock-based revenue in Workplace Services\* is expected to drive profit growth. On the other hand, increases in costs associated with rising prices of semiconductor memory and petroleum-related materials are anticipated. While we will strive to absorb these impacts through pricing measures and by reviewing our cost structure, a portion of such impacts has been factored into our forecast. In addition, increases in personnel expenses associated with inflation are also expected; however, we will continue to address these impacts through expense control and ongoing cost structure reforms, as we strive to enhance profitability.

Our performance forecast for the fiscal year ending March 31, 2027 is as follows:

\*From the next fiscal year, we will revise the business segment classification. For the main business activities of the revised business segments, please refer to "(7) Notes to Consolidated Financial Statements (a) Segment Information" on page 20.

Exchange Rate Assumptions for the full year ending March 31, 2027

US\$ 1 = ¥150.00 (¥150.79 in previous fiscal year)

EURO 1 = ¥175.00 (¥174.81 in previous fiscal year)

The Company makes no guarantees with respect to the achievement of its results forecasts or forward-looking statements. Actual results might be significantly different from the forecasts in the document, depending on various factors. Factors which may affect the actual business results include but are not limited to the economic situation in the geographic areas where Ricoh conducts business, including Japan, the Americas, Europe, Middle East, Africa, China and Asia, market environment, and currency exchange rates.

#### (5) Dividend Policy

Our shareholder return policy is to maintain a 50% total return ratio. We aim to accordingly lift cash dividends per share in line with annual earnings growth while endeavoring to offer attractive dividend yields. We will undertake flexible and timely share repurchases and other additional return measures to improve Total Shareholder Return\*. Such actions will factor in the operating climate and progress with growth investments and our commitment to an optimal capital structure.

The year-end dividend per share will be ¥20.00, and the total dividend per share for the fiscal year ended March 31, 2026 will be ¥40.00.

The total dividend per share for the fiscal year ending March 31, 2027 will be ¥44.00, increased by ¥4.00 as compared to the fiscal year ended March 31, 2026.

\* Total Shareholder Return: The total return on investment for shareholders, including capital gains and dividends from a stock.

## 2. Basic policies in selecting accounting policies

Ricoh has decided on voluntary adoption of IFRS from fiscal year ended on March 31, 2014 as Ricoh concluded that an implementation of IFRS as a global standard and unifying accounting standards across the group will enable Ricoh to enhance accuracy for the management of the entire group.

**(c) Significant Subsequent events**

**(Stock Transfer of a Subsidiary)**

At the meeting of the Board of Directors of the Company held on April 9, 2026, the Company resolved to transfer entire equity stake of Ricoh Asia Industry (Shenzhen) Ltd. (“RAI-SZ”), a consolidated subsidiary (a sub-subsidiary) of the Company (“Stock Transfer”), and entered into an equity transfer agreement on the same date.

From the standpoint of improving Ricoh’s asset efficiency, the Company decided to proceed with the Stock Transfer. As disclosed on “Notice Regarding the Arbitral Award of Arbitration Request Filed by Ricoh Subsidiary and Revision to the Forecast of Consolidated Operating Results for the Fiscal Year Ending March 31, 2025” released on November 25, 2024, the usage rights of the factory site in Futian District, Shenzhen, China that RAI-SZ holds can be transferred as a result of an arbitral award. As a result of the Stock Transfer, the usage rights will also be transferred.

The transfer price is approximately 0.9 billion RMB (approximately ¥21.1 billion\*), subject to price adjustments at closing, and is scheduled to be received in cash on the closing date. Upon the Stock Transfer, RAI-SZ will be excluded from Ricoh’s consolidated subsidiaries. In addition, the Company expects to record a gain on the transfer of equity of approximately ¥17.8 billion in consolidated operating profit for the fiscal year ending March 2027.

\*1 RMB = 23.43 yen (as of April 30, 2026)
